

Senator Minerals Increases Pricing of Financing from \$1.60 to \$1.90

VANCOUVER, B.C., Oct. 03, 2017 -- **Senator Minerals Inc.** (TSXV:SNR) (OTC:SNRAF) (Frankfurt:T1KA) ("**Senator**" or the "**Company**") is pleased to announce that due to strong market interest, it has increased the pricing of its previously announced financing by approximately 20%, from \$1.60 to \$1.90 per share. The Company intends to issue 2,631,579 common shares for gross proceeds of \$5,000,000.

Proceeds of the private placement will be used to conduct the Company's ongoing exploration program, including the Company's Winter 2017/18 proposed work program on both the Company's Patterson Northeast (PNE) and Carter Lake Uranium Projects, possible strategic property acquisitions, and general working capital. All common shares issued in connection with the financing will be subject to a four-month-and-one-day statutory hold period.

About Senator Minerals Inc.

Senator Minerals is a junior mineral explorer focused on uranium exploration in northern Saskatchewan. Senator has the rights to 100-per-cent interest in both the Patterson Northeast (PNE) and Carter Lake Uranium Projects, located on the east side of the Athabasca basin, the most productive uranium-producing region in the world. The PNE Project covers approximately 531 hectares, directly adjoining the easternmost boundary of Fission 3.0's Patterson Lake North (PLN) project. The PNE Project was last explored in 2013 with an Alpha-Track radon cup survey, and in June, 2014, with a 5.7-line-kilometre DC resistivity survey, the latter performed by Patterson Geophysics. The Carter Lake Uranium Project lies near the eastern edge of the Clearwater Domain, approximately 21 kilometers northeast of the Patterson Lake property, held by Fission Uranium Corp.
