Notes to the Condensed Consolidated Interim Financial Statements (unaudited)

For the Nine Months Ended September 30, 2021

(Expressed in United States Dollars)

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Vaxxinator Enterprises Inc. (“Vaxxinator” or the “Company”) was incorporated by Certificate of Incorporation issued pursuant to the provisions of the British Columbia Business Corporations Act on September 30, 2019. The Company is a biotechnology products company that researches, develops, and distributes proprietary and patented air purification and surface coatings (anti-viral products). The Company’s products are developed and manufactured with patented technology developed by leading a German scientist. The Company’s technologies are disruptive in nature and solve the real-world problems such as eliminating viruses and bacteria. The head office and the registered address of the Company is located at Suite 2300 - 550 Burrard Street, Vancouver, BC V6C 2B5. On October 14, 2020, The Better Tomorrow Project LLC (formerly Vaxxinator USA LLC) (“Vaxx USA”), a wholly-owned subsidiary of the Company, was incorporated under the laws of Florida. On February 22, 2021, Vaxxinator Lease Co., LLC (“Vaxx Lease”), of which 60% interest is held by Vaxx USA, was incorporated under the laws of the State of Nevada.

These unaudited condensed consolidated interim financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company’s ability to continue operations and fund future business activities is dependent on management’s ability to secure additional financing, and to generate profit through its operations. Management is actively pursuing additional sources of financing and sales opportunities. However, there is no assurance that they will be able to do so successfully. As such, these material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern. If the going concern assumption is not appropriate for these consolidated financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, and the reported profit or loss and financial position classifications used. Such adjustments could be material.

Business combination

The Company and Atmofizer Technologies Inc. (formerly Consolidated HCI Holdings Corporation) (“Atmofizer”) entered into the Business Combination Agreement (BCA) dated effective July 15, 2021 for the purpose of effecting the Business Combination, pursuant to which Atmofizer will acquire all of the issued and outstanding common shares the Company. Completion of the transactions contemplated in the BCA will result in the reverse takeover (the “RTO”) of Atmofizer by Vaxxinator. The RTO was completed on November 12, 2021.

The RTO was effected by way of a “three-cornered” amalgamation involving the Company and Atmofizer under the Business Corporations Act (British Columbia) (the “BCBCA” and the “Amalgamation”). Immediately prior to the Amalgamation, Atmofizer consolidated its then Class B shares on 24.691:1 basis (the “Consolidation”), changed its name from “Consolidated HCI Holdings Corporation” to “Atmofizer Technologies Inc.” and was continued from a corporation existing under the Canada Business Corporations Act to a company existing under the BCBCA (the “Continuance”). Concurrent with the Continuance, Atmofizer re-designated its then class B shares to its common shares (“Atmofizer Common Shares”). As a result of the Amalgamation, (i) all issued and outstanding common shares of the Company (“Vaxxinator Shares”) were exchanged for Atmofizer Common Shares on a 1:1 basis; and (ii) all outstanding warrants and options to purchase Vaxxinator Shares were exchanged on an equivalent basis for warrants and options to purchase Atmofizer Common Shares. In connection with the closing of the RTO, Atmofizer paid a finder’s fee to an arm’s length party (the “Amalgamation Finder’s Fee”). Amalgamation Finder’s Fee was satisfied through the issuance of 833,333 Atmofizer Common Shares. As a result of the completion of the RTO, former holders of Vaxxinator Shares (“Vaxxinator Shareholders”) hold approximately 97.74% of the issued and outstanding Atmofizer Common Shares, and pre-RTO shareholders of Atmofizer now 1.13% of Atmofizer Common Shares, in each case, on a non-diluted basis, based on an aggregate of 73,880,271 Atmofizer Common Shares currently issued and outstanding.

1. CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS (CONTINUED)

Business combination (continued)

Due to certain contractual lock-up agreements between former Vaxxinator Shareholders and Vaxxinator, an aggregate of 39,791,603 Atmofizer Common Shares issued to former Vaxxinator Shareholders are locked up from trading and will be gradually released from lockup over a period of 18 months from the listing of the Atmofizer Common Shares on the Canadian Securities Exchange (the "CSE").

COVID-19

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or results of operations at this time.

2. SIGNIFICANT ACCOUNTING STANDARDS AND BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These unaudited condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting.

Basis of presentation

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2020.

New accounting standards

There were no new or amended IFRS pronouncements effective January 1, 2021 that impacted these condensed consolidated interim financial statements.

There were no significant changes in accounting policies applied by the Company in these condensed consolidated interim financial statements compared to those used in the most recent annual consolidated financial statements of December 31, 2020, except for the followings:

Vaxxinator Enterprises Inc.

2. SIGNIFICANT ACCOUNTING STANDARDS AND BASIS OF PREPARATION (CONTINUED)**New accounting standards (continued)****Leases (Note 3)**

In case of lease contracts based on which the Company is acting as a lessor each of its leases is classified as either operating or finance lease. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership to the lessee. Examples of situations where the risks and rewards of ownership are considered as having been transferred to the lessee are as follows:

- the lease transfers ownership of the underlying asset to the lessee by the end of the lease term;
- the lessee has the option to purchase the underlying asset at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable for it to be reasonably certain, at the inception date, that the option will be exercised;
- the lease term is for the major part of the economic life of the underlying asset even if title is not transferred;
- at the inception date, the present value of the lease payments amounts to at least substantially all of the fair value of the underlying asset; or
- the underlying asset is of such a specialized nature that only the lessee can use it without major modifications.

Intangible assets (Note 8)

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognized at cost. Indefinite life intangible assets are not amortized and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortization and any impairment. The gains or losses recognized in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortization method or period.

During the nine months ended September 30, 2021, no amortization was charged on the intellectual property as it is not ready for use.

These unaudited condensed consolidated interim financial statements of the Company for the nine months ended September 30, 2021 were approved by the Board of Directors on December 31, 2021.

3. FINANCE LEASE RECEIVABLES**Finance lease arrangements**

The Company through its subsidiary, Vaxx Lease, entered into various lease arrangements (the "Leases") as a lessor that are considered to be finance leases. The Company leases equipment and as they transfer substantially all of the risks and rewards of ownership of the assets they are classified as finance leases.

On October 29, 2021 (the "Termination Date"), the Company entered into a termination agreement with the lessee to terminate the Lease effective on the Termination Date.

Pursuant to the termination agreement, the lesser is required to make a payment of \$44,692 plus applicable taxes (the "Settlement Payment") (received subsequent to September 30, 2021) to the Company within 30 days of the Termination Date. In addition, the leased assets will be returned to the Company. As a result of the termination agreement, the Company revised the finance lease receivable as of September 30, 2021 to the pre-tax Settlement Payment recognized an impairment of lease receivable of \$4,756 during the nine months ended September 30, 2021.

8. INTELLECTUAL PROPERTY**2020 Intellectual Property Licensing Agreements**

On September 16, 2020, the Company entered into two intellectual property agreements with two arm's length parties, Vaxxinator Coating B.V. ("Vaxxinator Coating") and Vaxxinator Air B.V. ("Vaxxinator Air"), to acquire co-ownership rights to certain surface coating products and air purification products (the "2020 IP Agreements"). As consideration under the 2020 IP Agreements, during the year ended December 31, 2020, the Company issued 7,500,000 common shares with fair value of \$150,000. The 2020 IP Agreements were further amended on May 17, 2021.

Pursuant to IAS 38 "Intangible Assets", the 2020 IP Agreements did not meet the criterion for recognized as intangible assets; as a result, the Company recognized the \$150,000 as of research and development expenses during the year ended December 31, 2020.

2021 Intellectual Property Licensing Agreements

On May 17, 2021, the Company entered into additional intellectual property agreements with Vaxxinator Coating, Smart Material Printing B.V. ("Smart Material") and Windplussonne GmbH ("Windplussonne") for the exclusive use of certain air purification technology (the "2021 IP Agreements"). As consideration under 2021 IP Agreements, the Company issued 7,600,000 common shares with fair value of \$3,800,000 and paid cash in the aggregate amount of \$5,446,000 (€4,500,000).

The 2021 IP Agreements consist of two (2) upstream exclusive licenses granted by each of Smart Material and Windplussonne to Vaxxinator Coating, with each agreement effective as of May 17, 2021. Contemporaneously, Vaxxinator Coating licensed the technologies of Smart Material and Windplussonne to Vaxxinator in a downstream exclusive license to Vaxxinator. There are two further addendums to the downstream license dated May 17, 2021 and June 22, 2021. The 2021 IP Agreements have a common feature that the license fields include (i) air and water purification technology capable of removing viruses, bacteria, Ultrafine Particles including mold and spores through aggregation; and (ii) thin coating with virucidal and bactericidal materials for use in combatting viruses and bacteria on surfaces (the "Licensed Fields").

12. SEGMENTED INFORMATION

During the nine months ended September 30, 2021, the Company was operating only in the air-purification segment.

13. CAPITAL MANAGEMENT

The Company's objective when managing capital is to maintain adequate levels of funding in order to safeguard the Company's ability to continue as a going concern, fund its planned activities and commitments and retain financial flexibility to respond to unforeseen future events and circumstances. The Company manages and makes adjustments to its capital structure based on the level of funds on hand and anticipated future expenditures. To maintain or adjust its capital structure, the Company may issue new equity instruments, new debt, or acquire and/or dispose of assets.

Management reviews its capital management approach on an ongoing basis. There were no changes in the Company's approach to capital management during the nine months ended September 30, 2021.

The Company is not subject to any externally imposed capital restrictions.

14. FINANCIAL INSTRUMENTS**Fair value**

The carrying values of cash, amounts receivable, accounts payable and accrued liabilities approximate their fair values due to the relatively short period to maturity of those financial instruments. The carrying value of the Company's finance lease receivables approximates its fair value as it has been discounted with implicit interest rate.

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

As at September 30, 2021 and December 31, 2020, the financial instrument recorded at fair value on the consolidated statement of financial position is cash which is measured using Level 1 of the fair value hierarchy.

Set out below are the fair value of the Company's financial assets and financial liabilities by category:

14. FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management (continued)

Credit risk

Credit risk is such that a counterparty to a financial instrument will not discharge its obligations resulting in a financial loss to the Company. The Company has procedures in place to minimize its exposure to credit risk.

Company management evaluates credit risk on an ongoing basis including counterparty credit rating and activities related to receivables and other counterparty concentrations as measured by amount and percentage.

The primary sources of credit risk for the Company arise from cash, amounts receivable and finance lease receivable. The Company's maximum exposure to credit risk is minimal as cash is deposited with reputable financial institutions.

The majority of the amounts receivable are due from a government agency.

For finance lease receivable, the Company deals with creditworthy counterparties to mitigate the risk of financial loss from defaults. The Company monitors the credit risk of customers through credit rating reviews.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due. As of September 30, 2021, the Company had cash of \$5,135,825 to meet short-term business requirements. As of September 30, 2021, the Company had accounts payable and accrued liabilities of \$395,587.

Market risk

The significant market risks to which the Company is exposed are interest rate risk, currency risk, other price risk, and commodity price risk.

- Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk as no financial instruments of the Company as of September 30, 2021 are interest-bearings.

- Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars. The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash, amounts receivable and accounts payable and accrued liabilities are held in USD, Canadian Dollars ("CA\$"), and European Dollar ("Euro" or "€"); therefore, CA\$ and Euro accounts are subject to fluctuation against the Canadian dollar.

14. FINANCIAL INSTRUMENTS (CONTINUED)**Financial risk management (continued)****Market risk (continued)**

- Currency risk (continued)**

The Company had the following balances in foreign currency as at September 30, 2021:

	US\$	CA\$	EURO\$
Cash	5,091,865	55,871	-
Amounts receivable	33,759	60,467	-
Finance lease receivables	44,692	-	-
Accounts payable and accrued liabilities	(148,126)	(303,489)	(7,484)
	5,022,190	(187,151)	(7,484)
Rate to convert to \$1.00 USD	1.00000	0.78681	1.15888
Equivalent to USD	5,022,190	(147,252)	(8,673)

Based on the above net exposures as at September 30, 2021, and assuming that all other variables remain constant, a 10% appreciation or depreciation of the USD against the CAD and EURO would increase/decrease comprehensive loss by \$15,000.
