

## Netcoins Partners with Polymath to Provide Crypto OTC Services for Security Token Issuers

VANCOUVER, British Columbia, Oct. 09, 2018 -- **Netcoins Holdings Inc.** ("**NETC**" or the "**Company**") (**CSE: NETC**) (**OTC: GARLF**) is pleased to announce that it has partnered with industry leading security token platform Polymath, to act as a crypto OTC provider to Polymath platform issuers.

Polymath is a decentralized platform that makes it easy to create compliant security tokens. The platform simplifies the complex technical challenges of creating a security token and aims to bring the multi-trillion dollar financial securities market to the blockchain.

"Netcoins will provide top-quality OTC trading services to Polymath issuers which is huge for us," says Polymath CEO Trevor Koverko. "Many issuers want the ability to convert some or all of the cryptocurrency they raise to fiat, and we are pleased to provide issuers a direct line to Netcoins."

"Netcoins is thrilled to be working with Polymath to leverage our OTC desk for their security token issuers," says Netcoins CEO, Mark Binns. "Polymath is an industry leader and visionary, and we have complimentary services that can benefit both of our organizations while bringing liquidity options to Polymath's clients."

### About the Company

The Company is in the business of developing software to make the purchase and sale of cryptocurrency easily accessible to the mass consumer and investor through brokerage services. Netcoins enables crypto transactions via 21,000+ retail locations in Canada, Europe and Australia and an Over-The-Counter (OTC) trading desk accessible globally.
