ONE WORLD LITHIUM ANNOUNCES DRILLING PROGRESS REPORT

Vancouver, BC, October 21, 2019 - One World Lithium Inc. (OTCQB-OWRDF) (CSE-OWLI) (the “Company” or “OWL”) announces that the drilling of its first borehole (#1A) has reached a depth of 220 meters on Sunday, October 20, 2019. The borehole was cased to a depth of 200 meters and core drilling has subsequently reached a depth of 220 meters (720 feet) mid-day October 20, 2019.

Layne Drilling is drilling on 24-hour, 7-day a week basis, and the operator (Montgomery & Associates) reports no drilling difficulties. Changes in drilling methodology for the Phase III program have been shown to be successful and drilling to target depths of up to 600 meters are expected to be achieved.

Mike Rosko, SME Registered member and a Qualified Person as defined by the Canadian National Instrument 43-101, has reviewed and approved the scientific and technical disclosure contained in this news release.

About One World Lithium Inc.

Forward-Looking Information: This press release may include forward looking information within the meaning of Canadian securities legislation. Forward looking information is based on certain key expectations and assumptions made by the management of the OWL, including the intention of OWL to proceed with the advancement of the Property. Although OWL believes that the expectations and assumptions on which such forward looking information is based are reasonable, undue reliance should not be placed on the forward-looking information because OWL can give no assurance that they will prove to be correct. Forward looking statements contained in this press release are made as of the date of this press release. OWL disclaims any intent or obligation to update publically any forward-looking information, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from the those anticipated in such statements, important factors that could cause actual results to differ materially from the company's expectations include: (I) inability of OWL to execute its business plan and raise the required financing (II) accuracy of mineral or resource exploration activity (III) continued access to mineral property and (IV) risks and market fluctuations common to the mining industry and lithium sector in particular. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, some of which are beyond the control of the OWL. The reader is cautioned not to place undue reliance on any forward-looking information contained in this press release.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.
