

The BC Bud Co launches 6 new products into British Columbia

VANCOUVER, BRITISH COLUMBIA – May 18th, 2023 – The BC Bud Corporation (“The BC Bud Co.” or the “Company”), a house of high-quality cannabis brands based out of British Columbia, Canada, is proud to announce the launch of six new products, including two live hash rosin budders, two live hash rosin-infused BCBC flower PR strains, a Mosambi Live Hash Rosin Vape Cart, and Alaskan Thunder F (ATF) 2 x 1 g a pre roll flower SKU.

The BC Bud Co. has partnered with Cedar Organics, a Vancouver Island-based outdoor trichome cultivator and live concentrate producer, and their partner Common Roots Extracts, an offshoot of Synthite Industries, one of the world's largest botanical extraction companies, to create a full range of both solvent and solvent-free live concentrate products and formulations for direct delivery and provincial distribution.

“After years of hard learning experiences, we are beyond happy to see our live concentrates getting onto to BC store shelves with a brand that shares our commitment to quality. Together, we will deliver a full range of artisanal solvent-free products that are the purest and most true-to-plant cannabis concentrates available”, said Greg Kasting, Founder and General Manager of Cedar Organics. “Cedar’s entire team proudly stands behind these products, and the quality of the products will speak for themselves.”

"We are thrilled to enter these unique products into our home province, BC, as it's a key strategy for The B.C. Bud Co.'s brand growth," said Josh Taylor, President of The B.C. Bud Co. "Over time, we aim to bring these new products to consumers in additional provincial markets and let them experience the quality of The B.C. Bud Co. We are excited to continue to innovate and bring new and valuable products to the cannabis market.”

The two live hash rosin dab products, Mosambi Live Hash Rosin and Narang Tang Live Hash Rosin, are produced using traditional solventless techniques and are handcrafted from Cedar Organics' premium sun-grown cannabis.

The two live hash rosin-infused BCBC flower PR strains, Mosambi Live Hash Rosin Infused BCBC Flower PR and Narang Tang Live Hash Rosin Infused BCBC Flower PR, provide a potent and flavorful experience. These strains are perfect for those who are looking for a more intense cannabis experience.

The Mosambi Live Hash Rosin Vape Cart is a convenient and discreet way to consume this high-quality product. Made with 100% pure, full-spectrum cannabis extract, this vape cart delivers a smooth and flavorful experience for the premium cannabis category.

Finally, the BCBC is proud to launch their Alaskan Thunder F (ATF) 2 x 1g flower SKU into the BCLDB, a classic sativa cultivar well known from the legacy market.

About The B.C. Bud Co.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements included in this press release constitute forward-looking information or statements (collectively, “forward-looking statements”), including those identified by the expressions “anticipate”, “believe”, “plan”, “estimate”, “expect”, “intend”, “may”, “should” and similar expressions to the extent they relate to the Company or its management. The forward-looking statements are not historical facts but reflect current expectations regarding future results or events. This press release contains forward looking statements. These forward-looking statements are based on current expectations and various estimates, factors and assumptions and involve known and unknown risks, uncertainties and other factors.

Forward-looking statements are not guarantees of future performance and involve risks, uncertainties and assumptions which are difficult to predict. Factors that could cause the actual results to differ materially from those in forward-looking statements include failure to obtain regulatory approval, the continued availability of capital and financing, and general economic, market or business conditions, including the effects of COVID-19. Forward-looking statements contained in this press release are expressly qualified by this cautionary statement. These statements should not be read as guarantees of future performance or results. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from those implied by such statements. Although such statements are based on management’s reasonable assumptions, there can be no assurance that the statements will prove to be accurate or that management’s expectations or estimates of future developments, circumstances or results will materialize. The Company assumes no responsibility to update or revise forward-looking information to reflect new events or circumstances unless required by law. Readers should not place undue reliance on the Company’s forward-looking statements.

Neither the Canadian Securities Exchange (the “CSE”) nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
