Impact of COVID-19

During the nine months ended September 30, 2020, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19," has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The extent to which

COVID-19 and any other pandemic or public health crisis impacts the Company's business, affairs, operations, financial condition, liquidity, availability of credit and results of operations will depend on future developments that are highly uncertain and cannot be predicted with any meaningful precision, including new information which may emerge concerning the severity of the COVID-19 virus and the actions required to contain the COVID-19 virus or remedy its impact, among others. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods.

In order to mitigate the impact of COVID-19, the Company implemented a systematic and orderly scale back of FV Pharma's cultivation operations and a furlough policy for its workforce, except for certain personnel working staggered shifts to ensure continuity of operations and licensure effective March 23, 2020. In September 2020, the Company surrendered its licenses of FV Pharma and ceased all other operational activities of FV Pharma. The impact of COVID-19 did not have a material impact on the financial results for the three and nine months ended September 30, 2020.

3. Acquisition of Prismic Pharmaceutical

On June 28, 2019, the Company closed the acquisition of Prismic by acquiring all of the issued and outstanding Prismic Shares from the holders thereof. Prismic is a U.S.-based specialty research and development pharmaceutical company that is developing non-addictive prescription drugs for the treatment of pain and inflammation. Prismic's goal is to address the opioid crisis based on formulations utilizing micro-PEA's complementary effect on certain drugs used to impact the body's endocannabinoid system.

It was determined that the acquisition of Prismic did not qualify as a business combination in accordance with IFRS 3 *Business Combinations* ["IFRS 3"] and therefore it was accounted for as an asset acquisition. The individual identifiable assets acquired and liabilities assumed were identified and the purchase consideration was allocated based on the relative fair values of the acquired assets and assumed liabilities.

The total consideration for the purchase of Prismic was \$20,887,209. The purchase consideration consisted of \$16,431,818 of Class B subordinate voting shares, \$2,567,305 of share options and \$1,888,086 of warrants. The fair value of the Class B subordinate voting shares was determined based on a total of 510,940 shares issued and a fair value of \$32.16 per share, which reflects the share price on the date of acquisition. The fair value of the 89,898 share options and 67,598 warrants issued as part of the consideration were determined using a Black-Scholes options pricing model with the following assumptions:

	Share Options	Warrants
Grant date share price	\$32.16	\$32.16
Exercise price	\$2.61 - \$17.89	\$2.61 - \$26.73
Expected dividend yield	-	-
Risk free interest rate	1.39% - 1.66%	1.41% - 1.52%
Expected life (years)	0.98 - 16.21	1.39 - 6.55
Annualized volatility	100%	100%

The allocation of the total purchase consideration to the identifiable assets acquired and liabilities assumed as at the date of acquisition was as follows:

Fair value recognized on acquisition

	a
Cash	2,329
Prepaid expenses and deposits	26,174
Intangible assets	24,648,915
Trade and other payables	(1,867,250)

4. Assets held for sale

In March 2020, the Company decided to focus its efforts and resources on the pharmaceutical business and has initiated the process to sell its Cobourg facility and exit the medical cannabis industry. The Company expects that the sale of the facility will be completed within the next six months and is actively marketing the facility for sale. Subsequent to September 30, 2020 the Company entered into a conditional agreement to sell the assets held for sale. Refer to Note 19.

Assets held for sale consists of the Cobourg facility. It is anticipated that no liabilities of the Company will be transferred as part of any proposed transaction. Results of operations related to the Cobourg facility are reported as discontinued operations for the three months and nine months ended September 30, 2020 and 2019.

Discontinued operations are reported when a component of the Company, representing a separate major line of business or area of operations with clearly distinguishable cash flows, has been disposed of or is held for sale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. Discontinued operations are reported as a separate element of net income or loss on the consolidated statement of net and comprehensive loss for both the current and comparative periods. When a disposal group is classified as held for sale, assets and liabilities are aggregated and presented as separate line items, respectively, on the consolidated statement of financial position. Comparative periods are not restated on the consolidated statement of financial position. Assets held for sale are not depreciated and are measured at the lower of carrying value and fair value less costs to sell.

In accordance with IFRS 5 - Non-current Assets Held for Sale and Discontinued Operations, the assets held for sale were assessed for impairment based on fair value less costs to sell. The fair value was measured using the price at which the Company expects to receive for the disposal group less estimates for the costs of disposal. The fair value less costs to sell was higher than the carrying value of the disposal group resulting in recognition of the resulting group at carrying value.

(i) Pharmadrug Inc. (Formerly known as "Aura Health Inc.")

On April 16, 2019, the Company entered into a share exchange agreement with Aura Health Inc. ("Aura"). Pursuant to the share exchange agreement, FSD acquired 13,562,387 common shares at \$0.2212 per share in the capital of Aura in exchange for the issuance of 65,577 Class B shares of the Company at \$45.75 for a total value of \$3,000,000. As the number of additional shares to be issued under the agreement were dependent on the FSD share price, it was determined that this created a derivative liability. As a result of the decline in the Company's share price, on September 20, 2019, 61,892 additional Class B shares of the Company were issued to Aura in settlement for the derivative liability. In 2019, Aura Health Inc. changed its name change to Pharmadrug Inc.

On May 7, 2019, the Company acquired 3,000,000 common shares, 3,000,000 warrants and a convertible debenture at a principal amount of \$2,400,000 for a total fair value of \$3,000,000 of Solarvest in exchange for 49,751 Class B common shares of the Company with a fair value of \$2,500,000 based on a market price of \$50.25 and recognition of a derivative liability of \$500,000. Fair value of the convertible debenture is calculated as the fair value of shares if converted at SVS share price as at September 30, 2020 of \$0.085. The shares have been classified as level 1 within the fair value hierarchy – quoted market price, and the warrants and convertible debenture have been classified as level 2 – valuation technique with observable market inputs.

13. Share-based compensation

The Company has established a share option plan (the "Option Plan") for directors, officers, employees and consultants of the Company. The Company's Board of Directors determines, among other things, the eligibility of individuals to participate in the Option Plan, the term and vesting periods, and the exercise price of options granted to individuals under the Option Plan.

Each share option converts into one common share of the Company on exercise. No amounts are paid or payable by the individual on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

	September 30, 2020	September 30, 2019

Exercise price	\$3.68 — \$9.80	\$4.42 — \$142.71

Risk free interest rate	0.27% — 1.55%	1.40% — 1.90%
Expected life	4 — 9 years	2 — 6 years
Expected volatiity	120%	100%

Expected volatility was estimated by using the annualized historical volatility of the Company. The expected option life represents the period of time that options granted are expected to be outstanding. The risk-free interest rate is based on Canadian government bonds with a remaining term equal to the expected life of the options.

Contingencies

Legal matters

From time to time, the Company is named as a party to claims or involved in proceedings, including legal, regulatory and tax related, in the ordinary course of its business. While the outcome of these matters may not be estimable at the reporting date, the Company makes provisions, where possible, for the estimated outcome of such claims or proceedings. Should a loss result from the resolution of any claims or proceedings that differs from these estimates, the difference will be accounted for as a charge to profit or loss in that period.

Environmental

Management believes that there are no probable environmental related liabilities that will have a material adverse effect on the financial position or operating results of the Company.

Claims from suppliers

A dismissed contractor commenced a lien action combined with a breach of contract action in the Cobourg Superior Court of Justice in early 2019 claiming approximately \$1,700,000 in various purported damages, with the claim for lien component of \$188,309 being registered on November 26, 2018. The Company has paid \$235,387 to the Cobourg Superior Court to vacate the lien from title for which the funds stand both as security for the lien claim as well as its costs with the Cobourg Superior Court of Justice.

On October 7, 2020, FSD signed a settlement agreement of \$198,000. The settlement will be paid from the funds held by the Cobourg Superior Court with the remaining funds being paid back to FSD.

Former employee

FSD hired an individual by way of employment agreement. The individual's employment was subsequently terminated in the probationary period due to non-performance/cause in February 2019. The individual retained legal counsel in or

around February 15, 2019 demanding that he be provided (i) unpaid wages; (ii) unpaid holiday pay, (iii) payment for wrongful dismissal (one week) and (iv) breach of contract.

The Company has a provision of \$105,180 (£59,748) in relation to the claimed amounts for unpaid wages and unpaid holiday pay.

On July 29, 2020, a judgment was issued ordering the Company to pay unpaid wages and unpaid holiday pay in the amount of £59,748. On August 6, 2020, the Company filed an application for reconsideration for that decision, as key evidence was not considered in determining the judgment. The ruling on the application for reconsideration is outstanding.

On August 26, 2020, the Claimant filed a separate cost order against the Company. The Company has filed an application for the stay of the costs proceedings as the decision in the claim itself remains subject to the application for reconsideration. The ultimate outcome of the matter cannot be reliably determined at this time and no additional provision has been recorded for this matter as at September 30, 2020.

Class Action

On February 22, 2019, a shareholder in FSD commenced a proposed class action proceeding against the Company by issuing a statement of claim in the Ontario Superior Court. Amongst other causes of action, the individual seeks leave to bring a claim pursuant to s.138 of the Ontario Securities Act, alleging the Company made statements containing misrepresentations related to the build-out of the Company's Cobourg facility.

Subsequent to September 30, 2020, the Company entered into a definitive settlement agreement, subject to court certification and other customary conditions. The Company entered into the settlement agreement in order to avoid the expense, burden and inconvenience associated with the continuance of the Settled Action. In entering into the Settlement Agreement, the Company made no admissions of liability whatsoever. The Settlement Agreement provides for a full and final release of the Company, its officers, directors and various other related parties from any and all claims that arose or could have arisen from the claim issued by the plaintiff within the Settled Action.

The Company has therefore recognized as at and for the three and nine months ended September 30, 2020 a provision for legal liability of \$5.5M, a receivable for \$4.57M to be recovered through the Company's insurance policy and a legal provision expense of \$928,541.

Auxly Cannabis Group Inc.

On March 3, 2018, FSD entered into a Definitive Strategic Alliance and Streaming Agreement (the "Agreement") with Auxly Cannabis Group Inc. ("Auxly"). On February 6, 2019, the Company delivered to Auxly a Notice of Default, thereby terminating the Agreement effective immediately. Subsequent to the issuance of the Notice of Default, Auxly sent a Notice of Default to the Company on February 6, 2019 in response. To date, neither party has taken further legal action against the counter party.

To fund the development, Auxly purchased 37,313 Class B shares for the aggregate of \$7,500,000 from the Company's treasury by way of private placement, which funds were placed in trust to be spent on construction and development costs. The funds were placed in a trust account to be administered by Auxly. Due to the termination and subsequent negotiations, it is indeterminable at this point as to the amount, if any, of these funds will be released to the Company. Should any funds be released to the Company, those amounts will be recognized in future periods.
