CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

CMX Gold & Silver Corp. (the "Company" or "CMX") was incorporated on July 30, 1986 and changed its name from Encee Group Ltd. to Liard Resources Ltd. on August 6, 1996. The Company changed its name to CMX Gold & Silver Corp. on February 11, 2011. The Company is designated as a "reporting issuer" pursuant to the Alberta Securities Act and Regulations and subsequent to the year-end received conditional listing approval from the TSX Venture Exchange. The Company is an exploration stage company engaged in the acquisition, exploration and development of silver and copper/gold properties in the United States. The registered office of the Company is as follows:

CMX Gold & Silver Corp.
c/o Norton Rose LLP
3700, 400 Third Avenue SW
Calgary, Alberta
Canada T2P 4H2

The financial statements were authorized for issuance by the Board of Directors on August 28, 2012.

1. GOING CONCERN

The business of exploring resource properties involves a high degree of risk and, therefore, there is no assurance that current exploration programs will result in profitable operations. The Company has not determined whether its properties contain economically recoverable reserves of ore and currently has not earned any revenue from its mineral properties and, therefore, does not generate cash flow from its operations. Future operations are dependent upon the discovery of economically recoverable ore reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to complete exploration and subsequent development of its properties, and upon future profitable production or proceeds from disposition of its properties.

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards applicable to a going concern which assumes that the Company will realize the carrying value of its assets and discharge its obligations as they become due in the normal course of operations. For the period ended June 30, 2012, the Company incurred a net loss of \$141,093 (2011 - \$483,294). As a result of the recurring losses over the Company's history, the Company has a deficit of \$3,418,505 as at June 30, 2012 (December 31, 2011 - \$3,277,412). At June 30, 2012, the Company had a working capital deficiency of \$512,195 (December 31, 2011 - \$371,102). The Company currently does not have the necessary financing in place to support continuing losses. Historically, the Company has financed its operations and property acquisitions through the use of funds obtained from share issuances. These matters raise significant doubt about the appropriateness of the use of accounting principles applicable to a going concern.

The Company's continuation as a going concern is dependent upon its ability to secure new financing arrangements and new equity issuances. There is no assurance that new capital will be available and if it is not, the Company may be forced to substantially curtail or cease operations. Although the use of the going concern assumption is appropriate, there can be no assurance that any steps the Company takes will be successful. To mitigate the working capital deficiency the Company plans to raise capital through equity issuance (see note 16).

These financial statements do not reflect adjustments in the carrying values of the assets and liabilities, expenses and the statement of financial position classifications that might be necessary if the Company were unable to continue as a going concern. Such adjustments could be material.

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

2. BASIS OF PRESENTATION

Statement of compliance

The financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting”, using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee.

The Company has consistently applied the same accounting policies throughout all periods presented. A summary of the Company’s significant accounting policies under IFRS is presented in Note 4. These policies have been retrospectively and consistently applied.

Basis of measurement

The financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for an asset on the date of the transaction.

Functional and presentation currency

The functional currency of the Company is Canadian dollars, and all amounts are presented in Canadian dollars unless otherwise stated.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from and affect the results reported in these financial statements as future confirming events occur.

The determination of the Company’s functional currency requires management judgment based on an evaluation of all relevant information in relation to the related primary and secondary hierarchy factors. Considerations regarding currency and influences of sales in the area of operations, settlement of operating expenses, and the funds from financing activities are assessed at each reporting date.

Amounts recorded for warrant valuations are based on management’s estimates of share price volatility and the expected life of the warrants. Allowances for doubtful accounts are based on management’s estimates and the estimated recoverability of accounts receivable in the future.

Tax interpretations, regulations and legislation in which the Company operates are subject to change. As such, income taxes are subject to measurement uncertainty.

Management’s judgment is that until a property reaches the development stage, costs related to the exploration and evaluation of a property are best estimated to be non-recoverable and are therefore expensed in the year in which they occur. Only real property is capitalized to the statement of financial position.

By their nature, these estimates are subject to measurement uncertainty and the impact on the financial statements of future periods could be material.

4. SUMMARY OF ACCOUNTING POLICIES

These financial statements have, in management’s opinion, been properly prepared within the framework of the accounting policies summarized as follows:

Financial instruments

Financial instruments are any contract that gives rise to a financial asset of one party and a financial liability or equity instrument of another party. Financial instruments are identified by the Company through a review of typical financial transactions and risk management activities. The Company also reviews non-financial contracts for potential embedded derivatives. Once identified, the financial instruments are classified and measured as disclosed below.

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

4. SUMMARY OF ACCOUNTING POLICIES, continued

Financial instruments are measured at fair value on initial recognition of the instrument except in specific circumstances. Measurement in subsequent periods depends on whether the financial instrument has been classified as “fair value through profit or loss”, “available for sale financial assets”, “held to maturity investments”, “loan and receivables” or “financial liabilities measured at amortized cost” as defined by the accounting standard.

Cash and cash equivalents and trade and other receivables are classified as “loans and receivables” and trade and other payables, due to related parties and dividends payable are classified as “financial liabilities measured at amortized cost”. Transaction costs are netted against the instruments and amortized to operations using the effective interest method.

Foreign currency translation

Foreign currency transactions are translated using the exchange rates prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in operations.

Cash and cash equivalents

The Company’s cash and cash equivalents consists of balances with financial institutions with maturities of three months or less at the date of purchase.

Exploration and evaluation of properties

Prospecting costs incurred prior to obtaining the rights to explore lands are expensed as incurred.

Costs of option acquisitions and exploration expenditures related to mineral properties are expensed in the year in which they occur.

Land purchases, patented mineral claims and development costs are capitalized on a property specific cash generating unit (“cgu”) basis. Upon development of a cgu, the related costs subject to an impairment test, will be transferred from exploration and evaluation to development and producing. Costs capitalized together with the costs of production equipment will be depleted on a unit of production basis, based on estimated proved reserves of minerals upon the commencement of production for each cgu.

Each reporting period, the Company assesses whether there is an indication that a cgu may be impaired. If any indication exists, the Company estimates the cgu’s recoverable amount. A cgu’s recoverable amount is the greater of fair value less costs to sell and its value in use. Fair value is determined to be the amount for which the asset could be sold in an arm’s length transaction.

Fair value less costs to sell is determined using discounted future net cash flows of proved and probable reserves using forecast prices and costs. Value in use is determined by estimating the present value of the future net cash flows expected to be derived from the continued use of the asset or cgu. When the carrying amount of a cgu exceeds its recoverable amount, the cgu will be considered impaired and written down to its recoverable amount.

Reversals of impairments are recognized when there has been a subsequent increase in the recoverable amount. In this event, the carrying amount of the asset or cgu is increased to its revised recoverable amount with an impairment reversal recognized in operations. The recoverable amount is limited to the original carrying amount less depreciation, depletion and amortization as if no impairment had been recognized for the asset or cgu for prior periods.

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

4. SUMMARY OF ACCOUNTING POLICIES, continued

Properties are abandoned either when the lease expires or when management determines that no further work will be performed on the property. In addition, if there has been a delay in development activity for several successive years, a write down of those project capitalized costs will be charged to operations. The Company derecognizes assets at the earlier of disposal, or when no future economic benefit is expected. Any gain or loss on derecognition is recognized in operations when incurred.

Share based payments

The Company has a stock based compensation plan for employees and directors. Awards of options under the plan will be expensed based on the fair value of the options at the grant date. Fair values will be determined using the Black-Scholes option pricing model. Any consideration paid on the exercise of stock options will be credited to share capital plus the amounts originally recorded within other reserves. As at the period-end, the Company had not issued any options under the plan.

Revenue recognition

Interest income is recognized on a pro rata basis over the term of the investment and when payment is reasonably assured.

Provisions

The Company will recognize the present value of estimated decommissioning liabilities when a reasonable estimate can be made. Asset retirement obligations include those legal obligations where the Company will be required to retire tangible long-lived assets such as drilling sites, mine sites and facilities. The liabilities, equal to the initial estimated present value of the decommissioning liabilities, are capitalized as part of the cost of the related long-lived asset. Changes in the estimated obligation resulting from revisions to assumptions, estimated timing or amount of discounted cash flows will be recognized as a change in the decommissioning liabilities and the related costs.

Decommissioning costs will be amortized using the unit-of-production method. Increases in the decommissioning liabilities resulting from the passage of time will be recorded as accretion of decommissioning liabilities and will be charged to operations.

Actual expenditures incurred will be charged against accumulated obligations.

Warrants

The Company has adopted the pro-rata basis method for the measurement of shares and warrants issued as private placement units. The pro-rata basis method requires that gross proceeds and related share issuance costs be allocated to the common shares and the warrants based on the relative fair value of the component.

The fair value of the common share is based on the closing price on the closing date of the transaction and the fair value of the warrant is determined using the Black-Scholes Option Pricing Model.

The fair value attributed to the warrant is recorded as warrant equity. If the warrant is exercised, the value attributed to the warrant is transferred to share capital. If the warrant expires unexercised, the value is reclassified to other reserves within equity. Warrants, issued as part of private placement units, that have their term of expiries extended, are not subsequently revalued.

Loss per share

Basic net loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the year. Diluted per share amounts are computed by giving effect to the potential dilution that would occur if stock options and share purchase warrants were exercised. The Company uses the treasury stock method to determine the dilutive effect of stock options and share purchase warrants. This method assumes that proceeds received from the exercise of in-the-money instruments are used to repurchase shares at the average market price for the year. In net loss per share situations, the dilutive per share amount is the same as that for basic, as all instruments are anti-dilutive.

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

4. SUMMARY OF ACCOUNTING POLICIES, continued

Future accounting pronouncements

All accounting standards effective for periods on or after January 1, 2011 have been adopted as part of the transition to IFRS. The following new IFRS pronouncements that have been issued, that are not yet effective and have not been early adopted, and may have impact on the Company in future are discussed below.

IFRS 9 Financial Instruments (effective January 1, 2015)

The standard is the first step in the process to replace IAS 39, “Financial Instruments: Recognition and Measurement”. The new standard replaces the current multiple classification and measurement models for financial assets and liabilities with a single model that has only two classification categories: amortized costs and fair value. Portions of the standard remain in development and the full impact of the standard on the Company’s financial statements will not be known until the project is complete.

IFRS 10 Consolidated Financial Statements (effective January 1, 2013)

This standard is issued to supersede IAS 27, “Consolidated and Separate Financial Statements” and SIC 12, “Consolidation – Special Purpose Entities”. This standard builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess.

IFRS 11, Joint Arrangements (effective January 1, 2013)

This standard is issued to supersede IAS 31, “Interests in Joint Ventures” and SIC 13, “Consolidation of Jointly Controlled Entities – Non Monetary Contributions by Ventures”. This standard is intended to provide a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement rather than its legal form.

IFRS 12, Disclosure of Interest in Other Entities (effective January 1, 2013)

This standard specifies disclosure requirements for all forms of interest in other entities, including joint arrangements, associates, special purpose vehicles and other off-balance sheet vehicles.

IFRS 13, Fair Value Measurement (effective January 1, 2013)

The main provisions for this standard include defining fair value, setting out in a single standard a framework for measuring fair value and specifying certain disclosure requirements about fair value measurements.

IAS 27, Separate Financial Statements (effective January 1, 2013)

This has the objective of setting standards to be applied in accounting for investments in subsidiaries, joint ventures and associates when an entity elects, or is required by local regulations, to present separate (non-consolidated) financial statements.

IAS 28, Investments in Associates and Joint Ventures (effective January 1, 2013)

This standard prescribes the accounting for investments in associates and sets out the requirements for application of the equity method when accounting for investments in associates and joint ventures. IAS 28 applies to all entities that are investors with joint control of, or significant influence over, an investee (associate or joint venture).

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

4. SUMMARY OF ACCOUNTING POLICIES, continued

IFRIC Interpretation 20, Stripping Costs in the Production Phase of a Surface Mine (effective January 1, 2013)

This summarizes the method of accounting for waste removal costs incurred as a result of surface mining activity during the production phase of a mine.

The Company is currently assessing the impact that the adoption of the new standards may have on its financial statements.

5. PREPAID EXPENSES

The Company has incurred \$275,227 in fees related to the preparation of a prospectus and an amended and restated prospectus (see note 16). These costs will be applied against the gross proceeds raised on the closing of the initial public offering (“IPO”) and reflected in share capital.

6. EXPLORATION AND EVALUATION

Clayton property

In 2010, the Company purchased the Clayton Mineral property for a total consideration of \$516,515 for 29 patented mineral claims and 2 patented mill sites located in the State of Idaho, USA. Pursuant to the purchase agreement, the Company issued 2,500,000 shares at a price of US\$0.10 per share and made a cash payment of US\$250,000.

As part of the transaction, the Company agreed to pay a finder’s fee of \$30,000 to be settled by cash and \$45,210 to be settled by the issuance of 897,280 common shares accompanied with a two year warrant to purchase 3,000,000 common shares at US\$0.10 per share. The fair value of the warrants was calculated at \$88,351 (see notes 9 and 11).

The valuation method used to calculate the fair value of the warrants was the Black-Scholes model with the following assumptions; a term of two years, a risk free borrowing rate (per Bank of Canada) of 1.67% and volatility of 146%. As at December 31, 2010, a total finder’s fee of \$163,215 was accrued in trade and other payables and expensed to mineral property expenditures.

Marietta property

Effective March 17, 2011, the Company entered into an option agreement with Azteca Gold Corp. by issuing 2,500,000 common shares for the right to earn up to a 50% interest in the Marietta Property located in Nevada, USA. The agreement also requires the Company to incur US\$2,000,000 of expenditures over a two year period from the date the Company commences trading on the TSX Venture Exchange. If the listing does not occur by June 17, 2012, after such date either party has the right to terminate the option agreement, in which event the 2,500,000 common shares of the Company issued to Azteca Gold Corp. will be returned for cancellation. If the listing did not occur prior to June 17, 2012, then each party had the right to terminate the option agreement and, in such event, Azteca was to return the 2,500,000 common shares of the Company for cancellation. On June 12, 2012, the Corporation and Azteca agreed to amend the Option Agreement to provide that if the listing does not occur by June 17, 2012 a party must provide thirty days' written notice of any intention to terminate the Option Agreement. As of the date of this MD&A, to the knowledge of CMX, no such notice has been given by either party to the Option Agreement.

The Company also incurred costs associated with these properties. These costs have been expensed during the year.

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

6. EXPLORATION AND EVALUATION, continued

Total expenditures on properties held:

Acquisition cost – Clayton – Patented Claims	\$ 516,515
Exploration expenditures in 2010 – Clayton – finder's fees	163,215
Exploration expenditures in 2011 – Marietta acquisition costs, claim payments – report writing, site visits	268,062 25,297
Exploration expenditures in 2012 – report writing	4,853
Total Expenditures to the period ended June 30, 2012	\$ 461,427

All exploration expenditures have been expensed in the years in which they occurred.

7. DUE TO RELATED PARTIES

During the period ended June 30, 2012, the Company incurred management fees of \$84,712 (2011 - \$76,500) to a corporation controlled indirectly by a director of the Company.

During the period ended June 30, 2012, the Company incurred management fees of \$12,500 (2011 - \$nil) to the CFO of the Company.

At June 30, 2012, the Company owed US\$40,378 to directors and officers of the Company with respect to cash loans and advances. These loans and advances are payable on demand and bear an interest rate of 6% per annum.

At June 30, 2012, the Company owed \$212,145 to officers (2011 - \$52,172) for management fees, which are unsecured, non-interest bearing and payable within the next 12-month period.

During the period ended June 30, 2011, the Company settled \$40,000 of debt due to a corporation controlled indirectly by a director of the Company with the issuance of 800,000 units, each unit consisting of one common share and one common share purchase warrant exercisable at \$0.15 per share, expiring January 13, 2013.

These transactions were measured at the amount of consideration established and agreed upon by the related parties.

8. DIVIDENDS PAYABLE

In 2006, the Company sold certain investments and declared a cash dividend payable to shareholders of record on September 30, 2006. Some shareholders failed to keep their addresses up to date on the shareholders' record and consequently, the Company was unable to determine the whereabouts of these shareholders. The aggregate amount of dividends payable to these shareholders is \$143,560. It is management's intention to pay the missing shareholders who come forward and establish their share ownership. Under the *Unclaimed Personal Property Act and Vested Property Act* (Alberta) any unclaimed funds held by the Company at September 1, 2013 must be paid to the Government of Alberta to be held for the benefit of the shareholders.

9. SHARE CAPITAL

Authorized

Common shares:

The common voting shares are entitled to dividends in such amounts as the Directors may from time to time declare and, in the event of liquidation, dissolution or winding-up of the Company, are entitled to share pro rata in the assets of the Company.

Class A voting preferred shares:

Non-cumulative annual dividend at 8% of the issued price, convertible into two common voting shares and redeemable at the issue price

Class B voting preferred shares:

CMX GOLD & SILVER CORP.
NOTES TO THE INTERIM FINANCIAL STATEMENTS
Unaudited – Prepared by Management

Periods ended June 30, 2012 and 2011

9. SHARE CAPITAL, continued

Non-cumulative annual dividend at 8% of the issued price, convertible into two common voting shares and redeemable at a price of \$10 per share

The preferred shares rank in priority to the common shares as to the payment of dividends and as to the distribution of assets in the event of liquidation, dissolution or winding-up of the Company. Preferred shares may also be given such other preference over the common shares as may be determined for any series authorized to be issued.

There were no Class A or Class B shares issued as at June 30, 2012 or June 30, 2011.

On January 13, 2011, the Company issued 1,100,000 units at \$0.05 per unit for settlement of \$55,000 in debt. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on January 13, 2013.

On March 8, 2011, the Company issued 540,000 units at \$0.05 per unit for gross proceeds of \$27,000. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on March 8, 2013.

On March 8, 2011, the Company issued 470,000 units at \$0.05 per unit for settlement of \$22,816 in debt. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on March 8, 2013.

On March 25, 2011, the Company issued 451,740 units at \$0.05 per unit for settlement of \$22,403 in debt. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on March 25, 2013.

On March 25, 2011, the Company issued 897,280 common shares at US\$0.05 per share as settlement of the accrued finder's fee of \$45,210 with respect to the Clayton property purchase (note 6).

On May 5, 2011, the Company issued 2,500,000 common shares at \$0.10 per share as payment for the Marietta Property joint venture option (note 6).

On May 6, 2011, the Company issued 2,800,000 units at \$0.05 per unit for gross proceeds of \$138,248. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on May 6, 2013.

On May 6, 2011, the Company issued 70,000 units at \$0.05 per unit for settlement of \$3,500 in debt. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share at a price of \$0.15 per share expiring on May 6, 2013.

10. STOCK OPTIONS

The total number of stock options granted according to the employee stock option plan may not exceed 10% of the issued and outstanding shares of the Company at the time of granting. The option price per share and vesting periods shall be determined by the Board of Directors at the time that the option is granted. The exercise prices are determined by the estimated market price on the date of the grant.

As at June 30, 2012 and June 30, 2011, the Company had not granted any stock options under the plan.

11. WARRANTS

The Company estimates the fair value of warrants using the Black-Scholes option pricing model with the following assumptions (except for the warrants issued March 25, 2011, as part of the finder's fee): a term of two years, a risk free borrowing rate (per Bank of Canada) of 1.4% (except for the warrants expiring May 6, 2013 where a risk free rate of 1.3% was used) and volatility of 115%.

Warrants to purchase 4,800,000 common shares at \$0.15 per share, having an expiration date of December 16, 2012 were issued as part of a private placement completed on December 16, 2010. These warrants have been valued at \$63,484.

Periods ended June 30, 2012 and 2011

14. FINANCIAL INSTRUMENTS, continued

Fair value of financial instruments	Carrying value	June 30, 2012 Fair value	Carrying value	December 31, 2011 Fair value
Financial assets				
Loans and receivables				
Cash and cash equivalents	\$ 5,469	\$ 5,469	\$ 2,910	\$ 2,910
Trade and other receivables	5,839	5,839	9,988	9,988
	<u>\$ 11,308</u>	<u>\$ 11,308</u>	<u>\$ 12,898</u>	<u>\$ 12,898</u>
Financial liabilities				
Financial liabilities measured at amortized cost				
Trade and other payables	\$ 402,647	\$ 402,647	\$ 304,541	\$ 304,541
Due to related parties	252,523	252,523	130,955	130,955
Dividends payable	143,560	143,560	143,560	143,560
	<u>\$ 798,730</u>	<u>\$ 798,730</u>	<u>\$ 579,056</u>	<u>\$ 579,056</u>

The carrying amount of cash and cash equivalents, trade and other receivables, trade and other payables and shareholder loans approximate fair value due to the short term nature of these instruments.

Financial risk

a) Credit risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents, and trade and other receivables. Cash is held with reputable chartered banks from which management believes the risk of loss is minimal.

Included in trade and other receivables are taxes receivable from Canadian government authorities. Management believes that the credit risk concentration with respect to financial instruments is minimal. The maximum credit risk exposure associated with the Company's financial assets is the carrying value.

b) Liquidity risk

Liquidity risk is that the Company will not be able to meet its obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient resources to meet liabilities when due. As at June 30, 2012, the Company had a net working capital deficiency of \$512,195 (December 31, 2011 - \$371,102). Management is continuously monitoring its working capital position and will raise funds through the equity markets as they are required. However, there is no certainty that the Company will be able to obtain funding by share issuances in the future. The Company is presently seeking to raise capital through an IPO (see note 16).

The following amounts are the contractual maturities of financial liabilities and other commitments as at June 30, 2012:

	Total	2012	Thereafter
Trade and other payables	\$ 402,647	\$ 402,647	\$ --
Due to related parties	252,523	252,523	--
Dividends payable	143,560	143,560	--
Claim payments and property taxes	21,650	21,650	21,650
Other commitments	74,000	74,000	--
	<u>\$ 894,380</u>	<u>\$ 894,380</u>	<u>\$ 21,650</u>

Periods ended June 30, 2012 and 2011

14. FINANCIAL INSTRUMENTS, continued

c) Market risk

Market risk is the risk of loss that may arise from changes in the market factors such as interest rates, commodity and equity prices and foreign currency rates.

i. Interest rate risk

The Company has cash balances and its current policy is to invest excess cash in investment-grade short-term money market accounts. The Company periodically monitors the investments it makes and is satisfied with the credit worthiness of its investments. Interest rate risk is minimal as interest rates are anticipated to remain at historically low levels with little fluctuation and any excess cash is invested in money market funds. Fluctuations in interest rates do not materially affect the Company as it does not have significant interest-bearing instruments.

ii. Foreign currency risk

Currency risk is the risk to the Company's earnings that arise from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company is exposed to foreign currency exchange risk on cash held in U.S. funds. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

Foreign currency risk could adversely affect the Company, in particular the Company's ability to operate in foreign markets. Foreign currency exchange rates have fluctuated greatly in recent years. There is no assurance that the current exchange rates will mirror rates in the future. The Company currently has minimal foreign currency risk although in the future foreign currency risk may affect the level of operations of the Company. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

As the Company currently holds minimal United States currency a change in the exchange rate between the US dollar and the Canadian dollar would not have a significant effect on the Company liquidity or working capital.

15. CAPITAL MANAGEMENT

The Company's objectives in managing its capital are:

- i) To have sufficient capital to ensure that the Company can continue to meet its commitments with respect to its mineral exploration properties and to meet its day-to-day operating requirements in order to continue as a going concern; and
- ii) To provide a long-term adequate return to shareholders.

The Company's capital structure is comprised of shareholders' equity.

The Company is an exploration stage company which involves a high degree of risk. The Company has not determined whether its proposed properties contain economically recoverable reserves of ore and currently will not earn any revenue from its mineral properties and therefore will not generate cash flow from operations. The Company's primary source of funds will come from the issuance of capital stock. The Company's policy is to invest its excess cash in highly liquid, fully guaranteed, bank sponsored instruments.

The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the Company. The Company has no long-term debt and is not subject to externally imposed capital requirements. There have been no changes in the Company's capital management in the current year.

Periods ended June 30, 2012 and 2011

16. SUBSEQUENT EVENTS

On July 13, 2012, the Company received final receipt on an amended and restated prospectus for an IPO. The Company's IPO is raising a minimum \$3,000,000 and a maximum \$4,200,000 with the sale of a minimum of 20,000,000 and a maximum of 28,000,000 units at a price of \$0.15 per unit. Each unit consists of one common share and one warrant entitling the holder to purchase one common share at \$0.25 per share, such warrant expiring two years from the date of the close of the IPO.

17. RECLASSIFICATION

Certain amounts disclosed for the prior periods have been reclassified to conform with current period presentation.
