## **THIRD QUARTER FINANCIAL AND OPERATING RESULTS SUMMARY**

While the Company's revenue continued to decline as expected as its Chinese operations prepare to embrace the Company's new data-centric business model, the Company got one step closer to that new business model with the beta launch of its Cubeler Business Hub's Networking and Advertising modules shortly following the end of the quarter. This announced that the Company would be in position to add a sufficient number of SMEs to the Business Hub during the last quarter of 2024 in order to be able to commercially launch the Company's first data driven ie-Pulse product.

In summary, the Company generated revenue of \$205,582 for the three-month period and \$1,685,160 for the nine-month period ended September 30, 2024, compared to \$9,244,460 for the three-month period and \$35,514,978 for the nine-month period ended September 30, 2023.
