

Cardinal Capital Partners Inc.

Management Discussion & Analysis

Dated: April 29, 2016

The following information should be read in conjunction with the Cardinal Capital Partners Inc. audited consolidated financial statements for the years ended December 31, 2015 and 2014, which are prepared in accordance with International Financial Reporting Standards ("IFRS"). All figures are expressed in Canadian dollars unless otherwise indicated.

Cardinal Capital Partners Inc. ("the Company" or "Cardinal") was a merchant bank that assumed the role of participating lender in the acquisition, development, sales and management of real estate properties that met a predetermined set of guidelines within North American markets. On September 30, 2009 the Company ceased its operations upon the sale of its wholly owned subsidiary Global Development Resources, Inc. (USA) ("GDR USA"). As a result of the sale of GDR USA, the Company no longer has continuing operations.

On May 30, 2014 the Company announced that it has entered into a non-binding letter of intent (the "LOI") with Cogonov Inc. ("Cogonov"), a private Ontario corporation. The Transaction was terminated in October 2015.

In December 2015, the Company announced that it plans to reactivate its merchant banking operations from prior years. The reactivation is subject to a number of conditions, including but not limited to, TSXV acceptance and a debt or equity financing. There can be no assurance that the reactivation will be completed as proposed or at all.

Critical Accounting Estimates

The preparation of the accompanying consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the period. While management believes that the estimates and assumptions are reasonable, actual results may differ materially from those estimates.

Financial Instruments

Financial assets are classified into one of four categories: fair value through profit or loss, held-to-maturity, loans and receivables and available-for-sale; financial liabilities are classified into one of two categories: fair value through profit or loss and other financial liabilities. The subsequent treatment of changes in fair value depends on their initial classification, as follows: fair value through profit or loss financial assets are measured at fair value and changes in fair value are recognized in net income or loss; available-for-sale financial assets are measured at fair value with changes in fair value recorded in other comprehensive income or loss until the investment is derecognized or impaired at which time the amounts are recorded in net income or loss.

Cash is designated as loans and receivables and is measured at amortized cost. Interest and loan fees receivable and bridge loans and notes receivable are designated as loans and receivables which are measured at amortized cost, subject to impairment reviews. Accounts payable, accrued liabilities and notes payable are designated as other financial liabilities which are measured at amortized cost. The fair values of all financial instruments outstanding as at December 31, 2015 approximate their carrying value.

Risks and Uncertainties

Risk Management

The success of Cardinal is dependent upon its ability to assess and manage all forms of risk that affect its operations. Cardinal is exposed to many factors that could adversely affect its business, financial conditions or operating results. Developing policies and procedures to identify risk and the implementation of appropriate risk management policies and procedures is the responsibility of senior management and the Board of Directors. The Board directly, or through its committees, reviews and approves these policies and procedures, and monitors their compliance with them through ongoing reporting requirements. A description of the Company's most prominent risks follows.

Liquidity Risk

Liquidity risk is the risk that the Company will not have sufficient cash to meet its obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due.

As at December 31, 2015, the Company had current assets of \$795 (December 31, 2014 - \$4,395) to settle current liabilities of \$61,965 (December 31, 2014 - \$50,829). All of the Company's financial liabilities have contractual maturities of less than one year. Management is continuing to follow up on additional financing opportunities in order to secure sufficient working capital to meet its operational requirements and be able to pay its existing liabilities. However, there can be no assurance that the Company will be able to obtain sufficient funds continue to fund its operations.

Credit Risk

The credit risk relates to the cash on hand, which is held in a single financial institution.
