

CleanGo Innovations Inc. Launches Kubera Black Energy., a Dedicated Subsidiary to Serve The Global Oil Industry with Alternative Proprietary Solutions

CleanGo Innovations Launches Kubera Black Energy Inc., a Dedicated Subsidiary to Serve the Global Oil Industry with Alternative Solutions

Vancouver, B.C. – February 26, 2025 – CleanGo Innovations Inc. (CSE:CGII) (OTC:CLGO.F) (FRA:APO2) ("CleanGo" or the "Company"), a global leader in green technology solutions, today announced the formation of Kubera Black Energy Inc. ("Kubera Black Energy"), a wholly-owned subsidiary strategically created to address the oil and gas industry worldwide. This strategic move allows CleanGo to sharpen its focus on both its core cleaning business and the specialized demands of the energy sector, paving the way for accelerated growth and market leadership in both divisions.

Kubera Black Energy will leverage CleanGo's proven industrial cleaning technologies, including the highly effective CG-100 product, to offer comprehensive and environmentally responsible business services to the oil and gas industry. These services will encompass a range of critical applications including well optimization, tank cleaning, well cleaning, degreasing, and other specialized cleaning solutions designed to optimize operational efficiency and minimize environmental impact. The CG-100's unique properties make it ideal for the demanding conditions of oil and gas operations, offering superior performance while adhering to stringent environmental standards.

"With over two decades of experience funding and building high-growth companies, I understand the unique challenges and opportunities within the energy sector," stated Anthony Sarvucci, Founder and CEO of CleanGo Innovations. "Kubera Black Energy is not simply a new company; it's a strategic response to a critical market need. We are assembling a team of seasoned executives with deep industry expertise to provide comprehensive support and drive growth. By concentrating resources and leveraging our established network, Kubera Black is poised to capitalize on untapped market opportunities, particularly in areas often underserved by traditional financing and private equity. Furthermore, we believe a potential spin-off of Kubera Black Energy to the public markets, with CleanGo retaining majority ownership, will maximize shareholder value by allowing investors direct participation in the growth of this specialized energy services company."

The formation of Kubera Black Energy underscores CleanGo's commitment to sustainable practices within the energy sector. The subsidiary will not only deliver high-performance cleaning solutions but also prioritize environmentally responsible operations, aligning with the industry's increasing focus on sustainability. Kubera Black Energy will focus on identifying and securing key partnerships and contracts within the global oil and gas market, showcasing the efficacy and environmental benefits of the CG-100 product and other CleanGo technologies.

Press release February 26, 2025
