Cartier Iron Corporation

Notes to Condensed Interim Financial Statements

September 30, 2014

(expressed in Canadian dollars)
(unaudited)

1. Nature of operations

Cartier Iron Corporation (the "Company") is a public company engaged in the acquisition, exploration and development of mineral resource properties. The Company is incorporated under the laws of Ontario and its registered office is located at 20 Adelaide Street East, Suite 200, Toronto, Ontario, M5C 2T6.

2. Going concern

The Company is in the exploration stage and has no revenue. As at September 30, 2014, the Company had a working capital deficit of \$1,855,264 (December 31, 2013 - \$1,455,956) and for the 9 months ended September 30, 2014, the Company incurred losses of \$133,614 (2013 - \$301,225). The working capital deficit and losses limit the Company's ability to fund operations and the acquisition, exploration and development of mineral resource properties. As a result, there is significant doubt about the Company's ability to continue as a going concern.

The continued operations of the Company is dependent upon the support of its creditors and the Company's ability to secure equity financing to meet its existing obligations and finance the acquisition, exploration and development of mineral resource properties. The Company is actively seeking to raise the necessary equity financing, however, there can be no assurance that additional equity financing will be available.

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

3. Basis of presentation

Statement of compliance

These interim financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards and its interpretations adopted by the International Accounting Standards Board.

The accounting policies used in these interim condensed financial statements are consistent with those disclosed in the Company's audited financial statements for the year ended December 31, 2013.

These interim condensed financial statements do not include certain information and disclosures normally included in annual financial statements prepared in accordance with IFRS and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2013.

These interim condensed financial statements were approved and authorized for issue by the Board of Directors on November 26, 2014.

New standards and interpretations not yet adopted

The effective date of the following amendment to standards and interpretations is to be determined:

IFRS 9, Financial Instruments ("IFRS 9")

IFRS 9 addresses classification and measurement of financial assets and replaces the multiple category and measurement models in IAS 39 for debt instruments with a new mixed measurement model having only two categories: amortized cost and fair value through profit or loss. IFRS 9 also replaces the models for measuring equity instruments, and such instruments are either recognized at fair value through profit or loss or at fair value through other comprehensive income. Where such equity instruments are measured at fair value through other comprehensive income, dividends are recognized in profit or loss to the extent not clearly representing a return of investment; however, other gains and losses (including impairments) associated with such instruments remain in accumulated comprehensive income indefinitely.

Requirements for financial liabilities were added in October 2010 and they largely carried forward existing requirements in IAS 39, *Financial Instruments - Recognition and Measurement*, except that fair value changes due to credit risk for liabilities designated at fair value through profit and loss would generally be recorded in other comprehensive income.

The Company has not determined the extent of the impact of these standards and does not plan to early adopt these new standards.

4. Receivables

The Company files a Québec Corporation Income Tax Return claiming a refundable tax credit on eligible exploration expenditures incurred in Québec (“Refundable Tax Credits”) and a Québec Mining Duties Return claiming a credit on duties refundable for losses (“Credit on Duties”). It is the Company’s policy to record an estimate of amounts to be received for unassessed claims for Refundable Tax Credits and Credits on Duties as a receivable and a reduction to exploration and evaluation assets when there is reasonable assurance that the Company has complied with all conditions needed to obtain the credits. The amount of the unassessed claims are subject to audit by Revenu Québec and Ressources naturelles et Faune Québec.

	In respect of years ended December 31,		Total

5. Due from Eloro Resources Ltd.

The amount due from Eloro Resources Ltd. (“Eloro”) is unsecured, non-interest bearing and payable on demand. Two directors of the Company are directors of Eloro.

6. Marketable securities

Marketable securities consist of the following investments in related parties:

	September 30, 2014		December 31, 2013	
	Cost \$	Fair value \$	Cost \$	Fair value \$
Eloro Resources Ltd. (“Eloro”)	154,789	25,000	154,789	37,500
Champion Iron Limited	27,461	8,954	27,461	15,263
Kerr Mines Inc. (“Kerr”)	5,375	175	5,375	112
	187,625	34,129	187,625	52,875

Two directors of the Company are directors of Eloro, one director and one officer of Champion Iron Limited are directors of the Company and one former director of the Company was a director of Kerr until May 22, 2014.

7. Exploration and evaluation

	December 31, 2013 \$	Exploration expenditures \$	Mining tax credits \$	September 30, 2014 \$
Property				
Borel River	412,043	2,152	(48,288)	365,907
Gagnon	2,383,444	432,028	(70,197)	2,745,275
	2,795,486	434,180	(118,485)	3,111,182

Borel River

The Company owns a 100% interest in the Borel River iron ore property ("Borel River"), which consists of 108 claims covering 4,459.14 hectares situated on the western shore of Ungava Bay in northern Quebec, subject to a 2% royalty. The Company has the right of first refusal on the sale of the royalty and has the option to reduce the royalty from 2% to 1% by making a payment of \$1,000,000.

Gagnon

The Company has an option from Champion Iron Mines Limited ("Champion"), a wholly-owned subsidiary of Champion Iron Limited, to acquire a 65% interest in Round Lake (formerly known as Penguin Lake, Black Dan and Aubrey-Ernie), Aubertin-Tougard, Jeannine Lake, Silicate-Brutus and Big Three Lakes, collectively, comprising 646 claims covering 342.10 square kilometres in the Fermont Iron Ore District in the Labrador Trough in northeastern Quebec ("Gagnon").

In order to earn its interest, the Company must make option payments, issue common shares and incur exploration expenditures, as follows:

	Option payments \$	Common shares Number	Fair value \$	Exploration expenditures \$
Option payment due upon conditional approval from a stock exchange for the listing of the shares of the Company and common shares due upon execution of agreement (paid and issued)	100,000	1,000,000	250,000	–
December 10, 2013	150,000	500,000	–	500,000
December 10, 2014	250,000	500,000	–	750,000
December 10, 2015	250,000	500,000	–	–
December 10, 2016	250,000	–	–	4,750,000
	1,000,000	2,500,000	250,000	6,000,000

The Company has the option to satisfy the Exploration Expenditures by (i) paying cash to Champion or the applicable governmental authorities on account of assessment work and/or taxes; or (ii) by issuing the number of common shares to Champion determined by dividing the amount by the 20 day average closing price of the common shares within 5 trading days prior to the date of issue.

Upon the Company earning its 65% interest, a joint venture will be formed to incur additional exploration expenditures. If a joint venture partner does not fund its proportionate interest in the joint venture, its interest will be diluted and, when its interest is reduced below 10%, its interest would be reduced solely to a 1% royalty. The other joint venture partner will have the option to reduce the royalty from 1% to 0.5% by making a payment of \$3,000,000.

In the event that the Company or Champion proposes to acquire any property within 10 kilometres of the Gagnon Holdings, the acquirer must offer the property at cost to the other party for inclusion in the Gagnon properties.

The Company incurred the required exploration expenditures by December 31, 2013; however, as at September 30, 2014, the Company had not made the option payment or issued common shares due on December 10, 2013.

See note 13 for subsequent event.

8. Due to Champion

Of the amount due to Champion, \$100,000 is unsecured, bears interest at the rate of LIBOR plus 2% and is due on September 13, 2014. The remaining amount due to Champion is unsecured, non-interest bearing and payable on demand.

On June 17, 2014, the Champion agreed to convert the following amounts into the Company's common shares: (a) \$1,050,000, subject to the Company closing a private placement in the minimum amount of \$500,000 ("Private Placement") and (b) the amount, by which, proceeds of the Private Placement exceeds \$1,050,000. In both cases, the conversion price will be equal to the lowest subscription price paid for the Private Placement.

Following the closing of any Private Placement, the remainder of the amount due to Champion will be converted to a demand loan, which is unsecured, bears interest at the rate of LIBOR plus 2% and is due 6 months after Champion demands repayment (the "Demand Loan"). Champion will have the right to convert the Demand Loan plus accrued but unpaid interest into common shares of the Company at a conversion price equal to the lowest subscription price per common share paid for the most recent capital raising undertaken by the Company at the time of the conversion, subject to the minimum pricing rules and stock exchange approval.

See note 13 for subsequent event.

9. Share capital

Authorized

An unlimited number of Class A preferred shares 5% voting, redeemable, convertible, non-cumulative dividend, which are redeemable at \$0.10 per share and convertible on the basis of one common share for each Class A preferred share.

An unlimited number of common shares.

Issued

	Number of common shares	Amount \$
Balance, December 31, 2013 and September 30, 2014	19,332,320	4,906,953

As at September 30, 2014, the Company had received \$50,000 in respect of the Private Placement.

See note 13 for subsequent event.

Stock options

The Company may grant options to its directors, officers, employees and consultants for up to 10% of the number of common shares outstanding. Options granted vest immediately and the maximum term of each option is 5 years. The exercise price shall not be less than the closing price of the common shares on a stock exchange in Canada on the last trading day immediately preceding the date of the grant, less any discount permissible under the rules of the principal stock exchange on which the common shares are listed for trading. In the event that the common shares are not listed for trading on any stock exchange, the exercise price shall be the fair market value as determined by the Board of Directors. As at September 30, 2014, there were 1,883,232 stock options available to be issued under the stock option plan (December 31, 2013 – 1,883,232).

A summary of the Company's stock options is presented below:

	Number of options	Weighted- average exercise price C\$
Balance, December 31, 2013 and September 30, 2014	50,000	0.35

A summary of the Company's outstanding stock options at September 30, 2014 is presented below:

Exercise price	Expiry date	Options outstanding and exercisable
\$0.35	February 1, 2018	50,000

The weighted average remaining contractual life of outstanding stock options is 3.3 years.

10. Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Cash and cash equivalents, accounts payable and accrued liabilities, due from Eloro and due to Champion

The fair values of cash and cash equivalents, accounts payable and accrued liabilities, due from Eloro and due to Champion are estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. At September 30, 2014, the fair value of these balances approximated their carrying value due to their short term to maturity.

Marketable securities

The fair value of marketable securities is estimated based on observable inputs.

Classification of fair value of financial instruments

The Company classified the fair value of its financial instruments measured at fair value according to the following hierarchy based on the amount of observable inputs used to value the instrument:

Level 1: quoted prices in active markets for identical assets and liabilities;

Level 2: inputs, other than the quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly;

Level 3: inputs for the asset or liability that are not based on observable market data

Marketable securities are classified as Level 1 financial assets.

11. Financial risk management

The Company's activities expose it to a variety of financial risks that arise as a result of its exploration and financing activities, including credit risk, liquidity risk and market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors oversees management's establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Company's cash and cash equivalents and due from Eloro. The Company's limits its exposure to credit risk on its cash and cash equivalents by holding deposits with high credit quality Canadian chartered bank.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial liabilities that are settled in cash or other financial assets. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities as they come due. Accounts payable and accrued liabilities are subject to normal trade terms and the amount due to Eloro is payable upon demand.

Market risk

Market risk is the risk that changes in market prices, such as equity prices, foreign exchange rates, and interest rates will affect the Company's income or the value of its financial instruments.

Equity price risk

Equity price risk arises from the Company's marketable securities. The Company's approach to managing equity price risk is to optimize the return from its marketable securities within acceptable parameters for equity price risk. The Company estimates that if the fair value of its marketable securities as at September 30, 2014 had changed by 25%, with all other variables held constant, the net loss would have decreased or increased by \$8,532.

Currency risk

Currency risk arises from the Company's financial instruments and purchases that are denominated in a currency other than the Canadian dollar, the Company's functional currency. As all of the Company's purchases are in Canadian dollars, the Company limits its exposure to currency risk by maintaining its cash and cash equivalents in Canadian dollars.

Interest rate risk

The Company's exposure to interest rate risk is limited due to the short-term nature of its financial instruments.

Capital management

Capital of the Company consists of share capital, contributed surplus and deficit. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can acquire, explore and develop mineral resource properties for the benefit of its shareholders. The Company manages its capital structure and makes adjustments based on the funds available to the Company in light of changes in economic conditions. The Board of Directors has not established quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain the future development of the Company. In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that consider various factors, including successful capital deployment and general industry conditions. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

As the Company is an exploration stage company and has no revenues, its principal source of capital is from the issue of common shares or advances from related parties. In order to achieve its objectives, the Company intends to raise additional funds as required.

The Company is not subject to externally imposed capital requirements and there were no changes to the Company's approach to capital management during the year.

12. Related party transactions

The Company considers its directors and officers to be key management personnel. There were no transactions with key management personnel during the period.

13. Subsequent events

Private placement

On October 17, 2014, the Company completed a Private Placement of 2,941,172 units at a price of \$0.17 per unit for proceeds of \$500,000. Each unit consisted of one common share and one-half of one warrant, with each whole warrant entitling the holder to purchase one common share for \$0.22 until April 17, 2016. After February 17, 2015, if the average closing price of the Company's common shares is greater than \$0.40 per share for 20 consecutive business days, the warrants must be exercised within 10 calendar days (or such longer period as the Company may provide) after the Company gives notice by press release and mail to each warrant holder, failing which, the warrants will expire.

Due to Champion

With the completion of the Private Placement, the Company converted \$1,050,000 of the amount due to Champion into 6,176,471 units ("Conversion"). Each unit consisted of one common share and one-half warrant, with each whole warrant entitling Champion to purchase one common share of the Company for \$0.22 until April 17, 2016. After February 17, 2015, if the average closing price of the Company's common shares is greater than \$0.40 for 20 consecutive business days, the warrants must be exercised within 10 calendar days (or such longer period as the Company may provide) after the Company gives notice by press release and mail to Champion, failing which, the warrants will expire.

The remaining \$1,050,000 due to Champion was converted to a Demand Loan.

Option for Gagnon

The Company (i) paid the \$150,000 option payment due on December 11, 2013; (ii) issued 1,000,000 common shares due on December 10, 2013 and December 10, 2014 ("Option Payments"); and (iii) agreed with Champion to defer the \$250,000 option payment due on December 10, 2014 until the Company receives its refundable tax credit on eligible exploration expenditures incurred in Québec for the year ended December 31, 2013.

Relationship with Champion

Subsequent to the issue of common shares for the Conversion and Option Payments, Champion holds 11,019,971 common shares of the Company, representing approximately 37.42% of the outstanding common shares of the Company. The holdings of Champion in the Company are subject to the terms of a pre-emptive rights agreement and an agreement respecting board representation rights and standstill obligations entered into on December 10, 2012.

Until December 31, 2014, Champion has the right to participate in private placements to maintain its proportionate interest in the outstanding common shares of the Company and until the Company has at least 30,000,000 common shares outstanding, Champion has the right to participate in private placements to increase its holdings to 38% of the outstanding common shares of the Company.

Until December 31, 2017, Champion shall not sell common shares without the prior written consent of the Company, and thereafter, Champion shall not sell more than 2,000,000 common shares during any 30-day period.

Until December 31, 2017, provided that Champion owns at least 10% of the outstanding common shares of the Company:

- a) The Company shall take all commercially reasonable steps to have a nominee of Champion elected as a director of the board of directors of the Company ("Board").
- b) At any meeting of shareholders, Champion shall not vote (i) against any shareholder resolution recommended by the Board; (ii) in favour of any shareholder resolution unless recommended by the Board; and (iii) in favour of the election of nominees to the Board who are not proposed by the then Board.
- c) Champion shall not (i) participate in a take-over bid for any securities of the Company; (ii) solicit proxies from any shareholder or attempt to influence the voting by any shareholders other than in support of initiatives recommended by the Board or (iii) seek to influence or control the management, Board or the policies or affairs of Company; or (iv) make any public or private announcement or disclosure with respect to the foregoing.
