

Netcoins Lists Dentacoin

VANCOUVER, British Columbia, Dec. 10, 2018 -- **Netcoins Holdings Inc.** ("**NETC**" or the "**Company**") (**CSE: NETC**) (**OTC: GARLF**) (**WKN: 1WJ**) is pleased to announce that it has listed Dentacoin (DCN), available for purchase immediately, via our OTC Private Brokerage Services business, online buying portal, and our 171,000+ retail locations worldwide. Dentacoin is the 16th in a series of altcoins and tokens to be listed by Netcoins.

Founded in March 2017, Dentacoin is the first blockchain solution for the global dental industry. By means of a common industry-specific cryptocurrency Dentacoin (DCN), dedicated software tools and a preventive Assurance program, it creates a new dental ecosystem that favors all market participants (patients, dentists, manufacturers, suppliers, labs, insurance companies). Blockchain is intelligently applied to:

- Shift the focus towards preventative care and make it affordable by people with limited access to expensive private health insurances - through Dentacoin Assurance;
- Help people improve their poor oral hygiene habits through the dedicated Dentacare app;
- Provide the missing reliable market research data about Patients' opinions and needs through DentaVox surveys;
- Deliver the needed infrastructure for trusted reviews to Dentists written by Patients with verified identities;
- Incentivize beneficial behaviour;
- Ease and all transactions.

Currently, Dentacoin tools are already being used by 1,800 dentists and 80K+ individuals, and the DCN currency is accepted as an official means of payment for dental services and products at 81 locations in 21 countries.
