Notes to Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2016 and 2015

(Unaudited) (stated in United States dollars)

1. Business of the Company

Nature of Business

Starrex International Ltd., formerly Starrex Mining Corporation Limited (“Starrex” or the “Company”) was incorporated on October 2, 1982 pursuant to the Canada Business Corporations Act under the name Starrex Mining Corporation Limited. The Company's address is 199 Bay Street, Suite 2200, Toronto, Ontario M5L 1G4. The Company’s primary business is to acquire, manage and grow companies in the United States active in mortgage, real estate and other financial sectors.

These unaudited condensed interim consolidated financial statements were approved by the Audit Committee on behalf of the Board of Directors on November 29, 2016.

2. Restatement of Previously Issues Financial Statements

On November 24, 2016, the Company issued the second restatement of the unaudited condensed interim consolidated financial statements for the period ending September 30, 2015. The Company determined that it held control of the net assets of One Force Staffing, Inc. and Olympia Capital Management, Inc. until August 18, 2015 rather than May 1, 2015 as originally reported.

Immediately before the initial classification as available for sale, the divested entities were measured at the lower of the carrying value less costs to sell. As a result of this assessment, an impairment of goodwill of Olympia Capital Management, LLC was determined to be required in the amount of \$149,301 for the three and nine month period ended September 30, 2015. The restatement impacted the comparative period as at September 30, 2015 and for the period then ended.

3. Significant Accounting Policies

a. *Statement of compliance*

The Company has prepared these unaudited condensed interim consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, employing all of the same accounting policies and methods of computation as disclosed in the restated annual financial statements as at December 31, 2015. The notes to these unaudited condensed interim consolidated financial statements are intended to provide a description of events and transactions that are significant to an understanding to the changes in the Company’s financial position and performance since December 31, 2015. Certain disclosures that appear in the restated annual financial statements have not been produced in the unaudited condensed interim consolidated financial statements and, in this regard only, these unaudited condensed interim consolidated financial statements do not conform in all respects to the requirements of IFRS for annual financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should only be read in conjunction with the restated annual financial statements as at December 31, 2015.

3. Significant Accounting Policies – (continued)

a. Standards issued or amended which will be adopted in future periods

IFRS 9, Financial Instruments (“IFRS 9”) was initially issued by the IASB on November 12, 2009 and issued in its completed version in July 2014, and will replace IAS 39, "Financial Instruments: Recognition and Measurement" (“IAS 39”). IFRS 9 replaces the multiple rules in IAS 39 with a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for financial years beginning on or after January 1, 2018.

IFRS 15, Revenue from Contracts with Customers (“IFRS 15”) was issued by the IASB in May 2014 and clarifies the principles for recognizing revenue from contracts with customers. IFRS 15 will result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (i.e. service revenue and contract modifications) and improve guidance for multiple-element arrangements. IFRS 15 is effective for periods beginning on or after January 1, 2018.

In April 2016, the IASB issued clarifications to IFRS 15, Revenue from contracts with customers. These clarification provide additional clarity on revenue recognition related to identifying performance obligation, application guidance on principal versus agent and licenses of intellectual property. The Company has not yet assessed the impact of this new standard.

IFRS 16, Leases (“IFRS 16”) was issued by the IASB in January 2016 and brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however, remains largely unchanged and the distinction between operating and finance lease is retained. IFRS 16 supersedes IAS 17 ‘Leases’ and related interpretations and is effective for period beginning on or after January 1, 2019, with earlier adoption permitted if IFRS 15 ‘Revenue from Contracts with Customers’ has also been applied.

The Company is currently assessing the effects of these new standards and intends to adopt them on their effective dates.

c. Basis of presentation

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments that have been measured at fair value. In addition, these unaudited condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

3. Significant Accounting Policies – (continued)

d. *Principles of consolidation*

These unaudited condensed interim consolidated financial statements include the Company and its wholly-owned subsidiary Property Interlink, LLC, which was acquired July 9, 2014, and Heinen & Associates LLC, a division of Property Interlink, LLC, which was acquired on November 19, 2014, as well as Brownlee Appraisal Services, Inc., a division of Property Interlink, LLC, which was acquired June 1, 2015. All subsidiaries are 100% owned and controlled by the Company. Subsidiaries are entities controlled by the Company. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are included in the unaudited condensed interim consolidated financial statements from the date control is obtained until the date control ceases. All intercompany balances, transactions, income, expenses, profits and losses, including unrealized gains and losses have been eliminated upon consolidation.

e. *Accounting estimates and judgments*

The preparation of these unaudited condensed interim consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. Areas where estimates are significant to these unaudited condensed interim consolidated financial statements are as follows:

- i. Goodwill is tested for impairment annually or more frequently if there is an indication of impairment. The carrying value of intangible assets with definite lives (software, trade name and customer relationships) and equipment is reviewed each reporting period to determine whether there is any indication of impairment. If the carrying amount of an asset exceeds its recoverable amount, the asset is impaired and an impairment loss is recognized in profit or loss. The assessment of fair values requires the use of estimates and assumptions related to future operating performance and discount rates, differences in these estimates and assumptions could have a significant impact on the unaudited condensed interim consolidated financial statements. No impairment has been recorded for the periods ended September 30, 2016 (December 31, 2015 - \$149,301).
- ii. Significant judgment is involved in the determination of useful life for the computation of depreciation of equipment and amortization of intangible assets. No assurance can be given that actual useful lives will not differ significantly from current assumptions.

Starrex International Ltd.

Notes to Condensed Interim Consolidated Financial Statements

For the periods ended September 30, 2016 and 2015

(Unaudited) (stated in United States dollars)

3. Significant Accounting Policies – (continued)

e. Accounting estimates and judgments

- iii.* Applying the acquisition method to business combinations requires each identifiable asset and liability to be measured at its acquisition date fair value. The excess, if any, of the fair value of consideration over the fair value of the net identifiable assets acquired is recognized as goodwill. The determination of acquisition date fair values often requires management to make assumptions and estimates about future events. The assumptions with respect to fair value of intangible assets requires a high degree of judgment and include estimates for future operating performance, discount rates, technology migration factors and terminal value rates. Specifically, the purchase price allocations described in note 4 required significant estimates.

f. Functional currency

On January 1, 2015, Starrex International Ltd., the parent company, changed its functional currency from the Canadian dollar (“CAD”) to the U.S. dollar (“USD”). This reflects the fact that the majority of the Company’s business is influenced by an economic environment denominated in U.S. currency, as well, the Company earns revenues in U.S. dollars. The change in accounting treatment was applied prospectively. In conjunction with the change in functional currency, the Company changed its presentation currency from CAD to USD.

Transactions denominated in foreign currency (other than the functional currency) are recorded on initial recognition at the exchange rate at the date of the transaction. After initial recognition, monetary assets and liabilities denominated in foreign currency are translated at the end of each reporting period into the functional currency at the exchange rate at that date. Exchange differences, other than those capitalized to qualifying assets or recorded in equity in hedging transactions, are recognized in profit or loss. Non-monetary assets and liabilities measured at cost in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currency and measured at fair value are translated into the functional currency using the exchange rate prevailing at the date when the fair value was determined.

4. Business Combinations*Acquisition of Brownlee Appraisal Services, Inc.*

On June 1, 2015, Property Interlink, LLC, a wholly-owned subsidiary of Starrex International Ltd., completed the acquisition of Brownlee Appraisal Services, Inc., a United States based entity. All of the membership interest of Brownlee Appraisal Services, Inc. were exchanged in consideration of \$67,330, which was satisfied by the issuance of 50,000 common shares of Starrex with a fair value of \$67,330.

The following sets forth the final allocation of the purchase price to assets acquired and liabilities assumed, based on estimates of fair value, including a summary of major classes of consideration transferred, and the recognized amounts of assets acquired and liabilities assumed at the acquisition date:

12. Net Income (Loss) Per share

Basic and diluted income (loss) per share has been calculated based on the weighted average number of common shares outstanding of 14,480,827 for the nine months ended September 30, 2016 (September 30, 2015 – 14,449,875). Stock options were excluded from the calculation of the weighted average number of diluted common shares outstanding because their effect would have been anti-dilutive.

13. Note Payable

On November 19, 2014, Property Interlink, LLC, a subsidiary of Starrex International Ltd. completed the acquisition of Heinen & Associates, LLC, for consideration which included the issuance of a promissory note in the aggregate amount of \$250,000. The promissory note has an interest rate of 4.5% per annum with semi-annual principal payments of \$50,000 and applicable interest starting May 1, 2015 and ending May 1, 2017.

As of September 30, 2016, \$101,886 (December 31, 2015 - \$100,382) of the outstanding balance is due within 1 year and \$Nil (December 31, 2015 - \$50,191) of the balance is due after 1 year. During the period ended September 30, 2016, the Company recorded interest expense of \$4,105 (September 30, 2015 – \$10,144) on the promissory note, which is unpaid and included in the value of the note payable on the condensed interim consolidated statement of financial position at the end of the period.

14. Capital Disclosures

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide return for shareholders and to ensure sufficient resources are available to meet day to day operating requirements.

The Company considers the items included in shareholders' equity as capital, which totals \$2,768,644 as at September 30, 2016 (December 31, 2015 - \$3,408,110). The Company manages its capital structure and makes adjustments to it, in order to have funds available to support its corporate activities. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company is not subject to externally imposed capital requirements and there has been no change in the overall capital risk management strategy during the nine months ended September 30, 2016.

15. Financial Risk Factors

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, notes receivable, accounts payable and accrued liabilities and note payable. As at September 30, 2016, the carrying values and fair values of the Company's financial instruments are approximately the same.

The Company is exposed in varying degrees to a variety of financial instrument related risks:

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. For financial assets, this is typically the gross carrying amount, net of any amounts offset and any impairment losses. In the normal course of business, the Company is exposed to credit risk from its customers and the related accounts receivable are subject to normal industry credit risk. As at September 30, 2016, no allowance for doubtful accounts was recorded (December 31, 2015 – \$Nil). The Company is also subject to credit risk on its note receivable.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available working capital to meet its liquidity requirements. At September 30, 2016, the Company had cash and cash equivalents of \$174,582 (December 31, 2015 - \$176,457) available to settle current financial liabilities of \$944,880 (December 31, 2015 - \$529,880).

Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash maintained at financial institutions is subject to a floating rate of interest. The interest rate risks on cash and on the Company's obligations are not considered significant.

Foreign Currency Risk

The Company is exposed to foreign currency risk on fluctuations related to cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities that are denominated in a foreign currency. As at September 30, 2016, the Company held immaterial amounts of cash and cash equivalents in CDN currency and considers foreign currency low risk.

16. Segmented Disclosures

The Company organizes its reporting structure into two reportable segments. For management purposes, the Company is organized into segments based on their products and services provided. Management monitors the operating results of each segment separately for the purpose of making decisions about resource allocation and performance assessment.

The two reportable operating segments are as follows:

i) Property Interlink, LLC manages appraisal companies and maintains all of the ordering, tracking, administrative duties, and details and ensures the timeliness of appraisals that are handled during a real estate mortgage transaction. Heinen & Associates LLC, which was acquired during the 2014 year and Brownlee Appraisal Services, Inc., which was acquired during the current year, are integrated with the Property Interlink segment.

ii) Starrex International Ltd, or Corporate, manages the wholly-owned subsidiaries, as well as shareholder services and corporate governance.
