KING GLOBAL ANNOUNCES \$5.25 MILLION UNIT FINANCING

NOT FOR DISTRIBUTION IN THE U.S. OR DISSEMINATION THROUGH U.S. NEWSWIRE SERVICES

Toronto, Ontario April 21, 2025 – King Global Ventures Inc. (CSE:KING) (OTC: KGLDF) (FSE: 5LM1) (the “Company” or “King Global”) announces that it is undertaking a non-brokered private placement (the “Private Placement”) of up to \$5,250,000. The Company will issue up to 11,666,666 units at a price of \$0.45 per unit. Each unit consists of one common share and one common share warrant. Each warrant entitles the holder to subscribe for one additional common share for \$0.65 for a period of two years from the date of closing.

The common shares and warrants comprising the units will be subject to a four-month and one day hold period in accordance with the policies of the Canadian Securities Exchange and applicable securities legislation.

The Company intends to use the net proceeds of the Private Placement to continue exploration and drilling on its Black Canyon Project.

The Company will pay a finder’s fee in cash to qualified finders who assist in selling the Units, as permitted by Canadian Securities Exchange policy and applicable securities law.

The Private Placement is subject to certain conditions, but not limited to, the receipt of all necessary approvals, including approval from the Canadian Securities Exchange.

About King Global Ventures:

Black Canyon Property in Arizona

King Global Ventures is focused on the exploration of precious and base metals in North America. The Black Canyon Project in Yavapai County Arizona is comprised of 213 contiguous concessions covering a total area of 3,800 ac, including 15 former operating mines including the past producing Howard Copper Mine. And is situated 100 km (64 miles) north of Phoenix Arizona. The Black Canyon Project represents an early-stage exploration opportunity targeting copper-gold-silver-zinc, Volcanogenic Massive Sulphide (“VMS”) mineralization. The geology of Yavapai County, Arizona is notable due to the presence of a variety of base and precious metal deposit types. The region has a significant history of exploration,

discovery and mining operations, including base metals from mining operations like Bagdad, Jerome and Cleopatra. The property is on trend and is approximately 8 km (12 miles) N.W. of Arizona Metals and 100 km (60 miles) south of the historic Jerome Copper mine.

The Howard Copper Mine Property is located on 78 acres of patented land approximately 100 km (64 miles) north of Phoenix AZ. Discovered in the early 1920's, small scale production and development focused on high-grade copper. An estimated 100,000 tonnes of copper grading between 3-5% copper was mined from the property until it was closed in 1942 due to the inability to secure fuel rations during WW2. Historical reports state that the main shaft was sunk to the 900-foot level, but that no ore was mined below the 500-foot level.

York Property in Quebec

The York Property is comprised of 77 claims exceeding 40 sq. km. The Property is on trend between Azimut's Elmer Property and the Eleonor Gold Mine. The Eleonor Mine is hosted by rocks similar to the clastic sediments known to host the Ukaw gold showings.
