1. Nature of operations and going concern

Century Financial Capital Group Inc. (the "Company") was incorporated under the Business Corporations Act of Ontario on October 20, 1994. The Company's head office is located at 36 Toronto Street, Suite 1000, Toronto, Ontario, M5C 2C5.

The Company was engaged in the leasing of various kinds of operating and manufacturing equipment such as industrial and construction machinery. All leases were fully written off prior to the date of transition to International Financial Reporting Standards ("IFRS"). As at November 30, 2015, the Company has no more leases and is currently inactive. Even though the leases have been fully written off, the Company is still endeavouring to recover some of the amounts due on the leases written off due to defaults and non-payments.

As at November 30, 2015, the Company has a working capital deficiency of \$79,259 and a history of losses which raise substantial doubt about the Company's ability as a going concern. These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Management believes the going concern assumption to be appropriate for these financial statements. As of November 30, 2015, management intends to finance operating costs over the next twelve months with equity and/or debt placements.

2. Significant accounting policies

Statement of compliance

The Company applies IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of January 29, 2016, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended August 31, 2015. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending August 31, 2016 could result in restatement of these unaudited condensed interim financial statements.

New standards not yet adopted and interpretations issued but not yet effective

IFRS 9 – Financial instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.
