The Company has recently entered into its first national distribution agreement in the United States.

## Inter-Corporate Relationships

As at the date hereof, the Company's corporate structure consists of the following subsidiaries:

## Recent Developments

On April 18, 2021, the Company entered into a non-binding letter of intent with Vaxxinator proposing the Business Combination. On July 14, 2021, the Company entered into the definitive agreement with Vaxxinator, as further amended on August 24, 2021, providing for the definitive terms and conditions of the reverse takeover of the Company by the shareholders of Vaxxinator ("**Vaxxinator Shareholders**") and the change of business of the Company to the business of Vaxxinator.

On November 12, 2021 the Company completed the Business Combination, which was effected by way of a "three-cornered" amalgamation under the BCBCA (the "**Amalgamation**") involving the Company, Vaxxinator and a wholly-owned subsidiary of the Company, 1314092 B.C. Ltd. ("**Subco**"). Conditional to the completion of the Business Combination, the Company consolidated its then Class B shares on a 24.691:1 basis, changed its corporate name from "Consolidated HCI Holdings Corporation" to "Atmofizer Technologies Inc." and continued from the federal jurisdiction under the *Canada Business Corporations Act* to British Columbia under the BCBCA (the "**Continuance**"). Upon adopting new articles under the Continuance, the Company redesignated its Class B shares as Common Shares. In accordance with the terms of the Amalgamation, Vaxxinator Shareholders received one (1) Common Share for each common share of Vaxxinator held and each Vaxxinator common share purchase warrant were cancelled in exchange for warrants of the Company bearing equivalent terms on the same 1:1 basis. The Company received one (1) common share in the amalgamated entity, Atmofizer Canada Inc. ("**Amalco**"), for each common share of Subco held. As consideration for the issuance of the Common Shares to the Vaxxinator Shareholders to effect the Amalgamation, Amalco issued to the Company one (1) additional Amalco common share for each Common Share so issued.

The board of directors of the Company was reconstituted to be comprised of Michael Galloro, Olivier Centner, Peter Simeon and Dr. Joshua Helman and Nareda Mills. Olivier Centner was also appointed as Chief Executive Officer of the Company and Brian Meadows was appointed as Chief Financial Officer and Secretary of the Company.

## COVID-19 Pandemic

The outbreak of the novel coronavirus, commonly referred to as "COVID-19", has spread throughout North America and Europe, causing companies and various international jurisdictions to impose restrictions such as quarantines, business closures and travel restrictions. While these effects are expected to be temporary, the duration of the business disruptions internationally and their impacts on the Company cannot be reasonably estimated at this time.

As of the date of this Prospectus, the Company has successfully continued operations under COVID-19 protocols. COVID-19 has not resulted in any material delays in the development or sales of our products. The Company is not currently experiencing any significant delays or interruptions in service or product delivery. The Company's workforce has successfully transitioned to working remotely during COVID-19. The Company has been able to operate relatively unaffected by the COVID-19 pandemic. The most notable impact has been that certain business development pursuits have taken longer to complete as international travel restrictions have hindered the performance and attendance of live product demonstrations, particularly for the Company's newer products.

Notwithstanding the foregoing, if the Company or its vendors and suppliers are unable to continue operations or keep up with increasing demands as a result of COVID-19, customers may experience delays or interruptions in service or the delivery of products, which may be detrimental to the Company's reputation and business. The Company cautions that it is impossible to fully anticipate or quantify the effect and ultimate impact of the COVID-19 pandemic as the situation is rapidly evolving. The extent to which COVID-19 impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of COVID-19 and the actions taken by governments to contain it or treat its impact, including shelter in place directives, which, if extended, may impact the economies in which the Company now operates, or may in the future operate, key markets into which the Company sells products and delivers services, and markets through which the Company's key suppliers source their products.

For additional information see also "*Risk Factors – Implications of the COVID-19 Pandemic*".

Unless otherwise indicated in the applicable Prospectus Supplement, the Company intends to use the net proceeds from the sale of Securities for working capital requirements or for other general corporate purposes. Each applicable Prospectus Supplement will contain specific information concerning the use of proceeds from that sale of Securities by the Company. Notwithstanding the above, the Company's management has broad discretion in the application of proceeds of an offering of Securities. On the basis of results obtained or for other sound business reasons, the Company may re-allocate funds as required. Accordingly, the Company's actual use of proceeds may vary significantly from any proposed use of proceeds disclosed in any applicable Prospectus Supplement. See "*Risk Factors – Discretion in the Use of Proceeds*".

### DESCRIPTION OF SECURITIES BEING DISTRIBUTED

The following is a brief summary of certain general terms and provisions of the Securities that may be offered pursuant to this Prospectus. This summary does not purport to be complete. The particular terms and provisions of the Securities as may be offered pursuant to this Prospectus will be set forth in the applicable Prospectus Supplement pertaining to such offering of Securities, and the extent to which the general terms and provisions described below may apply to such Securities will be described in the applicable Prospectus Supplement.

## **Common Shares**

The authorized capital of the Company consists of an unlimited number of Common Shares. As at December 3, 2021, the Company had 73,930,270 Common Shares issued and outstanding.

Holders of Common Shares are entitled to dividends if, as and when declared by the board of directors of the Company, to receive notice of and one vote per Common Share at meetings of shareholders and, upon liquidation, dissolution or winding up of the Company, to share rateably in such assets of the Company as are distributable to the holders of Common Shares.

Common Shares may be sold separately or together with certain other Securities under this Prospectus. Common Shares may also be issuable on conversion, exchange, exercise or maturity of certain other Securities qualified for issuance under this Prospectus.

## **Warrants**

Warrants may be offered separately or together with other Securities, as the case may be. Each series of Warrants may be issued under a separate warrant indenture or warrant agency agreement to be entered into between the Company and one or more banks or trust companies acting as Warrant agent or may be issued as stand-alone contracts. The applicable Prospectus Supplement will include details of such agreements, if any, governing the Warrants being offered. The Warrant agent, if any, will be expected to act solely as the agent of the Company and will not assume a relationship of agency with any holders of Warrant certificates or beneficial owners of Warrants. The following sets forth certain general terms and provisions of the Warrants that may be offered under this Prospectus. The specific terms of the Warrants, and the extent to which the general terms described in this section apply to those Warrants, will be set forth in the applicable Prospectus Supplement.

A copy of any warrant indenture or any warrant agency agreement relating to an offering of Warrants will be filed by the Company with the relevant securities regulatory authorities in Canada after it has been entered into by the Company.

Each applicable Prospectus Supplement will set forth the terms and other information with respect to the Warrants being offered thereby, which may include, without limitation, the following (where applicable):

- the designation of the Warrants;
- the aggregate number of Warrants offered and the offering price;

- any terms, procedures and limitations relating to the transferability, exchange or exercise of the Warrants;
- certain material Canadian tax consequences of owning the Warrants; and
- any other material terms and conditions of the Warrants.

## **Units**

The Company may issue Units comprised of one or more of the other Securities described herein in any combination. Each Unit may be issued so that the holder of the Unit is also the holder of each Security included in

the Unit; thus, the holder of a Unit may have the rights and obligations of a holder of each included Security. Any Unit agreement under which a Unit may be issued may provide that the Securities included in the Unit may not be held or transferred separately at any time or at any time before a specified date.

Each applicable Prospectus Supplement will set forth the terms and other information with respect to the Units being offered thereby, which may include, without limitation, the following (where applicable):

- the designation, number and terms of the Units and of the Securities comprising the Units, including whether and under what circumstances those Securities may be held or transferred separately;

## **Debt Securities**

The Debt Securities will be senior or subordinated unsecured indebtedness of the Company as described in the relevant Prospectus Supplement. If the Debt Securities are senior indebtedness, they will rank equally and rateably with all other unsecured indebtedness of the Company, from time to time issued and outstanding, which is not subordinated.

If the Debt Securities are subordinated indebtedness, they will rank equally and rateably with all other subordinated Debt Securities from time to time issued and outstanding. In the event of the insolvency or winding-up of the Company, the subordinated Debt Securities will be subordinated and postponed in right of payment to the prior payment in full of all other liabilities and indebtedness of the Company, other than indebtedness that, by its terms, ranks equally with, or subordinate to, such subordinated Debt Securities.

Any convertible or exchangeable Debt Securities will be convertible or exchangeable only for other securities of the Company.

In conformity with applicable laws of Canada, for all bonds and notes of companies that are publicly offered, the Debt Securities will be governed by a document called an “indenture”. There will be a separate indenture for the senior Debt Securities and the subordinated Debt Securities. An indenture is a contract between a financial institution, acting on your behalf as trustee of the Debt Securities offered, and us. The trustee has two main roles. First, subject to some limitations on the extent to which the trustee can act on your behalf, the trustee can enforce your rights against us if we default on our obligations under the indenture. Second, the trustee performs certain administrative duties for us. The aggregate principal amount of Debt Securities that may be issued under each indenture is unlimited. A copy of the form of each indenture to be entered into in connection with offerings of Debt Securities will be filed with the applicable securities regulatory authorities in Canada when it is entered into. A copy of any indenture or supplement thereto entered into by us will be filed with securities regulatory authorities and will be available on our profile on SEDAR.

This Prospectus does not qualify for issuance Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests including, for example, an equity or debt security, a statistical measure of economic or financial performance including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items. For greater certainty, this Prospectus may qualify for issuance Debt Securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to published rates of a central banking authority or one or more financial institutions, such as a prime rate or bankers’ acceptance rate, or to recognized market benchmark interest rates such as SOFR, EURIBOR or a United States federal funds rate.

Selected provisions of the Debt Securities and the indenture(s) under which such Debt Securities will be issued are summarized below. This summary is not complete. The statements made in this Prospectus relating to any indenture and Debt Securities to be issued thereunder are summaries of certain anticipated provisions thereof and are subject to, and are qualified in their entirety by reference to, all provisions of the applicable indenture. The

indentures will not limit the amount of Debt Securities that we may issue thereunder. We may issue Debt Securities from time to time under an indenture in one or more series by entering into supplemental indentures or by our board of directors or a duly authorized committee authorizing the issuance. The Debt Securities of a series need not be issued at the same time, bear interest at the same rate or mature on the same date.

The Prospectus Supplement for a particular series of Debt Securities will disclose the specific terms of such Debt Securities, including the price or prices at which the Debt Securities to be offered will be issued. The terms and provisions of any Debt Securities offered under a Prospectus Supplement may differ from the terms described below, and may not be subject to or contain any or all of such terms. Those terms may include some or all of the following:

- governing law;
- any limit upon the aggregate principal amount of the Debt Securities of such series that may be authenticated and delivered under the indenture;

## **PLAN OF DISTRIBUTION**

### **General**

The Company may from time to time during the 25-month period that this Prospectus, including any amendments and supplements hereto, remains valid, offer for sale and sell up to an aggregate of \$125,000,000 in Securities hereunder.

The Securities may be sold by us (i) directly pursuant to applicable statutory exemptions, (ii) to or through underwriters or dealers, or (iii) through designated agents. The Prospectus Supplement relating to a particular offering of Securities will identify any underwriter, dealer or agent engaged in connection with the offering and sale of such Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the purchase price of the Securities (or the manner of determination thereof if offered on a non-fixed price basis), the net proceeds to us and any other material terms of the plan of distribution (including sales in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102). Any initial offering price and discounts, concessions or commissions allowed or re-allowed or paid to underwriters, dealers or agents may be changed from time to time. Only underwriters named in the Prospectus Supplement are deemed to be underwriters in connection with our Securities offered by that Prospectus Supplement.

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale, at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers including sales in transactions that are deemed to be “at-the-market” distributions, including sales made directly on the CSE or other existing trading markets for the Securities, in which case the compensation payable to an underwriter, dealer or agent in connection with any such sale will be decreased by the amount, if any, by which the aggregate price paid for the Securities by the purchasers is less

than the gross proceeds paid by the underwriter, dealer or agent to the Company. The price at which the Securities will be offered and sold may vary from purchaser to purchaser and during the period of distribution.

Sales of Securities under an “at-the-market distribution”, if any, will be made pursuant to an accompanying Prospectus Supplement. Sales of Securities under any “at-the-market” program will be made in transactions that are “at-the-market distributions” as defined in NI 44-102. The volume and timing of any “at-the-market distributions” will be determined at the Company’s sole discretion.

No underwriter or dealer involved in an “at-the-market distribution” under this Prospectus, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such an underwriter or dealer will over-allot securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the offered Securities or securities of the same class as the Securities distributed under the “at-the-market distribution”, including selling an aggregate number or principal amount of Securities that would result in the underwriter creating an over-allocation position in the Securities.

In connection with the sale of the Securities, underwriters, dealers or agents may receive compensation from the Company including in the form of underwriters’, dealers’ or agents’ fees, commissions or concessions. Underwriters, dealers and agents that participate in the distribution of the Securities may be deemed to be underwriters for the purposes of applicable Canadian securities legislation and any such compensation that they receive from the Company and any profit that they make on the resale of the Securities, may be deemed to be underwriting commissions.

Underwriters, dealers or agents who participate in the distribution of the Securities may be entitled, under agreements to be entered into with the Company, to indemnification by the Company against certain liabilities, including liabilities under Canadian securities legislation, or to contribution with respect to payments, which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Company in the ordinary course of business.

In connection with any offering of Securities, subject to applicable laws and other than an “at-the-market distribution”, the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions which stabilize, maintain or otherwise affect the market price of the offered Securities at a level other than those which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time.

Unless specified in the applicable Prospectus Supplement, there is no market through which the Subscription Receipts, Warrants, Units and Debt Securities may be sold and purchasers may not be able to resell the Subscription Receipts, Warrants, Units and Debt Securities purchased under this Prospectus and the Prospectus Supplement. This may affect the pricing of the Subscription Receipts, Warrants, Units and Debt Securities in the secondary market, the transparency and availability of trading prices, the liquidity of the Subscription Receipts, Warrants, Units and Debt Securities and the extent of issuer regulation. See “*Risk Factors*”.

## **Offerings in the United States**

Unless otherwise specified in the applicable Prospectus Supplement, this Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Securities to, or for the account or benefit of, persons within the United States or U.S. Persons (as defined in Regulation S under the U.S. Securities Act). Unless otherwise specified in the applicable Prospectus Supplement, the Securities have not been and will not be registered under the U.S. Securities Act or any state securities laws and may not be offered or sold to, or for the account or benefit of, persons within the United States or U.S. Persons, unless the Securities are registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration requirements is available. Each underwriter, dealer and agent who participates in the distribution will agree not to sell or offer to sell or to solicit any offer to buy any Securities to, or for the account or benefit of, persons within the United States or U.S. Persons, except pursuant to an exemption from the registration requirements of the U.S. Securities Act and any applicable state securities laws.

In addition, until 40 days after the commencement of an offering of Securities under any applicable Prospectus Supplement, an offer or sale of Securities within the United States by any dealer (whether or not participating in

the offering of Securities) may violate the registration requirements of the U.S. Securities Act if such offer is made otherwise than in reliance on an exemption from the registration requirements of the U.S. Securities Act.

Investors should read the tax discussion in any Prospectus Supplement with respect to a particular offering and consult their own tax advisors with respect to their own particular circumstances.

### **RISK FACTORS**

**An investment in the Securities involves a high degree of risk and must be considered speculative due to the nature of the Company's business and present stage of development. Before making an investment decision, prospective purchasers of Securities should carefully consider the information described in this Prospectus and the documents incorporated by reference herein, including the applicable Prospectus Supplement. There are certain risks inherent in an investment in the Securities, including the factors described below and under the heading "Risk Factors" in the Annual Information Form and under the heading "Risks Management" in the Annual MD&A, and any other risk factors described herein or in a document incorporated by reference herein, which investors should carefully consider before investing.** Additional risk factors relating to a specific offering of Securities will be described in the applicable Prospectus Supplement. Some of the factors described herein, in the documents incorporated by reference herein, and/or the applicable Prospectus Supplement are interrelated and, consequently, investors should treat such risk factors as a whole. If any of the risk factors described herein, in the Annual Information Form, in another document incorporated by reference herein or in the applicable Prospectus Supplement occur, it could have a material adverse effect on the business, financial condition and results of operations of the Company. Additional risks and uncertainties of which the Company currently is unaware or that are unknown or that it currently deems to be immaterial could have a material adverse effect on the Company's business, financial condition and results of operation. The Company cannot assure purchasers that it will successfully address any or all of these risks. There is no assurance that any risk management steps taken will avoid future loss due to the occurrence of the risks described herein, in the Annual Information Form, in the other documents incorporated by reference herein or in the applicable Prospectus Supplement or other unforeseen risks.

#### ***Implications of the COVID-19 Pandemic***

The ongoing global outbreak of COVID-19 has resulted in governments worldwide enacting emergency measures to protect against the spread of the virus. These measures, which include, among other things, limitations on travel, self-imposed quarantine periods and social distancing measures, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of any government and/or central bank interventions. It is not possible to reliably estimate

the length and severity of these developments and the impact that they could have on the financial results and condition of the Company and its operating subsidiaries in future periods.

Global pandemics (like the COVID-19 Pandemic) and other public health threats, or a fear thereof, could adversely impact our production operations, sales efforts, lead to labour shortages, and severely impact supply chain logistics including travel and shipping disruptions and shutdowns (including as a result of government regulation and prevention measures) affecting production and delivery of the inputs and materials we need to operate and deliver our products to customers. It is unknown whether and how the Company may be affected if such an occurrence persists for an extended period of time but we anticipate that it would have a material adverse effect on our business, operating results and financial performance. In addition, the Company may also be required to incur additional expenses and/or delays relating to such events which could have a further negative impact on our business, operating results and financial performance. The Company is actively addressing the risks to its business from COVID-19 through a broad range of measures throughout its structure and is re-assessing its response to the COVID-19 pandemic on an ongoing basis. For additional information see, *"The Company – Recent Developments – COVID-19 Pandemic"*.

### **Risks Related to the Offering**

#### *An Investment in the Securities is Speculative*

An investment in the Securities and the Company's prospects generally, are speculative due to the risky nature of its business and the present state of its development. Investors may lose their entire investment and should carefully consider the risk factors described below and under the heading *"Risk Factors"* in the Annual Information Form.

#### *Discretion in the Use of Proceeds*

While detailed information regarding the use of proceeds from the sale of the Securities will be described in the applicable Prospectus Supplement, the Company will have broad discretion over the use of net proceeds from an offering by the Company of its securities. There may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary. In such circumstances, the net proceeds will be reallocated at the Company's sole discretion.

Management will have discretion concerning the use of proceeds as described in the applicable Prospectus Supplement as well as the timing of their expenditures. As a result, an investor will be relying on the judgment of management for the application of the proceeds. Management may use the net proceeds described in a Prospectus Supplement in ways that an investor may not consider desirable. The results and the effectiveness of the application of the proceeds are uncertain. If the proceeds are not applied effectively, the Company's results of operations may suffer.

#### *Additional Financing*

The continued development of the Company will require additional financing. There is no guarantee that the Company will be able to achieve its business objectives, including with respect to the expansion of its product offerings, completing future acquisitions, and entering into new markets. The Company intends to fund its business objectives by way of additional offerings of equity and/or debt financing as well as through anticipated positive cash flow from operations in the future. The failure to raise or procure such additional funds or the failure to achieve positive cash flow could result in the delay or indefinite postponement of current business objectives. There can be no assurance that additional capital or other types of financing will be available if needed or that, if available, will be on terms acceptable to the Company. If additional funds are raised by offering equity securities, existing shareholders could suffer significant dilution.

#### *Volatile Market Price of the Common Shares*

The market price of the Common Shares may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond the Company's control. This volatility may affect the ability of holders of such securities to sell their securities at an advantageous price. Market price fluctuations in the Common Shares may be due to the Company's operating results failing to meet expectations of securities analysts or investors in any

period, downward revision in securities analysts' estimates, adverse changes in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by government and regulatory authorities, the Company or its competitors, along with a variety of additional factors. These broad market fluctuations may adversely affect the market price of the Common Shares.

Financial markets have at times historically experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of companies and that have often been unrelated to the operating performance, underlying asset values or prospects of such companies. Accordingly, the market price of the Company's securities may decline even if the Company's operating results, underlying asset values or prospects have not changed. Additionally, these factors, as well as other related factors, may cause decreases in asset values that are deemed to be other than temporary, which may result in impairment losses. There can be no assurance that continuing fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil continue, the Company's operations could be adversely impacted and the trading price of the Common Shares may be materially adversely affected.

#### *Risk Factors Related to Dilution*

The Company may issue additional Common Shares or securities that are convertible or exchangeable into Common Shares in the future, which may dilute a shareholder's holdings in the Company. The Company's articles permit the issuance of an unlimited number of Common Shares, and shareholders will have no pre-emptive rights in connection with such further issuance. The directors of the Company have discretion to determine the price and the terms of further issuances. Moreover, additional Common Shares will be issued by the Company on the exercise of options under the Company's stock option plan and upon the exercise of any issued and outstanding common share purchase warrants.

#### *Market for Securities*

There is currently no market through which the Securities, other than the Common Shares, may be sold. As a consequence, purchasers may not be able to resell the Warrants, Units, Debt Securities or Subscription Receipts purchased under this Prospectus and any Prospectus Supplement. This may affect the pricing of the Securities, other than the Common Shares, in the secondary market, the transparency and availability of trading prices, the liquidity of these securities and the extent of issuer regulation. There can be no assurance that an active trading market for the Securities, other than the Common Shares, will develop or, if developed, that any such market, including for the Common Shares, will be sustained. Shareholders of the Company may be unable to sell significant quantities of Common Shares into the public trading markets without a significant reduction in the price of their Common Shares, or at all. There can be no assurance that there will be sufficient liquidity of the Common Shares on the trading markets, or that the Company will continue to meet the listing requirements of the CSE or any other public stock exchange.

#### *Profitability*

There is no assurance that the Company will earn profits in the future, or that profitability will be sustained. The Company's industry requires significant financial resources, and there is no assurance that future revenues will be sufficient to generate the funds required to continue the Company's business development and commercial activities. If the Company does not have sufficient capital to fund its operations, it may be required to reduce its research and development efforts or in the future reduce its marketing efforts or forego certain business opportunities.

#### *Debt Securities*

The Debt Securities may be unsecured and will rank equally in right of payment with all of the Company's other existing and future unsecured debt. The Debt Securities may be effectively subordinated to all of the Company's existing and future secured debt to the extent of the assets securing such debt. If the Company is involved in any bankruptcy, dissolution, liquidation or reorganization, the secured debt holders would, to the extent of the value of the assets securing the secured debt, be paid before the holders of unsecured debt securities, including the debt securities. In that event, a holder of Debt Securities may not be able to recover any principal or interest due to it under the Debt Securities.

In addition, the collateral, if any, and all proceeds therefrom, securing any Debt Securities may be subject to higher priority liens in favor of other lenders and other secured parties which may mean that, at any time that any obligations that are secured by higher ranking liens remain outstanding, actions that may be taken in respect of the collateral (including the ability to commence enforcement proceedings against the collateral and to control the conduct of such proceedings) may be at the direction of the holders of such indebtedness.

### **PROMOTERS**

The Company does not have any "promoters" as the term is contemplated under applicable corporate and securities laws.

### **LEGAL MATTERS**

Certain legal matters in connection with the offering of the Securities will be passed upon by Gowling WLG (Canada) LLP on behalf of the Company. As at the date hereof, the designated professionals of Gowling WLG (Canada) LLP, as a group, beneficially own, directly or indirectly, less than one percent of the securities of the Company.

### **AUDITORS, TRANSFER AGENT AND REGISTRAR**

Davidson & Company LLP have confirmed that they are independent of the Company within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and any applicable legislation or regulation.

The registrar and transfer agent for the Common Shares is Odyssey Trust Company with an office at 1230 – 300 5th Avenue SW, Calgary AB, T2P 3C4.

### **STATUTORY AND CONTRACTUAL RIGHTS OF WITHDRAWAL AND RESCISSION**

Unless provided otherwise in a Prospectus Supplement, the following is a description of a purchaser's statutory rights. Securities legislation in certain of the provinces and territories of Canada provides purchasers of the Securities with the right to withdraw from an agreement to purchase the Securities, which right may be exercised within two business days after receipt or deemed receipt of this Prospectus, the accompanying Prospectus Supplement and any amendment relating to the Securities purchased by a purchaser. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price, or damages if the prospectus, prospectus supplement, and any amendment relating to securities purchased by a purchaser contains a misrepresentation or are not sent or delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

Original purchasers of Securities under this Prospectus (as supplemented or amended) that are convertible, exchangeable or exercisable securities will be granted a contractual right of rescission against the Company in respect of the conversion, exchange or exercise of such Securities. The contractual right of rescission will entitle such original purchasers to receive, in addition to the amount paid on original purchase of any Securities, the amount paid upon conversion, exchange or exercise, upon surrender of the underlying securities gained thereby, in the event that this Prospectus (as supplemented or amended) contains a misrepresentation, provided that both the conversion, exchange or exercise occurs, and the right of rescission is exercised, within 180 days of the date of the purchase of the Securities under this Prospectus (as supplemented or amended).

Purchasers of securities distributed under an "at-the-market distribution" by the Company do not have the right to withdraw from an agreement to purchase the securities and do not have remedies of rescission or, in some jurisdictions, revisions of the price, or damages for non-delivery of the Prospectus, a Prospectus Supplement, and any amendment relating to the securities purchased by such purchaser because the Prospectus, a Prospectus Supplement, and any amendment relating to the securities purchased by such purchaser will not be sent or delivered, as permitted under Part 9 of NI 44-102.

Any remedies under securities legislation that a purchaser of securities distributed under an "at-the-market distribution" by the Company may have against the Company or its agents for rescission or, in some jurisdictions, revisions of the price, or damages if the Prospectus, a Prospectus Supplement, and any amendment relating to securities purchased by a purchaser contain a misrepresentation will remain unaffected by the non-delivery of the Prospectus or a Prospectus Supplement. A purchaser should refer to applicable securities legislation for the particulars of these rights and should consult a legal adviser.

In an offering of Securities, to the extent such securities are convertible, exchangeable or exercisable securities, investors are cautioned that the statutory right of action for damages for a misrepresentation contained in the Prospectus (as supplemented or amended) is limited, in certain provincial and territorial securities legislation, to the price at which the Securities are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces and territories of Canada, if the purchaser pays additional amounts upon conversion, exchange or exercise, as applicable, of the Security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces and territories of Canada. The purchaser should refer to any applicable provisions of applicable provincial or territorial securities legislation for the particulars of this right of action for damages or consult with a legal advisor.
