# Micromem Technologies Inc. Unaudited Condensed Interim Consolidated Financial Statements Notice of no auditor review of the condensed interim consolidated financial statements

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed interim consolidated financial statements, they must be accompanied by a notice indicating that the condensed interim consolidated financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of Micromem Technologies Inc. (the "Company") have been prepared by and are the responsibility of the Company's management and approved by the Board of Directors.

The Company's independent auditor has not performed a review of these condensed interim consolidated financial statements in accordance with the standards established by the Chartered Professional Accountants of Canada, for a review of condensed interim consolidated financial statements by an entity's auditor.

The accompanying notes are an integral part of these unaudited condensed interim consolidated financial statements.

#### 1. Reporting entity and nature of business

Micromem Technologies Inc. ("Micromem" or the "Company") is incorporated under the laws of the Province of Ontario, Canada. Micromem is a publicly traded company with its head office located at 121 Richmond Street West, Suite 602, Toronto, Ontario, Canada. The Company's common shares are currently listed on the Canadian Securities Exchange under the trading symbol "MRM" and on the Over the Counter Venture Market under the trading symbol "MMTIF".

The Company develops, based upon proprietary technology, customized sensor applications for companies (referred to as "Development Partners") operating internationally in various industry segments. The Company has not generated commercial revenues through April 30, 2023 and is devoting substantially all its efforts to securing commercial revenue opportunities.

#### 2. Going concern

These unaudited condensed interim consolidated financial statements have been prepared with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

There are material uncertainties related to conditions and events that cast substantial doubt about the Company's ability to continue as a going concern and ultimately on the appropriateness of the use of the accounting principles applicable to a going concern. During the six months ended April 30, 2023, the Company reported a net loss and comprehensive loss of 4,112,364 (2022 - 1,285,004) and negative cash flow from operations of 510,994 (2022 - 630,548). The Company's working capital deficiency as at April 30, 2023 was 6,847,503 (October 31, 2022 - 4,722,878).

The Company's success depends on the profitable commercialization of its proprietary sensor technology. Based upon its current operating and financial plans, management of the Company believes that it will have sufficient access to financial resources to fund the Company's planned operations through the next twelve months; however, the ability of the Company to continue as a going concern is dependent upon its ability to secure additional financing and/or to profitably commercialize its technology. There is no assurance that the Company will be successful in the profitable commercialization of its technology, or will be able to secure the necessary additional financing. These unaudited condensed interim consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern. If the going concern assumption was not appropriate for these unaudited condensed interim consolidated financial scule be necessary to the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used; in such cases, these adjustments could be material.

#### 3. Basis of presentation

These unaudited condensed interim consolidated financial statements for the three and six months ended April 30, 2023 and 2022 have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting. The accounting policies and methods of computation adopted in the preparation of the unaudited condensed interim consolidated financial statements are consistent with those followed in the preparation of the Company's audited annual consolidated financial statements for the year ended October 31, 2022. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

These unaudited condensed interim consolidated financial statements were authorized for issuance and release by the Company's Board of Directors on June 29, 2023.

(a) Basis of consolidation

These unaudited condensed interim consolidated financial statements include the accounts of Micromem Technologies Inc. and its subsidiaries. All intercompany transactions and balances have been eliminated upon consolidation.

#### 3. Basis of presentation (continued)

#### (a) Basis of consolidation (continued)

The Company's wholly-owned subsidiaries include:

(i)	Inactive	Domiciled in
	Micromem Applied Sensors Technology Inc. ("MAST")	United States
	707019 Canada Inc.	Canada
	Memtech International Inc.	Bahamas
	Memtech International (USA) Inc., Pageant Technologies (USA) Inc.	United States
	Pageant Technologies Inc., Micromem Holdings (Barbados) Inc.	Barbados

#### (b) Basis of measurement

These unaudited condensed interim consolidated financial statements have been prepared on the historical cost basis, except for financial instruments designated at fair value through profit and loss which are measured at their fair value.

## (c) Functional and presentation currency

These unaudited condensed interim consolidated financial statements are presented in United States dollars ("USD"), which is the functional currency of the Company and all of its subsidiaries.

#### (d) Use of estimates and judgments

The preparation of these unaudited condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the unaudited condensed interim consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates are reviewed periodically and adjustments are made as appropriate in the reporting period they become known. Items for which actual results may differ materially from these estimates are described in the following section.

(i) Fair value of options and conversion features

The Company makes estimates and utilizes assumptions in determining the fair value for stock options and conversion features based on the application of the Black-Scholes option pricing model or the binomial option pricing model, depending on the circumstances. These pricing models require management to make various assumptions and estimates that are susceptible to uncertainty, including the volatility of the share price, expected dividend yield, expected term, risk-free interest rate, and exercise price in the binomial option pricing model.

(ii) Useful lives and recoverability of long-lived assets

Long-lived assets consist of property and equipment and patents. Amortization is dependent upon estimates of useful lives and impairment is dependent upon estimates of recoverable amounts. These are determined through the exercise of judgment and are dependent upon estimates that take into account factors such as economic and market conditions, frequency of use, anticipated changes in laws, and technological improvements.

#### 3. Basis of presentation (continued)

- (d) Use of estimates and judgments (continued)
  - (iii) Income taxes

Income taxes and tax exposures recognized in the unaudited condensed interim consolidated financial statements reflect management's best estimate of the outcome based on facts known at the reporting date. When the Company anticipates a future income tax payment based on its estimates, it recognizes a liability. The difference between the expected amount and the final tax outcome has an impact on current and deferred taxes when the Company becomes aware of this difference.

When the Company incurs losses for income tax purposes, it assesses the probability of taxable income being available in the future, based on budgeted forecasts. These forecasts are adjusted for certain non-taxable income and expenses and specific rules on the use of unused credits and tax losses. When the forecasts indicate that sufficient future taxable income will be available to deduct the temporary differences, a deferred tax asset is recognized for all deductible temporary differences.

(iv) Going concern assumption

The Company applies judgment in assessing whether material uncertainties exist that would cause doubt as to the whether the Company could continue as a going concern.

#### 4. New and revised standards and interpretations

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after November 1, 2022. The Company has adopted these pronouncements as of their effective date, and many are not applicable or do not have a significant impact on the Company and have been excluded.

The following amendments were issued but not yet effective. The Company will adopt these amendments as of their effective dates. The Company is currently assessing the impacts of adoption.

#### (a) Amendments to IAS 1, Presentation of Financial Statements

IAS 1 was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on January 1, 2023.

In February 2021, the IASB issued 'Disclosure of Accounting Policies' with amendments that are intended to help preparers in deciding which accounting policies to disclose in their financial statements. The amendments are effective for year ends beginning on or after January 1, 2023.

(b) Amendment to IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors

In February 2021, the International Accounting Standards Board ("IASB") issued 'Definition of Accounting Estimates' to help entities distinguish between accounting policies and accounting estimates. The amendment is effective for annual reporting periods beginning on or after January 1, 2023. Earlier adoption is permitted.

#### 4. New and revised standards and interpretations (continued)

(c) Amendments to IAS 12, Income Taxes

In May 2021, the IASB issued 'Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction' that clarifies how entities account for deferred tax on transactions such as leases and decommissioning obligations. The amendments are effective for year ends beginning on or after January 1, 2023.

(d) Amendments to IFRS 10, Consolidated Financial Statements and IAS 28, Investments in Associates and Joint Ventures

IFRS 10 and IAS 28 were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined, however early adoption is permitted.

## 5. Property and equipment

Cost	As at November 1, 2022		November 1,		November 1,		Ad	lditions	Dis	posals	oreign hange	As at pril 30, 2023
Computers	\$	7,466	\$	-	\$	-	\$ -	\$ 7,466				
Right-of-use assets		48,408		-		-	-	48,408				
-		55,874		-		-	-	55,874

Net book value	\$	48,092						\$ 39,466				

#### 6. Patents

	No	As at vember 1,					Fo	reign	A	As at April 30,	
		2022	Ado	litions	Disposals		exchange		2023		
Cost	\$	681,288	\$	-	\$	-	\$	-	\$	681,288	
Accumulated amortization		681,288		-		-		-		681,288	
Net book value	\$	-	\$	-	\$	-	\$	-	\$	-	

The Company holds several patents in the United States for its Multimodal Fluid Condition Sensor Platform. In prior years, the Company had negotiated with a major automotive company and a Tier 1 manufacturer for the development and commercial exploitation of this patented technology. The Company maintains that there remains significant potential value in its existing patents in terms of potential licensing agreements and royalty fees once it begins to exploit this asset class in the future.

#### 7. Leases

(a) Continuity schedule of lease obligation

The lease obligation relates to the use of office space in Toronto, Ontario. On May 26, 2022, a new lease agreement was entered into for a term from August 1, 2022 to July 31, 2025 for office space in another location in Toronto, Ontario. The present value of the lease obligation was calculated using a discount rate of 9%.

Balance, October 31, 2022	\$ 44,784
Interest expense	1,832
Lease payments	(9,391)
Foreign exchange	 483
Balance, April 30, 2023	\$ 37,708

#### (b) Maturity analysis of lease obligations

The following represents a maturity analysis of the Company's undiscounted contractual lease obligations as at April 30, 2023:

	 CDN
Less than one year	\$ 25,821
Between one and five years	\$ 30,821

#### 8. Long-term loan

As at April 30, 2023, the Company has a \$60,000 CDN (\$44,244 USD) (October 31, 2022 – \$60,000 CDN, \$43,796 USD) interest-free loan from the Government of Canada under the Canada Emergency Business Account ("CEBA") program to cover its operating costs. The term loan matures on December 31, 2025. Repaying the balance of the loan on or before December 31, 2023 will result in a loan forgiveness of \$20,000 CDN (\$14,748 USD). Effective January 1, 2024, any outstanding balance on the term loan shall bear interest at a rate of 5% per annum. As the Company does not yet know whether they will be able to meet the terms of forgiveness, no amount has been recognized in income.

# 9. Convertible debentures

The Company issues three types of convertible debentures: USD denominated convertible debentures with an equity component, Canadian dollar ("CDN") denominated convertible debentures with an embedded derivative due to variable consideration payable upon conversion caused by foreign exchange, and USD denominated convertible debentures with an embedded derivative caused by variable conversion prices.

During the three and six months ended April 30, 2023, the Company incurred \$nil (2022 - \$nil) financing costs. All loan principal amounts and conversion prices are expressed in original currency and all remaining dollar amounts are expressed in USD.

# 9. Convertible debentures (continued)

Call value	\$0.02 - \$0.09	\$0.00 - \$0.02

Volatility was estimated using the historical volatility of the Company's stock prices for common shares.

## 10. Debenture payable

This debenture was issued on March 17, 2020 with an original maturity date of June 17, 2020 with a principal amount of \$51,500 CAD. On June 17, 2020, December 17, 2020, June 17, 2021, December 17, 2021, June 17, 2022, and December 17, 2022, the debenture was extended for six month intervals. The most recent extension on December 17, 2022, extended the debenture to June 17, 2023. The debenture bears interest at an annual rate of 24% and is unsecured. Interest expense on this debenture of \$2,286 USD and \$4,578 USD has been recognized during the three and six months ended April 30, 2023 (2022 - \$2,286 USD and \$4,578 for the three and six month periods).

## 11. Share capital

(a) Authorized and outstanding shares

The Company has two classes of shares as follows:

- (i) Special redeemable voting preference shares 2,000,000 authorized, nil issued and outstanding.
- (ii) Common shares without par value an unlimited number authorized. The holders of the common shares are entitled to receive dividends which may be declared from time to time, and are entitled to one vote per share at shareholder meetings of the Company. All common shares are ranked equally with regards to the Company's residual assets.
- (b) Private placements

During the six months ended April 30, 2023, the Company completed 20 private placements (2022 - 4 private placements), pursuant to prospectus and registration exemptions set forth in applicable securities law. The Company received net proceeds of \$454,377 (2022 - \$143,752) and issued a total of 8,660,000 (2022 - 3,213,674) common shares. During the six months ended April 30, 2023, the Company also received \$33,618 in subscriptions for 2 private placements for a total of 379,500 common shares (2022 - \$51,473).

## 12. Stock options

#### (a) Stock option plan

Under the Company's fixed stock option plan (the "Plan"), the Company can grant up to 27,500,000 shares of common stock to directors, officers, employees or consultants of the Company and its subsidiaries. The exercise price of each option is equal to or greater than the market price of the Company's shares on the date of grant unless otherwise permitted by applicable securities regulations. An option's maximum term under the Plan is 10 years. Stock options are fully vested upon issuance by the Company unless the Board of Directors stipulates otherwise by Directors' resolution.

## (b) Summary of changes

March 20, 2023	March 20, 2028	2,000,000	2,000,000		0.07	4.89	
April 6, 2023	April 6, 2024	1,000,000	250,000		0.12	0.94	
As at April 30, 2023		13,875,000	12,625,000	\$	0.07	2.17	

During the three and six months ended April 30, 2023, the Company recorded an expense of \$145,714 and \$151,406 respectively for the vesting of stock options (2022 - \$nil and \$952).

## 13. Loss per share

Basic and diluted loss per share are calculated using the following numerators and denominators:

	Three months ended April 30,					Six months ended April 30,			
Numerator		2023		2022		2023		2022	
Net loss attributable to common shareholders and used in computation of basic income (loss) per share									
	\$	(3,896,034)	\$	107,839	\$	(4,112,364)	\$	(1,285,004)	
Add: adjustments for dilutive effects		-		73,814		-		-	
Net loss attributable to common shareholders and used in computation diluted income (loss) per share									
	\$	(3,896,034)	\$	181,653	\$	(4,112,364)	\$	(1,285,004)	
<b>Denominator</b> Weighted average number of common shares for									
computation of basic income (loss) per share									
		474,546,633		445,480,827		474,546,633		443,733,006	
Dilutive effects of convertible features (Note 9) and stock options (Note 12)		_		52,813,311		_		_	
Weighted average number of common shares for computation of diluted income (loss) per share				52,015,511					
		474,546,633		498,294,138		474,546,633		443,733,006	

Basic income (loss) per share amounts are calculated by dividing the net income (loss) attributable to common shareholders for the periods by the weighted average number of common shares outstanding during the periods.

#### 14. Income taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for income tax purposes.

As at April 30, 2023, the Company has non-capital losses of approximately \$32 million, \$27.6 million in Canada and \$4.4 million in other foreign jurisdictions, available to reduce future taxable income. Non-capital losses expire commencing in 2026. In addition, the Company has available capital loss carry forwards of approximately \$1.2 million to reduce future taxable capital gains. Capital losses carry forward

As at April 30, 2023, and October 31, 2022, the Company assessed that it is not probable that sufficient taxable income will be available to use deferred income tax assets based on operating losses in prior years; therefore, there are no balances recognized in the unaudited condensed interim consolidated statements of financial position for such assets.

# 15. Operating expenses

#### (a) General and administration

The components of general and administration expenses are as follows:

	Three months ended April 30,				Six months ended April 30,			
	2023			2022		2023		2022
General and administration	\$	12,274	\$	33,299	\$	29,876	\$	60,313
Investor relations, listing and filing fees		31,875		34,112		39,602		48,173
Telephone		1,395		1,718		2,480		3,644
	\$	45,544	\$	69,129	\$	71,958	\$	112,130

#### (b) Professional, other fees and salaries

The components of professional, other fees and salaries expenses are as follows:

	Tł	ree months	ended	April 30,	S	Six months ended April 30,			
		2023		2022		2023		2022	
Professional and consulting fees	\$	54,273	\$	86,360	\$	85,791	\$	155,724	
Salaries and benefits		60,859		54,429		110,511		170,091	
	\$	115,132	\$	140,789	\$	196,302	\$	325,815	

## 16. Supplemental cash flow information

The following provides a reconciliation of the cash flows from convertible debentures and derivative liabilities :

	Six months ended April 30,					
	 2023		2022			
Balance - beginning of period	\$ 4,433,363	\$	3,239,483			
Cash flows from financing activities:						
Proceeds from issuance of convertible debentures	274,600		345,000			
Repayments of convertible debentures	(66,500)		(15,000)			
Non-cash changes:						
Accretion expense	154,051		1,254,943			
Accrued interest on convertible debentures	232,887		(10,502)			
Loss (gain) on repayment of convertible debentures	(18,382)		-			
Loss (gain) on conversion of convertible debentures	21,120		-			
Loss (gain) on revaluation of derivative liabilities	1,278,545		31,315			
Loss (gain) on extinguishment of debt	2,004,621		26,844			
Convertible debentures converted into common shares	(1,308,672)		(155,786)			
Renewal of convertible debentures	-		(11,203)			
Foreign exchange loss	 (87,766)		49,544			
Balance - end of period	\$ 6,917,867	\$	4,754,638			

## 17. Key management compensation and related party transactions

The Company reports the following related party transactions:

#### (a) Key management compensation

Key management personnel are persons responsible for planning, directing and controlling activities of the Company, including officers and directors. Compensation paid or payable to these individuals (or companies controlled by such individuals) are summarized as follows:

	Th	Three months ended April 30,				Six months ended April 30,			
	2023			2022		2023		2022	
Professional, other fees, and salaries Stock-based compensation	\$	40,667 45,424	\$	33,102	\$	50,428 45,424	\$	63,990 -	
	\$	86,091	\$	33,102	\$	95,852	\$	63,990	

During the three and six months ended April 30, 2023, key management was awarded 680,000 stock options (2022 - nil).

#### (b) Trade payables and other liabilities

Included in accounts payable is \$5,150 CDN (USD - \$3,798) payable to a corporation controlled by an officer of the Company as at April 30, 2023 (October 31, 2022 - \$5,650 CDN (USD - \$4,139)).

#### 18. Contingencies

- (a) The Company has agreed to indemnify its directors and officers and certain of its employees in accordance with the Company's bylaws. The Company maintains insurance policies that may provide coverage against certain claims.
- (b) The Company has previously reported on the lawsuit filed by Mr. Steven Van Fleet against Micromem, the Company's response to the lawsuit and its counterclaims against Mr. Van Fleet.

On April 29, 2021 the matter was resolved in Micromem's favor when the Court dismissed Mr. Van Fleet's claims and ruled that he was liable to the Company and to MAST on their counterclaims. On June 16, 2021, the Court ruled that Micromem and MAST had established damages totaling \$765,579 representing the full amount that had been requested; furthermore, the Court awarded costs and statutory prejudgment interest from May 9, 2017. On June 29, 2021 the Court entered a judgement in favor of Micromem and MAST for a total amount of \$1,051,739.

With respect to the Company's efforts to collect on that Judgement, a settlement ("Settlement") was reached during October 2021. Pursuant to the Settlement, the Company received an initial one-time payment and is entitled to additional monthly payments over a period of up to six years. The Company will record those payments as and when they are received. The total amount to be received by the Company if Mr. Van Fleet makes all the required payments under the terms of the Settlement will be less than the amount of the Judgement obtained by the Company, but if Mr. Van Fleet does not comply with the terms of the Settlement, it also provides the Company a means of enforcing a larger judgement against Mr. Van Fleet that is substantially in line with the Judgement. Mr. Van Fleet has made the prescribed monthly payments each month since October 2021.

The Company is now pursuing collection of the judgement award. It will report the recovery of this contingent asset as funds are received. During the six months ended April 30, 2023, the Company has recorded a recovery of \$2,400 received in the period as a reduction of legal expenses (2022 - \$2,400).

#### 19. Financial risk management

#### (a) Currency risk

Currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in foreign exchange rates. The Company is exposed to currency risk to the extent that it incurs expenses and issues convertible debentures denominated in Canadian dollars (CDN). The Company manages currency risk by monitoring the Canadian dollar position of these monetary financial instruments on a periodic basis throughout the course of the reporting period.

As at April 30, 2023, and October 31, 2022, balances that are denominated in CDN are as follows:

	As at April 30, 2023 CDN			As at October 31, 2022 CDN		
Cash	\$	180,309	\$	15,715		
Other receivables	\$	73,667	\$	13,832		
Trade payables and other liabilities	\$	196,697	\$	393,978		
Convertible debentures	\$	2,598,149	\$	2,810,362		
Debenture payable	\$	51,500	\$	51,500		
Derivative liabilities	\$	4,394,881	\$	601,696		
Long-term loan	\$	60,000	\$	60,000		

A 10% strengthening of the US dollar against the CDN would decrease net loss and comprehensive loss by \$472,422 as at April 30, 2023, (October 31, 2022 - decrease net loss and comprehensive loss by \$257,995). A 10% weakening of the USD against the CDN would have the opposite effect of the same magnitude.

#### (b) Interest rate risk

Interest rate risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market interest rates. The Company is exposed to interest rate risk on its interest-bearing convertible debentures. This exposure is limited due to the short-term nature of the convertible debentures.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to review liquidity resources and ensure that sufficient funds are available to meet financial obligations as they become due. Further, the Company's management is responsible for ensuring funds exist and are readily accessible to support business opportunities as they arise. With the exception of the long-term loan, all financial liabilities are due within 1 year as at April 30, 2023.

(i) Trade payables

The following represents an analysis of the maturity of trade payables:

	As at April 30, 2023			As at October 31, 2022		
Less than 30 days past billing date 31 to 90 days past billing date Over 90 days past billing date	\$	145,044 - -	\$	287,575		
	\$	145,044	\$	287,575		

#### 19. Financial risk management (continued)

#### (c) Liquidity risk (continued)

#### (ii) Convertible debentures and derivative liabilities

## (d) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash. The maximum exposure to credit risk is the carrying value of these financial assets, which amounted to \$215,907 as at April 30, 2023 (October 31, 2022 - \$33,227). The Company reduces its credit risk by assessing the credit quality of counterparties, taking into account their financial position, past experience and other factors.

#### (i) Cash

The Company held cash of \$215,907 as at April 30, 2023 (October 31, 2022 - \$33,227). The cash is held with central banks and financial institution counterparties that are highly rated. The Company has assessed no significant change in credit risk and an insignificant loss allowance.

## 20. Fair value hierarchy

Assets and liabilities recorded at fair value in the unaudited condensed interim consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets and liabilities. There are no assets or liabilities in this category in these unaudited condensed interim consolidated financial statements.

Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. In these unaudited condensed interim consolidated financial statements, derivative liabilities are included in this category.

Level 3 - valuation techniques using the inputs for the asset or liability that are not based on observable market data. There are no assets or liabilities in this category in these unaudited condensed interim consolidated financial statements.

The Company's policy for determining when transfers between levels of fair value hierarchy occur is based on the date of the event or changes in circumstances that caused the transfer. During the three and six months ended April 30, 2023 and 2022, there were no transfers between levels.

## 21. Capital risk management

The Company's objectives when managing capital are to (i) maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, (ii) ensure it has sufficient cash resources to further develop and market its technologies and (iii) maintain its ongoing operations. The Company defines its capital as its net assets, i.e. total assets less total liabilities. In order to secure the additional capital necessary to pursue these objectives, the Company may attempt to raise additional funds through the issuance of equity or convertible debentures or by securing strategic partners. The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the three and six month periods ended April 30, 2023.

## 22. Subsequent events

Subsequent to April 30, 2023:

(a) The Company secured a private placement with an investor consisting of common shares with no warrants pursuant to prospectus
 (a) and registrations set forth in applicable securities law. It realized net proceeds of \$21,000 USD and issued a total of 200,000 common shares.

(b) The Company extended convertible debentures that were within 3 months of maturity date from April 30, 2023 for an additional six (6) months.

(c) The Company secured \$80,937 USD in a convertible debenture with a 12 month term and conversion features which become effective six months after initiation date.

- (d) The Company converted \$265,855 CDN of convertible debentures through the issuance of 5,317,100 common shares.
- (e) The Company issued 800,000 common shares for a total of \$104,000 CDN for the exercise of stock options.
