

Mistango River Resources – Announces Commencing of the Omega Phase V Drill Program of 4600 meters and a New Phase VI Program of 5400 meters for a total of 10000 meter Campaign.

KIRKLAND LAKE, ONTARIO, September 3, 2019: Mistango River Resources Inc. (CSE: MIS, “Mistango” or the “Company”) is very pleased to announce that the exploration permit for the Omega Property has been received and our drilling contractor is on-site and proceeding with Phase V of our new exploration program. The planned drilling for this phase is 4600 meters. Our consulting geologists, Aduvare Geology and Engineering Ltd. have recommended an additional 5400 meters of Phase VI exploration drilling program for a total of 10000 meters for both programs. The drilling aims to fill in pierce points in the current model and find additional intercepts, potentially leading to upgrading the existing indicated and inferred resource.

Mistango sees great potential opportunities in the Larder mining camp, where the Omega Project is located. There are several mining exploration companies that are active in the Larder camp as they see very good investment opportunities in this area. Mistango’s flagstone, the Omega Project, is the central focus of this camp as it was a past producer. Mistango continues to update the existing resource, thus creating potential for our investors. With the price of gold being US\$1,500 plus per ounce, we believe our shareholders have significant upside potential from the Omega.

Our AGM is scheduled for 10:00 a.m. on September 10, 2019 at our Kirkland Lake head office. We encourage all Mistango shareholders to vote for the Company’s current directors and management team. Your vote for the current directors and management will assist in ensuring that the Company’s Omega exploration campaign continues as planned as the slate of dissident nominees for directors have indicated that they may have other plans for the Omega Property, which could result in Mistango’s shareholders not benefiting from its full potential.

Donald R. Kasner C.O.O, commented:

“We are excited to see the Omega back on line and we hope to continue this campaign for growth of the company and all investors of Mistango.”
