

CERTIFICATE OF AUTHOR

I, Michael P. Cullen, P. Geo., do hereby certify that:

1. I reside at 2071 Poplar St. in Halifax, Nova Scotia, Canada
2. I am currently employed as a Chief Geologist with:
Mercator Geological Services Limited
65 Queen St Dartmouth,
Nova Scotia, Canada B2Y 1G4
3. I received a Master of Science Degree (Geology) from Dalhousie University in 1984 and a Bachelor of Science Degree (Honours, Geology) in 1980 from Mount Allison University.
4. I am a registered member in good standing of the Association of Professional Geoscientists of Nova Scotia (Registration Number 064), Newfoundland and Labrador Professional Engineers and Geoscientists (Member Number 05058) and Association of Professional Engineers and Geoscientists of New Brunswick, (Registration Number L4333).
5. I have worked as a geologist in Canada and internationally since graduation.
6. I have read the definition of “qualified person” set out in National Instrument 43-101 (“NI 43-101”) and certify that by reason of my education, affiliation with a professional association (as defined in NI 43-101) and past relevant work experience, I fulfill the requirements to be a “qualified person” for the purposes of NI 43-101.
7. I am the qualified person responsible for preparation of the Technical Report titled:

National Instrument 43-101 Technical Report
For The Big Easy Exploration Property
Clareville Area
Newfoundland And Labrador
Canada
For
Cartier Iron Corporation
Prepared by
Michael P. Cullen, P. Geo.
Mercator Geological Services Limited
Effective Date: April 20th, 2018

- I supervised work on, and am responsible for, all Items and Sections of this Technical Report.
8. I have extensive professional experience with respect to geology of the Northern Appalachians and, more specifically, with geology of epithermal gold mineralization of the Avalon Zone in Newfoundland and Labrador, having worked extensively on the Hope Brook gold deposit and to a lesser degree on gold prospects of the Burin Peninsula. I also have experience in exploration and evaluation of epithermal gold and silver deposits in the San Juan volcanic field of the southwest US and also in Tertiary and younger sequences of Central and South America. I have been responsible for various exploration programs with respect to such deposits and my experience includes responsibility for programs of resource estimation and evaluation plus surface and underground exploration.
 9. I visited the Big Easy exploration property most recently between October 2nd and 4th of 2017 to carry out the site visit described in this report. I was accompanied by Mr. James Harris, P. Geo. and Dr. Christopher Hale, P. Geo., both consultants to Cartier at that time.
 10. I am independent of Cartier, applying all of the tests in section 1.5 of National Instrument 43-101 and National Instrument 43-101 Companion Policy Section 5.3
 11. I have read National Instrument 43-101, Form 43-101F1 and the Companion Policy and believe that this Technical Report has been prepared in compliance with that Instrument and Form.
 12. As of the date of this certificate, to the best of my knowledge, information and belief, this Technical Report contains all scientific and technical information that is required to be disclosed to make this report not misleading.

Dated this 5th day of June 2018

Michael P. Cullen, P. Geo.
Chief Geologist
Mercator Geological Services Limited
