## **Non-GAAP Financial Measures**

There are financial measures included in this press release that are not in accordance with GAAP and therefore may not be comparable to similarly titled measures and metrics presented by other publicly traded companies. These non-GAAP financial measures should be considered as supplemental to, and not a substitute for, our reported financial results prepared in accordance with GAAP. The Company includes EBITDA and Adjusted EBITDA because it believes certain investors use these measures and metrics as a means of assessing financial performance. EBITDA is calculated as net income (loss) before interest, taxes, depreciation and amortization, and Adjusted EBITDA before share-based compensation, the change in fair value of warrants and one-time non-recurring expenses.

The following table presents a reconciliation of net income (loss) to Adjusted EBITDA for each of the periods presented:
