

## **Q Precious & Battery Metals Corp. Closes 1<sup>st</sup> Tranche of Private Placement and Matane Acquisition**

March 3, 2025 – Vancouver, British Columbia. **Q Precious & Battery Metals Corp.** (the “**Company**”) (CSE: QMET) (Frankfurt: 0NB) (OTCPK: BTKRF) announces they have closed the first tranche of their private placement and have closed its amended and restated acquisition agreement to acquire Matane hydrogen project.

### Private Placement

The Company closed the first tranche of its previously announced private placement offering (see press release dated February 21, 2025) for gross proceeds of \$536,555.03 issuing a combination of flow-through shares (the “FT Shares”) at a price of \$0.09 per FT share and non-flow through units (“NFT Units”) at a price of \$0.075 per NFT Unit subject to CSE approval.

Each NFT Unit consists of one non-flow-through common share and one warrant. Each warrant will entitle the holder to purchase a common share at a price of \$0.10 per share for a two-year term (the “Warrant Term”).

The Company paid finders fees of \$22,875 and 85,000 finder’s warrants (the “Finder’s Warrants”) to eligible finders. Each Finder’s Warrant shall be exercisable at a price of \$0.10 per share for a two year term.

The securities issued will be subject to a four month and one day hold from the date of issuance.

The proceeds from the Offerings will be for mineral and gas exploration activities and general working capital.

### Matane Acquisition

The Company also announces that it has closed its previously announced amended and restated acquisition agreement (the “Acquisition Agreement”) (see press releases dated January 30, 2025 and February 2, 2025). Under the terms of the Acquisition Agreement, the Company made a \$25,000 payment to Zadkiel Holdings Inc. and issued 6,000,000 common shares to the beneficial owners (the “Sellers”) in exchange for the Matane Hydrogen Project. In addition, the Company granted the Sellers a 1.2% royalty on revenues from the sale of any hydrogen or other minerals on the Matane Hydrogen Project (the “Sellers’ Royalty”). 50% of the Sellers’ Royalty may be purchased for \$1,200,000. The Sellers’ Royalty, and any proceeds from a buyout of the Seller’s Royalty is split pro-rata between the Sellers based on their proportional interest in the Acquisition Agreement.

In addition, in accordance with the terms of the strategic collaboration agreement (the “Collaboration Agreement”) with Quebec Innovative Materials Corp. (“QIMC”) (see press release dated February 2, 2025) the Company has issued 4,000,000 common shares to QIMC and has granted QIMC a 0.80% royalty on revenues from the sale of any hydrogen or other minerals on the Matane Hydrogen Project (the “QIMC Royalty”). 50% of the QIMC Royalty may be purchased for \$800,000.

The Sellers and QIMC are arms-length to the Company. The securities issued will be subject to a four month and one day hold from the date of issuance.

On behalf of the Board of Directors

## Cautionary Statement

*This news release contains certain "forward-looking statements" and "forward-looking information" within the meaning of applicable securities laws. Forward-looking statements relate to future events or future performance and include, but are not limited to, statements regarding the anticipated use of proceeds from the private placement, regulatory approvals, the Company's exploration and development plans for the Matane Hydrogen Project, future payments or share issuances under the Acquisition Agreement, and the potential exercise or repurchase of the Sellers' Royalty and the QIMC Royalty. Forward-looking statements are based on reasonable assumptions at the time they are made, including expectations regarding market conditions, regulatory approvals, the Company's ability to secure necessary permits, and its ability to execute exploration and development programs as planned. However, these statements are subject to a variety of risks and uncertainties that could cause actual results to differ materially from those anticipated. Such risks and uncertainties include, but are not limited to: delays in obtaining regulatory approvals, fluctuations in commodity prices, operational and technical challenges, capital market conditions, unforeseen geological factors, and risks associated with the hydrogen and mineral resource industries. There can be no assurance that the Company will complete its planned exploration and development activities as anticipated, that expected cost structures or funding sources will remain available, or that any of the royalties or other financial terms outlined in the agreements will be exercised or acquired under the anticipated conditions. Except as required by law, the Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Readers are cautioned not to place undue reliance on forward-looking information. Additional information identifying risks and uncertainties that may affect the Company's financial and operational performance is available in its public filings with Canadian securities regulators at [www.sedarplus.ca](http://www.sedarplus.ca).*
