KING GLOBAL SECURES AN ADDITIONAL \$715,000 IN CONVERTIBLE LOAN FROM BOARD MEMBER

NOT FOR DISTRIBUTION IN THE U.S. OR DISSEMINATION THROUGH U.S. NEWSWIRE SERVICES

Toronto, Ontario April 14, 2025 – King Global Ventures Inc. (CSE:KING) (OTC: KGLDF) (FSE: 5LM1) (the “Company” or “King Global”) is pleased to announce that it has secured \$715,000 in working capital via a short term convertible loan from director Jason Campbell. The loan is on the same terms as previously announced. The loans will support the Company as it advances the permitting process for its maiden drill program at the Silver Cord Property.

The loan is due December 31, 2025, bears interest at the rate of 6% per annum and is convertible into units at \$0.40, each unit consisting of one share and one 2 year warrant exercisable at \$0.60. The shares and warrants comprising the units will be subject to a four-month and one day hold period in accordance with the policies of the Canadian Securities Exchange and applicable securities legislation. The loan is subject to approval from the Canadian Securities Exchange.

Robert Dzisiak, Chief Executive of King stated “We’re incredibly grateful to Jason Campbell – one of our largest shareholders and valued director – for his continued belief in King Global and his support of our strategic vision.”

This transaction falls in the related party transaction category, as the lender is a director of the Company. The Company has relied on the exemptions from the valuation and minority shareholder approval requirements of MI 61-101 contained in sections 5.5(a) and 5.7(a) of MI 61-101 in respect to such insider participation. In addition, the related party director has recused himself from all board discussions and decisions related to this transaction.

About King Global Ventures:

Black Canyon Property in Arizona

King Global Ventures is focused on the exploration of precious and base metals in North America. The Black Canyon Project in Yavapai County Arizona is comprised of 213 contiguous

KING GLOBAL VENTURES

CSE: KING | OTC: KGLDF | FSE: SLM1

concessions covering a total area of 3,780 ac, including 12 former operating mines including the past producing Howard Copper Mine. And is situated 100 km (64 miles) north of Phoenix Arizona. The Black Canyon Project represents an early-stage exploration opportunity targeting copper-gold-silver-zinc, Volcanogenic Massive Sulphide ("VMS") mineralization. The geology of Yavapai County, Arizona is notable due to the presence of a variety of base and precious metal deposit types. The region has a significant history of exploration, discovery and mining operations, including base metals from mining operations like Bagdad, Jerome and Cleopatra. The property is on trend and is approximately 8 km (12 miles) N.W. of Arizona Metals and 100 km (60 miles) south of the historic Jerome Copper mine.

The Howard Copper Mine Property is located on 78 acres of patented land approximately 100 km (64 miles) north of Phoenix AZ. Discovered in the early 1920's, small scale production and development focused on high-grade copper. An estimated 100,000 tonnes of copper grading between 3-5% copper was mined from the property until it was closed in 1942 due to the inability to secure fuel rations during WW2. Historical reports state that the main shaft was sunk to the 900-foot level, but that no ore was mined below the 500-foot level.

York Property in Quebec

The York Property is comprised of 77 claims exceeding 40 sq. km. The Property is on trend between Azimut's Elmer Property and the Eleonor Gold Mine. The Eleonor Mine is hosted by rocks similar to the clastic sediments known to host the Ukaw gold showings.
