Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

#### **Nature of Operations**

Nuinsco Resources Limited ("Nuinsco" or the "Company") is a company incorporated in Canada. The address of the Company's registered office is 80 Richmond St. West, Suite 1802, Toronto, Ontario, M5H 2A4. The condensed interim consolidated financial statements of the Company as at and for the three months ended March 31, 2017 comprise the Company and its subsidiaries (together referred to as "Nuinsco" and individually as "Nuinsco entities"). Nuinsco is primarily engaged in the acquisition, exploration and evaluation of properties for precious and base metals. The Company conducts its activities on its own or participates with others on an investment basis. The Company also makes strategic investments through equity or loan financing to companies engaged in the exploration and development of resource properties.

#### **Going Concern**

The Company's Consolidated Financial Statements have been prepared using the going concern assumption, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. As at December 31, 2016, the Company had a working capital deficiency of \$228,925 (December 31, 2016 – working capital deficiency of \$224,754). Working capital (deficiency) is defined as current assets less current liabilities.

The Company is subject to the risks and challenges experienced by other companies at a comparable stage. These risks include, but are not limited to: continuing losses, dependence on key individuals, and the ability to secure adequate financing or to complete corporate transactions to meet the minimum capital required to successfully complete its projects and fund other operating expenses. Advancing the Company's projects through exploration and development to the production stage will require significant financing. Given the current economic climate and due to the fact the Company's shares are no longer listed on a formal stock exchange, the ability to raise funds has been and may continue to be difficult. Refer to Note 4 on Financial Risk Management and Capital Management to these consolidated financial statements for additional information.

None of the Company's projects are currently in commercial production and, accordingly, the Company is dependent upon debt or equity financings and the optioning and/or sale of resource or resource-related assets for its funding. The Company's ability to continue as a going concern, is dependent upon exploration results which have the potential for the discovery of economically recoverable reserves and resources, the Company's ability to finance exploitation of its projects through debt or equity financings and the optioning and/or sale of resource or resource-related assets for its funding.

The Company presently has no specific plans in place to secure funding although management continues to hold discussions on securing financing or potential sale of assets. There are no assurances that the Company will be successful in obtaining any financing or selling assets, or in accomplishing that on a timely basis or on reasonable or acceptable terms, or at all. If the Company cannot obtain financing or otherwise improve liquidity, it will be unable to fund continuing operations and corporate administration costs. Effective May 11, 2015, the Company voluntarily delisted its shares from the Toronto Stock Exchange. The Company intends to remain at its corporate office and maintain website, telephones and email communication with shareholders, subject to having sufficient funds.

If the Company is unable to obtain additional financing it will be required to curtail all of its operations and may be required to liquidate its assets.

Should the Company not be able to continue to obtain the necessary financing, achieve favourable exploration results, achieve future profitable production or the sale of properties or improve its liquidity sufficient to enable it to fund operations, the Company's ability to continue as a going concern will be compromised. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

#### 2. BASIS OF PREPARATION

#### (a) Statement of Compliance

The condensed consolidated financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") and its interpretations adopted by the International Accounting Standards Board ("IASB") and in accordance with IAS 34, *Interim Financial Reporting* ("IAS 34"). This is GAAP for a Canadian public company.

The management of Nuinsco prepares the consolidated financial statements which are then reviewed by the Audit Committee and the Board of Directors. The consolidated financial statements were authorized for issue by the Board of Directors on May 30, 2017. Shortly thereafter, the financial statements are made available to shareholders and others through filing on SEDAR.

#### (b) Basis of Measurement

The consolidated financial statements have been prepared on the historic cost basis except for derivative financial instruments such as warrants and the Participating Interest which are measured at fair value with changes through operations and financial assets such as marketable securities which are measured at fair value with changes recorded through other comprehensive income or loss ("OCI").

#### (c) Functional and Presentation Currency

These consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency. All financial information is expressed in Canadian dollars unless otherwise stated.

## (d) Use of Estimates and Judgments

The preparation of financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. It is reasonably possible that, on the basis of existing knowledge, outcomes in the next financial year that are different from the assumptions used could require a material adjustment to the carrying amount of the asset or liability affected.

The accompanying consolidated financial statements include all adjustments that are, in the opinion of management, necessary for fair presentation.

#### Significant estimates and assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information regarding significant areas of estimation uncertainty made in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

- Note 9 measurement of the recoverable amounts of exploration and evaluation projects;
- Note 16 measurement of share-based payments.

#### 2. BASIS OF PREPARATION - CONTINUED

#### Significant Judgments

Judgments are reviewed on an ongoing basis. Changes resulting from the effects of amended judgments are recognized in the period in which the change occurs and in any future periods presented.

Information regarding significant areas of critical judgments made in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

- Note 1 going concern assessment:
- Note 9 classification of expenditures as exploration and evaluation projects or operating expenses;

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

Note 9 impairment of exploration and evaluation projects;
 Note 10 assessment of influence over CBay Minerals;

Note 20 disclosure of contingencies;

#### 3. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed consolidated financial statements reflect the accounting policies described in Note 3 to the Company's Audited Consolidated Financial Statements for the years ended December 31, 2016 and 2015 ("2016 Audited Consolidated Financial Statements") (with the exception of any changes set out in Note 3 below) and accordingly, should be read in conjunction with those financial statements and the notes thereto.

#### (a) New Accounting Policies

There have been no new accounting policies adopted by the Company.

#### (e) New Standards and Interpretations Not Yet Adopted

The IASB and International Financial Reporting Interpretations Committee ("IFRIC") have issued several new and revised standards and interpretations which are not yet effective for the year ended December 31, 2017 and have not been applied in preparing these consolidated financial statements unless stated otherwise. However, the revised standards and interpretations are not applicable to the Company or are expected to have minimal impact.

#### 4. FINANCIAL RISK MANAGEMENT AND CAPITAL MANAGEMENT

#### **Risk Management Framework**

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board fulfils its responsibility through the Audit Committee which is responsible for overseeing the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management practices are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has an established code of conduct which sets out the control environment within which framework all directors' and employees' roles and obligations are outlined. The Company's risk and control framework is facilitated by the small-sized and hands-on executive team.

#### Credit Risk

Credit risk is the risk of an unexpected financial loss to the Company if a customer or third party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash.

#### 4. FINANCIAL RISK MANAGEMENT AND CAPITAL MANAGEMENT - CONTINUED

#### Cash

The Company's cash is held through large Canadian financial institutions. The Company has a corporate policy of investing its available cash in Canadian government instruments and certificates of deposit or other direct obligations of major Canadian banks, unless otherwise specifically approved by the Board.

#### Receivables

Amounts due are settled on a regular basis.

When necessary, the Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of other receivables and investments. The main component of this allowance is a specific loss component that relates to individually significant exposures.

Further, when the Company engages in corporate transactions, it seeks to manage its exposure by ensuring that appropriate recourse is included in such agreements upon the counterparty's failure to meet contractual obligations.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

#### Participating Interest

The loan receivable bore interest at a fixed rate and was secured on equipment of the borrower through registered security agreements. Failure of the borrower to meet contractual obligations would have resulted in seizure of the borrower's assets. Upon Conversion, as described in Note 11, the loan receivable became unsecured and is now referred to as the "Participating Interest".

#### **Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking undue damage to the Company's reputation.

Presently, the Company is facing a significant shortfall in liquidity before it expects any cash flows from the Participating Interest. The Company continues to hold discussions on securing financing or potential sale of assets. There are no assurances that the Company will be successful in obtaining any financing or selling assets, or in accomplishing that on a timely basis or on reasonable or acceptable terms, or at all. If the Company cannot obtain financing or otherwise improve liquidity, it will be unable to fund continuing operations and corporate administration costs (Note 1).

The Company's objective is to maintain sufficient capital in order to meet short-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and marketable securities. This is accomplished by budgets and forecasts which are updated on a periodic basis to understand future cash needs and sources. When possible, spending plans are adjusted accordingly to provide for liquidity.

The Company manages its liquidity risk through the mechanisms described above and as part of Capital Disclosures below. The Company has historically relied on issuances of shares to develop projects and to finance day-to-day operations and may do so again in the future.

#### 4. FINANCIAL RISK MANAGEMENT AND CAPITAL MANAGEMENT - CONTINUED

#### **Liquidity Risk - continued**

All contractually-obligated cash flows are payable within the next fiscal year with the exception of the Company's deferred director and management fees.

#### Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Company's income, the value of its E&E properties or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

## Currency risk

The Company is exposed to currency risk on purchases, certain marketable securities and other payables that are denominated in a currency other than the respective functional currencies of Company entities, primarily the Canadian dollar. The currencies in which these transactions primarily are denominated are the United States dollars ("US\$"). The Company does not actively hedge its foreign currency exposure.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's cash earns interest at variable short-term rates. Accordingly, the estimated effect of a 50bps change in interest rate would not have a material effect on the Company's results of operations.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

#### **Operational Risk**

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Company's operations.

The Company's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Company's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

#### 4. FINANCIAL RISK MANAGEMENT AND CAPITAL MANAGEMENT - CONTINUED

#### Operational Risk - continued

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management. The Company has a small but hands-on and experienced executive team which facilitates communication across the Company. This expertise is supplemented, when necessary, by the use of experienced consultants in legal, compliance and industry-related specialties.

The Company also has standards for the management of operational risk in the following areas:

- reguirements for appropriate segregation of duties, including the independent authorization of transactions;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- development of contingency plans;
- ethical and business standards; and
- risk mitigation, including insurance when this is effective and available.

Compliance with Company standards is supported by a code of conduct which is provided to employee, officers and directors. The Company requires sign-off of compliance with the code of conduct.

#### **Capital Management Disclosures**

The Company's objective when managing capital is to safeguard its accumulated capital in order to provide an adequate return to shareholders by maintaining a sufficient level of funds to support continued project development and corporate activities. Capital is defined by the Company as the aggregate of its shareholders' (deficiency) equity as well as any long-term debt, equipment-based and/or project-based financing.

The Company manages its capital structure and makes adjustments to it based on the level of funds available to the Company to manage its operations. In order to maintain or adjust the capital structure, the Company's objectives are to obtain equity, long-term debt, equipment-based financing and/or project-based financing sufficient to maintain and expand its operations. There are no assurances that these initiatives will be successful.

Neither the Company, nor any of its subsidiaries, are subject to externally-imposed capital requirements. There were no changes in the Company's approach to financial risk management or capital management during the period.

#### 5. DETERMINATION OF FAIR VALUES

A number of the Company's accounting policies and disclosures require the determination of fair value for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the methods described below. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

#### Fair value hierarchy

The different levels of valuation are defined as follows:

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017

(all amounts in Canadian dollars)

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: Inputs for the asset or liability are not based on observable market data (unobservable inputs).

#### 5. DETERMINATION OF FAIR VALUES - CONTINUED

#### (a) Receivables

The fair value of receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes only.

#### (b) Non-derivative Financial Assets

Financial assets at fair value through operations include the Company's Participating Interest. The fair value of the Participating Interest is based on the net present value of expected cash flows taking into account the probability of cash flows as described in Note 11.

## (c) Share-based Payment Transactions

The fair value of employee share options is measured using the Black-Scholes option-pricing model. The measurement inputs are described above under Note 5(c). Any service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

#### 9. EXPLORATION AND EVALUATION PROJECTS

As at December 31, 2015, all projects were written down due to the lack of funding of the Company and related uncertainty as to future spending on the properties. IFRS requires a write-down of the carrying value of assets to the net recoverable amount. Given the current market uncertainties, the valuation of resources properties is difficult and management cannot reliably estimate any recoverable amount. The Company will revisit the valuation of these assets at the end of every reporting period and will recognize a recovery if the fair value of these assets can be reliably determined. As a result, the Company has chosen to write down the value of the property assets, with only \$1,000 remaining on the consolidated balance sheet. In the current period, all expenditures have been expensed.

## **Uranium and Rare Metals**

#### Diabase Peninsula

Nuinsco acquired its 100% interest in the Diabase Peninsula property in the Athabasca Basin of northern Saskatchewan.

The property consists of ten contiguous claims encompassing 21,949 hectares ("ha"). Three claims were optioned while seven were staked by Nuinsco. Exploration for uranium has been undertaken at Diabase Peninsula since March, 2005, with the most recent drill program being completed in the winter of 2011 to 2012. During the winter of 2013 a modest program of geochemical sampling was initiated which included a survey consisting of sampling for detection of radon gas which is an indicator of uranium mineralization.

In order to maintain the option on one of the claims, the Company was required to make an option payment of approximately \$935,000 by September 2, 2012; in May 2012, the Company was successful in extending the option terms for a year, with additional extensions being possible, for four quarterly cash payments of \$9,350 and \$37,600 of the Company's shares. This deferred the option payment of \$935,000 by at least one year. The shares were issued in the third quarter of 2012 and all quarterly cash payments were made.

In September, 2013, the Company negotiated a further extension whereby it is required to make payments totalling \$1,028,500 as follows: an aggregate sum of \$400,000 payable in quarterly instalments of \$25,000 up to and including June 2, 2017 and a lump sum of \$628,500 on or before September 2, 2017. The Company made two instalments of \$25,000 on each of September 2, 2013 and December 2, 2013. \$250,000 remains payable under the agreement. The Company is currently negotiating terms of payment.

#### 9. EXPLORATION AND EVALUATION PROJECTS - CONTINUED

The claims are subject to a 3% net returns royalty payable to the vendor of the original Diabase Peninsula claim; the royalty is defined as all metal/mineral sales with no deduction for refining or transportation expenses.

#### Prairie Lake

The Prairie Lake property consists of nine claims comprising 38 claim units, encompassing 608 ha. Given the presence of an historic uranium resource, as well as strongly-anomalous tantalum, niobium and phosphorus, along with widespread rare metals mineralization, diamond drilling, surface sampling and mapping programs were conducted in 2007, 2008, 2010 and 2013. An Exploration Target of between 515 and 630 million tonnes grading between 3.0-4.0  $P_2O_5$ , 0.009-0.11%  $Nb_2O_5$ , and 18-21ppm  $Ta_2O_5$ , 280-340ppm La, 650-790ppm Ce, 55-70ppm Sm, 300-360ppm Nd, 85-100ppm Y was estimated in 2011. Metallurgical and process testing are ongoing. The property was subject to a 2% NSR payable on any production. Up to a maximum of one-half of the royalty could be purchased for \$1,000,000 in either cash or common shares of the Company. On January 23, 2012, the Company announced that it had acquired the entire 2% NSR through issuing 3,157,894 shares with a market value of \$300,000. The property is now royalty-free.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

## Gold & Copper Chibougamau Camp

In 2012, the Company entered into an option agreement with CBay to make expenditures on its Portage and Corner Bay properties in exchange for an undivided interest in each property as follows: \$300,000 incurred on Portage up to December 31, 2012 earns a 30% undivided interest with the option to incur up to an additional \$500,000 in \$100,000 increments each earning a 5% additional undivided interest; \$1,000,000 in expenditures incurred on Corner Bay in \$250,000 increments each earning a 5% undivided interest in the property. In the second quarter of 2013, the option agreement was amended to allow the Company to more freely determine on which properties the expenditure commitments may be made. Aggregate expenditures incurred on the Chibougamau camp amounted to \$1,024,000 when Nuinsco exercised its rights under the option agreement in December (\$440,000 was expended in 2012). Pursuant to the option agreement, Nuinsco acquired interests in the Chibougamau camp aggregating that amount; subsequently, an additional \$20,000 was spent and written off to Write-down of exploration and evaluation projects in the consolidated statement of operations in 2013.

On December 19, 2013, CBay exercised its right to reacquire the acquired interests through issuing 1,024,263 shares in CBay. Ocean Partners also acquired 1,024,263 shares at the same time in order to maintain the 50:50 ownership interest in CBay.

In 2014, the Company committed to spend \$75,000 on the Chibougamau Camp as part of the agreement to extend the loan. The \$75,000 was written off as interest expense in 2014.

In December 2014, Nuinsco used a significant piece of its equity position in CBay to extinguish \$2.6 million in debt and accrued interest. Nuinsco retains a 7.5% interest in CBay and continues to manage the operation on behalf of Ocean Partners (Note 10).

The Chibougamau assets represent a very substantial presence in a mining camp which has produced 1.6 billion pounds of copper and 3.2 million ounces of gold from 18 past-producing mines on the Lac Doré complex alone. Eight past-producers are located on CBay-held property on the Lac Doré complex that hold significant potential to provide additional resources when exploration and development programs are undertaken. Also owned are two partially-developed copper projects (Corner Bay), a permitted 2,722 tpd mill and tailings facility and in excess of 96,000 acres (38,000ha) of highly-prospective exploration property.

#### 9. EXPLORATION AND EVALUATION PROJECTS - CONTINUED

#### **Pre-exploration write-offs**

Pre-exploration expenditures are written off at the end of each reporting period to *Pre-exploration write-offs* through operations. Pre-exploration costs relate to expenses on evaluating projects not owned by the Company. Pre-exploration costs in the amount of \$nil were written off during the three months ended March 31, 2017 (2016 - \$nil).

#### 10. INTEREST IN CBAY MINERALS

Until December 18, 2014, Nuinsco owned a 50% interest in CBay and jointly controlled the company with Ocean Partners. Effective that date, Nuinsco gave up 42.5% of its interest in CBay in satisfaction of amounts payable under a loan facility, including accrued interest as of that date. Accordingly, on December 18, 2014, the Company recorded a loss on disposition of \$3,705,000 on its interests in CBay Minerals. As at December 31, 2015, the Company wrote down the investment to \$nil due to the uncertainty around the recoverability of costs. For information on the project, see Chibougamau Camp (note 9).

#### 11. PARTICIPATING INTEREST

Nuinsco holds an unsecured participating interest in the cash flows generated by Victory Nickel Inc. from the sale of frac sand (the "Participating Interest") from the 7 persons plant. The Company's participation in the net cash flows earned from the sale of frac sand is limited to a maximum of \$10,222,831 with a minimum of \$7,667,124 based on a

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

sharing percentage of 52.16%.

Because of the uncertainty on receiving future payments on the Participating Interest, as at December 31, 2015, the Company recorded an impairment of this Participating Interest and has recorded the value of the asset at \$nil.

#### 12. LONG-TERM LIABILITIES

Long term liabilities consist of accrued directors and certain management consulting fees. The directors and management have agreed to defer fees until the ongoing viability of the Company can be assured.

#### 13. OPERATING LEASE

In September 2016, the Company entered in to a one year lease for office space at 80 Richmond Street West, Toronto, expiring September 2017. Future minimum lease payments are \$27,000.

## 14. SHARE CAPITAL AND OTHER COMPONENTS OF (DEFICIENCY) EQUITY Share Capital

- (a) On September 16, 2016, the Company completed a non-brokered private placement for aggregate gross proceeds of \$90,000 (the "Private Placement"). The Private Placement entailed the issuance of 18,000,000 units of securities of the Company (each, a "Unit") at a price of \$0.005 per Unit. Each Unit is comprised of one common share of the Company (each, a "Common Share") and one Common Share purchase warrant (each a "Warrant"). Each Warrant entitles the holder to purchase one Common Share at an exercise price of \$0.01 for a period of 12 months from closing of the Private Placement. These warrants were assigned a value of \$33,750 using the Black Scholes option pricing model using the following assumptions: risk free interest rate 0.49%; expected volatility of 218%; expected dividend yield of 0% and an expected life of one year. Expected volatility was based on the historical volatility of other comparable listed companies. Share issuance costs in the amount of \$19,000 were incurred in this transaction and were paid to related parties who own shares in the Company.
  - On December 29, 2016, the Company completed a non-brokered private placement for aggregate proceeds of \$40,000 (the "Private Placement"). The Private Placement entailed the issuance of 4,000,000 common shares of the Company at a price of \$0.01 per share.
- (b) On September 16, 2016, the Company settled debt (owed to certain of the Company's trade creditors and management) in the amount of \$147,306 through the issuance of 29,461,212 Common Shares of the

Company at \$0.005 per share. 16,712,000 of these shares were issued to related parties and constitutes a related party transaction (see note 18).

(c)

#### 14. SHARE CAPITAL AND OTHER COMPONENTS OF (DEFICIENCY) EQUITY - CONTINUED

#### **Share Incentive Plan**

The Company has a Share Incentive Plan which includes both a Share Purchase Plan and a Share Bonus Plan. The purpose of the Share Incentive Plan is to encourage ownership of common shares by directors, senior officers and employees of the Company and its designated affiliates and consultants who are primarily responsible for the management and profitable growth of its business, to advance the interests of the Company by providing additional incentive for superior performance by such persons and to enable the Company and its designated affiliates to attract and retain valued directors, officers, employees and consultants.

#### Share Purchase Plan

Under the Share Purchase Plan, eligible directors, senior officers and employee of the Company and its designated affiliates and consultants can contribute up to 10% of their annual basic salary before deductions to purchase common shares. The Company matches each participant's contribution. The purchase price per common share is the volume-weighted average of the trading prices of the common shares on the TSX for the calendar quarter in respect of which the common shares are issued. Common shares acquired are held in safekeeping and delivered to personnel as soon as practicable following March 31, June 30, September 30 and December 31 in each calendar year. No common shares were issued pursuant to the Share Purchase Plan during 2017 or 2016. The maximum number of common shares issuable under the Share Purchase Plan is the lesser of: (i) that number of common shares that can be purchased with a dollar amount equal to 20% of the gross annual salary of the Participants (as defined in the Share Incentive Plan); and (ii) 1% of the aggregate number of issued and outstanding common shares (calculated on a non-diluted basis) from time to time.

#### Share Bonus Plan

The Share Bonus Plan permits common shares to be issued as a discretionary bonus to eligible directors, senior officers and employee of the Company and its designated affiliates, and consultants from time to time. At the Company's Annual and Special Meeting of Shareholders held on June 18, 2012 (the "ASM"), shareholders approved an increase in the maximum number of common shares issuable under the Share Bonus Plan to 8,000,000.

In 2017 and 2016, no common shares were issued under the Share Bonus Plan. The fair value of common share entitlements granted under the Share Bonus Plan is determined using the quoted market value on the date of grant for an aggregate fair value that was charged immediately.

#### Accumulated Other Comprehensive Income or Loss ("AOCI")

AOCI is comprised of the following separate components of (deficiency) equity:

#### Net change of financial assets at fair value through OCI

This comprises the cumulative net change in the fair value of financial assets at fair value through OCI.

#### Income tax on OCI

This comprises the amount of income tax determined to be required on the cumulative net change in the fair value of financial assets at fair value through OCI.

#### 15. EARNINGS (LOSS) PER SHARE

The calculation of basic and diluted EPS for the three months ended March 31, 2017 and March 31, 2016 was based on the information in the table below.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

	201	17	2016
Balance as at beginning of period	346,986,95	57	295,525,745

Basic loss per share Diluted loss per share	\$ (0.00 \$ (0.00	•	(0.00) (0.00)

The effect of adjustments to the weighted average number of common shares would be anti-dilutive when the Company incurs losses. The table above provides the weighted average number of shares on a dilutive basis for periods when losses are incurred for information only. The average market value of the Company's shares for purposes of calculating the dilutive effect of share options is based on quoted market prices for the respective periods during which the options were outstanding.

There have been no significant capital transactions from the reporting date to the date of this filing which have had a material impact on earnings per share.

#### 16. SHARE-BASED PAYMENTS

#### **Description of the Share-based Payment Arrangements**

The Company's share-based payment arrangements are as follows:

#### Stock option plan (equity-settled)

The Company has a Stock Option Plan to encourage ownership of its shares by key management personnel (directors and executive management), employees and consultants, and to provide compensation for certain services. The terms of the Stock Option Plan provide that the directors have the right to grant options to acquire common shares of the Company at not less than the closing market price of the shares on the day preceding the grant. No compensation is recognized when options are exercised. The number of shares reserved for issuance is not to exceed 15% of the aggregate number of common shares issued and outstanding (calculated on a non-diluted basis) from time to time.

#### 16. SHARE-BASED PAYMENTS - CONTINUED

As at March 31, 2017, the Company had 18,698,000 (December 31, 2016 - 9,448,000) common shares available for the granting of future options. Options are exercisable at the market price of the shares on the date preceding the date of grant. The Company does not have any cash-settled transactions.

Notes to the Condensed Interim Consolidated Financial Statements (unaudited) For the three months ended March 31, 2017 (all amounts in Canadian dollars)

#### Share Bonus Plan

The terms of the Company's Share Bonus Plan are set out in Note 14.

#### Terms and Conditions of Share-based Payment Arrangements Stock Option Plan

The terms and conditions relating to the grants of the Stock Option Plan are as follows:

- Options issued during the period and granted to executive management, employee and consultants have a maximum term of five years and are equity-settled. Of the options granted, 50% vest immediately, while the remaining options are exercisable after one year.
- Options issued during the period and granted to directors have a maximum term of five years and are equity-settled. All options granted to directors vest immediately.
- All options are to be settled by physical delivery of shares.

## 20. CONTINGENCY CRA Reassessment

In March, 2011, the Company received notices of reassessment in the aggregate amount of approximately \$4,400,000 from the CRA related to transactions completed in 2006; this amount does not include interest and penalties which could be substantial. The Company filed notices of objection on May 19, 2011. On July 22, 2011, the Company filed a request for adjustment to correspondingly adjust its tax pools and losses, in the unlikely event that the Company's appeal is unsuccessful. On March 7, 2014, the Company received a notice of confirmation with respect to one entity whereby the CRA denied that entity's notice of objection and confirmed the reassessment. The Company has sought, and is following the advice of its tax counsel in this matter.

The appeal process could be lengthy and the Company believes that its position is correct and that it will prevail. Accordingly, the Company has not recorded any liability with respect to this matter.
