Management's Discussion and Analysis

For the Year Ended December 31, 2018

Cautionary Notices

The Company's Consolidated Financial Statements and this accompanying MD&A contain statements that constitute "forward-looking statements" within the meaning of National Instrument 51-102, Continuous Disclosure Obligations of the Canadian Securities Administrators. Forward-looking statements often, but not always, are identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "expect", "targeting" and "intend" and statements that an event or result "may", "will", "should", "could", or "might" occur or be achieved and other similar expressions. Forward-looking statements in this MD&A include statements regarding the Company's future exploration plans and expenditures, the satisfaction of rights and performance of obligations under agreements to which the Company is a part, the ability of the Company to hire and retain employees and consultants and estimated administrative assessment and other expenses. The forward-looking statements that are contained in this MD&A involve a number of risks and uncertainties. As a consequence, actual results might differ materially from results forecast or suggested in these forward-looking statements. Some of these risks and uncertainties are identified under the heading "Risks Related to the Company's Business" in this MD&A. Additional information regarding these factors and other important factors that could cause results to differ materially may be referred to as part of particular forward-looking statements. The forward-looking statements are qualified in their entirety by reference to the important factors discussed under the heading "Risks Related to the Company's Business" and to those that may be discussed as part of particular forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause the actual results to differ include market prices, exploration success, continued availability of capital and financing, inability to obtain required regulatory approvals and general market conditions. These statements are based on a number of assumptions, including assumptions regarding general market conditions, the timing and receipt of regulatory approvals, the ability of the Company and other relevant parties to satisfy regulatory requirements, the availability of financing for proposed transactions and programs on reasonable terms and the ability of third-party service providers to deliver services in a timely manner. Forward-looking statements contained herein are made as of the date of this MD&A and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.

Introduction

This Management Discussion and Analysis ("MD&A" or "Report") of the financial condition of One World Lithium Inc. (an exploration stage company) ("One World" or the "Company") and results of operations of the Company, prepared April 30, 2019 (the "Report Date"), should be read in conjunction with the audited consolidated financial statements including the notes thereto for the years ended December 31, 2018 and 2017 (collectively, the "Financial Statements"), which are presented in accordance with International Financial Reporting Standards ("IFRS") and with the Company's accounting policies, as those are described in the notes to the Financial Statements. These Financial Statements, together with this MD&A, are intended to provide investors with a reasonable basis for assessing the financial performance of the Company as well as potential future performance, and are not necessarily indicative of the results that may be expected in future periods. Unless otherwise indicated, all dollars in this Report are in Canadian dollars.

This Report may contain forward-looking statements in respect of various matters including upcoming events. The results or events predicted in these forward-looking statements may differ materially from the actual results or events. The Company cautions investors that any forward-looking statements by the Company are not guarantees of futures performance, as they are subject to significant risks and uncertainties that may cause projected results or events to differ materially from actual results or events. The Company disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Please refer to the risks and cautionary notices of this MD&A.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Description of Business

The Company is focused on the acquisition, exploration and development of lithium properties in Mexico. The Company is considered to be in the exploration stage. One World Lithium Inc., together with its subsidiary, Lithium Investments Ltd., (collectively referred to as the "Company") was incorporated under the laws of the province of British Columbia on November 9, 1982. On February 27, 2017, the Company voluntarily delisted its common shares from the NEX Board of the TSX Venture Exchange ("Exchange") and on February 28, 2017, the Company changed its name to One World Minerals Inc. and its shares became listed on the Canadian Securities Exchange ("CSE") (symbol OWM). On January 19, 2018, the Company changed its corporate name to "One World Lithium Inc." (symbol OWL). The name change reflects the Company's primary focus to explore and develop lithium properties of merit and the potential of its option to earn and acquire up to 90% of the 75,400 hectare Salar del Diablo lithium property in Mexico.

The Company's administrative office is Suite 615 – 800 West Pender Street, Vancouver, BC, V6C 2V6 and its Registered and Records Office is 800 – 885 West Georgia Street, Vancouver, BC, V6E 2H6.

Qualified Person

The Company's disclosure of a technical or scientific nature has been reviewed and approved by John E Hiner, SME Registered Member, a qualified person under the definition of National Instrument 43-101.

Highlights and significant events

During the year ended December 31, 2018:

On January 19, 2018:

- **Name change:** The Company completed its name change from One World Minerals Inc. to One World Lithium Inc. The name change reflects the Company's primary focus to explore and develop lithium properties of merit and the potential of its option to earn and acquire up to 90% of the 75,400 hectare Salar del Diablo lithium property in Mexico.

On March 22, 2018:

- **Private placement:** The Company closed a portion of its private placement that was previously announced on November 9, 2017. The Company has raised \$ 1,028,650 through the issuance of 6,857,667 units at a price of \$0.15 per unit. Each Unit was comprised of one common share in the capital of the Company and one non-transferable common share purchase warrant. Each warrant will entitle the holder thereof to acquire one additional share, at a price of \$0.20 per warrant share for a period of 24 months from the partial closing date of the Offering. All securities are subject to a four month and one day hold from the closing date. The Company received \$668,200 in 2017 towards this private placement which was included in current liabilities as share subscriptions. No finder's fees were paid in connection with the private placement.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

On March 22, 2018:

- **Private placement:** the Company closed the second tranche of its private placement that was previously announced on November 9, 2017. The Company raised \$522,100 through the issuance of 3,480,665 units at a price of \$0.15 per unit. Each Unit was comprised of one common share in the capital of the Company and one non-transferable common share purchase warrant. Each warrant will entitle the holder thereof to acquire one additional share, at a price of \$0.20 per warrant share for a period of 24 months from the partial closing date of the Offering. All securities are subject to a four month and one day hold from the closing date. No finder's fees were paid in connection with the private placement.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

On June 22, 2018:

- **Stock option grant:** the Company granted incentive stock options allowing the acquisition of 100,000 common shares of the Company at a price of \$0.15 per common share. The stock options are exercisable on or before June 22, 2020 and are fully vested.

On July 12, 2018:

- **Loan:** On July 12, 2018, the Company received \$50,000 in respect of a loan. The loan originally matured on October 31, 2018, which was subsequently extended to March 31, 2019. The loan is unsecured and bears interest of 6% per annum. \$1,414 was accrued during the year ended December 31, 2018 (December 31, 2017: \$Nil). In consideration for the Loan, on July 12, 2018, the Company issued 312,500 share purchase warrants to the Lender. On November 1, 2018, in consideration for extending the maturity date, the Company issued an additional 312,500 share purchase warrants to the Lender. Each Warrant will entitle the Lender to purchase one common share at \$0.16 per share for a period of 2 years. The bonus warrants were valued at \$11,400. The effective interest rate is 27.1%. Subsequent to year end, on April 1, 2019, the note was extended for another three months, with a new maturity date of June 30, 2019. An additional 312,500 warrants were granted in consideration of the extension. Each warrant will entitle the Lender to purchase one common share at \$0.165 per share for a period of 2 years.

On July 18, 2018:

- **Exercise of stock options:** 150,000 stock options were exercised at \$0.05, for total proceeds of \$7,500.

On August 13, 2018

- **Common shares issued for option assignment:** as per the amended Option Agreement with Energy Metals Discovery Group, LLC ("EMDG") the Company issued 50,000 common shares to each of the individual members of EMDG totaling 200,000 common shares. The shares were valued at \$32,000.

On September 24, 2018

- **Common shares issued for option assignment:** as per the third amendment to the Option Agreement with EMDG the Company issued 50,000 common shares to each of the individual members of EMDG totaling 200,000 common shares. The shares were valued at \$30,000.

On October 31, 2018

- **Shareholder approval of new stock option plan:** at the Company's Annual General Meeting the shareholders approved a new stock option plan to incorporate the policies of the Canadian Stock Exchange. Under the new stock option plan the maximum number of shares of the Company reserved for issuance will be limited to 10% of the issued shares of the Company at the time of any granting of options (on a non-diluted basis).

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

On November 8, 2018:

- **Private Placement:** the Company closed the first tranche of its private placement that was previously announced on June 29, 2018. The Company raised \$1,248,875 through the issuance of 8,325,833 units at a price of \$0.15 per unit. Each Unit was comprised of one common share in the capital of the Company and one-half non-transferable common share purchase warrant. Each whole warrant will entitle the holder thereof to acquire one additional share, at a price of \$0.20 per warrant share for a period of 24 months from the partial closing date of the Offering. All securities are subject to a four month and one day hold from the closing date. No finder's fees were paid in connection with the private placement. The Company received \$92,000 subscriptions in advance of issuance of units. The subscriptions advance has been presented in share subscriptions payable as at December 31, 2018. On April 10, 2019 the Company closed the second tranche of this private placement which included this subscription in advance

On December 19, 2018:

- **Exercise of stock options:** 1,000 stock options were exercised at \$0.20, for total proceeds of \$200.

Resource Properties

Until March 31, 2016, the Company capitalized on its Balance Sheet all costs related to exploration and evaluation assets (mineral properties, or properties). Effective April 1, 2016, the Company elected to recognize exploration and evaluation expenditures in its statement of loss in the period incurred and capitalize only the costs of acquisition of or earning of interest in its exploration and evaluation assets. The Board of Directors is responsible for a quarterly review of the properties and any decisions toward impairment. If the property is considered impaired, accumulated costs are expensed at that time.

The following table shows the activity by category of exploration expenditures for the year ended December 31, 2018 and for the year ended December 31, 2017:

Exploration and Evaluation Expenditures and Impairment Provision	December 31, 2018	December 31, 2017
	(\$)	(\$)
Concession fees	140,193	-
Consulting	33,473	12,866
Geophysics	438,701	-
Maintenance fees	30,000	98,792
Mapping	34,473	-
Other	20,792	-
Staking	12,276	-
Impairment charge on Mogollon Property	19,361	604,880
Total	729,269	716,538

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Mogollon Property

On February 28, 2017, the Company entered into an assignment agreement (the "Assignment Agreement"), pursuant to which the Company was assigned all rights and obligations of an original option agreement (the "Option Agreement") dated December 22, 2015, between Stand-up Investments ("SUI") and an option holder ("Third Party") in exchange for initially issuing 5,000,000 common shares of the Company as well as paying \$75,000 in cash.

During the year ended December 31, 2016, the Company made a payment to SUI for \$25,000 as part of the original option agreement. Under the terms of the Option Agreement, SUI has the option to acquire a 100% interest in the Mogollon silver-gold project located in New Mexico, US, by making annual payments totalling US\$1,000,000 to the Third Party as follows:

<u>On or before (Date)</u>	<u>Pay to Third Party (US\$)</u>
January 31, 2016	50,000 (Paid by SUI)
December 31, 2016	200,000 (Paid by SUI)
December 31, 2017	200,000
December 31, 2018	275,000
December 31, 2019	275,000
	<u>1,000,000</u>

The December 31, 2017 payment was deferred to 2018.

Pursuant to the Assignment Agreement, the Company is required to assume the remaining payments to the Third Party as follows:

<u>On or before (Date)</u>	<u>Pay to Third Party (US\$)</u>
December 31, 2017	200,000
December 31, 2018	275,000
December 31, 2019	275,000
	<u>750,000</u>

Subsequent to the December 31, 2017 year end, the December 31, 2017 payment was extended to February 28, 2018. The Company was not successful in amending the February 28, 2018 payment of \$200,000 US to the Third Party and elected to terminate the Option Agreement with the Third Party. In addition to the above, the Company was also required to reimburse SUI US\$200,000 (\$262,740 CAD) previously paid by SUI to the Third Party on January 30, 2017.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Consideration paid to December 31, 2017 to SUI for the Mogollon Option Agreement:

For value of 5,000,000 shares issued at \$0.04 per share	\$	200,000
Issuance of 1,500,000 shares In lieu of cash payment	\$	75,000
Cash reimbursed to SUI US\$200,000	\$	262,740
Total consideration paid	\$	537,740

If the Company decided to continue with the option agreement, it had agreed to make the following additional payments and share issuance to SUI contingent on the Company making the following payments to the Third Party:

On or before (Date)	Pay to SUI (CDN\$)	Pay to SUI (# of shares of OWL)
April 1, 2018	200,000	5,000,000 ⁽¹⁾
April 1, 2019	-	5,000,000 ⁽²⁾
	200,000	10,000,000

⁽¹⁾ In April 2018, the Company and SUI amended their Assignment Agreement whereby the April 1, 2018 payment of \$200,000 and shares issuance of 5,000,000 was extended to November 30, 2018.

⁽²⁾ In April 2018, the April 1, 2019 commitment date for the share issuance was extended to November 30, 2019. SUI became a related party on April 25, 2018, as they share a common officer.

In addition, the Company has granted SUI a 1% net smelter return royalty ("NSR") upon commencement of commercial production.

The Company was not successful in amending the February 28, 2018 payment of \$200,000 US to the Third Party and has elected to terminate the Option Agreement with the Third Party and the Assignment Agreement with SUI. As of December 31, 2018, the Company has provided an impairment provision of \$19,361 (December 31, 2017: \$604,880) against the carrying amount of the Mogollon Property.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Salar del Diablo Property (formerly the Valle Del Diablo Property)

On October 10, 2017, the Company completed the acquisition of Lithium Investments Ltd. ("LIL") by acquiring all of the shares of LIL from its shareholders in exchange for 10,000,000 common shares and a \$100,000 cash payment made 30 days after the close (November 10, 2017). All shares issued on October 10, 2017 were measured at \$0.235 per share, being the Company's closing price on that date on the CSE.

The principal assets of LIL consist of the rights and interests under an option and joint venture agreement as amended (the "Option Agreement") with third parties to acquire up to a 90% interest in the Salar del Diablo (formerly the Valle Del Diablo Property) in Mexico (the "Salar del Diablo Property"). In order to earn an 80% interest in the Salar del Diablo, the Company is required to issue 1,800,002 shares (1,000,002 shares were issued on October 10, 2017, 200,000 shares were issued on August 13, 2018 and 200,000 shares were issued on September 24, 2018 for a total value of \$297,000, being the total value of the shares on the date of issuance) and make payments up to US\$380,000 (as at December 31, 2018 US\$230,000 has been paid) to the third parties in stages. The balance of the 400,000 shares and a US\$150,000 payment is due after completion of the drilling program which is expected to be completed during the 2019 fiscal year. If the project goes to commercial production the Company is also required to issue an additional 1,100,000 shares and make an additional payment of \$1,050,000. In addition, up until the delivery of a bankable feasibility report (the "BS Report") on the Salar del Diablo Property the Company is responsible for all exploration expenditures. After the delivery of the BS Report each Joint Venture party ("JV Party") is responsible for their prorata share of future funding. If either JV Party fails to contribute its share of the project cost their interest shall be diluted proportionally until their interest reaches 10% or less. Should the underlying JV Party's interest dilute below a 10% equity interest or less, a 2% NSR royalty replaces the 10% equity interest and the other party will have the right at any time prior to the commencement of commercial production but not the obligation to purchase one-half of the NSR for US\$5,000,000.

On August 21, 2018, the third parties assigned their interest in the Option Agreement to Energy Metals Discovery Group, LLC, a Texas Limited Liability Company.

For accounting purposes, the acquisition of LIL has been recorded as an asset acquisition as LIL was not considered to be a business when applying the guidance within IFRS 3.

Consideration paid:

For value of 10,000,000 shares issued to LIL shareholders at \$0.235 per share	\$2,350,000
For value of 1,000,002 shares issued to Joint Venture Third Party at \$0.235 per share	\$235,000
Cash paid	\$100,000
Total consideration paid, December 31, 2017	\$2,685,000
For value of 200,000 shares issued to Joint Venture Third Party at \$0.16 per share	\$32,000
Cash paid	\$264,990
Total consideration paid, December 31, 2018	\$2,981,990

The LIL purchase agreement requires the Company to continue making the following additional payments and share issuance to the former shareholders of LIL:

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)**Management's Discussion and Analysis****For the Year Ended December 31, 2018**

On or before (Date)	Pay to former shareholders of LIL (CDN\$)	Pay to former shareholders of LIL (# of shares of OWL)
October 10, 2018	\$ 200,000 (paid)	12,500,000
October 10, 2019	\$ 300,000	-
October 10, 2020	\$ 400,000	-
	\$ 900,000	12,500,000

As at December 31, 2018, the 12,500,000 shares have not been issued. On April 24, 2019 the Company agreed to increase the share issuance by 3,500,000 shares to 16,000,000 shares for the LIL shareholders agreeing to extend the date of the share issuance of shares to July 31, 2019.

In connection with the Salar del Diablo property, the Company, advanced \$208,817 to the property (2017: \$264,703) in respect of drilling, to be completed in 2019.

For accounting purposes, the acquisition of LIL has been recorded as an asset acquisition as LIL is not considered to be a business when applying the guidance within IFRS 3.

Results of Operations

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Company had no revenue for the 2018 Period and the 2017 Period. Net general and administrative expenses for the Period increased in comparison to the 2017 Period, due to the costs and activity related to advancing the Salar del Diablo property.

Net general and administrative expenses for the year were \$2,186,160 (2017: \$2,285,435). Significant differences in the general and administrative expenses for the Period include:

- Professional fees increased to \$ 157,848 (2017: \$115,409) as a result of increased audit fees.
- Consulting fees increased to \$660,579 (2017: \$223,865), due to increased consulting work done on the Salar del Diablo Property in Mexico.
- Office, rent and phone increased to \$99,657 (2017: \$81,759) due to an increase in rent, activity and general usage.
- Exploration and evaluation expenses increased to \$729,269 (2017: \$716,538), due to the impairment of the Mogollon property and related expenses to the Salar del Diablo property.
- Interest and financing costs were incurred in respect of the credit facility entered on February 22, 2017 and loans. The increase is due to the Company accruing interest and accretion expense on the credit facility and loan.
- A non-cash share-based payments expense of \$219,229 was recognized during the year (2017: \$968,400) as a result of stock options issued.

Summary of Quarterly Results

The following table sets out selected financial information of the Company for the current eight quarterly periods ending with December 31, 2018:

Three months ended	Dec-18	Sep-18	Jun-18	Mar-18	Dec-17	Sep-17	Jun-17	Mar-17
	\$	\$	\$	\$	\$	\$	\$	\$

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)**Management's Discussion and Analysis****For the Year Ended December 31, 2018**

Selected Annual Information

The following table summarizes selected financial data for the Company for each of the three most recently completed financial years. The information set forth below should be read in conjunction with the Financial Statements.

	Year ended December 31,		
	2018	2017	2016
	\$	\$	\$
Total revenue	-	-	-
Net loss and comprehensive loss	2,186,160	2,285,436	333,692
Loss per share	0.03	0.05	0.07
Total assets	3,476,316	3,131,240	33,880
Current liabilities	978,551	1,499,630	2,135,433
Cash dividends	-	-	-

Liquidity and Financial Condition

As at December 31, 2018 and December 31, 2017, the Company had the following:

	December 31, 2018	December 31, 2017
	(\$)	(\$)
Financial Assets		
Cash	107,654	46,409
Prepaid expenses	4,893	-
Receivables	47,298	9,464
	159,845	55,873
Financial liabilities		
Accounts payable and accrued	673,762	775,005
Loans payable	102,939	56,425
Share subscriptions	92,000	668,200
Current Liabilities	109,850	-
Long term liabilities		
Credit facility	-	74,350
	978,551	1,573,980
Working capital deficit	(818,706)	(1,443,757)

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Financial Statements are prepared on a 'going concern' basis, which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent on its ability to raise additional funds or the attainment of profitable operations. The Company will need to raise or borrow money for exploration and administration expenditures, and to settle current liabilities, and to ensure it maintains sufficient funds to keep any claims and property agreements in good standing. Current sources of funding are undetermined, and management continues to review potential financing options. Although the Company has been successful at raising funds in the past through the issuance of share capital and entering into loan agreements, there is no guarantee it will be successful or able to continue to do so in the future, and there can be no assurance that the Company will have sufficient financing to meet its future capital requirements or that additional financing will be available on terms acceptable to the Company in the future. The Company closed the second tranche of its non-brokered private placement raising \$525,675 in April 2019. The proceeds will assist the Company in continuing its activities for the next twelve months. See "Highlights, significant events and various transactions" in this Report.)

Transactions with Related Parties

Compensation of Key Management Personnel

Key management personnel consist of current and former Directors and Officers of the Company, as to the President, the Chief Executive Officer ("CEO"), the Chief Financial Officer ("CFO"), and the Corporate Secretary of the Company. At the Report Date, key management personnel consisted of Douglas Fulcher (President, CEO and a Director), Jeannine Webb (CFO and Corporate Secretary until March 28, 2018), John Hamilton (CFO, effective April 26, 2018) and Directors: Kevin Milledge (effective May 23, 2018), Andrew Pooler (effective June 22, 2018), Allan Williams (until June 22, 2018) and Terri Anne Welyki (until May 2, 2018).

Rent	Pamicon Developments Ltd. A company controlled by a Director and Officer of the Company
Management fees	Stand Up Investments Ltd. A company controlled by an Officer of the Company
	Digga Holdings Ltd. A Company controlled by a Director and Officer of the Company

Key management personnel consist of the directors and executive officers of the Company. The remuneration, including stock-based compensation, of key management personnel during the years ended December 31, 2018 and 2017 were as follows:

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)**Management's Discussion and Analysis****For the Year Ended December 31, 2018**

	For the years ended December 31	
	2018	2017
	(\$)	(\$)
Management fees	160,000	60,000
Share based payments	26,562	315,000
	186,562	375,000

At December 31, 2018, \$582 (2017 - \$Nil) is owed to an officer of the Company. This amount is included in accounts payable and accrued liabilities. On April 25, 2018, the Company agreed to settle debt owing to a former CFO of the Company in the amount of \$120,090 through the issuance of shares and cash. The parties agreed to the issuance of 160,000 common shares of the Company at a price of \$0.15, the fair value of the shares on the grant date, and \$36,000 cash as total consideration against the indebtedness for services rendered by the former CFO. The remaining \$60,090 was written off and recorded as a gain on debt settlement. As of December 31, 2018, there is no amount owing to the former CFO.

a) Other related party transactions

Effective May 1, 2016 the Company entered into an office rental agreement in which an officer and director is a shareholder. For the years ended December 31, 2018 and 2017, the Company was charged rent and office expenses as follows:

	For the years ended December 31	
	2018	2017
	\$	\$
Rent and office	60,601	41,529

At December 31, 2018, the Company owes \$31,508 (2017: \$50,271) for rent and office. Subsequent to year end, on March 7, 2019, the Company agreed to issue debt settlement shares at a price of \$0.19, being the fair value of the shares on the grant date, by the issuance of 132,178 common shares of the Company to the related party as consideration of indebtedness for office rent payable in the amount of \$26,370.

Key management personnel were not paid post-employment benefits, termination benefits or other long-term benefits during the Period.

Capital Management

The Company's objectives when managing capital are to safeguard its assets and its ability to continue as a going concern, to pursue the development of its exploration and evaluation assets, if any, and to maintain a flexible capital structure which optimizes the cost of capital within a framework of acceptable risk. In the management of capital, the Company includes the components of shareholders' equity and cash.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, issue new debt, acquire or dispose of assets.

The Company is primarily dependent on the capital markets as its source of operating capital and the Company's capital resources are largely determined by the strength of the junior resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for investor support for its projects.

The Company is not subject to externally imposed capital restrictions, and there were no changes to the Company's approach to capital management during the period.

Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet arrangements.

Other MD&A Disclosure Requirements

New accounting standards

The Company has adopted the following new standards, along with any consequential amendments, prior to or effective January 1, 2018. These changes were made in accordance with the applicable transitional provisions and did not impact the Company's consolidated financial statements.

IFRS 2 Share-based Payments

The IASB issued amendments to IFRS 2 in relation to classification and measurement of share-based payment transactions. The amendments address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction, the classification of a share-based payment transaction with net settlement features for withholding tax obligations, and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. The amendments are effective for annual periods beginning on or after January 1, 2018. The application of IFRS 2, did not impact the Company's consolidated financial statements.

IFRS 9 Financial Instruments

IFRS 9 replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 utilizes a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. It also introduces a new expected loss impairment model and limited changes to the classification and measurement requirements for financial assets. On adoption of IFRS 9, in accordance with its transitional provisions, the Company has not restated prior periods but has reclassified the financial assets held at January 1, 2018, retrospectively, based on the new classification requirements and the characteristics of each financial instrument as at the transition date. For financial liabilities, IFRS 9 retains most of the IAS 39 requirements.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

IFRS 15 Revenue from Contracts with Customers

IFRS 15 will replace IAS 18 Revenue, IAS 11 Construction Contracts, and related interpretations on revenue. IFRS 15 establishes a single five-step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. Application of the standard is mandatory for annual periods beginning on or after January 1, 2018, with early application permitted. The Company adopted this standard on January 1, 2018, using the modified retrospective approach. The adoption of IFRS 15 did not have an impact on the Company's consolidated financial statements and there was no transitional adjustment recorded on adoption.

New accounting standards not yet adopted

IFRS 16 Leases

IFRS 16 will replace IAS 17 Leases. IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Application of the standard is mandatory for annual periods beginning on or after January 1, 2019, with early application permitted. The Company does not expect this new standard to have significant financial reporting implications, as currently, no lease agreements within the scope of IFRS 16 have been entered into.

E&E acquisition costs: All direct costs related to the acquisition of mineral property interests (E&E Assets) are capitalized into intangible assets on a property by property basis. Expenditures made in connection with a right to acquire a property and or explore in an exploration area for a period in excess of one year, are capitalized.

E&E exploration expenditures: Exploration costs, net of incidental revenues, are charged to operations in the period incurred until such time as it has been determined that a property has economically recoverable resources, in which case subsequent exploration costs and the costs incurred to develop a property are capitalized into property, plant and equipment. On the commencement of commercial production, depletion of each mining property will be provided on a unit-of-production basis using estimated reserves as the depletion base.

Financial Instruments & Financial Risk Management

The Company has classified and measured its financial instruments as described below:

- Cash and cash equivalents and receivables, are classified as and measured at amortized cost.
- Accounts payable and accrued liabilities, loans payable, shares subscriptions and other payables are classified as and measured at amortized cost. Borrowings and other financial liabilities are classified as current or non-current based on their maturity date. The liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Financial Risk Management

(a) Credit risk

Credit risk is the risk that a counter party to a financial instrument will fail to discharge its contractual obligations. The Company is exposed to credit risk with respect to its cash. The Company manages credit risk with respect to its cash by maintaining demand deposits with a major Canadian financial institution; however, this exposes the Company's cash to concentration of credit risk as all amounts are held at a single institution. The Company is not exposed to significant credit risk and overall the Company's credit risk has not changed significantly from the prior year.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company is exposed to liquidity risk and has disclosed a going concern uncertainty in the financial statements.

The Company's current and expected remaining contractual maturities for its financial liabilities with agreed repayment periods are presented below. The table includes the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to satisfy the liabilities.

As at December 31, 2018	1 - 3 months
	\$
Accounts payable and accrued liabilities	673,762
Loan payable	102,939
Share subscriptions	92,000
Credit facility	109,850
	<u>978,551</u>

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk. The Company is not exposed to significant market risk and overall the Company's market risk has not changed significantly from the prior year.

(i) Interest rate risk

Interest rate risk consists of two components:

(a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk; and

(b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

The Company is not exposed to significant interest rate risk due to the short-term maturity of its loans and promissory notes.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company incurs certain expenses in currencies other than the Canadian dollar. The Company is subject to foreign currency risk as a result of fluctuations in exchange rates. The Company manages this risk by maintaining bank accounts in US dollars to pay these foreign currency expenses as they arise. Receipts in foreign currencies are maintained in those currencies. The Company does not undertake currency hedging activities. The Company also does not attempt to hedge the net investment and equity of integrated foreign operations.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

There were no changes in the Company's approach to managing the above risks.

Disclosure of Outstanding Share Data

Common shares, stock options and share purchase warrants issued and outstanding as at the period end are described in detail in the Financial Statements, and as at the Report Date are as follows:

<u>At Report Date</u>	
Common shares	86,994,276
Warrants	17,790,990
Stock Options	5,514,000
Fully Diluted	110,299,266

Proposed Transactions

The Company does not have any proposed transactions that have been approved by the board of directors. Management of the Company continues to review and evaluate potential exploration properties.

Subsequent Events

- On March 1, 2019, the Company granted stock options allowing for the purchase of up to, in the aggregate, 2,450,000 common shares for 2 years, to directors, officers and consultants of the Company.
- On March 1, 2019, the Company settled a portion of debt owing to certain creditors by issuing 203,231 common shares at \$0.19, the fair value of the shares on the grant date.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

- On March 18, 2019, the Company in connection with the settlement of services with a third party paid \$25,000 in cash and issued 50,000 common shares at a deemed price of \$0.185.
- On April 1, 2019, the Company extended a loan and issued an additional 312,500 share purchase warrants to the Lender (Note 7), each warrant will entitle the Lender to purchase one common share at \$0.165 per share for a period of 2 years.
- On April 11, 2019 – the Company closed a second tranche of its non-brokered private placement, as previously announced on June 29, 2018. The Company raised \$ 525,675 through the issuance of 3,504,497 units at a price of \$0.15 per unit. Each Unit consists of one common share of the Company and one-half of a nontransferable Common Share purchase warrant. Each Warrant will entitle the holder to purchase one Common Share at a price of \$0.20 for a period of 24 months from the closing of the offering. All securities are subject to a four month and one day hold from the closing date.
- On April 30, 2019, the Company granted stock options allowing for the purchase of up to, in the aggregate, 15,000 common shares to a consultant of the Company at \$0.20 per share until April 30, 2021. The options are fully vested.

Risks and Uncertainties Related to the Company's Business

Resource exploration is a speculative business and involves a high degree of risk. There is a significant probability that the expenditures made by the Company in exploring its properties, if any, will not result in discoveries of commercial quantities of minerals. A high level of ongoing expenditures is required to locate and estimate ore reserves, which are the basis for further development of a property. Capital expenditures to attain commercial production stage could be substantial. The following sets out the principal risks faced by the Company.

Exploration. The Company is seeking mineral deposits on exploration projects where there are not yet established commercial quantities. There can be no assurance that economic concentrations of minerals will be determined to exist on the Company's property holdings within existing investors' investment horizons or at all. The failure to establish such economic concentrations could have a material adverse outcome on the Company and its securities. The Company's planned programs and budgets for exploration work are subject to revision at any time to take into account results to date. The revision, reduction or curtailment of exploration programs and budgets could have a material adverse outcome on the Company and its securities.

Market. The Company's securities trade on public markets and the trading value thereof is determined by the evaluations, perceptions and sentiments of both individual investors and the investment community taken as a whole. Such evaluations, perceptions and sentiments are subject to change; both in short term time horizons and longer term time horizons. An adverse change in investor evaluations, perceptions and sentiments could have a material adverse outcome on the Company and its securities.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Commodity Price. The Company's exploration projects are primarily related to exploration for gold, other precious metals and base metals. These minerals have recently been the subject of significant price fluctuations, and as such, there can be no assurance that that investors' evaluations, perceptions, beliefs and sentiments will continue to favour these target commodities. An adverse change in these commodities' prices, or in investors' beliefs about trends in those prices, could have a material adverse outcome on the Company and its securities.

Title. Although the Company exercises the usual due diligence with respect to title to any properties in which it may have interests, there is no guarantee that title to the properties will not be challenged or impugned. The Company's mineral property interests, if any, may be subject to prior unregistered agreements or transfers or land claims, and title may be affected by undetected defects.

Financing. Exploration and development of mineral deposits is an expensive process, and frequently the greater the level of interim stage success the more expensive it can become. The Company has no producing properties and generates no operating revenues; therefore, for the foreseeable future, it will be dependent upon borrowing funds and/or selling equity in the capital markets to provide financing for its operations and any continuing exploration budgets. While the Company has been successful in obtaining financing from the capital markets in recent years, there can be no assurance that the capital markets will remain favourable in the future, and/or that the Company will be able to raise the financing needed to continue its operations and exploration programs on favourable terms, or at all. Restrictions on the Company's ability to finance could have a material adverse outcome on the Company and its securities.

Share Price Volatility and Price Fluctuations. In recent years, the securities markets in Canada have experienced a high level of price and volume volatility, and the market prices of securities of many companies, particularly junior mineral exploration companies, like the Company, have experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that these price fluctuations and volatility will not continue to occur.

Key Personnel. The Company's exploration efforts are dependent to a large degree on the skills and experience of certain of its key personnel. The Company does not maintain "key man" insurance policies on these individuals. Should the availability of these persons' skills and experience be in any way reduced or curtailed, this could have a material adverse outcome on the Company and its securities.

Competition. Significant and increasing competition exists for the limited number of mineral property acquisition opportunities available. As a result of this competition, some of which is with large established mining companies with substantial capabilities and greater financial and technical resources than the Company, the Company may be unable to acquire additional attractive mineral properties on terms it considers acceptable.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Realization of Assets. Exploration and evaluation assets may comprise a substantial portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the attainment of successful production from the properties or from the proceeds of their disposal. Resource exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore. The amounts shown for acquisition costs and deferred exploration expenditures represent costs incurred to date and do not necessarily reflect present or future values.

Environmental and Other Regulatory Requirements. The current or future operations of the Company, including development activities and commencement of production on its properties, generally require permits from various governmental authorities and such operations are and will be subject to laws and regulations governing prospecting, development, mining, production, exports, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, safety and other matters. Companies engaged in the development and operation of mines and related facilities could experience increased costs, and delays in production and other schedules as a result of the need to comply with applicable laws, regulations and permits. There can be no assurance that approvals and permits required to commence production on its properties will be obtained on a timely basis, or at all. Additional permits and studies, which may include environmental impact studies conducted before permits can be obtained, may be necessary prior to operation of the properties in which the Company has interests and there can be no assurance that the Company will be able to obtain or maintain all necessary permits that may be required to commence construction, development or operation of mining facilities at these properties on terms which enable operations to be conducted at economically justifiable costs. Failure to comply with applicable laws, regulations, and permitting requirements may result in enforcement actions there under, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Parties engaged in mining operations or extraction operations may be required to compensate those suffering loss or damage by reason of such activities and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations.

Amendments to current laws, regulations and permits governing operations and activities of mining companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or production costs or reduction in levels of production at producing properties or abandonment or delays in development of new mineral exploration properties.

History of Net Losses; Accumulated Deficit; Lack of Revenue from Operations. The Company has incurred net losses to date. The Company has not yet had any revenue from its exploration activities. Even if the Company commences development of certain properties it may acquire an interest in, the Company may continue to incur losses. There is no certainty that the Company will produce revenue, operate profitably or provide a return on investment in the future.

Uninsurable. The Company and its subsidiaries may become subject to liability for pollution, fire, explosion and other risks against which it cannot insure or against which it may elect not to insure. Such events could result in substantial damage to property and personal injury. The payment of any such liabilities may have a material, adverse effect on the Company's financial position.

ONE WORLD LITHIUM INC. (Formerly One Minerals Investments Inc.)

Management's Discussion and Analysis

For the Year Ended December 31, 2018

Legal Proceedings. As at the date of the Report, there were no legal proceedings against or by the Company.

Critical Accounting Estimates. In the preparation of financial information, management makes judgments, estimates and assumptions that affect, amongst other things, the carrying value of its mineral property assets. All deferred mineral property expenditures are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the deferred costs, a provision is made for the impairment in value. Management's estimates of exploration, operating, capital and reclamation costs, if any, are subject to certain risks and uncertainties which may affect the recoverability of mineral property costs. Although management has used its best judgment to estimate of these factors, it is possible that changes could occur in the near term that could adversely affect management's estimate of the net cash flow to be generated from its properties. The Company also uses the Black-Scholes Option Pricing Model in relation to share based payments. Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options granted/vested during the period.

Additional Information

Additional information relating to the Company can also be found on SEDAR at www.sedar.com
