

## Netcoins Surpasses \$20 Million in Cumulative Transactions

VANCOUVER, British Columbia, April 16, 2018 -- **GAR Limited. d/b/a/ Netcoins** ("NETC" or the "Company") (CSE:NETC) is pleased to announce that it has now completed over \$20 million in Bitcoin, and Altcoin (Ethereum, Ripple, Bitcoin Cash and Litecoin) transactions for its valued customers. Netcoins top line revenue is measured as the purchase or sale of cryptocurrency through our service, either via software or directly via private brokerage.

From a modest start of approximately \$33,000 in total sales transactions in January 2017, Netcoins has substantially scaled its business by adding retail locations, private brokerage customers, and the ability to buy and sell Altcoins directly. Netcoins continued expansion has culminated in over \$20 million in transactions to date.

"In the blockchain and cryptocurrency market, Netcoins has taken a leadership position as a revenue generating company. We have 3 years of history in product development, and product market fit evaluation. With the addition of our sales and marketing team in Q1 2018, combined with a hardened in-market product and regular feature enhancements, we are in an ideal position to continue growing our top-line revenues aggressively this year," said Netcoins CEO, Mark Binns. "Hitting the \$20 million mark is a great accomplishment, and also just the beginning. We are actively working on opening new geographical markets, and establishing partnerships for large distribution channels much like VoPay has given us in Canada."

### About the Company

The Company is in the business of developing software to better facilitate the purchase and sale of bitcoin for end-users. Netcoins enables the sale of bitcoin through its software at retail outlets, through individual agents and directly to clients purchasing and selling in large quantities.
