

Intellabridge Announces Collaboration with Prime Trust to Onramp US Customers

Menlo Park, California and Vancouver, British Columbia--(Newsfile Corp. - January 18, 2022) - Intellabridge Technology Corporation (CSE: KASH) (OTCQB: KASHF) (FSE: KASH) ("Intellabridge") is pleased to announce a collaboration with [Prime Trust](#), a leading financial infrastructure provider, that will enable Intellabridge customers to on-ramp from US Dollars into decentralized finance (DeFi) and earn a 10% stable interest rate on their Kash savings accounts.

"We're proud to work with Prime Trust which offers best-in-class financial infrastructure for fintech and digital asset clients globally," said John Eagleton, Chief Executive Officer at Intellabridge. "This collaboration opens up the remarkable returns seen in decentralized finance by offering customers an on-ramp that makes it easy to move assets from traditional financial institutions like Bank of America and Wells Fargo, and exchange to USD stablecoins which can be deposited into Kash's high earnings savings accounts."

In recent years, savers have had few reasonable options to store their wealth, and with the [consumer price index surging](#) to 7.0% in December from a year ago, the highest rate in nearly 40 years and the average savings account in the United States in October 2021 at 0.06%, according to Bankrate's [survey of institutions](#), the result is a loss of purchasing power and deterioration of overall wealth for the American consumer.

"With Kash DeFi's 10% stable interest rate and cash deposits powered by Prime Trust, our financial solutions are making it easier for people to earn on their savings and protect themselves against inflation," added John Eagleton.

"Intellabridge's latest initiative to modernize banking solutions for consumers is changing the future of finance," said Robert Desroches, Head of Sales & Chief Customer Officer, Prime Trust. "At Prime Trust, we focus on top talent with extensive regulatory, security, and financial services backgrounds, who will help Intellabridge to bring decentralized finance solutions to broader groups around the world."

Customers have the ability to take funds from their checking accounts and seamlessly transfer it into a high-yield, stable 10% earnings account through a decentralized finance system called the Terra Network. This \$25 billion dollar ecosystem was created by a Stanford engineering graduate with investments from Coinbase Ventures, Galaxy Digital, and Robinhood's Chief Executive Officer.

To celebrate the new collaboration, all Intellabridge customers will receive up to 19% earnings rate on their Kash accounts for any deposits made in January and February 2022.
