## EXERCISE TIME EXTENDED FOR OPTIONS TO ACQUIRE CONVERTIBLE DEBENTURES

Toronto, Canada, June 29<sup>th</sup>, 2018 - **KWG Resources Inc. ("KWG")** (CSE-KWG.A) (CSE-KWG; OTC-KWGBF; FRA-KW6) has advised the Canadian Securities Exchange that it will extend to September 28, 2018 the time within which options to acquire additional Convertible Debentures of the Corporation may be exercised.

As previously announced the Company received CSE approval for a private placement to a maximum of \$3,000,000 of debentures convertible at the option of KWG into units with a deemed value of \$21 per unit (each a "Unit") under which each subscriber will receive an option (the "Option") to acquire an equal amount of additional debentures at any time within 120 days from closing. Each Unit will be comprised of four KWG.A multiple voting shares and four multiple voting share purchase warrants, with each such warrant enabling its holder to acquire one further KWG.A multiple voting share from treasury upon payment of \$7.50 at any time within two years from the date of the debenture's issuance. The debentures will bear interest at a rate of 12% per annum, accruing daily, compounding annually and payable at the earlier of maturity, redemption or conversion, in KWG.A multiple voting shares from treasury at their volume-weighted average price ("VWAP") for the ten trading days prior to payment. The debentures secure repayment of the principal, plus interest earned thereon to the date of payment, plus a premium of 20% of the original principal amount payable immediately following issuance of the debenture by the issuance of Units with a deemed value of \$21 per Unit. At any time and from time to time, KWG will have the right to redeem the debenture in whole or in part by payment in cash, or convert the debentures in whole or in part into Units. An aggregate of \$2,576,908.25 of debentures were issued on December 15, 2017 and the balance remain to be issued.

### **About KWG:**

KWG is the Operator of the Black Horse Joint Venture ('JV') after acquiring a vested 50% interest through Bold Ventures Inc ('Bold') from Fancamp Exploration Ltd ('Fancamp'). KWG funds all JV exploration expenditures and Bold is carried for a 20% interest in KWG's interest.

KWG also owns 100% of Canada Chrome Corporation which has staked claims and conducted a surveying and soil testing program, originally for the engineering and construction of a railroad to the Ring of Fire from Aroland, Ontario.

KWG subsequently acquired intellectual property interests, including a method for the direct reduction of chromite to metalized iron and chrome using natural gas and an accelerant. KWG subsidiary, Muketi Metallurgical LP, is prosecuting two chromite-refining patent applications in Canada, India, Indonesia, Japan, Kazakhstan, South Africa, South Korea, Turkey, and USA. The national phase filings are under review in each of those jurisdictions, save that Canada, South Africa and Kazakhstan have now each issued a Patent for the direct reduction method.
