VANCOUVER, British Columbia, April 14, 2025 -- **Legible Inc.** (CSE: READ) (OTCQB: LEBGF) (FSE: D0T) ("Legible" or the "Company"), a leading innovator in AI-interactive digital reading and entertainment and winner of the 2025 [Entertainment Technology award](#) from the Global Tech Awards, is pleased to announce the release of the fifth title in its growing AI Classics series, *The Prophet* by Kahlil Gibran.

The Prophet is a literary masterpiece that has touched generations of readers around the world. Translated into over 100 languages, it remains one of the most widely read and beloved books of the 20th century. This new 21st century edition, showcasing Legible's new proprietary operating system for books, brings Gibran's poetic wisdom to life in a dynamic experience, using AI-powered art, animation and interactive characters to reimagine how classic literature is experienced across devices.

"This advanced new release in our AI Classics series offers a glimpse into how AI can deepen our connection to timeless works," said Kaleeg Hainsworth, CEO of Legible. "With Legible's new release of *The Prophet*, readers don't just read—they engage. This is a meaningful step toward our vision of Living Books as a new standard in immersive storytelling."
