

# Red Light Holland Receives Certificate of Analysis for Their Dehydrated Homogenized Natural Psilocybin Developed and Tested by Partner CCrest Laboratories Aimed for Distribution with NUBU Pharmaceuticals in Australasia

- Certificate of Analysis issued for processed psilocybin truffles imported from Red Light Holland's farm in the Netherlands by CCrest Laboratories.
- Child proof packaging has been sourced.

Toronto, Ontario--(Newsfile Corp. - April 21, 2023) - Red Light Holland Corp. (CSE: TRIP) (FSE: 4YX) (OTCQB: TRUFF) ("Red Light Holland" or the "Company"), a company engaged in the production, growth and sale of functional mushrooms and mushroom home grow kits in North America and Europe, and a premium brand of psilocybin truffles to the legal, recreational market within the Netherlands, in compliance with all applicable laws, is thrilled to announce updates regarding its manufacturing plans to create homogenised natural psilocybin microdosing capsules.

CCrest Laboratories Inc. ("CCrest Laboratories"), a Montreal-based cGMP pharmaceutical laboratory that holds a Controlled Drugs & Substances Dealer's License from Health Canada, has completed dehydration and homogenization and has produced a Certificate of Analysis of Red Light Holland's natural psilocybin truffles grown in the Netherlands that were imported to Canada under a Health Canada licence.

Further, the Company has selected and sourced child proof packaging for its microdosing capsules. The packaging includes a HDPE plastic bottle with Child Resistant Closures (CRC) and an auto lock external box (see Image 1 and 2). As disclosed previously, and subject to obtaining Health Canada's approval for export, the natural psilocybin microdosing capsules are intended to be distributed in Australasia by NUBU Pharmaceuticals ("NUBU Pharmaceuticals"), a leading medical cannabis company based in New Zealand with distribution ties to Australia.

"We are very hopeful that our prestigious partnerships with CCrest and NUBU Pharmaceuticals will bring about an excellent natural psilocybin microdosing product that has the potential of helping many people," said Todd Shapiro, Red Light Holland CEO and Director. "We will continue to carefully yet aggressively seek legal opportunities to increase responsible access to natural psilocybin around the world."

"We are very excited to now have a first potential destination for the natural psilocybin microdosing capsules we are developing, and to make significant progress towards the end product," said Alex Grenier, CEO of Shaman Pharma and President of CCrest Laboratories.

"This is a great first step towards getting the Microdosing capsules distributed in Australasia," said Mark Dye, Co-Founder and CEO of NUBU.

Australia has recently, on February 3, 2023, announced a down-listing of psilocybin in its list of controlled substances to allow psychiatrists to prescribe psilocybin to patients suffering from treatment resistant depression. The change in scheduling was announced to take effect on July 1, 2023.
