Netcoins Completes First \$2 Million Daily Transactional Revenue

VANCOUVER, British Columbia, July 20, 2018 -- GAR Limited. d/b/a/ Netcoins ("NETC" or the "Company") (CSE:NETC) is pleased to announce that it has completed over \$2 million in transactions in a single day. The \$2 million daily transaction is another key milestone for the Netcoins business as we continue to attract crypto miners, crypto funds and institutional investors to use our services alongside our retail customer base.

In early July 2018, Netcoins completed its first \$1 million daily transaction and very quickly we have exceeded that with a \$2 million daily transaction milestone. We have now surpassed \$5.5 million in transactions thus far in the current month of July.

"Our business continues to evolve quickly, and the global crypto relationships we have spent the past months establishing are paying off when crypto volumes spike up or down and clients need liquidity," said Netcoins CEO, Mark Binns. "There is a lot of noise in the industry. Being a public company that is audited, trustworthy and stable continues to attract interested clients who need the white glove service that we can provide."

About the Company

The Company is in the business of developing software to make the purchase and sale of cryptocurrency easily accessible to the mass consumer and investor through brokerage services. Netcoins enables crypto transactions via 21,000+ retail locations in Canada, Europe and Australia and an Over-The-Counter (OTC) trading desk accessible globally.

ON BEHALF OF THE BOARD OF DIRECTORS
