

Class 1 Nickel and Technologies Limited

MANAGEMENT'S DISCUSSION AND ANALYSIS

THREE AND SIX MONTHS ENDED JUNE 30, 2021

(EXPRESSED IN CANADIAN DOLLARS)

INTRODUCTION

The following management's discussion and analysis ("MD&A") of the financial condition and results of the operations of Class 1 Nickel and Technologies Limited (Formerly Lakefield Marketing Inc.) ("Class 1" or the "Company") has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last management discussion and analysis, being the management discussion and analysis ("Annual MD&A") for the fiscal year ended December 30, 2020. This MD&A has been prepared in compliance with the requirements of section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the Annual MD&A, audited consolidated financial statements of the Company for the years ended December 31, 2020 and 2019 and the unaudited condensed interim consolidated financial statements of the Company for the three and six months ended June 30, 2021, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted.

The unaudited condensed interim consolidated financial statements (the "financial statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). The financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS. In the opinion of management, all adjustments (which consist only of normal recurring adjustments) considered necessary for a fair presentation have been included. Information contained herein is presented as of August 23, 2021, unless otherwise indicated.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Class 1 common shares; or (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity. Additional information related to the Company is available for view on SEDAR at www.sedar.com.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

Certain statements contained in this document constitute forward-looking statements. When used in this document, the words "may", "would", "could", "will", "intend", "plan", "propose", "anticipate", and "believe", used by any of the Company's management, are intended to identify forward-looking statements. Such statements reflect the Company's forecasts, estimates and expectations, as they relate to the Company's views with respect to future events and are subject to certain risks, uncertainties, and assumptions. Many factors could cause the Company's performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Company does not intend and does not assume any obligation, to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future results, events, or developments.

Inherent in forward-looking statements are risks, uncertainties and other factors beyond the Company's ability to predict or control. Please also make reference to those risk factors referenced in the "Risks and Uncertainties" section below. Readers are cautioned that the above chart does not contain an exhaustive list of the factors or assumptions that may affect the forward-looking statements, and that the assumptions underlying such statements may prove to be incorrect. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking statements. All forward-looking statements herein are qualified by this cautionary statement. Accordingly, readers should not place undue reliance on forward-looking statements. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements whether as a result of new information or future events or otherwise, except as may be required by law. If the Company does update one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements, unless required by law.

NATURE OF BUSINESS

The Company

Class 1 was incorporated on December 12, 1989 as "871900 Ontario Limited" under the *Business Corporations Act* (Ontario). The Company's head office and registered office is located at 82 Richmond Street East, Toronto, Ontario M5C 1P1. Class 1 was formerly named "Lakefield Marketing Corporation" until it completed a business combination transaction (the "Transaction") with Legendary Ore Mining Corporation on September 24, 2019, whereby it changed its name to "Class 1 Nickel and Technologies Limited".

On August 20, 2020, the Company commenced trading on the Canadian Securities Exchange under the symbol "NICO".

Principal Business

The Company is engaged in the business of mineral exploration and the acquisition of mineral property assets in Canada. Its objective is to locate and develop economic base metal properties of merit and to conduct its exploration program on the Alexo-Dundonald Project. The Company, as of the date of this report, currently beneficially owns 100% of the Alexo-Dundonald Project and holds 100% interest in the Somanike Project located in the Abitibi Region of Quebec.

The Company is in exploration-stage and does not generate revenues, therefore its ability to ensure continuing operations is dependent on acquiring full control of its mineral property interests, the discovery of potentially economically recoverable Mineral Resources reserves, confirmation of its interest in the underlying mineral claims, and its ability to obtain necessary financing to complete the exploration activities, development, if they are proven successful, and future profitable production.

Class 1's goal is to deliver superior returns to shareholders by concentrating on the exploration of its existing properties and the acquisition of properties that have the potential to contain nickel sulphide. The Company currently plans to focus on its material properties.

CORPORATE HIGHLIGHTS

On February 18, 2021, the Company announced that it has exercised the option to acquire a 100% interest in the Somanike Property pursuant to the option agreement dated September 24, 2019, as amended and restated April 27, 2020, between Legendary Ore Mining Corp. (a wholly-owned subsidiary of the Company) and Vanicom Resources Limited (the "Legendary Option Agreement"). Pursuant to the Legendary Option Agreement, the Company has exercised the option granted to Vanicom by Quebec Precious Metals Corporation ("QPMC") under an option agreement dated August 20, 2018, as amended (the "QPMC Option Agreement"), by paying Vanicom \$1 plus reimbursing Vanicom for all expenses made on the Somanike Property prior to the Company exercising said option.

On March 4, 2021, the Company announced nickel sulphide projects update, Quebec and Ontario:

- Acquisition of Somanike Nickel-Copper-PGE Project in northern Quebec executed
- Review and project report commissioned for the Somanike Project, including an advancement strategy for the historic Marbrige Mine Project
- A comprehensive Program of Work is being finalized for The Alexo-Dundonald Nickel-Copper-PGE Project in Timmins Ontario
- Work commenced on Alexo-Dundonald for First Nation agreements, permitting and approvals as preparations made to launch initial 10,000 m expansion drilling campaign

On March 4, 2021, the Company announced and signed a Memorandum of Understanding with Matachewan First Nation for Alexo-Dundonald Nickel Sulphide Project.

On March 22, 2021, the Company announced Ben Cooper has resigned from the Board of Directors of the Company. David Fitch has been appointed as President.

On March 22, 2021, the Company announced a Phase 1 Drill Program to expand mineral resources at Alexo-Dundonald Project:

- 5000 m Phase 1 drilling program set to commence at Alexo North and South Deposits to expand current Mineral Resources
- Initial 25 drill holes designed to define the mineralized trends at Alexo South and Alexo North
- Approvals in place, drill rig operator hired, on-site technical team secured
- First part of 10,000 m Phase 1 program planned for the Alexo-Dundonald Project
- Company well funded to complete the Phase 1 program with existing treasury

On March 24, 2021, the Company announced the appointment of Mathew Fitch as a director of the Company.

On April 22, 2021, the Company announced entered into an agreement with Echelon Capital Markets ("Echelon"), as sole agent to sell on a best efforts private placement basis, a minimum of \$2,000,000 of units (the "Offering"), that will consist of common shares that qualify as flow-through shares (the "Offered Securities").

CLASS 1 NICKEL & TECHNOLOGIES LIMITED
Management's Discussion and Analysis - Quaterly Highlights
June 30, 2021
Dated - August 23, 2021

On June 7, 2021, the Company announced closed its previously announced brokered private placement with Echelon, and issued 3,030,000 Flow-Through Units ("FT Units") to residents of Quebec at a price of \$0.65 and 3,403,334 FT Units to residents in Canada at a price of \$0.60, resulting in a total of 6,433,334 FT Units for total gross proceeds of \$4,011,500. Each FT Units is comprised of one common share and one common share purchase warrant (a "Warrant"). Each Warrant is exercisable to purchase one common share at an exercise price of \$0.85 and \$0.0 per common shares for residents in Quebec and Canada, respectively, for a period of three years from the date of the issuance.

On June 11, 2021, the Company granted 11,165,502 incentive stock options to directors, officers, employees and consultants of the Company, under the Company's Stock Option Plan, exercisable at a price of \$0.60 per common shares, vests immediately and expires three years from the grant date.

On June 21, 2021, the Company announced progress of the Phase 1 drilling program at the Alexo-Dundonald property.

On July 7, 2021, the Company provided an update on Phase 1 drill program at Dundonald south deposit, Alexo-Dundonald Property.

On July 12, 2021, the Company announced that it has completed the requisite minimum exploration expenditures in the aggregate amount of \$1,500,000 on its AlexoKelex and Dundonald properties (together, the "Properties"), with a minimum of \$750,000 of such expenditures being incurred on the Alexo Property (collectively, the "Expenditure Commitment") and \$750,000 on the contiguous Dundonald Property. Following completion of the Expenditure Commitment, the Company now holds 100% interest in each of the two Properties, subject to a 2% net smelter return royalty on the Alexo Property and a 2.5% net smelter return royalty on the Dundonald Property.

On July 26, 2021, the Company announced the discovery of a new zone of high-grade nickel sulphide mineralization from drilling at the Somanike Project.

On August 10, 2021, the Company announced that it has issued an aggregate of 50,000 common shares ("Shares") and granted an aggregate of 50,000 stock options to the Matachewan First Nation ("Matachewan"), further to its previously announced memorandum of understanding with the Matachewan dated March 3, 2021 (the "MOU"). The stock options are each exercisable to acquire one Share at an exercise price of \$0.87 until February 9, 2023, and vest as to 15% on the grant date, 20% on September 3, 2021, 25% on March 3, 2022, and as to the remaining 40% on September 3, 2022, in each case provided that the MOU remains in force as of the applicable date.

TRENDS AND ECONOMIC CONDITIONS

The Company continues to monitor its spending and will amend its plans based on business opportunities that may arise in the future. Management regularly monitors economic conditions and estimates their impact on the Company's operations and incorporates these estimates in both short-term operating and longer term strategic decisions.

Due to the worldwide COVID-19 pandemic, material uncertainties may arise that could influence management's going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global commodity prices
- Demand for base metals and the ability to explore for base metals;
- The severity and the length of potential measures taken by governments to manage the spread of the virus, and their effect on service provider availability, such as legal and accounting;
- Purchasing power of the Canadian dollar;
- Ability to obtain funding.

MINERAL PROPERTY INTERESTS

Eugene Puritch, P.Eng, FEC, CET is an independent Qualified Person under the definition of National Instrument 43-101. Mr. Puritch has approved the disclosure contained under the heading “Mineral Property Interests” and has verified the scientific and technical data contained herein.

Alexo-Dundonald Project

A comprehensive NI 43-101 Technical Report is available for the Alexo-Dundonald Project from the Company's website at www.class1nickel.com and from its profile at www.sedar.com.

The Alexo-Dundonald Nickel Project is located approximately 45 km northeast of the City of Timmins, Ontario, Canada. It covers an area of approximately 1,895 hectares and comprises 95 Boundary Cell Mining Claims, Single Cell Mining Claims, Leased Claims and Patented Claims.

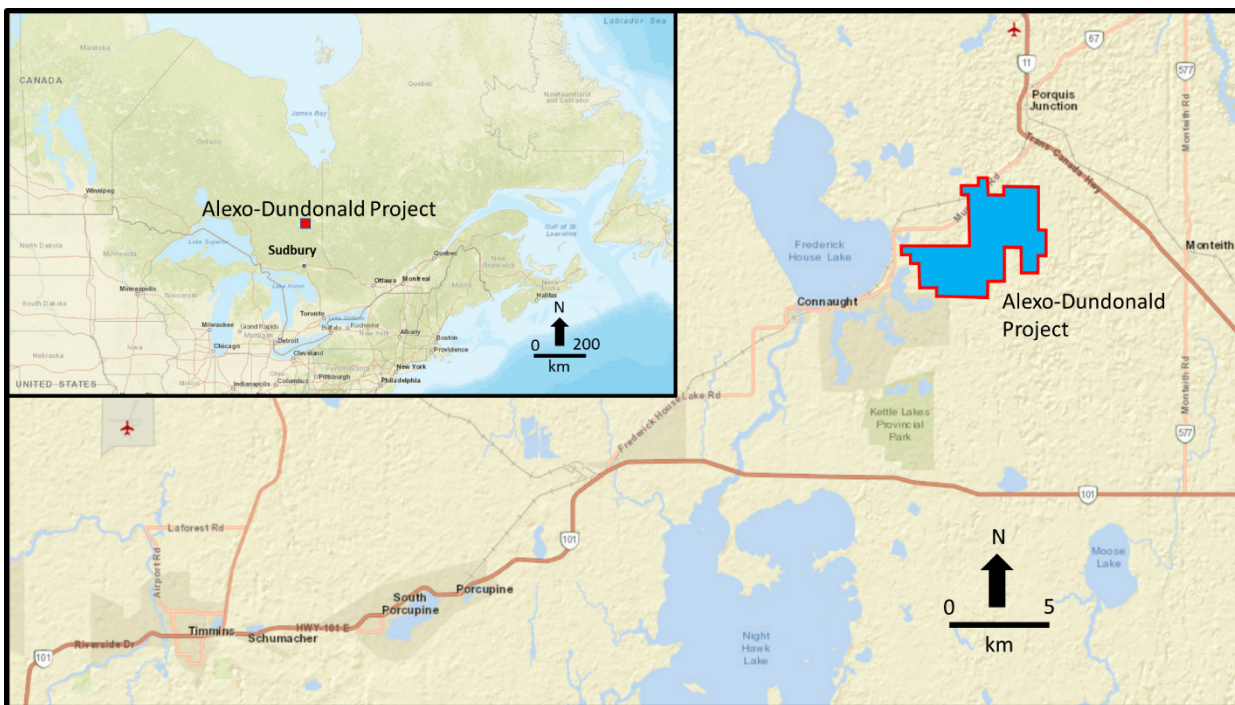

Figure 1 – Geographical location of Alexo-Dundonald Project

The geological setting of the Alexo-Dundonald Project area corresponds to the depositional equivalent environment of the Kidd-Munro assemblage. The Kidd-Munro assemblage is subdivided into lower and upper parts. The lower part of the Kidd-Munro assemblage (2719–2717 Ma) includes localised, regionally discontinuous depositional centres of predominantly intermediate to felsic calc-alkaline volcanic rocks. The upper part of the Kidd-Munro assemblage (2717–2711 Ma) extends across the Abitibi greenstone belt. It consists of tholeiitic and komatiitic volcanic rocks with minor centimetre- to metre-scale graphitic metasedimentary rocks and localised felsic volcanic centres. It has been interpreted that the upper Kidd-Munro assemblage reflects the impact of widespread mantle plume-related magmatism on localised lower Kidd-Munro arc-magmatism volcanic centres.

CLASS 1 NICKEL & TECHNOLOGIES LIMITED
Management's Discussion and Analysis - Quaterly Highlights
June 30, 2021
Dated - August 23, 2021

Previous exploration activity and results in the Alexo-Dundonald Project area have been extensively reviewed and documented by the NI 43-101 Technical Reports prepared by Montgomery (2004), Harron (2009) and Puritch *et al* (2010, 2012). Significant drill intersections reported therein represent the latest rounds of drilling by the last companies to drill on the various target areas within the Project (Canadian Arrow at Alexo-Kelex in 2004–2005 and 2010–2011; First Nickel at Dundonald in 2004–2005; and Falconbridge at Dundonald in 1989) and are presented as an indication of nickel grade and continuity of mineralisation typical of the Project. For more information, please refer to the NI 43-101 Technical Report on the Alexo-Dundonald Project posted to the Company's SEDAR profile on August 14, 2020 at www.sedar.com.

Summary of Completed Activities (Year Ended December 31, 2020)	(A) Spent (approx.) (For the Six month ended June 30, 2021)	Plans for the Project (Fiscal 2021)	(B) Planned Expenditures (approx.)
<p>The Company completed a VTEM™ survey on the Alexo-Dundonald Nickel Project, thereby completing phase 1 of the exploration program as recommended under the Amended NI 43-101 Technical Report on the Alexo-Dundonald Nickel Project dated June 30, 2020. The Company continues to finalize the interpretation of anomalies identified by the VTEM™ survey.</p> <p>See Note 1 below.</p>	\$1,514,098	<p>Continue interpreting the anomalies identified by the VTEM™ survey conducted on the Alexo-Dundonald Project. The Company intends to further explore the anomalies identified by the VTEM™ survey. The Company intends to undergo a 10,000m diamond drilling campaign on the Alexo-Dundonald Project focusing on the VTEM™ anomalies, as recommended as the phase 2 exploration program under the amended NI 43-101 Technical Report on the Alexo-Dundonald Nickel Project dated June 30, 2020. The Company had raised equity capital during 2020 and 2021 to fund its exploration work requirements. The major variables are expected to be the size, timing and results of the Company's exploration program and its ability to continue to access capital to fund its ongoing operations.</p>	\$2,000,000
	\$1,514,098		\$2,000,000

As of June 30, 2021, the accumulated spent incurred in completing phase 1 of the exploration program is \$1,924,388.

CLASS 1 NICKEL & TECHNOLOGIES LIMITED
Management's Discussion and Analysis - Quaterly Highlights
June 30, 2021
Dated - August 23, 2021

Note 1

Alexo-Kelex Property

The Company acquired a 100% interest (subject to a vendor buy-back) in Legendary Ore Mining Corporation, which held the Alexo-Kelex Property, under the Alexo-Kelex Agreement dated October 18, 2018 between Vanicom Resources Limited ("Vanicom"), Tartisan Nickel Corp. ("Tartisan") and Canadian Arrow Mines Limited ("Canadian Arrow"). The Alexo-Kelex Property consists of 55 mining claims and leases covering 940.43 hectares located in the Clergue and Dundonald townships near Timmins, Ontario. The Alexo-Kelex Property is subject to a 0.5% NSR with, which could be bought out by the Company for \$1,000,000. The Alexo-Kelex Property is also subject to an existing 1.5% NSR granted to Outokumpu Mines Ltd.

The Alexo-Kelex Agreement allows Tartisan to re-acquire the Alexo-Kelex Property from Legendary for \$1.00 if Legendary fails to incur by October 18, 2021 (a) \$750,000 worth of Exploration Expenditures (as defined thereunder) on the Alexo-Kelex Property; and (b) \$1,500,000 worth of Exploration Expenditures (as defined thereunder) on the Alexo-Dundonald Project. For the three and six months ended June 30, the Company has spent the following on the Alexo-Kelex Property:

	Three Months Ended June 30, 2021	Three Months Ended June 30, 2020	Six Months Ended June 30, 2021	Six Months Ended June 30, 2020
Administrative costs	26,219	-	30,270	-
Exploration and evaluation	674,161	9,412	757,049	38,590
Field equipment	14,330	-	14,988	-
	714,710	9,412	802,307	38,590

Dundonald Property

The Company acquired a 100% interest (subject to a vendor buy-back) in the Dundonald Property under the Dundonald Agreement dated November 9, 2018 between Legendary Ore Mining Corporation (a subsidiary of the Company) and Transition Metals Corp. ("Transition"). The Dundonald Property consists of 40 mineral claims and leases covering 954.075 hectares located in the Clergue and Dundonald townships near Timmins, Ontario. The Dundonald Property is subject to a 2.5% NSR royalty granted to Transition by Legendary upon acquisition of the property.

The Dundonald Agreement allows Transition to re-acquire the Dundonald Property from Legendary for \$1.00 if Legendary fails to incur by November 9, 2021 \$1,500,000 worth of Exploration Expenditures on the Alexo-Dundonald Project. For the three and six months ended June 30, the Company has spent the following amount on the Dundonald property:

	Three Months Ended June 30, 2021	Three Months Ended June 30, 2020	Six Months Ended June 30, 2021	Six Months Ended June 30, 2020
Administrative costs	26,219	-	30,270	-
Exploration and evaluation	674,161	9,412	757,049	38,590
Field equipment	14,330	-	14,988	-
	714,710	9,412	802,307	38,590

Somanike Project

The Company has the option to acquire a 100% interest in the Somanike Property pursuant to an option agreement dated September 24, 2019, as amended and restated April 27, 2020, between Legendary (a wholly-owned subsidiary of the Company) and Vanicom (the “Legendary Somanike Option Agreement”). Under the Legendary Somanike Option Agreement, the Company may exercise the option granted to Vanicom by Quebec Precious Metals Corporation (“QPMC”) under an option agreement dated August 20, 2018, as amended (the “QPMC Option Agreement”), by paying Vanicom \$1.00 plus reimbursing Vanicom for all expenses made on the Somanike Property prior to the Company exercising said option. The Somanike Property consists of 110 mining titles covering 5146.06 hectares located in the Abitibi area of the Province of Quebec. The Legendary Somanike Option Agreement was entered into following a reorganization of Vanicom, whereby Vanicom divested its ownership of Legendary to Vanicom shareholders, which was completed on September 19, 2019.

Exploration in the Somanike Project (the “Project”) area has been dormant since the early 1970s following the closing of the Marbridge Ni-Cu Mine in 1968. Historical exploration programs focused on Ni-Cu with the majority of assays conducted for Ni and very limited Cu. Very few assays were taken for Au, Zn, Cu, and Ag. The entire project area was not investigated by modern surveys until 2014-15 when Sphinx Resources Ltd. (“Sphinx”) flew a VTEM survey over the entire Project with the objective of identifying nickel-copper, gold and VMS targets. Compilation of all historical drill data in conjunction with the new VTEM survey identified previously unrecognized sulphide iron formations occurring across the Project. Numerous targets were generated and programs designed for the commodities listed above.

To maintain the option to the Somanike Property under the QPMC Option Agreement, the Company has issued 181,089 Common Shares to QPMC and 53,846 Common Shares to Globex Mining Enterprises Inc. Prior to exercising its option under the Legendary Somanike Option Agreement, the Company must pay QPMC \$25,000 in cash prior to June 15, 2022 and \$50,000 in cash prior to June 15, 2023. Also, prior to exercising the option on the Somanike Project, the Company must drill 750m of core on certain claims held by Globex Mining Enterprises Inc. As of June 30, 2021, the Company has paid QPMC an aggregate of \$75,000 and has drilled the necessary 750m of core on certain claims held by Globex Mining Enterprises Inc.

SUMMARY OF QUARTERLY RESULTS

Three months ended June 30, 2020, compared with three months ended June 30, 2020

The Company recorded a net loss and comprehensive loss of \$4,073,299 compared to \$289,842 in the prior period. The increase in the net loss of \$3,783,457 was attributed to the following: an increase in exploration and evaluation of \$1,446,292 due to increase in drilling cost, an increase in professional fees of \$34,010 due to the increase in consulting expenses and an increase in stock-based compensation of \$2,297,687 due to the grant of stock options. This has been offset by an increase the amortization of flow-through premium of \$3,000.

Six months ended June 30, 2020, compared with six months ended June 30, 2020

The Company recorded a net loss and comprehensive loss of \$5,177,373 compared to \$458,076 in the prior period. The increase in the net loss and comprehensive loss of \$4,719,297 was attributed to the following: an increase in exploration and evaluation of \$2,297,817 due to increased in drilling cost, and increase in professional fees of \$142,477 due to the increase in consulting expenses and an increase in stock-based compensation of \$2,297,687 due to the grant of stock options. This has been offset by an increase the amortization of flow-through premium of \$57,000.

LIQUIDITY AND CAPITAL

Class 1 is an exploration-stage company and does not generate revenues. As such, it finances all of its operations and the exploration of its mineral properties entirely through the issuance of share capital. Although the Company has to date been successful in its attempts to raise capital, there can be no assurance that its future efforts will likewise be successful. The mineral exploration business is high risk and the vast majority of exploration projects on which capital is spent will not result in producing mines. The success of future financings will depend on a variety of factors including geological success – i.e. obtaining superior results from exploration; a positive investment climate encompassing strong metal prices, solid stock market conditions, and a “risk-on” appetite among investors; and the Company’s track record and management’s ability and experience. If such financing is unavailable, the Company may be unable to retain its mineral interests and execute its business plans. As at June 30, 2021, the Company has not earned significant revenue and has an accumulated deficit of \$8,477,753 (December 31, 2020 - \$3,300,380). In order to reach sustainable business operations, the Company is actively seeking additional sources of liquidity.

The Company’s cash balance as of June 30, 2021 was \$4,981,211 compared to \$3,864,804 as of December 31, 2020. As of June 30, 2021, the Company had current assets of \$5,270,429 (December 31, 2020 – \$4,021,321), current liabilities of \$1,116,901 (December 31, 2020 – \$518,844), and a working capital of \$4,153,528 (December 31, 2020 – \$3,502,477).

Management's Discussion and Analysis - Quaterly Highlights
June 30, 2021
Dated - August 23, 2021

Operating Activities

During the six months ended June 30, 2021 and 2020, the Company's operating activities used cash of \$2,421,675 and \$415,912, respectively. Cash used in operating activities for the six months ended June 30, 2021 is mainly attributable to net loss for the period of \$5,177,373 (six months ended June 30, 2020 \$458,076) and amortization of flow-through premium of \$57,000 (six months ended June 30, 2020 \$nil), an increase in accounts payable and accrued liabilities of \$655,057 (six months ended June 30, 2020 \$97,318), offset by an increase in accounts receivable of \$134,005 (six months ended June 30, 2020 \$27,744), and an increase in prepaid expenses of \$6,041 (six months ended June 30, 2020 \$27,410).

During the six months ended June 30, 2021 and 2020, the Company did not engage in any investing activities.

Financing Activities

During the six months ended June 30, 2021 and 2020, the Company's financing activities generated cash of \$3,538,082 and \$847,421, respectively. The cash generated from financing activities during the six months ended June 30, 2021, is due to the issuing of 6,433,334 shares in private placement flow-through for a proceeds of \$4,011,500, net of share issue cost of \$480,763.

Going concern uncertainty

At each reporting period, management assesses the basis of preparation of the financial statements. These financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards. The going concern basis of presentation assumes that the Company will continue its operations for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to amounts and classifications of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

For the six months ended June 30, 2021, the Company incurred a net loss of \$4,073,299 and \$5,177,373, respectively (six months ended June 30, 2020 - \$289,842 and \$458,076, respectively) and had negative operating cash flows of \$2,421,675 (June 30, 2020 - \$415,912). The Company has an accumulated deficit of \$8,477,753 since inception (December 31, 2020 - \$3,300,380) and does not have not sufficient cash as at June 30, 2021 to meet its remaining expected obligations over the next twelve months after deducting the \$7,366,500 committed to be spent on CEE under terms of the Flow Through financings. As at June 30, 2021, the Company has spent on CEE \$1,734,267. These factors raise significant doubt about the Company's ability to continue as a going concern.

The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon its ability to generate cash flows from operations and to complete negotiations to obtain and successfully close additional funding from debt financing, equity financings or through other arrangements. These conditions indicate the existence of a material uncertainty that may cast significant doubt regarding the Company's ability to continue as a going concern. These unaudited interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption deemed to be inappropriate. These adjustments could be material.

CLASS 1 NICKEL & TECHNOLOGIES LIMITED
Management's Discussion and Analysis - Quaterly Highlights
June 30, 2021
Dated - August 23, 2021

While the Company has been successful in obtaining financing to date, there can be no assurance that it will be able to do so in the future on terms favourable for the Company. The Company may need to raise additional capital to fund operations. This need may be adversely impacted by uncertain market conditions, approval by regulatory bodies, and adverse results from operations. The Company believes it will be able to acquire sufficient funds to cover planned operations through the next twelve months by securing additional financing through additional private placements if required. The outcome of these matters cannot be predicted at this time.

RELATED PARTY TRANSACTIONS

New standards not yet adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishments of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

OUTSTANDING SHARE DATA AS OF REPORT DATE

As of the date of this MD&A, the Company has the following securities issued and outstanding: (a) 111,705,029 Common Shares; (b) 11,665,835 stock options; (c) 6,433,334 FT warrants; (d) 2,925,677 HD Warrants; and (e) 251,423 Finders' Warrants.

These options are exercisable to acquire one share of the Company at an exercise price of \$0.87 until February 2023, and vest as to 15% on the grant date, 20% on September 2, 2021, 25% on March 3, 2022 and 40% on September 3, 2022.

RISKS AND UNCERTAINTIES

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risk and Uncertainties" in the Company's annual management's discussion & analysis for the fiscal year ended December 31, 2020, available on SEDAR at www.sedar.com.
