FSD Pharma Inc. ("FSD" or the "Company"), through its wholly owned subsidiary, Prismic Pharmaceuticals Inc. ("Prismic"), is focused on bioscience, including research and development ("R&D") and clinical development of synthetic cannabinoid based treatments of certain disease conditions with an aim to improve patient outcomes. The Company's goal is for these compounds to be approved by the FDA and other international regulatory agencies as prescription medications.

FV Pharma Inc. ("FV Pharma"), a wholly owned subsidiary of the Company is a licensed producer of cannabis in Canada under the Cannabis Act (Canada) (together with the regulations promulgated thereunder (the "Cannabis Regulations"), the "Cannabis Act") and associated Cannabis Regulations. FV Pharma was focused on producing and extracting high-quality, hydroponic, pharmaceutical-grade cannabis. In March 2020, substantially all the assets of FV Pharma were classified as held for sale (refer to note 4).

The Company was incorporated under the provisions of the Business Corporations Act (Ontario) (the "OBCA") on November 1, 1998, pursuant to the amalgamation of Olympic ROM World Inc., 1305206 Ontario Corporation, 1305207 Ontario Inc., Century Financial Capital Group Inc. and Dunberry Graphic Associates Ltd. On May 24, 2018, pursuant to the Articles of Amendment, the Company changed its name to "FSD Pharma Inc.".

The Company's registered office is located at 1 Rossland Road West, Suite 202, Ajax, Ontario, L1Z 1Z2.

On October 16, 2019, the Company completed a reverse share split of 201 to 1 Class B Shares. All share and per share amounts for all periods presented in these financial statements have been adjusted retrospectively to reflect the reverse share split.

Subsidiaries

These unaudited condensed consolidated interim financial statements are comprised of the financial results of the Company and its subsidiaries, which are the entities over which FSD has control. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and can affect those returns through its power over the investee.

Impact of COVID-19

During the three months ended March 31, 2020, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19," has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social

distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The extent to which COVID-19 and any other pandemic or public health crisis impacts the Company's business, affairs, operations, financial condition, liquidity, availability of credit and results of operations will depend on future developments that are highly uncertain and cannot be predicted with any meaningful precision, including new information which may emerge concerning the severity of the COVID-19 virus and the actions required to contain the COVID-19 virus or remedy its impact, among others. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods.

In order to mitigate the impact of COVID-19 the Company implemented a systematic and orderly scale back of FV Pharma's cultivation operations and a furlough policy for its workforce, except for certain personnel working staggered shifts to ensure continuity of operations and licensure effective March 23, 2020. The Company has also closed its facility to collaboration partners and ceased their operations. These restrictions are expected to stay in place until further guidance is provided by provincial and local Canadian health officials advising it is safe for such restrictions to be removed. The impact of COVID-19 did not have a material impact on the financial results for the three months ended March 31, 2020.

2. Basis of presentation

[a] Statement of compliance

These unaudited condensed consolidated interim financial statements ("financial statements") were prepared using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended December 31, 2019. These financial statements have been prepared in compliance with IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed. These financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2019.

These financial statements were approved and authorized for issuance by the Board of Directors of the Company on May 13, 2020.

[b] Going concern uncertainty

The financial statements of the Company for the three months ended March 31, 2020 and 2019 have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

The Company is in the preliminary stages of its planned operations and has not yet determined whether its processes and business plans are economically viable. The continued operations of the Company are dependent upon the ability of the Company to complete the pharmaceutical research and development program centered on the lead asset, micropalmitoylethanolamide ("micro-PEA").

Notes to the condensed consolidated interim financial statements

[unaudited] [expressed in Canadian dollars]

March 31, 2020 and 2019

As at March 31, 2020, the Company has an accumulated deficit of \$91 million, a net loss of \$12 million and a working capital surplus of \$18 million. Whether, and when, the Company can attain profitability and positive cash flows from operations is subject to material uncertainty. The application of the going concern assumption is dependent upon the Company's ability to generate future profitable operations and obtain necessary financing to do so. The Company will need to raise additional capital in order to fund its planned operations and meet its obligations. While the Company has been successful in obtaining financing to date and believes it will be able to obtain sufficient funds in the future and ultimately achieve profitability and positive cash flows from operations, there can be no assurance that the Company will achieve profitability and be able to do so on terms favourable for the Company. The above events and conditions indicate there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

[c] Functional currency and presentation currency

These financial statements are presented in Canadian dollars, which is the functional currency of the Company. The functional currencies of the Company's wholly owned subsidiaries is as follows:

Prismic United States Dollars FV Pharma Canadian Dollars

[d] Use of estimates and judgments

The preparation of these financial statements in conformity with IFRS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, consistent with those disclosed in the audited consolidated financial statements for the year ended December 31, 2019 and described in these financial statements. Actual results could differ from these estimates.

Estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

3. Acquisition of Prismic Pharmaceutical

On June 28, 2019, the Company closed the acquisition of Prismic by acquiring all of the issued and outstanding Prismic Shares from the holders thereof. Prismic is a U.S.-based specialty research and development pharmaceutical company that is developing non-addictive prescription drugs for the treatment of pain and inflammation. Prismic's goal is to address the opioid crisis based on formulations utilizing micro-PEA's complimentary effect on certain drugs used to impact the body's endocannabinoid system.

It was determined that the acquisition of Prismic did not qualify as a business combination in accordance with IFRS 3 *Business Combinations* ["IFRS 3"] and therefore it was accounted for as an asset acquisition. The individual identifiable assets acquired and liabilities assumed were identified and the purchase consideration was allocated based on the relative fair values of the acquired assets and assumed liabilities.

The total consideration for the purchase of Prismic was \$20,887,209. The purchase consideration consisted of \$16,431,818 of Class B subordinate voting shares, \$2,567,305 of share options and \$1,888,086 of warrants. The fair value of the Class B subordinate voting shares was determined based on a total of 510,940 shares issued and a fair value of \$32.16 per share, which reflects the share price on the date of acquisition. The fair value of the 89,898 share options and 67,598 warrants issued as part of the consideration were determined using a black-scholes options pricing

4. Assets Held for Sale

In March 2020, the Company decided to focus its efforts and resources on the pharmaceutical business and has initiated the process to sell its Cobourg facility and exit the medical cannabis industry. The Company expects that the sale of the Cobourg Facility will be completed within the next 12 months and is actively marketing the Facility for sale.

Assets held for sale consists of the Cobourg facility, all biological assets and inventory on hand, and equipment related to the Cobourg Facility operations (collectively the "Disposal Group"). It is anticipated that no liabilities of the Company will be transferred as part of any proposed transaction. Results of operations related to the Cobourg facility are reported as discontinued operations for the three months ended March 31, 2020 and 2019.

Discontinued operations are reported when a component of the Company, representing a separate major line of business or area of operations with clearly distinguishable cash flows, has been disposed of or is held for sale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. Discontinued operations are reported as a separate element of net income or loss on the consolidated statement of net and comprehensive loss for both the current and comparative periods. When a disposal group is classified as held for sale, assets and liabilities are aggregated and presented as separate line items, respectively, on the consolidated statement of financial position. Comparative periods are not restated on the

consolidated statement of financial position. Assets held for sale are not depreciated and are measured at the lower of carrying value and fair value less costs to sell.

In accordance with IFRS 5 - Non-current Assets Held for Sale and Discontinued Operations, the assets held for sale were assessed for impairment based on fair value less costs to sell. The fair value was measured using the price at which the Company expects to receive for the disposal group less estimates for the costs of disposal. The fair value less costs to sell was higher than the carrying value of the disposal group resulting in recognition of the resulting group at carrying value.

Assets held for sale as at March 31, 2020 consisted of the following:

(i) Pharmadrug Inc. (Formerly known as "Aura Health Inc.")

On April 16, 2019, the Company entered into a share exchange agreement with Aura Health Inc. ("Aura"). Pursuant to the share exchange agreement, FSD acquired 13,562,386 common shares at \$0.2212 per share in the capital of Aura in exchange for the issuance of 65,577 Class B shares of the Company at \$45.75 for a total value of \$3,000,000. The FSD shares issued to Aura were subject to a purchase price adjustment, such that FSD would be required to issue additional shares to Aura should the weighted average trading price of FSD's shares fall below the issue price. As the number of additional shares to be issued under the agreement were dependent on the FSD share price, it was determined that this created a derivative liability. As a result of the decline in the Company's share price, on September 20, 2019, 61,892 additional Class B shares of the Company were issued to Aura in settlement for the derivative liability. In 2019, Aura Health Inc. changed its name change to Pharmadrug Inc. The Company's investment in Aura has been classified as level 1 within the fair value hierarchy - quoted market price as Aura is a publicly traded Company.

(ii) Cannara Biotech Inc. ("Cannara")

On February 5, 2020, the Company sold its investment of 85,003,750 Class B shares of Cannara for total cash proceeds of \$7,743,492. The Company recognized a loss on sale of investment of \$1,325,546.

(iii) Clover Cannastrip Thin Film Technologies Corp. ("Clover")

Clover is not a publicly traded company therefore, the fair value was classified as level 3 within the fair value hierarchy. As at December 31, 2019 and as at March 31, 2020, the fair value was determined to be \$nil based on the financial position of Clover and the Company's ability to recover its investment.

(iv) HUGE Shops

The investment includes 17,333,333 shares based on the December 2018 subscription price of \$0.075 per share. The equity investment is measured at fair value through profit or loss. corresponding change in fair value of the investment of approximately \$46,805.

(v) SciCann Therapeutics Inc.

A change in this assumption of plus or minus 10% would result in a corresponding change in fair value of the investment of approximately \$35,995.

(vi) Solarvest BioEnergy Inc. ("Solarvest")

On May 7, 2019, the Company acquired 3,000,000 common shares, 3,000,000 warrants and a convertible debenture at a principal amount of \$2,400,000 for a total fair value of \$3,000,000 of Solarvest in exchange for 49,751 Class B common shares of the Company with a fair value of \$2,500,000 based on a market price of \$50.25 and recognition of a derivative liability of \$500,000. Under the terms of the agreement, the Company has guaranteed a minimum liquidation value of its shares to Solarvest of \$3,000,000 resulting in recognition of derivative liability. Fair value of the convertible debenture is calculated as the fair value of shares if converted at SVS share price as at March 31, 2020 of \$0.08. The shares have been classified as level 1 within the fair value hierarchy – quoted market price, and the warrants and convertible debenture have been classified as level 2 – valuation technique with observable market inputs.
