

Tenet's Cubeler Business Hub Adds NewCo Capital Group to Its Growing List of International Financial Partners

Toronto, Ontario--(Newsfile Corp. - April 25, 2025) - Tenet Fintech Group Inc. (CSE: PKK) (OTCQB: PKKFF) ("Tenet" or the "Company"), an innovative analytics service provider, owner and operator of the Cubeler® Business Hub, today announced that its operating subsidiary Cubeler Inc. ("Cubeler") and American alternative commercial financing provider NewCo Capital Group ("NewCo") have entered into a referral agreement to bring more financing options to Business Hub members.

Headquartered in Miami, Florida, NewCo (<https://www.newcocapitalgroup.com>) is part of a multinational collaboration alongside Bizcap, a leading provider of business loans in Australia, New Zealand, the UK, and Singapore. NewCo and Bizcap are part of a new generation of alternative commercial financing providers leveraging technology to rapidly and responsibly extend capital to small and medium-sized businesses globally. NewCo and Bizcap have safely deployed over \$2 billion in capital to over 45,000 businesses to help them grow, create jobs, and make valuable contributions to their respective communities. In Canada, capital of up to CAD \$2,000,000 can be accessed either as a one-time advance of working capital or as a flexible "[Line of Capital](#)" that allows business clients to incrementally access funds up to a pre-approved limit. As part of this offering, NewCo Canada also provides loans in excess of \$500,000, designed to meet the needs of businesses seeking financing through a more conventional structure. By partnering with the Cubeler Business Hub, NewCo can now simply enter the qualification criteria for its financing products into its dedicated Business Hub credit management account to find qualified business clients to lend to.

"As our presence grows across Canada, our partnership with Tenet Fintech is a testament to the meaningful work we're doing to reshape access to capital for Canadian entrepreneurs," said Bruce Gurvitsch, Chief Revenue Officer at NewCo Capital Group. "Through our integration with the Cubeler® Business Hub, we're enhancing our ability to deliver fast, flexible working capital solutions directly to the small and medium-sized businesses that drive the Canadian economy. This collaboration goes beyond integration; it reflects NewCo's commitment to delivering meaningful impact by providing the capital Canadian businesses need to grow, thrive, and lead in their industries."

Building on this foundation, NewCo's leadership emphasizes a more hands-on, merchant-focused approach to serving Canadian businesses.

"This partnership is about more than just market expansion, it's about building direct, meaningful relationships with Canadian merchants," said Albert Gahfi, CEO of NewCo Capital Group and Co-Founder of Bizcap. "Through the Cubeler® Business Hub, we're able to connect directly with business owners, understand their unique challenges, and deliver funding solutions that are both practical and personalized. It's a hands-on approach that reflects our belief that access to capital should be as straightforward and supportive as possible."

The Company believes that this alignment of personalized funding with platform-driven discovery is exactly what makes the partnership so impactful for the Business Hub and its members.

"I don't know many entrepreneurs who don't think business development is important to their long-term success," commented Fredi Tasciyan, Director of Strategic Partnerships and Financial Institutions at Cubeler. "If we're going to continue to position the Business Hub as the ultimate business development platform for entrepreneurs, we have to make sure we continue to bring the best funding options to our members wherever they happen to be located. This partnership with NewCo checks off two important boxes for us in that regard. First, when it comes to funding options, we believe NewCo's Line of Capital product has the potential to be very popular on the platform based on what we've been hearing from our members. Second is the fact that, in addition to servicing North American business clients, NewCo is

able to provide capital to businesses operating in Asia. This could prove to be a significant value-added feature of the platform for both North American and Asian members of the Business Hub once the platform's cross-border networking functionalities are enabled," concluded Mr. Tasciyan.

Forward-looking information

Certain statements in this press release constitute forward-looking statements within the meaning of

applicable securities laws. Forward-looking statements are frequently characterized by words such as "plan", "continue", "expect", "project", "intend", "believe", "anticipate", "estimate", "may", "will", "potential", "proposed" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are not guarantees of future performance and involve risks, uncertainties and other factors which may cause actual results, performance or achievements of Tenet to be materially different from the outlook or any future results, performance or achievements implied by such statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements. Important risk factors that could affect the forward-looking statements in this news release include, but are not limited to, holding company with significant operations in China; general economic and business conditions, including factors impacting the Company's business in China such as pandemics and COVID-19; legislative and/or regulatory developments; Global Financial conditions, repatriation of profits or transfer of funds from China to Canada, operations in foreign jurisdictions and possible exposure to corruption, bribery or civil unrest; actions by regulators; uncertainties of investigations, proceedings or other types of claims and litigation; timing and completion of capital programs; liquidity and capital resources, negative operating cash flow and additional funding, dilution from further financing; financial performance and timing of capital; and other risks detailed from time to time in reports filed by Tenet with securities regulators in Canada. Reference should also be made to Management's Discussion and Analysis (MD&A) in Tenet's annual and interim reports, Annual Information Form, filed with Canadian securities regulators and available via the System for Electronic Document Analysis and Retrieval (SEDAR+) under Tenet's profile at www.sedarplus.ca, for a description of major risk factors relating to Tenet. Although Tenet has attempted to identify certain factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended.

Forward-looking statements reflect information as of the date on which they are made. The Company assumes no obligation to update or revise forward-looking statements to reflect future events, changes in circumstances, or changes in beliefs, unless required by applicable securities laws. In the event the Company does update any forward-looking statement, no inference should be made that the Company will make additional updates with respect to that statement, related matters, or any other forward-looking statement.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.
