during fiscal 2017. The decrease in cash used during the three months of fiscal 2018 was primarily due to the payments to acquire capital.

Cash (used) in financing activities

Cash (used) by financing activities for the first six months of fiscal 2018 was \$(75,788) representing a decrease of \$508,272 from cash used of \$(584,060) in the respective period during fiscal 2017. Outlook – Going Concern

These consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As at September 30, 2017, the Company had an accumulated deficit of \$4,276,167 and, for the period then ended, the Company had comprehensive earnings of \$929,079. As at September 30, 2017, the Company had negative working capital of \$895,693 and \$NIL cash on hand. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

In assessing whether the going concern assumption was appropriate, management took into account all relevant information available about the future, which was at least, but not limited to, the next twelve month period following September 30, 2017. The Company has in place a credit facility of up to \$2,100,000 through its bank based on acceptable trade receivables and inventory. The availability of the credit facility to the Company as at September 30, 2017 was \$2,100,000 of which \$362,884 was in use and a letter of credit in the amount of US\$299,999 (CAD\$374,399) leaving \$1,362,717 available. The Company's analysis of forecasted sales and expenses indicate improvement in both sales and cash flow as a result of contracts bid and/or signed, and their expected margins on these projects. As a result, the Company believes that it has sufficient cash resources to meet its obligations, beyond the next 12 months. However, should (i) the Company's bank credit facility fail to be available or fail to have sufficient availability to meet the Company's cash requirements; (ii) forecasts fall short of expectations in one or more of the Company's divisions; and/or (iii) any unanticipated unprofitable event occurs, this will impact the Company's ability to generate sufficient cash to meet its requirements and this will impact its ability to continue as a going concern. The Company would then implement a strategic review of its portfolio of companies to maximize shareholders value.

These consolidated financial statements do not reflect any adjustments that would be necessary if the going concern basis was not appropriate. Such adjustments, if required, may be material.

Facilities

The Company leases a 135,500 sq. /ft. building at 10 Didak Drive in Arnprior, Ontario.

The Company along with its wholly-owned US subsidiary owns a 16,300 sq. ft. manufacturing facility in Pocono Summit, PA.

On July 20, 2015 the Company, through a wholly-owned subsidiary completed the acquisition of a 33,000 sq. ft. manufacturing facility in Barry's Bay, ON for the manufacturing of its Madawaska Door business.

New and revised IFRS in issue but not yet effective

The following is a list of standards and amendments that have been issued but are not yet effective and have not yet been adopted by the Company:

New Standards effective April 2018

IFRS 9: Financial instruments

Issued in July 2014, IFRS 9 replaces IAS 39 *Financial Instruments: recognition and measurement* ("IAS 39"). This standard simplifies the classification of a financial asset as either at amortized cost or at fair value as opposed to the multiple classifications which were permitted under IAS 39. This standard also requires the use of a single impairment method as opposed to the multiple methods in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The standard also adds guidance on the classification and measurement of financial liabilities and introduces a new hedge accounting model. This IFRS, which is to be applied retrospectively, is effective for annual periods beginning on or after January 1, 2018, with earlier adoption permitted. The Company is in the process of assessing the impact of this standard on its consolidated financial statements.

IFRS 15: Revenue from contracts with customers

Issued in May 2014, IFRS 15 establishes principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from a contract with a customer. The main principle of this standard is that an entity shall recognize revenue to depict the transfer of promised services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. Adoption of this IFRS is mandatory for annual reporting periods beginning on or after January 1, 2018, with earlier adoption permitted. The Company is in the process of assessing the impact of this standard on its consolidated financial statements.

IFRS 16: Leases

Issued in January 2016, IFRS 16 Introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This IFRS, which is to be applied retrospectively, is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The Company is in the process of assessing the impact of this standard on its consolidated financial statements.
