

# Hello Pal Purchases Additional 130 Antminer L7 Miners for LTC and DOGE Mining

## 400 New L7 Miners to Commence Mining in North America Shortly

VANCOUVER, BC, Nov. 18, 2021 /CNW/ -- [Hello Pal International Inc.](#) ("Hello Pal" or the "Company") (CSE: HP) (Frankfurt: 27H) (OTC: HLLPF), a provider of rapidly growing international live-streaming, language learning and social-crypto platform, is pleased to announce that it has purchased a further 130 Antminer L7 mining rigs for the mining of Litecoin and Dogecoin, bringing the total number of L7s to 400.

This new purchase primarily relies on the cryptocurrency profits generated by the Company's subsidiary (CPal Technology Limited) from the past several months of mining in addition to free cash reserves in the Company. This purchase comes after the announcement of the complete upgrade of its miners where 270 L7 miners were purchased using the proceeds from the sale of 12,500 Antminer L3+ miners (see November [16] press release).

"The recent price surge of Litecoin and news surrounding SpaceX's 'DOGE-1' mission to the moon have greatly increased the market demand and price for these latest mining rigs, so we are very fortunate indeed to have been able to procure as many units as we have," said KL Wong, Founder and Chairman of the Company. "We are doubly pleased that this purchase was made financially possible through our past crypto-mining efforts bearing fruit."

The new machines are expected to be delivered in December 2021, upon which they will be delivered by airfreight directly to the Company's new mining facilities in New York State and other parts of North America (see November 10 press release).
