### **Management's Discussion & Analysis**

Nine Months Ended December 31, 2023

---

#### **Introduction**

The following management's discussion and analysis ("MD&A") of the financial condition and results of operations of Getchell Gold Corp. ("Getchell" or the "Company") constitutes management's review of the factors that affected the Company's financial and operating performance for the nine months ended December 31, 2023. This MD&A has been prepared in compliance with the requirements of National Instrument 51-102 - Continuous Disclosure Obligations. This discussion should be read in conjunction with the audited consolidated annual financial statements of the Company for the year ended March 31, 2023, as well as the unaudited condensed interim consolidated financial statements for the nine months ended December 31, 2023, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. The results for the fiscal year presented are not necessarily indicative of the results that may be expected for any future period.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Getchell's common shares; or (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

The effective date of this report is February 23, 2024.

#### **Forward Looking Information**

Certain information regarding the Company within this MD&A may include "forward-looking statements" within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical facts, included in this MD&A that address activities, events or developments that the Company expects or anticipates will or may occur in the future, including such things as future business strategy, goals, expansion and growth of the Company's business, plans and other such matters are forward- looking statements. When used in this MD&A the words "estimate", "plan", "anticipate", "expect", "intend", "believe" and similar expressions are intended to identify forward-looking statements. Such statements by their nature involve certain risks and uncertainties that could cause actual results to differ materially from those contemplated by such statements. The Company considers the assumptions on which these forward-looking statements are based to be reasonable at the time they were prepared, but cautions the reader that these assumptions regarding future events, many of which are beyond the control of management, may ultimately prove to be incorrect. The reader should not rely solely on these forward-looking statements.

#### **Financing**

On June 16, 2023, the Company closed the first tranche of a non-brokered private placement offering (the "Offering") by issuing 4,287,500 units at a price of \$0.20 per unit for aggregate gross proceeds of \$857,500 (the "First Tranche"). Each unit consists of one common share and one-half of one warrant (each whole warrant, a "Warrant") of the Company. Each Warrant entitles the holder to acquire one additional common share at a price of \$0.35 per share for a period of two years from the date of closing. In addition, the Company paid finder's fees in the amount of \$11,840 and issued 151,400 finder's shares and 134,900 finder's warrants (the "Finder's Warrants"). Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.35 per share for a period of two years from the date of closing. The Company incurred additional cash share issuance costs of \$19,604. The 151,400 finder's shares were determined to have a fair value of \$30,280. The 134,900 Finder's Warrants were determined to have a fair value of \$7,775.

On July 14, 2023, the Company closed the second tranche of the Offering by issuing 638,000 units at a price of \$0.20 per unit for aggregate gross proceeds of \$127,600 (the "Second Tranche"). Each unit consists of one common share and one-half of one Warrant of the Company. Each Warrant entitles the holder to acquire one additional common share at a price of \$0.35 per share for a period of two years from the date of closing. Within the unit, a value of \$118,030 was attributed to the common shares and \$9,570 to the Warrants using the residual value method. In connection with the Second Tranche, the Company paid finder's fees in the amount of \$4,800 and issued an aggregate of 24,000 Finder's Warrants. Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.35 per share for a period of two years from the date of closing. The Company incurred additional cash share issuance costs of \$3,975. The 24,000 Finder's Warrants were determined to have a fair value of \$1,193.

On September 19, 2023, the Company closed the third and final tranche of the Offering by issuing 370,000 units at a price of \$0.20 per unit for aggregate gross proceeds of \$74,000 (the "Third Tranche"). Each unit consists of one common share and one-half of one Warrant of the Company. Each Warrant entitles the holder to acquire one additional common share at a price of \$0.35 per share for a period of two years from the date of closing. Within the unit, a value of \$57,350 was attributed to the common shares and \$16,650 to the Warrants using the residual value method. In connection with the Third Tranche, the Company issued finder's shares and issued an aggregate of 26,400 Finder's Warrants. Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.35 per share for a period of two years from the date of closing. The Company incurred additional cash share issuance costs of \$5,473. The 17,600 finder's shares were determined to have a fair value of \$3,520. The 26,400 Finder's Warrants were determined to have a fair value of \$914.

On December 29, 2023, the Company has closed the first tranche of a debenture financing (the "Debenture Financing") for an aggregate principal amount of \$1,917,420 in non-convertible debentures ("Debentures"). The Debentures mature 3 years from the date of grant and bear interest at 11% per annum, non-compounding. As part of the Debenture Financing, the Company issued 19,174,200 warrants (each a "Debenture Warrant"), with each Debenture Warrant entitling the holder to purchase a common share of the Company at \$0.10 per share until December 29, 2026. 50% of the Debenture Warrants vested on closing and the remaining 50% will vest and be exercisable on February 28, 2025. In connection with the Debenture Financing, the Company issued 1,410,000 finder's shares and 1,280,000 finder's warrants ("Finder's Warrants"). Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.15 per share until December 29, 2025. The Company incurred additional cash share issuance costs of \$7,709. The 1,410,000 finder's shares were determined to have a fair value of \$218,550. The 1,280,000 Finder's Warrants were determined to have a fair value of \$93,022.

---

On December 29, 2023, the Company closed the first tranche of a non-brokered private placement of units (the "Unit Financing") by issuing 4,500,000 units for gross proceeds of \$450,000, with each Unit comprised of one common share and one common share purchase warrant (a "Unit Warrant"). Each Unit Warrant entitles the holder to acquire an additional common share at a price of \$0.15 per share until December 29, 2025. In connection with the Unit Financing, the Company paid finder's fees in the amount of \$28,400 and issued 284,000 Finder's Warrants. Each Finder's Warrant entitles the holder to acquire one additional common share of the Company at a price of \$0.15 per share until December 29, 2025. The Company incurred additional cash share issuance costs of \$33,656. The 284,000 Finder's Warrants were determined to have a fair value of \$20,639.

### Selected Quarterly Financial Information

The following table sets out the selected financial information for the three months ended:

	Dec 31, 2023	Sept 30, 2023	June 30, 2023	Mar 31, 2023
Total assets	\$ 993,129	\$ 493,954	\$ 850,163	\$ 586,426
Working capital	\$ 646,164	\$ 192,972	\$ 663,127	\$ 346,044

Loss per share	\$ (0.02)	\$ (0.04)	\$ (0.02)	\$ (0.00)

The Company reported no discontinued operations and declared no dividends for any period presented.

The Company's net loss in the quarters ended December 31, 2022, September 30, 2022 and June 30, 2022 are consistent with one another. The net losses in the quarters ended September 30, 2023, June 30, 2023, March 31, 2023 and March 31, 2022 are lower as a result of lower exploration and evaluation expenditures. The higher net loss during the quarter ended December 31, 2023 was the result of the earn-in option cash and share payments to Canagold Resources Ltd. to acquire a 100% interest in the Fondaway Canyon and Dixie Comstock gold properties.

### Results of Operations

#### Nine months ended December 31, 2023 and 2022

The Company recorded a net loss of \$5,208,656 for the nine months ended December 31, 2023, compared to a net loss of \$6,463,702 for the nine months ended December 31, 2022. Details of the more significant changes over last year are as follows:

- A decrease in exploration and evaluation expenditures to \$4,174,330 (2022 – \$4,970,414) was the result of lower expenditures incurred in the period for the Company's drill program at the Fondaway Canyon and Star projects.

### **Management's Discussion & Analysis**

Nine Months Ended December 31, 2023

---

- An increase in advertising and promotion to \$311,129 (2022 – \$240,035) was the result of the Company increasing its marketing and promotional activities.
- A foreign exchange gain of \$43,400 (2022 – \$87,619) was due to the USD/CAD foreign exchange rate strengthening as at December 31, 2023 which resulted in a foreign exchange gain. Foreign exchange gains or losses result from balances which are held in currencies other than the functional currency of the entity.
- A decrease in management and consulting fees to \$286,330 (2022 - \$327,278) was the result of lower consulting fees paid during the current fiscal period.
- An increase in professional fees to \$210,434 (2022 - \$129,900) was the result of the Company increasing its corporate activity.
- A decrease in share-based compensation to \$126,516 (2022 - \$883,570) was the result of less options being granted in the current fiscal period compared to the previous period.

#### Three months ended December 31, 2023 and 2022

The Company recorded a net loss of \$3,871,114 for the three months ended December 31, 2023, compared to a net loss of \$1,831,552 for the three months ended December 31, 2022. Details of the more significant changes over last year are as follows:

- An increase in exploration and evaluation expenditures to \$3,566,148 (2022 – \$1,596,995) was primarily the result of the earn-in option payments for the Company's Fondaway Canyon and Star projects.
- An increase in advertising and promotion to \$110,623 (2022 – \$84,786) was the result of the Company increasing its marketing and promotional activities.
- The foreign exchange gain of \$44,554 (2022 – loss of \$810) was due to the USD/CAD foreign exchange rate strengthening as at December 31, 2023 which resulted in a foreign exchange gain. Foreign exchange gains or losses result from balances which are held in currencies other than the functional currency of the entity.
- An increase in management and consulting fees to \$122,815 (2022 - \$68,226) was the result of higher consulting fees paid during the current fiscal period.
- An increase in professional fees to \$51,497 (2022 - \$32,853) was the result of the Company increasing its corporate activity.
- An increase in share-based compensation to \$19,354 (2022 - \$nil) was the result of options being granted during the current period.

### **Liquidity and Capital Resources**

This section should be read in conjunction with the unaudited condensed interim consolidated financial statements of the Company for the nine months ended December 31, 2023, and the corresponding notes thereto.

As at December 31, 2023, the Company has total assets of \$993,129 (March 31, 2023 - \$586,426). The primary assets of the Company are cash of \$811,408 (March 31, 2023 - \$316,078), accounts receivable of \$10,452 (March 31, 2023 - \$11,880), prepaid expenses of \$77,363 (March 31, 2023 - \$130,782), current portion of reclamation deposits of \$nil (March 31, 2023 - \$19,428), and accounts payable and accrued liabilities of \$253,059 (March 31,

2023 - \$132,124) for total working capital of \$646,164 (March 31, 2023 – \$346,044).

The Company's consolidated financial statements have been prepared on a going concern basis, under which the Company is assumed to be able to realize its assets and discharge its liabilities in the normal course of operations. The Company currently has no revenue to finance its operations. It is therefore required to fund its activities through the issuance of equity securities and other financing alternatives. The Company's ability to continue as a going concern is therefore dependent upon its ability to raise funds. The Company has not yet realized profitable operations and has incurred significant losses to date resulting in a cumulative deficit of \$32,964,116. As at December 31, 2023, the Company had cash of \$811,408 to settle current liabilities of \$253,059.

The Company relies on the issuance of equity securities and alternative sources of financing, if required, to maintain adequate liquidity to support its ongoing working capital commitments. The following table is a summary of quantitative data about what the Company manages as capital:

		December 31, 2023		March 31, 2023		Change
Cash	\$	811,408	\$	316,078	\$	57,130
Share capital	\$	28,286,659	\$	25,347,366	\$	2,939,293
Deficit	\$	(32,964,116)	\$	(28,223,783)	\$	(4,740,333)

The Company monitors these items to assess its ability to fulfill its ongoing financial obligations and its exploration program.

### Mineral Property Interests

The Company holds interest in four projects located in Nevada, USA.

#### ***Fondaway Canyon and Dixie Comstock***

On January 3, 2020, the Company executed a definitive agreement (the "Agreement") with Canagold Resources Ltd. ("Canagold") (which holds numerous gold properties in Nevada and the western USA), whereby the Company has the option to acquire 100% of the Fondaway Canyon and Dixie Comstock, properties located in Churchill County Nevada. Under the terms of the Agreement, the Company has acquired 100% of the projects by paying Canagold a total of US\$2,000,000 in cash and US\$2,000,000 in the Company's shares over 4 years (see Payment Terms and Work commitments tables below) and granting Canagold a 2% NSR in the Fondaway Canyon and Dixie Comstock projects (1% of the NSR can be bought out for US\$1,000,000 on each project). The Company also has work commitments totaling US\$1,450,000 over 4 years which have been fully satisfied.

In addition, the Company is responsible for making Advanced Royalty Payments ("ARPs") of US\$35,000 per year to the original title holder of the Fondaway Canyon property. The ARPs will be applied against the 3% NSR buyout option for US\$600,000. US\$420,000 has been paid to date.

The Company is responsible for an additional 2% NSR which can be bought out for US\$2,000,000.

The Canagold 2% NSR will only take effect upon the exercise of the option and the maturity of the 3% NSR to the original title holder. Upon payment of the ARPs to the original title holder prior to production and upon maximum allowable NSR buyouts of US\$3,000,000, the project would have an outstanding obligation of a 1% NSR.

#### Payment Terms

- Within 5 days of the signing of the Agreement: – US\$100,000 in cash (paid) and US\$100,000 in shares

Fondaway Canyon is an advanced exploration stage gold property located in Churchill County, Nevada, comprising 240 unpatented lode claims totaling 1,738 has (4,294 acres). The property has a current Mineral Resource Estimate ("MRE") comprised of an Indicated Mineral Resource of 11.0 million tonnes at an average grade of 1.56 grams per tonne (g/t) gold (Au) for **550,800 ounces** of gold and an Inferred Mineral Resource of 38.3 million tonnes at an average grade of 1.23 g/t Au for an additional **1,509,100 ounces** of gold.

Dixie Comstock, also located in Churchill County, Nevada, consists of 28 unpatented lode claims and has a historic resource estimate. The deposit is classified as a low-sulfidation epithermal system localized along an east-dipping range-front normal fault.

Since the execution of the Agreement, Getchell has completed 28 drill holes (FCG20-01 through FCG22-28), across three drill campaigns (2020, 2021, and 2022), for a total 10,448 metres (34,277 feet) of drilling at the Fondaway Canyon gold project.

The receipt of assay results for hole FCG22-19, announced on September 27, 2022, marked the cut-off for inclusion of data into the Fondaway Canyon Mineral Resource Estimate ("MRE"). The MRE was announced on December 15, 2022, authored by Apex Geoscience Ltd. ("Apex") of Edmonton, AB, that conceptualizes a potential open pit and underground mine model. The MRE key highlights include:

- A significant expansion upon a historical mineral resource;
- An Indicated Mineral Resource of 11.0 million tonnes at an average grade of 1.56 grams per tonne (g/t) gold (Au) for 550,800 ounces of gold;
- An Inferred Mineral Resource of 38.3 million tonnes at an average grade of 1.23 g/t Au for an additional 1,509,100 ounces of gold; and
- Gold mineralization remains open for further expansion in all contributing zones.

On February 1, 2023, the Company filed the MRE, with the technical report available on <https://www.sedarplus.ca> and on the Company's website.

On December 23, 2022, President Biden signed the 2023 US National Defense Authorization Act into law that contained provisions for the release of the Stillwater WSA, thereby opening up land around Fondaway Canyon to staking, exploration and mining, and materially improving the potential for permitting and development at Fondaway Canyon.

On January 10 and January 18, 2023, the Company provided assay results for the remaining nine drill holes (FCG22-20 to FCG22-28) of the 2022 drill program that were not included in the MRE. The eight drill holes (FCG22-20 to FCG22-23 and FCG22-25 to FCG22-28) drilled in the Central Area all intersected significant zones of mineralization, continued to demonstrate the consistency of the mineralization, and are additive to the resource model. Upon the conclusion of the 2022 drill program, the mineralization at Fondaway Canyon remains open in most directions for further expansion potential.

Hole FCG22-24, designed to test the Pediment target located 2 km to the west of the Central Area, encountered two minor mineralized intervals hosted within a shear structure exhibiting characteristics indicative of mineralization peripheral to a main zone. The Pediment Area remains a promising target along the east-west gold corridor with the Company's intention to utilize the information garnered to date to vector into the potential gold system indicated for this area.

The current exploration program at Fondaway is carried out under a notice level work permit administered by the US Bureau of Land Management. Any significant expansion of work will require approval of a Plan of Operations, which the Company has undertaken initial steps in preparation for submitting such a plan.

In November 2023, the Company has staked an additional 75 claims, for 600 hectares (1,480 acres), bringing the total claim group to 246 claims, for 1,785 hectares (4,412 acres).

On December 8, 2023, the Company announced plans to upgrade the Mineral Resource Estimate. The Company is planning to initiate a specific density sampling program at the start of 2024 with those results to be incorporated into the updated MRE.

On February 5, 2024, the Company recorded, with Churchill County, Nevada, and the Bureau of Land Management, the staking of 6 additional and contiguous unpatented mining claims at the Fondaway Canyon gold project, bringing the total number of claims to 246 covering 4,412 acres (1,785 hectares).

#### **Star**

Getchell Gold holds a 100% interest in the Star project located in Pershing County Nevada, USA. A portion of the Star claim group is subject to a mining lease agreement between Getchell Gold Nevada Inc. and RS Gold, LLC, the "Owner" dated June 26, 2010, and amended on May 1, 2015. The remainder of the Star claim group is controlled via staking. However, the portion of the Star claim group that is controlled via staking is within the "area of influence" and is subject to the mining lease terms and conditions. The key provisions of the mining lease agreement are as follows:

Original term: Original term of 10 years ended June 26, 2020.

Revised term: The Star Point mining lease was renegotiated and a new agreement, with more favorable payment terms, was executed effective June 1, 2020. The revised term is for 20 years ending June 1, 2040, with the option and right to extend the term for 3 additional extension terms of 10 years each.

Advance Minimum Royalties: Advance pre-production royalties deductible from future production royalties are payable upon as follows:

Effective date of agreement –	US\$15,000 in cash (paid) and US\$10,000 in shares (issued)
1st Anniversary –	US\$15,000 in cash (paid) and US\$20,000 in shares (issued)
2nd Anniversary –	US\$20,000 in cash (paid) and US\$30,000 in shares (issued)
3rd Anniversary –	US\$25,000 in cash (paid) and US\$40,000 in shares (issued)
4th Anniversary –	US\$30,000 in cash and US\$40,000 in shares
5 <sup>th</sup> Anniversary –	US\$35,000 in cash or gold equivalent
6 <sup>th</sup> Anniversary –	US\$40,000 in cash or gold equivalent
Subsequent Anniversaries –	US\$40,000 in cash or gold equivalent

Production Royalties: A fixed NSR royalty of 3% on all valuable minerals produced from the Property is payable to the owners on production. In addition, US\$365,000 in previously paid advance royalty payments were credited towards future production from the prior agreement.

Royalty Buy-out Provision: The Company may purchase up to a 2% NSR for US\$1,500,000 per point.

The Star claim group consists of 75 Mining Lease unpatented lode mining claims and 15 unpatented lode mining claims staked by the Company which are within the area of influence of the Mining Lease Agreement, all totaling 752.5 has (1,859 acres). Based on the results of previous geophysical work and the 2022 drill program, the Company submitted renewal payments of US\$15,945 for 90 Star claims in August of 2023.

### Management's Discussion & Analysis

Nine Months Ended December 31, 2023

---

In late 2020 the Company completed an Induced Polarization ("IP") geophysical survey conducted over the two high grade occurrences, the historical Star Point copper mine and the copper-gold-silver Star South artisanal mining site, for the purpose of refining previously identified geophysical anomalies for drill targeting.

In September 2021, two drill pads, one at Star Point and one 4 kms to the south at Star South, were constructed to target geophysical anomalies underlying the highly mineralized surface occurrences. One additional pad was constructed 1.5 km to the west of Star South to target a strong geophysical anomaly underlying the pediment, a continuous blanket of sediments covering the target area.

On June 2, 2022, the Company announced the commencement of drilling and on August 17, 2022, the Company announced the completion of the drill program comprising two drill holes, SG22-01 targeting the Star Point and SG22-02 targeting the Star South Cu-Au-Ag mineralized occurrences.

Both drill holes encountered indications of epithermal fluids and alteration typically associated with a porphyry style system and extensive structural zones marking high fluid transmissivity. Broad zones of graphitic material occurring as bands and fracture fill were encountered that would provide geophysical responses similar to the ones targeted and copper mineralization was not observed in the drill core. Sample results will be utilized for the interpretation and potential vectoring for the source of the mineralization observed at surface, in preparation for future drill programs.

#### **Hot Springs Peak**

The Hot Springs Peak ("HSP") property consists of 106 unpatented lode mining claims totaling 886.2 has (2,190 acres) in the northern Hot Springs range in northern Nevada. Based on the exploration work conducted on the property the Company renewed 106 Hot Springs Peak claims in August of 2023. Total renewal payments were US\$18,774. No exploration is planned for 2023.

For more details on any of the Company's activities and announcements noted above, please refer to the Company's website and press releases which can be found on <https://www.sedarplus.ca>.

#### **Expenditures**

Exploration and evaluation expenditures for the nine months ended December 31, 2023 were as follows:

**Critical Accounting Estimates**

The preparation of the unaudited condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These unaudited condensed interim consolidated financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the unaudited condensed interim consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future that management has made that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the going concern, title to mineral property interests, functional currency, share-based payments, and income taxes and recoverability of potential deferred tax assets.

**New Standards Adopted by the Company**

There are no accounting pronouncements with future effective dates that are applicable or are expected to have a material impact on the Company's financial statements.

**Related Party Transactions**

During the nine months ended December 31, 2023, the Company entered into the following transaction with related parties and paid or accrued the following amounts:

### Off-Balance-Sheet Arrangements

As of the date of this MD&A, the Company does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company, including, and without limitation, such considerations as liquidity, capital expenditures and capital resources that would be material to investors.

### Subsequent Events

Subsequent to December 31, 2023, the Company has engaged a strategic advisory consultant for a period of six months and have issued 225,000 common shares (in tranches, over the course of six months) and granted 225,000 stock options. The stock options are exercisable into common shares at \$0.15 per share for a period of three years.

On January 24, 2024, the Company closed the second and final tranche of its non-brokered private placement of units and issued 500,000 units for gross proceeds of \$50,000. Each unit is comprised of one common share and one common share purchase warrant (a "Unit Warrant"). Each Unit Warrant entitles the holder to acquire an additional common share at a price of \$0.15 per share for two years from the date of issuance.

On January 29, 2024, the Company closed the second tranche of the Debenture Financing, raising an additional \$1,003,998. As part of the Debenture Financing, the Company issued 10,039,980 Debenture Warrants, each allowing the holder to purchase a common share of the Company at \$0.10 per share until January 26, 2027. 50% of the Debenture Warrants vested on closing and the remaining 50% will vest and be exercisable on March 26, 2025. Proceeds of \$679,556 has been received in advance in connection with the financing.

On February 5, 2024, the Company recorded, with Churchill County, Nevada, and the Bureau of Land Management, the staking of 6 additional and contiguous unpatented mining claims at the Fondaway Canyon gold project, bringing the total number of claims to 246 covering 4,412 acres (1,785 hectares).

#### **Outstanding Share Data**

As of the date of this MD&A, the Company has 129,303,192 common shares issued and outstanding as well as: (a) stock options to purchase an aggregate of 8,720,000 common shares expiring at various dates between March 2024 and July 2028 and exercisable at prices between \$0.08 per common share and \$0.59 per common share, (b) compound options to purchase an aggregate of 353,222 units expiring at various dates between May 2024 and September 2025 and exercisable at prices between \$0.15 per unit and \$0.40 per unit, (c) share purchase warrants to purchase an aggregate of 46,160,230 common shares expiring at various dates between May 2024 and January 2027 and exercisable at prices between \$0.10 and \$0.60. Compound options are options which can be exercised to purchase a unit comprised of both shares and share purchase warrants.

For additional details of share data, please refer to Note 6 of the December 31, 2023 unaudited condensed interim consolidated financial statements.

#### **Capital Management**

The Company's objectives when managing capital are as follows:

- i) To safeguard the Company's ability to continue as a going concern;
- ii) To raise sufficient capital to finance its exploration and development activities on its mineral exploration properties;
- iii) To raise sufficient capital to meet its general and administrative expenditures.

The Company manages its capital structure and makes adjustments to it based on the general economic conditions, its short term working capital requirements, and its planned exploration and development program expenditure requirements. The capital structure of the Company is comprised of shareholders' equity which includes share capital, warrants, contributed surplus and deficit. The Company may manage its capital by issuing flow through or common shares, or by obtaining additional financing.

The Company utilized annual capital and operating expenditure budgets to facilitate the management of its capital requirement. These budgets are approved by management and updated for changes in the budgets underlying assumptions as necessary.

There were no changes in the Company's approach to managing capital during the period.

#### **Risks and Uncertainties**

##### Liquidity and Additional Financing

The Company has limited financial resources and no current revenues. There can be no assurance that additional funding will be available to it for further exploration and development of its projects or to fulfill its obligations under applicable agreements. Although the Company has been successful in the past in obtaining financing through the sale of equity securities, there can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. Failure to obtain such additional financing could cause the Company to reduce or terminate its operations.

##### Regulatory Requirements

Even if the Company's properties are proven to host economic reserves of gold or other precious or non-precious metals, factors such as governmental expropriation or regulation may prevent or restrict mining of any such deposits. Exploration and mining activities may be affected in varying degrees by government policies and

regulations relating to the mining industry. Any changes in regulations or shifts in political conditions are beyond the control of the Company and may adversely affect its business. Operations may be affected in varying degrees by government regulations with respect to restrictions on production, price controls, export controls, income taxes, expropriation of property, environmental legislation and mine safety.

#### Reliance on Key Personnel

The Company is dependent on a relatively small number of key people, the loss of any of whom could have an adverse effect on its operations. The Company does not carry any key man insurance.

#### Conflicts of Interest

The directors and officers of the Company may serve as directors or officers of other public resource companies or have significant shareholdings in other public resource companies. Situations may arise in connection with potential acquisitions and investments where the other interests of these directors and officers may conflict with the interest of the Company. In the event that such a conflict of interest arises at a meeting of the directors of the Company, a director is required by the *Business Corporations Act* (Ontario) to disclose the conflict of interest and to abstain from voting on the matter.

From time to time several companies may participate in the acquisition, exploration and development of natural resource properties thereby allowing for their participation in larger programs, permitting involvement in a greater number of programs and reducing financial exposure in respect of any one program. It may also occur that a particular company will assign all or a portion of its interest in a particular program to another of these companies due to the financial position of the company making the assignment. In determining whether or not the Company will participate in a particular program and the interest therein to be acquired by it, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at that time.

#### Share Price Volatility

Recently, securities markets in North America have experienced a high level of price and volume volatility, and the market price of many companies, particularly those considered exploration and development stage companies, have experienced wide fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that significant fluctuations in the trading price of the Company's common shares will not occur, or such fluctuations will not materially adversely impact on the Company's ability to raise equity capital without significant dilution to its existing shareholders, or at all.

#### General Economic Conditions

Recent events in the global financial markets have had a significant impact on the global economy. Many industries, including the gold and base metal mining industry, are impacted by these market conditions. A continued or more profound slowdown in the financial markets or other economic conditions, including but not limited to, consumer spending/confidence, employment rates, business conditions, inflation, fuel and energy, consumer debt levels, lack of available credit, the state of the financial markets, sovereign debt issues, interest rates, and tax rates may adversely affect the Company's growth and profitability.

More specifically, the global credit/liquidity crisis could impact the cost and availability of financing and the Company's overall liquidity, and the devaluation and volatility of global stock markets impacts the valuation of the Company's common shares, which may impact the Company's ability to raise funds through the issuance of equity securities.

### **Management's Discussion & Analysis**

Nine Months Ended December 31, 2023

---

#### Financial Resources

The Company does not presently have sufficient financial resources to undertake by itself the exploration and development of all of its planned exploration and development programs. Future property acquisitions and the future exploration/development of the Company's properties will therefore depend upon the Company's ability to obtain financing through the joint venturing of projects, private placement financing, public/private financing, or other means. There is no assurance that the Company will be successful in obtaining the required financing. Failure to raise the required funds could result in the Company losing, or being required to dispose of, its interest in its properties.

#### Dilution

The Company may require additional equity financing to be raised in the future. The Company may issue securities on less than favourable terms to raise sufficient capital to fund its business plan. Any transaction involving the issuance of equity securities or securities convertible into common shares would result in dilution, possibly substantial, to present and prospective holders of common shares.

#### Foreign Currency

The Company operates in Canada and United States. Future exploration programs may be denominated in U.S. dollars. Foreign exchange risk arises from purchase transactions as well as financial assets and liabilities denominated in these foreign currencies. The Company does not use derivative instruments to hedge exposure to foreign exchange rate risk. However, management of the Company believes there is no significant exposure to foreign currency fluctuations.

### **Commitments and Contingencies**

The Company's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

### **Disclosure Controls and Procedures**

Disclosure controls and procedures are intended to provide reasonable assurance that information required to be disclosed is recorded, processed, summarized, and reported within the time periods specified by securities regulations and that the information required to be disclosed is accumulated and communicated to management. Internal controls over financial reporting are intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. In connection with National Instrument 52-109 (Certificate of Disclosure in Issuer's Annual and Interim Filings) ("NI 52-109"), the Chief Executive Officer and Chief Financial Officer of the Company have filed a Venture Issuer Basic Certificate with respect to the financial information contained in the condensed interim consolidated financial statements for the nine months ended December 31, 2023 and this accompanying MD&A (together, the "Interim Filings").

In contrast to the full certificate under NI 52-109, the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109. For further information the reader should refer to the Venture Issuer Basic Certificates filed by the Company with the Annual Filings on SEDAR at [www.sedarplus.ca](http://www.sedarplus.ca).
