

**GAR LIMITED
(D/B/A NETCOINS)**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2018**

(EXPRESSED IN CANADIAN DOLLARS)

GENERAL

This Management's Discussion and Analysis of Gar Limited ("Gar" or the "Company") ("MD&A") is dated August 27, 2018, provides analysis of the Company's financial results for the three and six months ended June 30, 2018, compared to the three and six months ended June 30, 2017. The following information should be read in conjunction with the consolidated interim financial statements for the three and six months ended June 30, 2018 and 2017 with accompanying notes which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All dollar figures are expressed in Canadian dollars unless otherwise stated.

COMPANY OVERVIEW

Gar Limited ("GAR" or the "Company") was incorporated on February 20, 1987 under the Business Corporation Act (Ontario). These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation.

Gar is a public company which is listed on the Canadian Securities Exchange ("CSE") under the symbol "NETC". The Company's head office is 1199 West Pender Street, Suite 410, Vancouver, BC, V6E 2R1, and registered and records office is located 1055 W. Georgia Street, Suite 1500, PO Box 11117, Vancouver, BC, V6E 4N7.

On March 9, 2018, the Company completed the acquisition of Netcoins Inc. ("Netcoins"), a private British Columbia corporation incorporated on July 8, 2014. Netcoins develops and markets software that enable the efficient purchasing of Bitcoin and uses its software to purchase and sell Bitcoin to customers. The Company acquired all of the issued and outstanding shares of Netcoins under a share purchase agreement (the "Reverse Takeover Transaction", the "Transaction", or the "RTO"). In connection to the Transaction, the Company is doing business under the business name "Netcoins Holdings Inc." and operating the primary business of Netcoins.

On the closing of the RTO, Netcoins became a wholly-owned subsidiary of the Company. As Netcoins is deemed to be the accounting acquirer for accounting purposes, its assets and liabilities and operations since incorporation on July 8, 2014 are included in the consolidated financial statements at their historical carrying value. The Company's results of operations are included from March 9, 2018 onwards, the closing date. Please refer to the Reverse Acquisition (note 6 of the interim financial statements) for more details.

REVERSE ACQUISITION

On March 9, 2018, Netcoins Inc. and GAR completed a share exchange agreement (the "Share Exchange Agreement"). The Share Exchange Agreement provides for the acquisition of all the outstanding equity interest in Netcoins by GAR in a transaction (the "Transaction") in which Netcoins shareholders received shares of GAR. As a result of the acquisition of Netcoins, GAR became the sole registered owner of all the issued and outstanding shares of Netcoins.

Pursuant to the Share Exchange Agreement:

- In consideration for the acquisition of all of the Class A Shares, GAR will (i) paid to the Class A shareholders pro rata in proportion to their holdings of Netcoins Class A Shares, an aggregate of \$4,000,000, and (ii) issued from treasury to the Class A shareholders pro rata in proportion to their holdings of Class A shares, an aggregate of 2,857,142 common shares in the equity of GAR, free and clear of any encumbrances.
- In consideration for the acquisition of the Netcoins Class B shares, GAR issued from treasury to the Class B shareholders one common share in the equity of GAR for each Netcoins Class B share held, free and clear of any encumbrances.
- At the time of closing of the Transaction, each of the holders of Class B Warrants disposed of their respective right to acquire Netcoins Class B shares under the outstanding Class B Warrants held by such warrant holders at that time and those outstanding Class B Warrants were deemed immediately cancelled. In consideration for the disposition by a Class B Warrant holder of each right to acquire one Netcoins Class B share pursuant to a Class B Warrant, the Class B Warrant holder received the right to acquire one common share of GAR (each a "Replacement Warrant" and collectively, the "Replacement Warrants"), rounded down to the nearest whole number of common shares. The exercise price under each Replacement Warrant equaled to the exercise price of the particular Class B Warrant that was cancelled in consideration for such Replacement Warrant.
- As a result of the Transaction, GAR issued an aggregate of 52,857,142 GAR common shares to Netcoins shareholders. At the completion of the Transaction, 116,694,562 GAR common shares are outstanding.

REVERSE ACQUISITION (continued)

- At the closing Transaction, the shareholders of Netcoins hold 45.3% of GAR. Accordingly, Netcoins is considered to have acquired GAR with the transaction being accounted for as a reverse takeover of GAR by Netcoins shareholders (the “RTO”).
- On March 13, 2018, GAR resumed trading on the CSE under the symbol “NETC”, will be doing business as “Netcoins,” and operating under its wholly owned subsidiary, Netcoins Inc.

As a result of this asset acquisition, a listing expense of \$15,781,089 has been recorded. This reflects the difference between the estimated fair value of Netcoins shares deemed to have been issued to the Company’s shareholders less the fair value of the assets of the Company’s acquired.

The preliminary allocation of estimated consideration transferred is subject to change and is summarized as follows:

Purchase Price	
52,837,421 common shares of Gar Limited	\$ 18,500,000
8,798,556 warrants of Gar Limited	2,651,283
Total Purchase Price	\$ 21,151,283
Allocation of Purchase Price	
Cash	9,742,999
Prepaid expenses and other current assets	954,345
Accounts and accrued liabilities	(327,150)
Charge related to public company listing	10,781,089
	\$ 21,151,283

Additional information relating to the Transaction is provided in GAR’s Listing Statement dated February 28, 2018.

SUMMARY OF QUARTERLY RESULTS

Key financial information for the three and six months ended June 30, 2018 is summarized as follows, reported in Canadian dollars except for per share amounts:

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
	(\$)	(\$)	(\$)	(\$)
Revenues				
Sales	4,902,473	2,620,838	10,217,799	2,857,489
Purchases	(4,771,775)	(2,495,962)	(9,940,852)	(2,721,807)

Total Assets			6,609,226	274,133
Total Liabilities			357,534	169,970

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2018**Revenues**

Revenues from cryptocurrency sales for the three months ended June 30, 2018 were \$4,902,473, compared to revenues of \$2,620,838 during the same period in the prior year.

Cost of sales from cryptocurrency purchases for the three months ended June 30, 2018 were \$4,771,775, compared to cost of sales of \$2,495,962 during the same period in the prior year.

Gross margin for the three months ended June 30, 2018 was at 3% compared to 5% in the same period in the prior year.

Operating expenses

Expenses for the three months ended June 30, 2018 were \$2,046,848, compared to \$37,138 incurred the same period in the prior year. The significant differences in expenditures were as follows:

- Marketing and advertising expenses: \$471,762 for the three months ended June 30, 2018 compared to \$nil during the same period in prior year, as the Company has expanded and experienced tremendous growth in the current fiscal period;
- General and administrative expenses: \$346,817 for the three months ended June 30, 2018 compared to \$31,888 during the same period in the prior year, commensurate with the growth in business;
- Share-based payments: \$937,485 for the three months ended June 30, 2018 compared to \$nil during the same period in 2017, as the Company adopted a stock option plan in the current fiscal year and granted options to directors, management and certain employees;
- Consulting fees: \$83,175 compared to \$5,250 during the same period in 2017, as the Company commenced operations as a public company and incurred the expenses of a full-time management and operating team;
- Professional fees: \$146,966 compared to \$nil during the same period in the prior year, as the Company engaged advisors to assist in the rapid growth of the business;

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2018**Revenues**

Revenues from cryptocurrency sales for the six months ended June 30, 2018 were \$10,217,799, compared to revenues of \$2,857,489 during the same period in the prior year.

Cost of sales from cryptocurrency purchases for the six months ended June 30, 2018 were \$9,940,852, compared to cost of sales of \$2,721,807 during the same period in the prior year.

Gross margin for the six months ended June 30, 2018 was at 3% compared to 5% in the same period in the prior year.

Operating expenses

Expenses for the six months ended June 30, 2018 were \$19,895,859, compared to \$41,571 incurred the same period in the prior year. The significant differences in expenditures were as follows:

- Cryptocurrency exchange fees: \$53,537 for the six months ended June 30, 2018 versus \$nil during the same period in the prior year, as the Company purchased Bitcoin from a Bitcoin exchange in 2017 which charged a fee;
- General and administrative expenses: \$720,764 for the six months ended June 30, 2018 compared to \$36,321 during the same period in the prior year, commensurate with the growth in business;
- Consulting fees: \$304,915 compared to \$5,250 during the same period in the prior year, as the Company commenced operations as public company and incurred the expenses of a full-time management and operating team.
- Professional fees: \$350,115 compared to \$nil during the same period in the prior year, as the Company engaged advisors to assist in the rapid growth of the business and in preparation for the Proposed Transaction;
- As a result of the RTO, listing expenses were \$15,781,089, comprised mainly of \$4,000,000 cash payment and issuance of \$1,000,000 in value of GAR common shares to the vendors of Netcoins, and \$10,781,089 as the difference between the fair value of net assets acquired.

CAPITAL STRUCTURE

As of the date of this MD&A, the Company has 117,894,228 common shares issued and outstanding. In addition, there are outstanding share purchase warrants and stock options for a further 7,598,892 and 11,510,000 common shares, respectively.

The details of warrants outstanding are as follows:

Grant Date	Expiry Date	Number of warrants issued	Weighted Average Exercise Price
October 31, 2017	October 31, 2019	5,800,336	\$ 0.10
December 20, 2017	December 20, 2018	1,798,556	\$ 0.35
		7,598,892	\$ 0.15

Subsequent to June 30, 2018, 1,119,664 common shares were issued on warrant exercises for total gross proceeds of \$119,966.

The following incentive stock options were outstanding at the date of this report:

Grant Date	Expiry Date	Number of shares issuable on exercise	Weighted Average Exercise Price
March 13, 2018	March 13, 2023	9,770,000	\$0.35
May 9, 2018	May 9, 2023	540,000	\$0.25
July 7, 2018	July 6, 2023	1,200,000	\$0.10
		11,510,000	\$0.32

CAPITAL RESOURCES

The Company defines capital as consisting of shareholder's equity and due to a related party. The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital, but rather relies on the expertise of the Company's management to sustain the future development of the business. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

As at June 30, 2018 and December 31, 2017, the Company is not subject to any externally imposed capital requirements or debt covenants. There was no change to the Company's approach to capital management during the six months ended June 30, 2018 and the year ended December 31, 2017.

LIQUIDITY

The Company's objective in managing liquidity risk is to maintain sufficient liquidity in order to meet operational and investing requirements. The Company has historically financed its operations primarily through the sale of share capital by way of private placements.

At June 30, 2018, the Company had cash of \$5,730,386 and working capital of \$6,123,043. The change in working capital June 30, 2018, and December 31, 2017 is attributed to several factors commensurate with the growth of the business including the increase in cash on deposit with cryptocurrency exchanges to facilitate the timely purchase of cryptocurrencies, the growth in trade receivables and payables, the growth in the shareholder loan to finance the cash on deposit, and an allowance for income taxes due to taxable income during the year ended December 31, 2017.

Cash used in operating activities was \$1,536,587 during the six months ended June 30, 2018, compared to \$254,998 generated in operating activities during same period in the prior year. The change in working capital is attributed primarily to the increase in activities and expenses related to the RTO.

Cash provided by investing activities was \$5,255,902 during the six months ended June 30, 2018, compared to \$nil used in investing activities during the same period in the prior year. The change in working capital is attributed primarily to the RTO.

Cash provided by financing activities of \$1,250,000 for the six months ended June 30, 2018 was primarily due to receipt of funds from the conversion of warrants under the convertible debenture units.

The continued operation of the Company in the future may depend on the Company's ability to obtain additional financings. In the past, the Company has relied on shareholder loans and cash generated from operations to meet its cash requirements. Future developments, in excess of funds on hand, will depend on the Company's ability to obtain financing through equity financing, shareholder loans or other means. There can be no assurances that the Company will be successful in obtaining any such financing; failure to obtain such additional financing could have a material adverse effect on the Company's operations.

OUTLOOK

The Company believes that Bitcoin, and cryptocurrencies in general, will continue to increase their penetration of the mainstream market over the coming years. To deliver on the Company's mission of bringing crypto to the masses, and to help enable this ongoing penetration, the Company will continue to develop software solutions targeted at 3 main markets:

1. Distributed Retail,
2. Over-The-Counter ("OTC") and
3. Financial Brokerages and Wealth Management companies.

The original Netcoins software enables retail businesses (convenience stores, gas stations, coffee shops etc.) and mobile agents to sell Bitcoin to their customers directly. The Company will continue to expand the number of retail locations using our software, both directly and via white label, in Canada and internationally. To do this, over the course of the next year, the Company will increase its digital marketing efforts to attract more inbound retailers and to develop the Company's brand as a reliable provider of crypto software and a frictionless source of crypto sales. The

GAR LIMITED (D/B/A NETCOINS)
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2018 AND 2017

Company will also continue to work with voucher providers, like Flexepin, to open international retail locations as quickly as possible.

The Company is also seeing increased demand for our Private Brokerage (Over-The-Counter services from high net worth investors, institutional investors, and crypto mining companies. To this end, Netcoins will continue to expand its offering of white glove brokerage services to these buyers and sellers of larger (\$25k+ per transaction) quantities of cryptocurrency. We will also leverage our sales team to proactively sell these services to crypto miners and institutional investors globally.

Finally, though not yet an active market, traditional financial brokerage houses (and wealth managers) desire the ability to offer crypto investing to their clients directly. Working with IIROC in Canada first, the Company will continue to pursue regulatory approval and custodial coin partners to enable this potentially very lucrative market. Once opened, the Company can leverage our OTC offering for brokerage house transactions and performing a revenue share on trading fees with the origination brokerage house.

RELATED PARTY TRANSACTIONS

The Company's related parties include key management personnel and companies related by way of directors or shareholders in common.

Key Management Personnel Compensation

During the three and six months ended June 30, 2018 and 2017, the Company paid and/or accrued the following fees to management personnel and directors:

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017
Management	\$ 82,288	\$ -	\$ 162,757	\$ -
Directors	125,000	-	190,000	-
	\$ 207,288	\$ -	\$ 352,757	\$ -

During the three and six months ended June 30, 2018, the Company also had share-based payments made to management and directors of \$937,485 (2017 - \$nil) and \$2,066,969 (2017 - \$nil) respectively.

Key management includes the Company's Board of Directors and members of senior management.

During the three and six months ended June 30, 2018, the Company purchased \$117,076 (2017 - \$nil) worth of bitcoins from a company with common management.

Due to Related Parties

As at June 30, 2018 and December 31, 2017, the Company has the follow amounts due to related parties:

	June 30, 2018	December 31, 2017
Accounts payable and accrued liabilities	\$ 4,594	\$ -
Due to shareholders	-	138,700
	\$ 4,594	\$ 138,700

OFF BALANCE SHEET ARRANGEMENTS

The Company currently has no off-balance sheet arrangements.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial assets and liabilities are classified in the fair value hierarchy according to the lowest level of input that is significant to the fair value measurement. Assessment of the significance of a particular input to the fair value measurement requires judgement and may affect placement within the fair value hierarchy levels.

The hierarchy is as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 fair value measurements are those derived from inputs that are unobservable inputs for the asset or liability.

The fair value of cash approximates their carrying value due to the short-term maturity. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the financial statements approximates their fair value due to the demand nature or short-term maturity of these instruments.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Financial Risk Factors

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises from cash held with banks, cash on deposit with fiat to Bitcoin Exchanges and from outstanding trade receivables. The Company minimizes credit risk associated with its cash balance substantially by dealing with financial institutions deemed to be reliable due to their history of operations. Credit risk associated with Bitcoin sale proceeds collected by vendors on behalf of the Company is limited as transactions are usually settled within 1 or 15 days.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations with cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs. The Company is exposed to liquidity risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no interest-bearing debt. The Company's sensitivity to interest rates is minimal.

Foreign Currency Risk

Currency risk is the risk that the value of financial assets and liabilities denominated in currencies, other than the functional currency of the Company, will fluctuate due to changes in foreign currency exchange rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. The Company is exposed to foreign currency risk through cash on deposit with fiat to Bitcoin exchanges which is denominated in United States dollars (USD). As at June 30, 2018, the Company had \$399,933 on deposit with fiat to Bitcoin exchanges. A 5% change in the value of Canadian dollar in comparison to USD would cause a change in net income of approximately \$119,766. During the three and six months ended June 30, 2018, the Company recorded a foreign exchange loss of \$29,756 and \$25,591 respectively.

BUSINESS RISKS AND UNCERTAINTIES

Additional information on risks and uncertainties relating to Netcoins' business is provided in GAR's Listing Statement dated February 28, 2018, under the heading "Risk Factors".

CONTRACTUAL OBLIGATIONS

The Company presently has no contractual obligations pursuant to which the Company has any payments owing in the next five years.

Additional information on Netcoins' material contracts is provided in GAR's Listing Statement dated February 28, 2018, under the heading "Information Concerning Netcoins – Material Contracts".

CRITICAL ACCOUNTING ESTIMATES

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes may differ significantly from these estimates.

The following discusses the most significant accounting judgements, estimates and assumptions that the Company has made in the preparation of its financial statements.

Areas of judgment:

- Revenue recognition

In recognizing revenue, the Company determines if it acts as a principal in executing transactions with third parties, judgment is required to determine if the Company is acting as the principal or an agent in order to determine if revenue should be recognized on a gross or net basis for bitcoin sales and purchases.

- Going concern

Determining if the Company has the ability to continue as a going concern is dependent on its ability to achieve profitable operations. Certain judgments are made when determining if the Company will be able to continue as a going concern.

- Deferred tax assets

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probably that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Management applies judgment in determining the likelihood of future taxable profits.

- Determination of fair values

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

- Provision for doubtful account

The allowance for doubtful accounts and past due receivables are reviewed by management on a monthly basis. Trade and other receivables are considered for impairment on a case-by-case basis when they are past due or when objective evidence is received that a customer will default. Management makes these assessments after taking into consideration the customer's payment history, their credit worthiness and the current economic environment in which the customer operates to assess impairment.

- Tax assets and liabilities

Provisions for income taxes are made using the best estimate of the amount expected to be paid or recovered based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these

provisions at the end of each reporting period. However, it is possible that at some future date an additional liability could result from audits by tax authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made. Deferred tax assets and liabilities contain estimates about the nature and timing of future permanent and temporary differences as well as the future tax rates that will apply to those differences. Changes in tax laws and rate as well as changes to the expected timing of reversals may have a significant impact on the amounts recorded for deferred tax assets and liabilities. Management closely monitors current and potential changes to tax law and bases its estimates on the best available information at each reporting date.

SIGNIFICANT ACCOUNTING POLICIES

The Company's significant accounting policies are summarized in Note 4 to the audited financial statements for the years ended December 31, 2017 and 2016.

ACCOUNTING STANDARDS ISSUED AND APPLICABLE TO THE COMPANY

IFRS 9 Financial Instruments. In July 2014, the IASB completed the final elements of IFRS 9 "Financial Instruments." The standard supersedes earlier versions of IFRS 9 and completes the IASB's project to replace IAS 39 "Financial Instruments: Recognition and Measurement." IFRS 9, as amended, includes a principle-based approach for classification and measurement of financial assets, a single 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The standard will come into effect for annual periods beginning on or after January 1, 2018 with earlier adoption permitted. IFRS 9 will be applied by the Company on January 1, 2018 and the Company has evaluated the effect on its financial statements and no significant impact is anticipated.

IFRS 15 Revenue from Contracts with Customers. In May 2014, the IASB issued IFRS 15 "Revenue from Contracts with Customers" which replaces IAS 18 "Revenue," IAS 11 "Construction Contracts," and related interpretations. The standard is required to be adopted for fiscal years beginning on or after January 1, 2018, with earlier adoption permitted. IFRS 15 will be applied by the Company on January 1, 2018 and the Company has evaluated the effect on its financial statements and no significant impact is anticipated.

IFRS 16 Leases. In January 2016, the IASB issued IFRS 16 "Leases", which replaces IAS 17 "Leases". For lessees applying IFRS 16, a single recognition and measurement model for leases would apply, with required recognition of assets and liabilities for most leases. The standard will come into effect for annual periods beginning on or after January 1, 2019, with earlier adoption.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This MD&A contains certain statements that may be deemed “forward-looking statements”, including statements regarding developments in the Company’s operations in future periods, adequacy of financial resources and future plans and objectives of the Company. All statements in this document, other than statements of historical fact, which address events or developments that the Company expects to occur, are forward looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words “expects”, “plans”, “anticipates”, “believes”, “intends”, “estimates”, “projects”, “potential”, “interprets” and similar expressions, or events or conditions that “will”, “would”, “may”, “could” or “should” occur. Forward-looking statements in this document include statements regarding future expenditures on research and development and operating expenses, liquidity and effects of accounting policy changes.

Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include market prices, exploration success, continued availability of capital and financing, inability to obtain required regulatory or governmental approvals and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Readers are cautioned not to place undue reliance on this forward-looking information.

Forward-looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made. The Company undertakes no obligation to update these forward-looking statements in the event that Management’s beliefs, estimates, opinions or other factors should change except as required by law.

These statements are based on a number of assumptions including, among others, assumptions regarding general business and economic conditions, the timing of the receipt of regulatory and governmental approvals for the transactions described herein, the ability of the Company and other relevant parties to satisfy stock exchange and other regulatory requirements in a timely manner, the availability of financing for the Company’s proposed transactions and on reasonable terms and the ability of third-party service providers to deliver services in a timely manner. The foregoing list of assumptions is not exhaustive. Events or circumstances could cause results to differ materially.

There can be no assurance that such information will prove to be accurate, and readers are cautioned not to place undue reliance on this forward-looking information.
