VSBLTY TO POWER AI-DRIVEN SECURITY SOLUTIONS FOR NEW BUILDING TO HOUSE U.S. DEPARTMENT OF VETERANS AFFAIRS

Philadelphia, PA, February 18, 2025–VSBLTY Groupe Technologies Corp. (OTCQB: VSBGF) (CSE: VSBY) (Frankfurt 5VS) ("VSBLTY"), a leading AI software provider of security and retail analytics technology, announced they have signed an agreement with a developer in Philadelphia to help secure its flagship office building in Atlantic County, NJ. An anchor tenant within the Multi tenant building will be leased by U.S. Department of Veterans Affairs (VA).

VSBLTY will supply and install all CCTV cameras, servers and a state-of-the-art VMS system. This will be a high level security in the specifications and standards required by the lease of the VA. The actual details of VSBLTY's deployment will be limited for disclosure due to stringent and confidential nature of each VA location.

The developer of the office complex, a commercial real estate firm in Philadelphia stated: "Providing a safe and secure environment for all our tenants is paramount in today's world and I am pleased to be working with VSBLTY. Their team is professional, knowledgeable, and flexible in meeting the strict demands for the VA's security specifications. We look to expand the relationship with additional AI-powered security products offered by VSBLTY."

"Using our state-of-the-art computer vision software, we are rapidly deploying solutions to help protect our clients 'constituents within critical infrastructure for office complexes, school campuses and larger, smart city deployments, commented Jay Hutton, CEO of VSBLTY. We are seeing a major spike in demand to secure these facilities such as the VA locations in the U.S., and throughout many other regions of the world."

About VSBLTY (http://vsblty.net/)

Headquartered in Philadelphia, VSBLTY (OTCQB: VSBGF) (CSE: VSBY) (Frankfurt: 5VS) (OTC: VSBGF) ("VSBLTY") is the world leader in Artificial Intelligence and real time interpretation of what a CCTV and other cameras see.

Using its proprietary AI software, VSBLTY has developed a range of security products that include not only facial recognition but weapon recognition utilizing modern surveillance cameras and legacy CCTV cameras. VSBLTY has the capability to create a proactive security system rather than a reactive security system, providing early warning of threats that can save lives.

By utilizing facial recognition, age and gender, VSBLTY's proprietary technology can also effectively enhance retail brand engagement and measurement through customized ads on in-store digital

displays at point of purchase in real time. This technology has been proven to increase brand sales by over 25%. The firm is also recognized for its leadership role in the growing "Store as a Medium" movement that enables brands to reach customers with paid media ads when and where buying decisions are being made while producing a new revenue stream for retailers. Most recently, VSBLTY has been building object recognition software to identify products by SKU, at the point of checkout, to integrate this capability into their retail media network offering to large CPG brands in Latin America.
