NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2017

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

1. Nature of operations and going concern

One World Minerals Inc. (the "Company" or "One World" or "OWM"), formerly One World Investments Inc. was incorporated under the laws of the province of British Columbia on November 9, 1982 and is engaged in the acquisition and exploration of exploration and evaluation assets. The Company's head office and records offices are located at Suite 615, 800 West Pender Street, Vancouver, British Columbia, V6C 2V6. On February 28, 2017, the Company voluntarily delisted its common shares from the NEX Board of the TSX Venture Exchange ("Exchange"). One World Minerals Inc. began trading on the Canadian Securities Exchange ("CSE") at market open under the trading symbol OWM.

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis, which contemplates the realization of assets and discharge liabilities at their carrying values in the ordinary course of operations for the foreseeable future rather than through the process of forced liquidation. The condensed interim financial statements do not include any adjustments to the classification and amounts of assets and liabilities that may be required should the Company be unable to continue as a going concern. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate the acquisition of, participation in or interest in new properties, assets or business opportunities, as well as the successful results from exploration activities, and its ability to attain profitable operations and generate funds therefrom, and raise equity capital or obtain the necessary financing sufficient to meet current and future obligations. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Although the Company has been successful at raising funds in the past through the issuance of securities, it is uncertain whether it will be successful in doing so in the future. Management continues to actively pursue the necessary capital and financing to meet its funding requirements and has implemented available cost control measures.

2. Basis of presentation, statement of compliance

Statement of Compliance

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of condensed interim financial statements, including IAS 34, Interim Financial Reporting and interpretations of the IFRS Interpretations Committee ("IFRIC"). They have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The significant accounting policies, as disclosed, have been applied consistently to all periods presented in these financial statements.

These condensed interim financial statements do not include all of the information required for full annual financial statements and therefore should be read in conjunction with the Company's most recent annual financial statements as at and for the year ended December 31, 2016. The effects of the adoption of new and amended IFRS pronouncements have been disclosed in notes of these condensed interim financial statements.

ONE WORLD MINERALS INC. (FORMERLY ONE WORLD INVESTMENTS INC.)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2017

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

Use of estimates, assumptions and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting period. While management believes that the judgment, assumptions and estimates made are reasonable, actual results could differ from those estimates, and could impact future results of comprehensive income and cash flows. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised. Management of the Company assesses the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments, the recoverability and measurement of deferred tax assets, provisions for restoration and environmental obligations and contingent liabilities.

Adoption of new IFRS pronouncements

The Company has adopted the following new standard, along with any consequential amendments, prior to or effective January 1, 2017. These changes were made in accordance with the applicable transitional provisions, and did not impact the Company's condensed interim financial statements.

- IAS 7, "Statement of Cash Flows": is effective for annual periods beginning on or after January 1, 2017,
- IAS 12, "Income Taxes" (amended standard): is effective for annual periods beginning on or after January 1, 2017.

Accounting Standards Issued but not yet in Effect

- IFRS 2, "Share-based payment" (amended standard) is effective for annual periods beginning on or after January 1, 2018.
- IFRS 9, "Financial Instruments: Classification and Measurement": is effective for annual periods beginning on or after January 1, 2018.
- IFRS 15, "Revenue from Contracts and Customers": the effective date of adoption has been deferred to January 1, 2018 (with earlier application permitted).
- IFRS 16, "Leases": is effective for annual periods beginning on or after January 1, 2019.

The Company is currently evaluating the impact of these new and amended standards on its financial statements. The impact is not expected to have a material impact on the statements of financial position or results of operations of the Company.

3. Financial instruments

The Company has classified its cash as Fair Value Through Profit and Loss ("FVTPL") (using level 1 of the fair value hierarchy); prepaid expenses and receivables and accounts payable and accrued liabilities, loans payable, promissory notes payables, due to related parties, convertible debentures and the credit facility as other financial liabilities.

ONE WORLD MINERALS INC. (FORMERLY ONE WORLD INVESTMENTS INC.)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2017

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

The carrying values of cash, prepaid expenses and receivables, and accounts payable and accrued liabilities, loans payable, promissory notes payables and due to related parties approximate their fair values due to the short-term maturity of these financial instruments.

The Company's financial instruments as at June 30, 2017 and December 31, 2016 are as follows:

	June 30, 2017	December 31, 2016
	(\$)	(\$)
Financial Assets		
Cash	830	647
Prepaid expenses	-	-
	830	647
Financial liabilities		
Accounts payable and accrued liabilities	625,970	467,252
Loans payable	-	435,275
Promissory notes payable	-	579,083
Due to a former related party	-	286,898
Long term liabilities		
Credit facility	86,328	-
	712,298	1,768,508

4. Financial risk management

(a) Credit risk

Credit risk is the risk that a counter party to a financial instrument will fail to discharge its contractual obligations. The Company is exposed to credit risk with respect to its cash. The Company manages credit risk with respect to its cash by maintaining demand deposits with a major Canadian financial institution; however, this exposes the Company's cash to concentration of credit risk as all amounts are held at a single institution.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company is exposed to liquidity risk as it relates to its accounts payable and loans payable.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

(i) Interest rate risk

Interest rate risk consists of two components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk; and

ONE WORLD MINERALS INC. (FORMERLY ONE WORLD INVESTMENTS INC.)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2017

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

(b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is not exposed to foreign currency risk as its monetary assets and liabilities are denominated in Canadian dollars.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

There were no changes in the Company's approach to managing the above risks.

5. Exploration and evaluation assets

Acquisition of the Mogollon Project

On February 28, 2017, the Company entered into an assignment agreement (the "Assignment Agreement"), pursuant to which the Company was assigned all rights and obligations of an option agreement (the "Option Agreement") dated December 22, 2015, between SUI and a third party ("Third Party").

Under the terms of the Option Agreement, SUI has the option to acquire a 100% interest in the Mogollon silver-gold project located in New Mexico, US, by making staged annual payments totalling US\$1,000,000 to Third Party as follows:

<u>On or before (Date)</u>	<u>Pay to Third Party (US\$)</u>
January 31, 2016	50,000 (Paid by SUI)
December 31, 2016	200,000 (Paid by SUI)
December 31, 2017	200,000
December 31, 2018	275,000
December 31, 2019	275,000
	<u>1,000,000</u>

Pursuant to the Assignment Agreement, the Company is required to assume the remaining payments to the Third Party as follows:

ONE WORLD MINERALS INC. (FORMERLY ONE WORLD INVESTMENTS INC.)**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS****FOR THE SIX MONTHS ENDED JUNE 30, 2017**

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

<u>On or before (Date)</u>	<u>Pay to Third Party (US\$)</u>

December 31, 2018	275,000
December 31, 2019	275,000
	<u>750,000</u>

The Company is required to reimburse to SUI the amount of US\$200,000 paid by SUI to the Third Party on January 30, 2017, and in consideration for the assignment of the Option Agreement by SUI to the Company, make payments and issue common shares in the capital of the Company as follows:

<u>On or before (Date)</u>	<u>Pay to SUI (CDN\$)</u>	<u>Issue to SUI (# of shares of OWM)</u>
February 28, 2017	25,000 (Paid)	
February 28, 2017	75,000 (Paid) ⁽¹⁾	5,000,000 (Issued)
April 1, 2018	200,000	5,000,000
April 1, 2019	-	5,000,000
	<u>300,000</u>	<u>15,000,000</u>

⁽¹⁾ SUI elected to convert the amount of \$75,000 into 1,500,000 shares in the capital of One World Minerals Inc. at February 28, 2017. The 5,000,000 shares were valued at \$200,000.

In addition, the Company has granted to SUI a 1% net smelter return royalty (“NSR”) upon commencement of commercial production.

The following table shows the activity by category of exploration expenditures for the periods ended June 30, 2017 and December 31, 2016:

	<u>June 30, 2017</u>	<u>December 31, 2016</u>
Balance at the beginning of the period	\$ 25,000	\$ -
Additions during the period:		
Acquisition costs	537,740	25,000
Balance at the end of the period	\$ 562,740	\$ 25,000

In connection with the Mogollon property, the Company, during the period ended June 30, 2017, advanced \$21,543 in respect of geological mapping and historical work compilation to be completed.

Acquisition of the Salar del Diablo Property (formerly the Rico Lito Property):

On March 10, 2017, the Company entered into a binding letter agreement with Lithium Investments Ltd. (“LIL”) to acquire all of the shares of LIL from the shareholders thereof (the “Transaction”), in consideration for the following:

ONE WORLD MINERALS INC. (FORMERLY ONE WORLD INVESTMENTS INC.)**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS****FOR THE SIX MONTHS ENDED JUNE 30, 2017**

(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

On or before (Date)	Pay to LIL (CDN\$)	Pay to LIL (# of shares of OWM)

2nd Anniversary of Closing	300,000	-
3rd Anniversary of Closing	400,000	-
	1,000,000	22,500,000

The principal assets of LIL consist of the rights and interests under an option and joint venture agreement (the "Option Agreement") with third parties to acquire up to a 90% interest in the Salar del Diablo (formerly the Rico Lito Property) in Mexico (the "Salar del Diablo Property"). In order to earn an 80% interest in the Salar del Diablo, LIL is required to issue 1,700,000 shares and make payment of US\$250,000 to the vendors, and incur minimum expenditures on the Salar del Diablo Property over three phases of US\$900,000 prior to the end of 2017. LIL has the option to acquire an additional 10% interest in the Salar del Diablo Property, for a total interest of 90%, in consideration for making a payment of US\$5,000,000 upon delivery of a bankable feasibility report on the Salar del Diablo Property. Should the underlying owners dilute below a 10% equity interest or less, a 2% NSR royalty replaces the 10% equity interest and LIL has an option to purchase one half of the NSR for US\$5,000,000. The Company will assume all share issuance obligations of LIL on closing of the Transaction. The transaction (as amended) closed on July 28, 2017 (Note 12).

12. Subsequent event

On July 28, 2017, the Company closed its previously announced acquisition of LIL with amended terms. The principal assets of LIL consist of the rights and interests under an option and joint venture agreement (the “Option Agreement”) with third parties to acquire up to a 90% interest in the Salar del Diablo Property (formerly Rico Lito) in Mexico, in consideration for the following:

On or before (Date)	Pay to LIL (CDN\$)	Pay to LIL (# of shares of OWM)
Closing of transaction ("Closing")	-	11,000,000
30 days after Closing	100,000	-
1st Anniversary of Closing	200,000	12,500,000
2nd Anniversary of Closing	300,000	-
3rd Anniversary of Closing	400,000	-
	1,000,000	23,500,000

In order to earn an 80% interest in the Salar del Diablo, LIL is required to issue a further 1,700,000 shares and make payment of US\$1,280,000 to the vendors, and incur minimum expenditures on the Salar del Diablo Property over three phases of US\$2,162,875 prior to the end of 2018. LIL has the option to acquire an additional 10% interest in the Salar del Diablo Property, for a total interest of 90%, in consideration for making a payment of US\$5,000,000 upon delivery of a bankable feasibility report on the Salar del Diablo Property. Should the underlying owners dilute below a 10% equity interest or less, a 2% NSR royalty replaces the 10% equity interest and LIL has an option to purchase one half of the NSR for US\$5,000,000. The Company will assume all share issuance obligations of LIL on closing of the Transaction.
