## INTRODUCTION

This Management's Discussion and Analysis ("MD&A") is intended to help the reader understand Eco Oro Minerals Corp. ("Eco Oro", "we", "our" or the "Company"), our operations, financial performance, and current and future business environment. This MD&A is intended to supplement and complement the consolidated financial statements and notes thereto prepared in accordance with International Financial Reporting Standards ("IFRS") for the year ended December 31, 2021. This MD&A should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2021, which are available on the SEDAR website at [www.sedar.com](http://www.sedar.com).

This MD&A is prepared as of April 29, 2022. All dollar amounts in this MD&A are expressed in thousands of Canadian dollars, unless otherwise specified. United States dollars and Colombian pesos are referred to as "US\$" and "COP," respectively.

## OVERVIEW

Eco Oro is a Canadian publicly-listed, precious metals exploration and development company. For over two decades, the Company's primary focus was its wholly-owned Angostura gold-silver deposit (the "Angostura Project"), located in the northeastern part of the Republic of Colombia ("Colombia"), as granted under Concession Contract 3452 and its predecessor titles, during which time it invested a significant amount in the project's development and in that of the surrounding communities. Historically, the Company aimed to maximize long-term value for its shareholders by developing its Angostura Project and its satellite prospects through to construction and mining. Despite the Company having diligently complied with Colombian regulations and its obligations under its mining titles, past measures of Colombia have deprived Eco Oro of its rights and rendered the Angostura Project unviable. As explained below, these measures are now the subject of a dispute between Eco Oro and Colombia under the Free Trade Agreement between Canada and Colombia signed on November 21, 2008 (the "Free Trade Agreement").

Because of Colombia's measures, the Company filed a request for arbitration (the "Request for Arbitration") with the World Bank's International Centre for Settlement of Investment Disputes ("ICSID") against Colombia on December 9, 2016 ("ICSID Arbitration"). The ICSID Arbitration is ongoing.

While the Company's primary objective was historically the development of the Angostura Project, in light of Colombia's measures, the ICSID Arbitration is now the core focus of the Company.

## HIGHLIGHTS

- On January 19, 2021, Cameron Brown was appointed to the Company's board of directors (the "Board") to fill the vacancy created by the retirement of Anna Stylianides from the Board.
- During the year ended December 31, 2021, the Company implemented a cost reduction program, including the termination of 15 employees in Colombia. The Company may re-engage such employees as consultants on an as-needed basis.
- On September 9, 2021, the arbitral tribunal constituted in the ICSID Arbitration (the "Tribunal") issued a Decision on Jurisdiction, Liability and Directions on Quantum (the "Decision") pursuant to the investment protection chapter of the Free Trade Agreement. The Tribunal found that Colombia had breached Article 805 of the Free Trade Agreement in its treatment of Eco Oro's investment in the Angostura Project, which the Company was

pursuing in connection with Concession Contract 3452. The Tribunal has requested further submissions from the parties on damages related issues and, consequently, the ICSID Arbitration remains ongoing.

- On October 14, 2021, Pierre Amariglio was appointed to the Board to fill the vacancy created by the resignation of Blair Wallace.

## ICSID ARBITRATION

### Status of the ICSID Arbitration

In the ICSID Arbitration, Eco Oro seeks compensation for all of the loss and damage resulting from Colombia's wrongful conduct and its breaches of the protections set forth in the Free Trade Agreement against unfair and inequitable treatment in respect of the Angostura Project, as discussed further below.

On December 9, 2016, Eco Oro filed the Request for Arbitration against Colombia with ICSID. The claim relates to Colombia's measures which have deprived Eco Oro of its rights under its main mining title, Concession 3452, comprising the Angostura gold and silver deposit, thereby depriving Eco Oro of the returns that would have resulted from its investment in the development of the Angostura Project, and destroying the value of its investment, in violation of Colombia's obligations under the Free Trade Agreement.

The final hearing took place in Washington, D.C. from January 20 to 24, 2020, and on March 1, 2020, the Company filed its Post-Hearing Brief.

On September 9, 2021, the Tribunal issued the Decision. This Decision upheld Eco Oro's claims that Colombia had breached Article 805 of the Free Trade Agreement, by failing to accord fair and equitable treatment to Eco Oro's investments in Colombia relating to the Angostura Project. The Tribunal rendered certain findings with respect to damages, but has not yet determined what compensation will be awarded to Eco Oro as a result of damages caused to Eco Oro as a result of Colombia's breach of the Free Trade Agreement. The Tribunal has requested from the parties further submissions on damages on specific questions arising from its findings. The Company filed its first submission in response to the Tribunal's questions on January 14, 2022.

The Company is seeking US\$696 million plus interest at a rate of 6.6 percent per annum, compounded semi-annually, as compensation for damages the Company sustained as a result of Colombia's measures. The Company has not recorded any amount in the financial statements as a contingent gain due to the ultimate uncertainty of the outcome.

## OUTLOOK

Notwithstanding the continuation of the ICSID Arbitration, the Company remains open to engagement with the Colombian authorities in order to achieve an amicable resolution of the dispute.

In the meantime, the Company's immediate plans for the ensuing year are as follows:

- to advance the ICSID Arbitration;
- to continue to assess the Company's activities, including monetization of certain of the Company's assets (including the potential disposition of assets, plant and equipment acquired for the Project) and cost-reduction to support the preservation of its core assets and rights, in an effort to mitigate losses;
- to carefully manage its cash resources;
- to continue to assess the Company's mining titles and related ongoing regulatory requirements; and

**Eco Oro Minerals Corp.****Management's Discussion and Analysis****For the year ended December 31, 2021***(Expressed in thousands of Canadian dollars unless otherwise specified)*

- the protection of its rights and interests in Colombia.

**COVID-19**

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, have adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. To date, the COVID-19 has not had a significant impact on the Company's operations.

Share capital		324,928	324,928	324,928
Deficit		(404,461)	(400,079)	(395,243)

The decrease in working capital during the year ended December 31, 2021 is mainly due to the cash used in operating activities. The increase in total assets and decrease in total liabilities during the year ended December 31, 2020 is mainly due to the completion of a US\$17,984,260 private placement completed on February 4, 2020 (the "2020 Private Placement") and the repayment of a US\$6,500,000 bridge loan (the "2019 Bridge Loan"), including interest of US\$69,164, from Trexs Investments, LLC ("Trexs"). The decrease in loss and comprehensive loss during the year ended December 31, 2021 is mainly due to the decrease in legal fees and other professional fees associated with Colombian regulatory compliance and legal advice provided in relation to the ICSID Arbitration. The Company has no operating revenue and relies primarily on financing activities to fund its activities. There have been no distributions or cash dividends declared for the periods presented.

**Eco Oro Minerals Corp.****Management's Discussion and Analysis****For the year ended December 31, 2021***(Expressed in thousands of Canadian dollars unless otherwise specified)***Summary of Quarterly Results**

The following table summarizes the Company's results of operations for the last eight quarters:

Basic and diluted earnings (loss) per share	0.03	(0.01)	(0.01)	(0.05)

The Company's exploration and evaluation expenditures have remained at relatively constant levels in the past eight quarters, due to cost reduction initiatives implemented in 2017 and 2021. The Company's exploration and evaluation expenditures are mainly related to the ongoing administrative costs incurred in Colombia.

General and administrative expenses include the ongoing administrative costs incurred in Canada to provide support related to the Company's operations and the arbitration. The general and administrative expenses remain constant from the second quarter of 2020 to the third quarter of 2021. The additional general and administrative expenses throughout the past eight quarters were mainly related to the arbitration expenses.

"Other expenses (income)" mainly consists of finance costs, foreign exchange gain (loss), gain on disposal of plant and equipment and impairment recovery on exploration and evaluation assets.

**Eco Oro Minerals Corp.****Management's Discussion and Analysis****For the year ended December 31, 2021***(Expressed in thousands of Canadian dollars unless otherwise specified)***Financial Performance for the three months and years ended December 31, 2021 and 2020**

During the three months ended December 31, 2021, the Company incurred a net loss of \$632 representing a decrease of \$3,968 compared to a net income of \$3,336 during the three months ended December 31, 2020.

The increase in net loss during the three months ended December 31, 2021, is primarily due to the increase in legal and professional fees and decrease in impairment recovery on exploration and evaluation assets.

During the year ended December 31, 2021, the Company incurred a net loss of \$4,382 representing a decrease of \$454 compared to a net loss of \$4,836 during the year ended December 31, 2020.

The decrease in net loss during the year ended December 31, 2021, is primarily due to the decrease in the legal fees and other professional fees associated with Colombian regulatory compliance and legal advice provided in relation to the ICSID Arbitration which was partially offset by the decrease in impairment recovery on exploration and evaluation assets.

**Exploration and evaluation expenses**

The following table summarizes the Company's exploration and evaluation expenses for the relevant periods:

	For the three months ended			For the years ended		
	December 31, 2021	December 31, 2020	Change	December 31, 2021	December 31, 2020	Change

	<b>440</b>	<b>279</b>	<b>161</b>	<b>1,968</b>	<b>1,840</b>	<b>128</b>

**Administrative expenses** include the ongoing administrative costs incurred in Colombia to provide support related to the Company's operations.

**Environmental expenses** include the impact of the current period's changes in the site restoration provision. The cost estimates are updated periodically to reflect known developments and are estimated based on the Company's interpretation of current regulatory requirements and constructive obligations. The environmental expenses during the three months and year ended December 31, 2021 was mainly due the loss on remeasurement of the fair value of the site restoration provision.

**Legal fees** are mainly related to the Company's operations and the ICSID Arbitration.

**Salaries and benefits** are the salaries paid to the employees in Colombia to support the Company's operations and the ICSID Arbitration. The Company initiated a cost reduction program, including a decrease in the number of full-time employees in Colombia, during the year ended December 31, 2021. The cost reduction program resulted in a

decrease in salaries and benefits during the three months ended December 31, 2021. As a consequence of the cost reduction program, the Company incurred severance payments during the year ended December 31, 2021, which resulted in an increase in salaries and benefits.

**General and administrative expenses**

The following table summarizes the Company's general and administrative expenses for the relevant periods:

	For the three months ended			For the years ended		
	December 31, 2021	December 31, 2020	Change	December 31, 2021	December 31, 2020	Change

	<b>969</b>	<b>270</b>	<b>699</b>	<b>2,074</b>	<b>6,935</b>	<b>(4,861)</b>

**Legal fees and other professional fees** were primarily associated with Colombian regulatory compliance and legal advice provided in relation to the ICSID Arbitration. The increase in legal and professional fees during the three months ended December 31, 2021 is mainly due to the legal fees incurred related for arbitration. The decrease during the year ended December 31, 2021 is mainly related to the decrease in legal and professional fees related to the ICSID Arbitration as the hearing was completed in January 2020 and the Post-Hearing Brief was filed on March 1, 2020.

**Management and directors' fees** were primarily related to management fees paid to the Company's current CEO, consulting fees paid to the Company's former Chair and directors fees paid to the current directors.

**Other expenses (income)**

The following table summarizes the Company's other expenses (income) for the relevant periods:

	For the three months ended			For the years ended		
	December 31, 2021	December 31, 2020	Change	December 31, 2021	December 31, 2020	Change

**Finance costs** were primarily related to the interest expenses of the promissory notes. In addition, during the year ended December 31, 2019, the Company received a tax reassessment in the amount of \$3,997, which included the tax owing, interest and penalties (collectively the "Assessed Amount"), with respect to the reassessment of applicable deductions. The Company entered into an agreement with the authority (the "Authority") to settle the

Assessed Amount over three years. During the year ended December 31, 2021, the Authority agreed to reduce the Assessed Amount by \$856 (COP2,719,932,184); as a result of the reduction, the Company recognized \$856 to the statement of loss and comprehensive loss as a recovery of finance costs.

**Foreign exchange loss (gain)** is primarily a result of the translation of the Company's U.S. cash and US\$-denominated loans into Canadian dollars.

#### **Gain on disposal of plant and equipment**

Gain on disposal of plant and equipment was primarily related to the proceeds from the disposition of the plant and equipment in Colombia which were impaired to \$nil during the year ended December 31, 2016.

## LIQUIDITY AND CAPITAL RESOURCES

As at December 31, 2021, the Company had working capital of \$1,206 (December 31, 2020 –\$4,358) including cash of \$3,098 (December 31, 2020 – \$7,118).

The Company's ability to continue operations and fund future business activities is dependent on management's ability to secure additional financing. The Company believes it has sufficient cash to meet short-term operating needs for the next 12 months. To date, the Company has not generated any profit through its operations.

## COMMITMENTS, CONTRACTUAL OBLIGATIONS & CONTINGENCIES

### Contingent Value Rights and Promissory Notes

In 2016, the company issued US\$5,527,273 of contingent value rights certificates (the "2016 CVRs") and US\$9,672,727 aggregate principal amount of promissory notes (the "2016 Notes"). The 2016 Notes bear interest at a rate of 0.025% per annum and mature on June 30, 2028.

In 2019, the Company completed a private placement (the "2019 Private Placement") for aggregate gross proceeds of US\$28,000,000 comprising (i) US\$13,000,000 of contingent value rights certificates (the "2019 CVRs") and (ii) US\$15,000,000 of promissory notes (the "2019 Notes"). The 2019 Notes bear interest at a rate of 0.025% per annum and mature on June 30, 2028.

Following completion of the 2019 Private Placement, the terms of such securities provided that the proceeds from the ICSID Arbitration Claim ("Claim Proceeds") would be distributed in the following order of priority (in each case to the extent that the amount of Claim Proceeds is sufficient):

1. in full repayment of any accrued and unpaid default interest, fees, expenses or indemnity obligations in respect of the 2019 CVRs, the 2016 CVRs, the 2019 Notes and the 2016 Notes;
2. in full repayment of all obligations, liabilities and indebtedness (including all principal, interest, fees and other amounts) under the 2019 Notes and 2016 Notes;
3. to the holders of 2019 CVRs, the 2016 CVRs and eligible participants ("MIP Participants") in the MIP (as defined below), on a pro rata basis in accordance with their pro rata entitlement to the Claims Proceeds, in an amount equal to the lesser of (i) US\$460,000,000 and (ii) their maximum aggregate entitlements to the Claim Proceeds;

4. to the Company, US\$30,000,000;
5. to holders of the 2019 CVRs, the holders of the 2016 CVRs and the MIP Participants, on a pro rata basis in accordance with their pro rata entitlement to the Claims Proceeds, the remaining proceeds until the aggregate distributions to such persons equals their maximum aggregate entitlements to the Claim Proceeds; and
6. to the Company, the balance (if any) of the Claims Proceeds.

Pursuant to the 2020 Private Placement, the Company issued an aggregate of US\$17,984,260 of contingent value rights certificates ("2020 CVRs" and, together with the 2016 CVRs and 2019 CVRs, the "CVRs") on January 13, 2020 and February 4, 2020. Holders of the 2020 CVRs are entitled to receive an amount of money from the Claim Proceeds, with the amount they are entitled to receive (the "2020 Total CVR Amount") to be based on the amount of time between the closing of the 2020 Private Placement and payment of the Claim Proceeds. Because the 2020 Total CVR Amount will be funded by the re-direction of amounts to which the holders of 2016 CVRs and 2019 CVRs would otherwise be entitled, the 2020 Private Placement will not have any impact on the amount of Claim Proceeds (if any) retained by the Company.

#### **Management Incentive Plan**

During the year ended December 31, 2017, the Company implemented a management incentive plan (the "MIP") to incentivize certain key personnel toward the effective prosecution and collection of the ICSID Arbitration.

Under the MIP, a committee of the board of directors of the Company (the "Committee") was appointed to administer the MIP and be responsible for, among other things, determining whether to grant participants under the MIP certain cash retention amounts that will not in aggregate exceed 5% of the gross proceeds of the ICSID Arbitration.

Awards under the MIP will be at the sole discretion of the Committee taking into consideration, among other things, the amount of the proceeds received from the ICSID Arbitration and the time dedicated by each participant to the ICSID Arbitration.

#### **Contingencies**

The Company is from time to time involved in various claims, legal proceedings and complaints arising in the ordinary course of business. Other than as disclosed herein, the Company does not believe that adverse decisions in any pending or threatened proceedings related to any matter, or any amount which it may be required to pay by reason thereof, will have a material effect on the financial condition or future results of operations of the Company.

#### **OUTSTANDING SHARE DATA**

The Company's authorized share capital consists of an unlimited number of common shares issued without par value. The Company has a stock option plan.

As of December 31, 2021 and 2020, the Company had 106,524,953 common shares issued and outstanding.

As at the date of this MD&A, the Company had:

- 106,524,953 common shares issued and outstanding; and
- 1,480,000 stock options with exercise prices of \$0.49 per option outstanding.

**PROPOSED TRANSACTIONS**

No transactions are proposed.

**RISKS AND UNCERTAINTIES**

The business of the Company is subject to a variety of risks and uncertainties, including but not limited to, the ability of the Company to obtain a permanent solution with respect to any defaults that may exist under the investment agreement (the "Investment Agreement") entered with Trexs Investments, LLC ("Trexs") on January 10, 2020, contingent value rights certificates or convertible notes. For a discussion of additional risks and uncertainties faced by the Company, please refer to the most recent Annual Information Form. These risks could materially adversely affect the Company's future business, operations and financial condition and could cause such future business, operations and financial condition to differ materially from the forward-looking statements and information contained in this MD&A and as described in under "Forward-Looking Statements" section below.

There can be no certainty that the Company will receive any Claim Proceeds or, if the Company does receive any Claim Proceeds, that any portion of such Claims Proceeds will be available for distribution to the Company following distribution of such Claims Proceeds to the holders of the CVRs and the holders of the 2016 Notes and 2019 Notes as described under the heading "Commitments, Contractual Obligations & Contingencies – Contingent Value Rights and Promissory Notes".

**FORWARD-LOOKING STATEMENTS**

Certain statements included or incorporated by reference in this Management Discussion and Analysis constitute forward-looking statements. Forward-looking statements include, but are not limited to, statements with respect to the settlement or potential outcome of the ICSID Arbitration under the Free Trade Agreement, the Company's ability to obtain additional funding, the Company's ability to comply with its covenants under the Investment Agreement, defaults under the Investment Agreement, estimated capital expenditures, estimated internal rates of return, currency fluctuations, requirements for additional capital, government regulation of mining operations and environmental risks or claims.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. The primary factors that could cause results to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements relate to the outcome and timing of the ICSID Arbitration, and the

magnitude of the tax liability, if any, pertaining thereto. There can be no certainty that the Company will receive any Claim Proceeds or, if the Company does receive any Claim Proceeds, that any portion of such Claims Proceeds will be available for distribution to the Company following distribution of such Claims Proceeds to the holders of the CVRs and the holders of the 2016 Notes and 2019 Notes as described under the heading "Commitments, Contractual Obligations & Contingencies – Contingent Value Rights and Promissory Notes".

Other risks could cause results to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements includes risks related to regulatory instability and those relating to all the Company's properties being located in Colombia, including, in addition to the regulatory risk, the political and economic risks ; accidents, labour disputes and other risks of the mining industry; as well as those factors discussed in the section entitled "Risk and Uncertainties" above.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company's forward-looking statements are based on the beliefs, expectations and opinions of management as of the date the statements are made, including, without limitation, the potential settlement or outcome of the ICSID Arbitration, that the Company can access financing, and the Company does not assume any obligation to update any forward-looking statements if circumstances or management's beliefs, expectations or opinions should change, except as required by law. For the reasons set forth above, readers should not place undue reliance on forward-looking statements.
