

Hello Pal To Relocate Crypto Mining Rigs to North America

Relocation to Provide Improved Efficiency and Long Term Stability

VANCOUVER, B.C., Nov. 10, 2021 /CNW/ -- [Hello Pal International Inc.](#) ("Hello Pal" or the "Company") (CSE: HP) (Frankfurt: 27H) (OTC: HLLPF), a provider of rapidly growing international live-streaming, language learning and social-crypto platform, is pleased to announce it has proactively secured locations in North America for the new Bitmain Antminer L7 Machines to be housed.

Through its partner Shanghai Yitang Data, the Company carried out a thorough review of optimal global mining locations. As a result of this diligence, the Company secured mining facilities in North America for the location of its mining rigs, with the majority of the rigs to be located in New York State. All locations are hydro-powered, in line with the Company's policy of only relying on clean renewable energy. All new mining rigs will be shipped directly to these North American facilities upon taking delivery from Bitmain, which is expected to be in November and/or December this year.

"We expect that the relocation of our mining operations to North America will set us up for long term stability in our crypto-mining operations. In turn, this will provide us a solid base to execute our plans of integrating crypto into our social networking core business," said KL Wong, Founder and Chairman of the Company.

The Company is also continuing to sell its existing Antminer L3+ mining rigs in China and using the proceeds to purchase brand new Antminer L7 models, which will be housed in North America.
