Management Discussion & Analysis

August 31, 2015

Other items contributing to the decrease in loss include:

- A decrease in professional fees of \$1,820 as the Company recorded the balance of its 2014 audit fees in the first quarter ending August 31, 2014 and incurred additional legal fees for general corporate matters during the first quarter ending August 31, 2014.
- A decrease in transfer agent fees of \$1,798 as the Company did not incur AGM related costs in the current period.
- A decrease in rent of \$1,142 as the Company received a reduction in its office rental rate.
- An increase in office and administration fees of \$9,156 primarily a result of the Administrative Agreement (See 1.9 Related Party Transactions)

Management Discussion & Analysis

August 31, 2015

Current assets excluding cash as at August 31, 2015 consisted of receivables of \$7,769 which comprised of government sales tax credits of \$7,440 (May 31, 2015 - \$6,849), dues from related parties of \$329 (May 31, 2015 - \$nil) and other receivables of \$Nil (May 31, 2015 - \$70,000), as well as prepaids of \$418 (May 31, 2015 - \$418).

Current liabilities as at August 31, 2015 consisted of trade payables of accrued liabilities of \$106,478 (May 31, 2015 - \$143,289), and amounts due to related parties of \$70,550 (May 31, 2015 - \$61,100).

The continuing operations of the Company are dependent upon its ability to raise adequate financing and to commence profitable operations in the future. To date, the Company has not generated any significant revenues and has not raised funds in the last twelve months. The Company has an accumulated deficit of \$8,696,622 including a loss for the three months ended August 31, 2015 of \$17,826 (2014 - \$38,293). These uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

Although the Company has been successful in raising funds in the past, there can be no assurance that the Company will have sufficient financing to meet its future capital requirements or that additional financing will be available on terms acceptable to the Company in the future.

Risk and Uncertainties

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Company's primary exposure to credit risk is on its cash, which consist of bank deposits of \$25,415. The Company limits its exposure to credit loss by placing its cash with a Canadian Chartered bank. While there is concentration of risk by holding all funds with one institution, management assesses credit risk of cash as very low due to the high credit quality rating the institution has with rating agencies.

The Company's secondary exposure to credit risk is on its receivables, which consist of refundable government sales taxes of \$7,440 and dues from related parties of \$329. The dues from related parties were collected in full subsequent to August 31, 2015.

Liquidity and funding risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. As at August 31, 2015, the Company had a working capital deficiency of \$143,426 (May 31, 2015 - \$125,715). The Company has been successful in re-negotiating its indebtedness, however, there is no assurance the success of these efforts will continue.

Funding risk is the risk that market conditions will impact the Company's ability to raise capital through equity markets under acceptable terms and conditions. Under current market conditions, both liquidity and funding risk are assessed as high.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Company is exposed to interest rate risk as its bank accounts earn interest income at variable rates and are subject to the movement in interest rates. Management considers the interest rate to be minimal.

Currency Risk

Currency risk is the risk that exposes the Company to financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and is currently not exposed to foreign exchange risk arising from transactions denominated in a foreign currency.

The Company is not subject to any externally imposed capital requirements.

1.8 Off-Balance Sheet Arrangements

The Company did not enter into any off-balance sheet arrangements.

1.9 Related Party Transactions

- (a) On June 1, 2015, the Company entered into an administrative agreement with Varshney Capital Corp. ("VCC"), a company controlled by two common directors, whereby the Company agreed to pay administrative services fees of \$3,000 per month.

During the period ended August 31, 2015, the Company incurred \$9,000 (2014- \$nil) for administrative fees to VCC.

- (b) As at August 31, 2015, \$70,550 (May 31, 2015 - \$66,100) was due to VCC which consisted of \$9,450 in accrued administrative fees and \$66,100 in operating loans. The loan are unsecured, non-interest bearing and has no fixed terms of repayment.
- (c) As at August 31, 2015, \$329 (May 31, 2015 - \$Nil) in cost recoveries was due from companies with directors and officers in common.
