

Nuinsco Resources Limited Announces Sale of Diabase Peninsula Uranium Property

Toronto, February 9, 2018 – Nuinsco Resources Limited (“Nuinsco” or “the Company”) today announced that it has closed a transaction for the sale of its interest in the Diabase Peninsula uranium property in Saskatchewan’s Athabasca Basin to Uranium Energy Corp. (NYSE American: UEC, “UEC”) for total consideration of \$575,000 comprised of cash and UEC shares.

Nuinsco has received \$225,000 in cash and 139,418 common shares of UEC, at a deemed issuance price of US\$1.60 per share, as consideration for the sale. Of the total consideration \$75,000, along with the issuance of 10,000,000 common shares of Nuinsco, a deemed issuance price of C\$0.01 per share, was paid and issued to discharge an obligation to the owner of the original Diabase Peninsula claim.

Management intends to use the proceeds from the sale principally to add new exploration and development properties to its project portfolio and to facilitate the relisting of the Company’s shares on a Canadian stock exchange as soon as possible.

“As previously communicated, management is focused on identifying and developing new projects and listing the Company’s shares on a public exchange which we believe should provide liquidity and create value for shareholders,” said Paul Jones, CEO.
