

Netcoins to List Peerplays (PPY) Token

VANCOUVER, British Columbia, Aug. 31, 2018 -- **Netcoins Holdings Inc.** ("**NETC**" or the "**Company**") (**CSE: NETC**) (**OTC: GARLF**) is pleased to announce that it has agreed to list the Peerplays (PPY) Token, available for purchase this Fall, via our OTC Private Brokerage Services business and our 21000+ retail locations in Australia, Europe and Canada. PPY is our seventh in a series of alt tokens, which includes recently listed PARETO, KMD, QUINT, NIO, DBET and ELA to be listed by Netcoins.

Peerplays is a decentralized, provably fair global gaming platform built on the most advanced blockchain technology available today, bringing a new paradigm of fairness, speed, transparency, and security to the global gaming industry at significantly reduced costs. The launch of the first DApp (**D**ecentralized **A**pplication) on the blockchain was announced in June through BookiePro.fun; a decentralized sports betting exchange that leverages play tokens and was the first public showcase of provably fair sports betting. Additional DApps are being developed by community members around the world ongoing.

"Peerplays has always been something of a hidden gem in the crypto world," says PBSA President and Peerplays co-founder Jonathan Baha'i. "The PPY token allows holders to participate in the Decentralized Autonomous Cooperative (DAC) and share in revenue from every DApp running on the Peerplays blockchain. There's nothing else like it anywhere, and we couldn't be happier that more of the world now has easier access to join our tight-knit community through Netcoins."

"We believe that PPY is an important token to utilize the features available in the Peerplays Blockchain and by listing the PPY token, we are giving users a simple way to access provably fair gaming products. We at Netcoins are excited to make the PPY token more accessible to the everyday consumer," said Netcoins CEO Mark Binns.

Netcoins has received \$25,000 USD from the Peerplays community as a listing fee, which is also a recurring annual fee, on our LaaS (Listing as a Service) business model for coin listings.

About the Company

The Company is in the business of developing software to make the purchase and sale of cryptocurrency easily accessible to the mass consumer and investor through brokerage services. Netcoins enables crypto transactions via 21,000+ retail locations in Canada, Europe and Australia and an Over-The-Counter (OTC) trading desk.
