1. Nature of business

FSD Pharma Inc. ("FSD" or the "Company") is a biotechnology company with three drug candidates in different stages of development. FSD Biosciences Inc., a wholly-owned subsidiary, is focused on pharmaceutical research and development ("R&D") of its lead compound, ultra-micronized palmitoylethanolamide ("PEA") or FSD-PEA (also known as FSD-201). Through the Company's wholly owned subsidiary, Lucid Psycheceuticals Inc. ("Lucid"), the Company is also focused on the research and development of its lead compounds, Lucid-PSYCH (also known as Lucid-201) and Lucid-MS (also known as Lucid-21-302). PEA, the active substance in FSD-PEA, interacts with the endocannabinoid system in the body and exhibits anti-inflammatory activities. FSD-PEA has completed FDA-approved Phase 1 clinical trials with positive topline results and the Company is currently evaluating potential Phase 2 indications. Lucid PSYCH is a molecular compound identified for the potential treatment of mental health disorders. Lucid-MS is a molecular compound identified for the potential treatment of section.

FV Pharma Inc. ("FV Pharma"), a wholly owned subsidiary of the Company, was a licensed producer of cannabis in Canada under the Cannabis Act (Canada) (together with the regulations promulgated thereunder (the "Cannabis Regulations"), the "Cannabis Act") and associated Cannabis Regulations. FV Pharma surrendered its cannabis license in July 2020 and suspended all activities in September 2020. In March 2020, substantially all the assets of FV Pharma were classified as held for sale (refer to Note 3).

Impact of COVID-19

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19," has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The extent to which COVID-19 and any other pandemic or public health crisis impacts the Company's business, affairs, operations, financial condition, liquidity, availability of credit and results of operations will depend on future developments that are highly uncertain and cannot be predicted with any meaningful precision, including new information which may emerge concerning the severity of the COVID-19 virus and the actions required to contain the COVID-19 virus or remedy its impact, among others. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government

and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods.

The Company's clinical trials for the use of FSD-PEA, a compound to treat suspected or confirmed cases of COVID-19, were placed on hold in June of 2021 pending the completion of a study to assess the commercial viability of FSD-PEA as a treatment for COVID-19. Following the completion of the study, the Company announced on August 24, 2021, that it was terminating the Phase 2 clinical program specific to treating COVID-19. The impact of COVID-19 did not have a material impact on the continuing operations or financial results of the Company for the period ended March 31, 2022.

2. Basis of presentation

[a] Statement of compliance

These unaudited condensed consolidated interim financial statements ("financial statements') were prepared using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended December 31, 2021. These financial statements have been prepared in compliance with IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed. These financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2021.

These financial statements were approved and authorized for issuance by the Board of Directors of the Company on May 13, 2022.

[d] Functional currency and presentation currency

The financial statements of each company within the consolidated group are measured using their functional currency, which is the currency of the primary economic environment in which an entity operates. The Company's functional currency is the United States dollar and the functional currencies of its subsidiaries are as follows:

FSD Biosciences Inc. Prismic Pharmaceuticals Inc. FV Pharma Inc. Lucid Psycheceuticals Inc. United States Dollar United States Dollar Canadian Dollar Canadian Dollar

[e] Use of estimates and judgments

The preparation of these financial statements in conformity with IFRS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, consistent with those disclosed in the audited consolidated financial statements for the year ended December 31, 2021 and described in these financial statements. Actual results could differ from these estimates.

Estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Notes to the condensed consolidated interim financial statements

(expressed in United States dollars) March 31, 2022 and 2021

New standards, amendments and interpretations not yet adopted by the Company

IAS 1, Presentation of financial statements ("IAS 1")

In January 2020, the IASB issued Classification of Liabilities as Current or Non-current (Amendments to IAS 1). The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the consolidated statements of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022, with earlier application permitted. In July 2020, the effective date was deferred to January 1, 2023. The Company is still assessing the impact of adopting these amendments on its financial statements.

IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8")

In February 2021, the IASB issued Definition of Accounting Estimates, which amends IAS 8. The amendment will require the disclosure of material accounting policy information rather than disclosing significant accounting policies and clarifies how to distinguish changes in accounting policies from changes in accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". The amendment provides clarification to help entities to distinguish between accounting policies and accounting estimates.

The amendments are effective for annual periods beginning on or after January 1, 2023. The Company is still assessing the impact of adopting these amendments on its financial statements.

IAS 12, Income Taxes ("IAS 12")

In May 2021, the IASB issued Deferred Tax related to Assets and Liabilities arising from a single transaction (Amendments to IAS 12). The amendment narrows the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal taxable and deductible temporary differences. As a result, companies will need to recognize a deferred tax asset and deferred tax liability for temporary differences arising on initial recognition of transactions such as leases and decommissioning obligations.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and are to be applied retrospectively. The Company is still assessing the impact of adopting these amendments on its financial statements.

All other IFRSs and amendments issued but not yet effective have been assessed by the Company and are not expected to have a material impact on the Consolidated Financial Statements.

3. Assets held for sale

In March 2020, the Company decided to focus its efforts and resources on the pharmaceutical business and initiated the process to exit the medical cannabis industry and sell FV Pharma's facility located at 520 William Street, Cobourg, Ontario, K9A 3A5 (the "Facility") and the 64-acre property on which the Facility is located (the "Facility Property"). On February 23, 2022, the Company entered into a firm agreement in connection with the sale of the Facility and the Facility Property. In consideration for the purchase of the Facility and the Facility Property, the purchaser has agreed to pay a cash sum of C\$16,500,000, including a deposit of C\$660,000. The deposit was received by the Company on February 24, 2022, and the sale is expected to close in mid 2022.

Results of operations related to the Disposal Group are reported as discontinued operations for the period ended March 31, 2022 and 2021.

In accordance with *IFRS 5, Non-current Assets Held for Sale and Discontinued Operations*, the assets held for sale were assessed for impairment based on fair value less costs to sell. The fair value was measured using the price at

Expected life	2 — 6 years
Expected volatility	116% — 132%

(expressed in United States dollars)

proceedings. Should a loss result from the resolution of any claims or proceedings that differs from these estimates, the difference will be accounted for as a charge to profit or loss in that period.

Environmental

Management believes that there are no probable environmental related liabilities that will have a material adverse effect on the financial position or operating results of the Company.

Contract Research Organization ("CRO") Dispute

The Company is involved in arbitration proceedings with a CRO regarding amounts claimed to be owed to the CRO by the Company. The CRO is claiming it is owed amounts outstanding for work on clinical trials in the United States. The Company is disputing the amounts claimed to be owed. Parkway Clinical Laboratories

Parkway Clinical Laboratories ("PCL"), a company wholly owned by the Company's former CEO, Raza Bokhari, has filed an action in Pennsylvania on July 8, 2021, against the Company. PCL has advanced two claims: (1) breach of contract in which PCL alleges that the Company failed to pay for \$1,412,951 worth of services rendered (e.g., providing office space, personnel, and financial assistance); and (2) alleging that the Company received the benefit of the same services referenced in the breach of contract claim without paying for them. Given that no summary judgment motions have yet been filed, it is difficult to assess whether such motions would be successful. Trial is scheduled to begin on July 11, 2022.

The Company denies that the money sought by PCL is owed and intends to vigorously defend the claim. As the ultimate outcome of the matter cannot be reliably determined at this time no provision has been recorded for this matter as at March 31, 2022.

Raza Bokhari

On July 15, 2021, the Company's former CEO, Raza Bokhari, filed a notice of arbitration and is seeking relief and support for breach of contract and severance and damages in the amount of \$30,200,000, for aggravated and punitive damages in the amount of \$500,000 and legal fees and disbursements associated with the arbitration. Raza Bokhari was placed on administrative leave from his role as the Company's Chief Executive Officer following the Company's annual general and special meeting of shareholders on May 14, 2021, pending the outcome of an investigation of various concerns by a Special Committee comprised of independent directors using independent legal counsel. Upon the recommendation of the Special Committee, Raza Bokhari's employment was terminated for cause by the Company's board of directors on July 27, 2021. The arbitration hearing commenced in March 2022 and has proceeded through the production and oral examination stages.

The Company disputes the allegations and intends to vigorously defend against the claim. It has counterclaimed against Raza Bokhari for losses sustained as a result of Raza Bokhari's alleged breaches of his duties to the Corporation. As the ultimate outcome of the matter cannot be reliably determined at this time, no provision has been recorded for this matter as at March 31, 2022.
