1. Nature of operations and going concern

Nature of business

Class 1 Nickel and Technologies Limited (formerly Lakefield Marketing Corp.) ("Class 1" or the "Company") was incorporated on December 12, 1989, under the laws of the Province of Ontario. The principal business of the Company is mining exploration and development of minerals and precious metals in Canada. The corporate head office of the Company is located at 82 Richmond Street East, Toronto, Ontario, M5C 1P1.

Going concern uncertainty

At each reporting period, management assesses the basis of preparation of the financial statements. These financial statements have been prepared on a going concern basis in accordance with IFRS. The going concern basis of presentation assumes that the Company will continue its operations for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to amounts and classifications of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

For the three months ended March 31, 2020, the Company incurred a net loss of \$168,234 respectively (March 31, 2019 - \$nil) and had negative operating cash flows of \$132,726 (March 31, 2019 - \$nil). The Company has an accumulated deficit of \$1,734,361 since inception (December 31, 2019 - \$1,566,128) and does not have sufficient cash as at March 31, 2020 to meet its expected obligations over the next twelve months. These factors raise significant doubt about the Company's ability to continue as a going concern.

The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon its ability to generate cash flows from operations and to complete negotiations to obtain and successfully close additional funding from debt financing, equity financings or through other arrangements. These conditions indicate the existence of a material uncertainty that may cast significant doubt regarding the Company's ability to continue as a going concern. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption deemed to be inappropriate. These adjustments could be material.

2. Reverse take-over transaction

On September 24, 2019, the Company completed a business combination (the "Transaction") with Legendary Ore Mining Corporation ("Legendary") by way of a "three-cornered amalgamation", resulting in the reverse take-over of the Company by Legendary's former shareholders.

The Transaction was completed in accordance with the terms of an amalgamation agreement (the "Amalgamation Agreement") between the Company, Legendary and Bloom Retail Management Inc. ("Lakefield Subco"), a wholly-owned subsidiary of the Company. On closing of the Transaction, Legendary amalgamated with Lakefield Subco to form a new corporation, which became a wholly-owned subsidiary of the Company continuing under the name "Legendary Ore Mining Corporation". In exchange for all of the issued and outstanding common shares of Legendary, the Company issued 80 million common shares of the Company to the former Legendary shareholders. As a result, on closing, the former Legendary shareholders held approximately 89% of the 90,029,209 total outstanding shares of the Company.

Immediately prior to the Transaction taking effect, the Company changed its name to "Class 1 Nickel and Technologies Limited". Upon the completion of the Transaction, the former directors and officers of the Company resigned from all offices with the Company and new directors and officers were appointed.

3. Significant accounting policies

Statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs, which have been applied consistently to all periods presented. These unaudited condensed interim were issued and effective as of June 16, 2020, the date the Board of Directors approved the statements.

The preparation of financial statements in accordance with International Accounting Standards (IAS) 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to these Condensed Consolidated Interim Financial Statements were the same as those that applied to the Company's annual Consolidated Financial Statements as at and for the year ended December 31, 2019, except as noted below.

New standards not yet adopted

Definition of a Business (Amendments to IFRS 3)

The IASB has issued Definition of a Business (Amendments to IFRS 3) to clarify the definition of a business for the purpose of determining whether a transaction should be accounted for as an asset acquisition or a business combination. The amendments:

- clarify the minimum attributes that the acquired assets and activities must have to be considered a business
- remove the assessment of whether market participants can acquire the business and replace missing inputs or processes to enable them to continue to produce outputs
- narrow the definition of a business and the definition of outputs
- add an optional concentration test that allows a simplified assessment of whether an acquired set of activities and assets is not a business

This amendment is effective for annual periods beginning on or after January 1, 2020. Earlier application is permitted. The Company has adopted this policy during the three months ended March 31, 2020, and there was no material impact to the unaudited condensed interim financial statements.

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

4. Mining interest

The "Alexo-Dundonald Project" is an exploration stage, past-producing nickel-copper-cobalt sulphide project, located approximately 45 kilometers northeast of the city of Timmins, Ontario, Canada. Ontario. The Alexo-Dundonald Project combines the Alexo-Kelex and Dundonald properties and consists of 29 patented claims (19 with both mining and surface rights, nine with mining rights only and one with surface rights only), 40 leased claims (31 with both mining and surface rights and nine with mining rights only), 21 single cell mining claims and five boundary cell mining claims. The Company owns all the outstanding equity of Legendary Ore Mining Corporation, which holds a 100% interest in the mining claims, leases and properties comprising the Alexo-Dundonald Project, subject to certain tenure agreements and any rights or claims asserted in connection with historic royalty agreements granted in respect of the Alexo-Kelex and Dundonald properties.

The Alexo deposit was discovered in 1907, and between the years 1913 to 1919, 51,851 tonnes grading 4.5% nickel and 0.7% copper was extracted and sent to Sudbury, Ontario, for processing. Most recently, Canadian Arrow Mines Ltd shipped 6,000 tonnes grading 2.46% nickel, 0.31% copper, and 0.07% cobalt as part of a 10,000 tonne bulk sample permit held at the time, and started the reclamation of the project as part of a Closure Plan approved in 2004 and amended in 2011.

4. Mining interest (continued)

During the three months ended March 31, 2020, the Company spent \$58,356 on exploration and evaluation on this project (2019 - \$nil)

In addition, the Company has an option (the "Somanike Option") to acquire a 100% interest in the rights held by Vanicom Resources Limited, in an option to acquire the Somanike property, an exploration stage nickel-copper mine project, including the past-producing Marbridge Nickel Sulphide Mine located near Val d'Or, Quebec. The Company is concentrated on advancing the Alexo Project for the current time being and will continue to evaluate this option on an on-going basis.

5. Share capital

a) Authorized share capital

The authorized share capital consists of an unlimited number of common shares without par value. All issued shares are fully paid.

	Number of common shares	Amount
Balance, December 31, 2018 and March 31, 2019	10,029,209	\$ 2
Balance, December 31, 2019 and March 31, 2020	90,029,209	\$ 1,695,586

6. Related party transactions

The Company has \$14,684 in amounts due from a company with common directors of Class 1. The amounts are accrued in the normal course of operation at their exchange value.

Key management includes directors and other key personnel, including the Chief Executive Officer ("CEO"), President and Chief Financial Officer ("CFO"), who have authority and responsibility for planning, directing, and controlling the activities of the Company.

The CEO of the Company has not received cash remuneration for the three months ended March 31, 2020 (March 31, 2019 - \$nil). There is no amounts payable as at March 31, 2020.

The CFO of the Company is a senior employee of Marrelli Support Services Inc. ("MSSI"). During the three months ended March 31, 2020, the Company paid or accrued professional fees of \$7,663 (three months ended March 31, 2019 - \$2,000) to MSSI. These services were incurred in the normal course of operations for general accounting and financial reporting matters. MSSI also provides bookkeeping services to the Company. As at March 31, 2020, MSSI was owed \$7,912 (December 31, 2018 - \$nil) with respect to services provided. The balance owed was recorded in the statement of financial position in accounts payable.

7. Commitments

The Company has entered into a lease to rent office space with a related party, for \$950 a month for a term of 12 months ending July 1, 2020. Due to the short term nature of the lease, it has not been accounted for under IFRS 16.

8. Subsequent events

Subsequent to March 31, 2020, the Company completed a non-brokered private placement of 9,500,000 common shares of the Company as \$0.10 for gross proceeds of \$950,000. A director of the Company subscribed for 6,000,000 shares in the placement.

During and subsequent to the three months ended March 31, 2020 the outbreak of the novel strain of coronavirus, specifically identified as "COVID 19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID 19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions.

The impact of the global and local restrictions has not caused a significant delay in the operations of the Company, however the exploration activities did experience a brief interruption due to municipal lockdown orders.
