The net proceeds raised from the Offering will be used for the development of a laboratory scale pilot plant, to improve inventory and infrastructure, and for general working capital purposes of the Company.

USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

Based on the Company’s existing working capital deficit as at January 31, 2025 of \$239,000, the Company’s availability of funds following closing of the Offering is expected to be approximately \$2,586,000 assuming the full amount of the Offering is raised.

The above noted allocation represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from this Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan and financing objectives.

The Company had positive cash flow from operating activities and reported a net loss for the three-month period ended November 30, 2024. The Company anticipates that negative operating cash flows may result as long as it remains in the growth stage, and to the extent that the Company has negative cash flows from operating activities in future periods, the net proceeds from this Offering may be used to fund such negative cash flow from operating activities in future periods.

The Company's most recent audited and interim financial statements included a going concern note. As the Company is in the growth stage, the Company's ability to continue as a going concern is dependent upon its ability to generate future cash flows and/or obtain additional financing to generate recurring positive free cash flow from operations. The Offering is intended to permit the Company to continue its growth objectives to achieve its strategic plan and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

How have we used the other funds we have raised in the past 12 months?

The Company has not raised funds from any financings in the past 12 months.
