
INTRODUCTION

The following Management's Discussion and Analysis ("MD&A") relates to the financial condition and results of operations of Tulloch Resources Ltd. (the "Company") and should be read in conjunction with the Company's unaudited financial statements for the three and nine months ended April 30, 2014 and the audited financial statements for the year ended July 31, 2013 and the notes thereto.

This MD&A was prepared as of June 23, 2014 and reports on the Company's activities to that date. The Company's Audit Committee and Board of Directors have reviewed and approved the disclosure contained in this MD&A. The results are expressed in Canadian dollars, unless otherwise noted. As used in this MD&A, the terms "we", "us", "our", the "Company" and "Tulloch" mean Tulloch Resources Ltd.

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

FORWARD-LOOKING INFORMATION ADVISORY

Except for statements of historical fact related to the Company certain information and/or certain statements included in this MD&A constitute forward-looking statements. Such forward-looking statements can often, but not always, be identified by the use of words such as "can", "could", "believe", "propose", "anticipate", "intend", "consider", "estimate", "expect", or other variations of such expressions, or forward-looking statements may declare that certain measures, events or results "can", "could" or "will" be taken or occur or be attained. Forward-looking statements in this MD&A include, but are not limited to, statements relating to the Company's plan to have the common shares of the Company listed on a stock exchange and to acquire mineral properties. Such forward-looking statements involve known and unknown risks and uncertainties as well as other factors that could cause actual results, performances or achievements of the Company to differ materially from the future results, performances or achievements implied or suggested in such forward-looking statements. Such risks, uncertainties and other factors include but are not limited to: the ability of management and the directors of the Company to carry out their plans as stated in this MD&A, the likelihood of the Company's shares becoming listed on a stock exchange, the ability of the Company to acquire exploration targets, the ability of the Company to secure additional funding on favourable terms, and the risk factors discussed under the heading "Risk Factors" below. Readers are cautioned not to put undue reliance on forward-looking statements. These forward-looking statements are made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking statements in order to account for any events or circumstances that might occur after the date that such forward-looking statements were established except as required by applicable securities laws.

BUSINESS DESCRIPTION

The Company is a reporting issuer with its head office at Suite 1209 - 409 Granville Street, Vancouver, B.C., V6C 1T2. The registered and records office of the Company is located at 800-885 West Georgia Street, Vancouver, BC V6C 3H1. The Company's common shares ("Shares") are not listed on any stock exchange as of the date of this MD&A.

The Company was incorporated under the laws of British Columbia on March 12, 1980 as Tremenco Resources Ltd. Company Shares were originally listed for trading on the Vancouver Stock Exchange in 1985. In 1988 the Company transferred its listing to the Toronto Stock

Exchange (“TSE”). On February 19, 1999 it changed its name to Elkhorn Gold Mining Corporation.

On September 4, 2001, the Company’s Shares were delisted from the TSE for failure to meet Continued Listing Requirements. Cease Trade Orders (“CTOs”) were imposed on the Company by the Ontario Securities Commission and British Columbia Securities Commissions (the “Commissions”) on January 11, 2002 and January 3, 2002, respectively. Between April 2001 and July 2010, the Company was inactive and did not carry on any business. On October 11, 2011 the company changed its name to Tulloch Resources Ltd.

On January 16, 2012, pursuant to Section 171 of the Securities Act, R.S.B.C and Section 144 of the Securities Act, R.S.O, the British Columbia and Ontario Securities Commissions each issued a revocation order in respect to the CTO’s issued against the Company. As part of the revocation, the Company undertook not to complete a transaction that would result in a Reverse Takeover while the Company is not listed on a Recognized Stock Exchange unless prior to closing of such transaction, the Company provides the British Columbia Securities Commission with 10 business days’ notice of the transaction.

HIGHLIGHTS AND SIGNIFICANT EVENTS

During the three month period ending April 30, 2014 (“Q3-2014”), the Company continued to seek an appropriate project that would further the Company’s objective of relisting its shares on a recognized stock exchange, including, but not limited to, the Canadian National Stock Exchange, TSX Venture Exchange and/or the Toronto Stock Exchange (collectively the “Exchange”). As of the date of this MD&A, no definitive agreement has been reached. There can be no assurance that the Company will be relisted for trading. (SEE: RISK FACTORS)

RESULTS FOR THE THREE AND NINE MONTH PERIOD ENDING APRIL 30, 2014

A summary of the Company’s financial results and position as at and for the three and nine months ended April 30, 2014 and the comparative periods in 2013 follows:

	Three Months Ended April 30, 2014 \$	Three Months Ended April 30, 2013 \$	Nine Months Ended April 30, 2014 \$	Nine Months Ended April 30, 2013 \$

October 31, 2012	0	13,953	\$0.002
July 31, 2012	0	27,630	\$0.004

Quarterly losses have been trending lower as previous costs due to reactivation of the company are finished and management has moved to limit expenses.

Stock-based Compensation

The Company's Shareholders approved a rolling 10% Stock Option Plan (the "Plan") at the Company's Annual General Meeting held on October 11, 2011. On March 23, 2012, the Company granted 400,000 options to its directors and officers to purchase 400,000 common shares of the Company at a price of \$0.05 per share for a period of two years. The fair value of \$12,571 was calculated using the Black-Scholes Model with the following assumptions: share price of \$0.05, risk free interest rate of 1.25%, expected life of 2 years, expected dividends of zero, and expected annual volatility of 125%. The amount of \$12,571 was recorded as share-based payments in the year ended July 31, 2012. The weighted average fair value of each option on the grant date was \$0.03. During the quarter, all options expired. None were exercised.

LIQUIDITY AND CAPITAL RESOURCES

The Company does not have sufficient capital to meet its cash needs for the next 12 months, and will require that the Company attempt to undertake a non-brokered Private Placement to provide working capital. The future capital requirements of the Company will depend on many factors including the expenses incurred in acquiring a suitable project and the costs associated with the potential relisting of the Shares on an Exchange. Management is uncertain as to the ability to raise additional capital, and no assurance can be given that additional financing will be available or that, if available, can be obtained on terms favourable to

the Company and its shareholders. If adequate funds are not available, the Company will be required to delay its efforts to acquire a property, and qualify for application for listing on an Exchange. SEE RISK FACTORS.

	April 30, 2014	July 31, 2013
Total Assets	\$7,813	\$445

SIGNIFICANT ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

For the Company's use of Estimates and Judgements, and Significant Accounting Policies, please see Notes 2 and 3 of the Financial Statements.

RISKS AND UNCERTAINTIES

The Company is subject to a number of risks and uncertainties, including those discussed below, that could have a material adverse effect on, among other things, the Company's business prospects or financial condition and could result in a delay or indefinite postponement in the Company's plans. See also "Forward-Looking Statements" above.

Risks Associated with the Company's past status as a Mining Company and Explorer.

Historically, the Company operated two mines and held title to several exploration targets. All of these properties have been sold to arms-length third parties or the claims have been allowed to lapse. Although the Company believes that there are no environmental claims that could be lodged against the Company, the nature of environmental regulations has provisions that the Company could bear responsibility for some or all of the properties or claims in the future.

Risks Associated with Obtaining a Listing on an Exchange

The Company intends to obtain a listing on an Exchange for its Shares, and to do so requires that the Company meet initial listing requirements of an Exchange and obtain Exchange approval. There is no assurance that the Company will be able to acquire a suitable project or obtain sufficient working capital to obtain Exchange approval. In the event that the Shares are not listed on an Exchange, shareholders will have limited opportunities for re-sale of the shares, and the Company's ability to obtain further capital will be limited.

Risks Associated with the Need for Additional Financing.

The success of the Company is dependent, among other things, on obtaining sufficient funding to enable the Company to apply for a listing, acquire exploration targets, and thereafter explore and develop its property interests or to fulfill its obligations under applicable agreements. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in delay or indefinite postponement of acquisition of exploration targets, exploration and development of new projects and the possible loss of such properties. The Company will require new capital to operate its business and explore properties, and there is no assurance that capital will be available when needed, if at all. It is likely such additional capital will be raised through the issuance of additional equity which will result in dilution to the Company's shareholders.

If successful in having its Shares listed on an Exchange, the Company anticipates that it will be in the exploration stage and will have no revenue or income from operations. The Company will have limited capital resources and anticipates that it will have to rely upon the sale of equity and/or debt securities to fund exploration and development property acquisitions and administration of the Company. Since the Company does not expect to generate any revenues from operations in the near future, it must continue to rely upon the sales of its equity or debt securities or joint venture agreements to raise capital. There can be no assurance that financing, whether debt or equity, will be available to the Company in the amount required by the Company at any particular time or for any period and that such financing can be obtained on terms satisfactory to the Company.

Market Risks.

Even if the Company's exploration programs are successful, factors beyond the control of the Company may affect the marketability of any mineral products discovered. Mineral prices, particularly gold and silver prices, have fluctuated widely in recent years. The marketability and price of silver and gold which may be produced or acquired by the Company will be affected by numerous factors beyond the control of the Company. These other factors include delivery uncertainties related to the proximity of its reserves to processing facilities and extensive government regulation relating to price, taxes, royalties, allowable production land tenure, the import and export of minerals and many other aspects of the mining business. Declines in mineral prices may have a negative effect on the Company.

The Company may encounter difficulty sourcing future financing in light of the ongoing economic downturn. The current financial equity market conditions and the inhospitable funding environment make it difficult to raise capital through the private placements of shares. The junior resource industry has been severely affected by the world economic situation as it is considered speculative and high-risk in nature, making it even more difficult to fund. While the Company is using its best efforts to achieve its business plans by examining various financing alternatives, there is no assurance that the Company will be successful with any financing ventures.

Competition Risks.

The mining industry is intensely competitive and the Company must compete in all aspects of its operations with a substantial number of other corporations which have greater technical or financial resources. The Company may be unable to acquire attractive mining properties on terms it considers to be acceptable.

Environmental Risks Associated with our Operations.

The Company's future and past operations are subject to environmental regulations promulgated by government agencies from time to time. Environmental legislation provides for restrictions and prohibitions of spills, release or emission of various substances produced in association with certain mining industry operations, such as seepage from tailing disposal areas, which could result in environmental pollution. Failure to comply with such legislation may result in imposition of fines and penalties. In addition, certain types of operations require submissions to and approval of environmental impact assessments. Environmental legislation is evolving in a manner which means stricter standards and enforcement, fines and penalties for non-compliance are more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers and employees. The cost of compliance with changes in governmental regulations has a potential to reduce the profitability of operations. The Company intends to fully comply with all environmental regulations.

Risks Associated with Conflicts of Interest.

Certain directors and officers of the Company are also directors, officers and shareholders of other natural resource or public companies, as a result of which they may find themselves in a position where their duty to another company conflicts with their duty to the Company. There is no assurance that any such conflicts will be resolved in favour of the Company. If any such conflicts are not resolved in favour of the Company, the Company may be adversely affected.

Going Concern Risk.

The Company's financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to obtain the necessary financing to meet its ongoing commitments, seek relisting on a recognized Exchange, and further its mineral exploration programs.

DISCLOSURE CONTROLS AND PROCEDURES

The Company is a "Venture Issuer" for purposes of National Instrument 52-109 (Certification of Disclosure in Issuer's Annual and Interim Filings) ("NI 52-109"). As a Venture Issuer, the Chief Executive Officer ("CEO") and Chief Financial officer ("CFO") of the Company file a Venture Issuer Basic Certificate with respect to the financial information contained in the Company's unaudited interim financial statements and audited financial statements and respective accompanying MD&A. In contrast to the Full Certificate under NI 52-109 the Venture Issuer Basic Certification

includes a "Note to Reader" stating that the CEO and CFO do not make any representations relating to the establishment and maintenance of disclosure controls and procedures and internal controls over financial reporting as defined in NI 52-109

The CEO and CFO are each responsible for certifying that based on their individual knowledge, having exercised reasonable diligence, the Company's filings do not contain any untrue statement of a material factor, omit to state a material fact required to be stated or that is necessary to make a statement in light of the circumstances under which it was made, for the period covered by the filings and that having exercised reasonable diligence the interim statements together with the other financial information included in the filings fairly represents in all material respects the financial condition, financial performance and cash flows of the Issuer, as of the date of and for the periods presented in the annual filings.

PROPOSED TRANSACTIONS

Although the Company has participated in discussions with third parties regarding a RTO there are no proposed transactions involving asset acquisitions or disposals that have been approved by the Company or its Board of Directors as of the date of this MDA. The Company has determined that it will focus on acquisitions in the BC Wine Industry.
