

FOR IMMEDIATE RELEASE

**BRS RESOURCES ANNOUNCES DRILLING OF
GRADIZZA EXPLORATION WELL**

DALLAS, TEXAS—August 14, 2013: BRS Resources Ltd. (TSX.V:BRS) is pleased to announce that Po Valley Energy (ASX:PVE) commenced drilling on the Gradizza-1 exploration well in the La Prospera permit (north of Bologna in Italy's Po Valley) on August 13, 2013. BRS is participating in the well through its membership interest in AleAnna Resources LLC. As previously announced, AleAnna and PVE executed a farm-in agreement which allowed AleAnna to earn a 10% interest in the Gradizza prospect.

The drilling contractor company, LP Drilling Srl, is using a hydraulic "Corsair 300" rig, with drilling operations scheduled to reach the potential gas bearing sands target in approximately 10 days. The Gradizza prospect is targeting a Quaternary sandstone at a total measured depth of 3,280 ft (1,000 m).

AleAnna Resources holds a large acreage position onshore Italy with nine exploration permits and three permit applications in the Po Valley and Bradano basins, totaling more than 800,000 acres.

ABOUT BRS RESOURCES LTD.

Disclaimer for Forward- Looking Statements

This press release includes certain "Forward-Looking Statements." Forward-looking statements are statements or projections that involve various risks and uncertainties regarding future events related to the Company's and/or AleAnna's plans. Forward-looking statements in this news release include statements regarding: (i) AleAnna's proposed drilling prospects and the estimated

timing of same; (ii) AleAnna's reserve potential and expected economics; (iii) AleAnna's discussions with working-interest partners and participation by other parties in the exploration of its projects; and (iv) AleAnna's future drilling goals generally. Actual results may differ materially from those currently anticipated due to a number of factors beyond the control of the Company and AleAnna. These risks and uncertainties include, among other things, any negative change in the law, regulatory or political environment which would negatively affect BRS/AleAnna's ability to obtain permits necessary for drilling, BRS/AleAnna's lack of sufficient financing to proceed with proposed drilling, the continued price and demand for natural gas, BRS's ability to hire and retain personnel necessary to successfully operate its business, the speculative nature of natural resource exploration activities, changes in the operating costs, changes in economic conditions and conditions in the resource, foreign exchange and other financial markets, changes in the investments and exploration expenditure levels, litigation, legislation, environmental, judicial, regulatory, political and competitive developments in areas in which BRS operates, technological, mechanical and operational difficulties encountered in connection with the BRS' activities; and other risk factors detailed in BRS' various filings filed on Sedar at www.sedar.com. You are urged to consider these factors carefully in evaluating the forward-looking statements contained herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by these cautionary statements. These forward-looking statements are made as of the date hereof disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise.
