

MADISON METALS INC.
FORM 51-102F1
MANAGEMENT’S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For the Three Months Ended February 29, 2024

The following discussion and analysis of financial results should be read in conjunction with the unaudited condensed consolidated interim financial statements of Madison Metals Inc. (the “Company” or “Madison Metals”) for the three months ended February 29, 2024 as well as the audited financial statements for the years ended November 30, 2023 and 2022, including the notes thereto. The financial data contained in this discussion and analysis is presented in accordance with International Financial Reporting Standards (“IFRS”). The reporting currency is the Canadian dollar.

The following discussion and analysis provides information that management believes is relevant to the assessment and understanding of the Company’s results of operations and financial conditions. Certain statements herein contain forward-looking statements relating to the operations or to the environment in which we operate, which are based on our operations, forecasts, and projections. Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions, and actual results may differ materially from those anticipated in these forward-looking statements. The risks include those outlined under the “Risk Factors” section of this MD&A and elsewhere in the Company’s public disclosure documents.

This Management Discussion and Analysis is dated April 19, 2024.

Kenora Uranium Project

On November 17, 2021, the Company entered into a share exchange agreement (the “Share Exchange Agreement”) with 2160083 Ontario Inc. (“216”) to acquire all of the issued and outstanding common shares of 216 in consideration for 8,000,000 common shares in the capital of the Company (the “Consideration Shares”). 216 holds a 100% interest in Richards Lake Uranium Project located around Kenora, Ontario.

Pursuant to the terms of the Share Exchange Agreement, the Consideration Shares will be subject to escrow and released as follows:

- 25% on the date that is 4 months from the closing date;
- 25% on the date that is 12 months from the closing date;
- 25% on the date that is 18 months from the closing date; and
- 25% on the date that is 24 months from the closing date.

On December 31, 2021, the Company completed the Share Exchange Agreement.

In January 2022, the Company issued 50,000 shares (valued at \$12,500) to acquire additional claims.

On May 16, 2023, the Company signed a binding option agreement with Great Northern Energy Metals Inc. (“GNEM”), a private British Columbia-registered company. Under the terms of the agreement, GNEM will pay the Company \$50,000 on signing (received) and incur \$900,000 in exploration over three years (\$300,000 per year) to earn a 60% interest. Upon completing the earn-in, Madison will retain a 40% free-carry interest in the project.

During the year ended November 30, 2023, the Company assessed the property for impairment based on the estimated fair value less costs of disposal based on the option agreement with GNEM and recorded an impairment loss of \$1,800,658.

Rossing Project

On January 17, 2022, the Company entered into a binding letter of intent with Giraffe Energy Investments Close Corporation and Otjiwa Mining and Prospecting Close Corporation (the “Vendors”) to acquire 85% interest in 3 separate concessions (EPL-7011, EPL-8115, and EPL-8531) and named the Rossing North Uranium Project located in the Erongo Province, Namibia, Africa. For consideration to acquire the concession, the Company will pay US\$150,000 cash and issue 1,600,000 common shares (completed, valued at \$698,667) of the Company to the Vendors. In June 2022, the Namibian Ministry of Mines and Energy approved the transfer of EPL-7011 to Pennywort. The transfer of EPL-8115 and EPL-8531 was completed in June 2023.

In November 2022, the Company entered into a binding agreement with Khan Mine (Pty) Ltd. (“Khan”) And Hasine Investments CC (the “Vendors”) to acquire a 90% direct interest in Mining License 86A (“ML86A”) and Exclusive Prospecting License 8905 (“EPL-8905”) with 10% free carry in favour of the Vendors. As at February 29, 2024, the Company paid \$548,451 (US\$405,000) (as at November 30, 2023 - \$501,381 (US\$370,000)) to extend the closing date of the agreement.

In December 2023, the agreement was amended. Pursuant to the terms of the amended agreement,

- the Company is to pay the Vendors US\$35,000 per month; and
- the Company will be entitled to 1% direct interest in Khan for each US\$37,000, which payments must be completed on or before December 31, 2024. As at February 29, 2024, the Company owns 10% direct interest in Khan.

The Company is currently waiting to obtain the Environmental Clearance Certificate (“ECC”) for EPL-8905 from Namibia’s Ministry of Mines and Energy.

RECENT CORPORATE DEVELOPMENTS

On December 11, 2023, the Company closed a non-brokered private placement and issued 723,421 units at \$0.40 per unit for gross proceeds of \$289,369. Each unit consisted of one common share and one-half common share purchase warrant. Each warrant entitles its holder to purchase one common share for a period of 12 months from the grant date at an exercise price of \$0.60 per common share. The Company also issued 526,579 units to settle \$210,631 of debt.

On December 11, 2023, the Company issued 100,000 stock options to a consultant. The stock options have an exercise price of \$0.49 per share, expire in 5 years, and vested immediately.

On December 15, 2023, the Company's shares began trading on the Frankfurt Stock Exchange under the trading symbol "4EF0".

RESULTS OF OPERATIONS

Three Months Ended February 29, 2024 vs. Three Months Ended February 28, 2023

For the three months ended February 29, 2024, the Company reported a net loss of \$350,380 (2023 – loss of \$784,410). The change in net loss was mainly due to the following:

- Consulting fees decreased to \$120,000 (2023 - \$171,000) due to less consulting fees paid to external consultants.
- Investor relations decreased to \$123,097 (2023 - \$258,079) due to decreased marketing activities.
- Share-based payments decreased to \$42,860 (2023 - \$226,373). Share-based payments will vary based on the stock options’ fair values and their vesting conditions.

LIQUIDITY AND CAPITAL RESOURCES

The Company’s approach to managing its liquidity is to ensure that it has sufficient resources to meet its liabilities as they come due and have sufficient working capital to fund operations for the ensuing fiscal year.

As at February 29, 2024, the Company had \$325,825 in current assets (November 30, 2023 - \$298,303) and current liabilities of \$586,060 (November 30, 2023 - \$573,123) for a working capital deficit of

\$260,235 compared to a working capital deficit of \$274,820 at November 30, 2023. As at the date of this report, the Company does not have adequate cash and working capital to fund its operations and planned capital expenditures for the next 12 months and is reliant upon future equity financing and/or other transactions to fund its operations and advance the development of its business. See “Subsequent Events” section.

OFF-BALANCE SHEET ARRANGEMENTS

To the best of Management’s knowledge, there are no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company.

OTHER TRANSACTIONS

Mining Licence 121 (“ML121”)

On September 12, 2022, the Company entered into an agreement to acquire a 24% interest in ML121 through the acquisition of 24 shares of Namibia Nuclear Corporation (Proprietary) Limited (“Namibia Nuclear”) which equals a twenty-four percent (24%) ownership interest in Namibia Nuclear, by way

of a share purchase agreement (the “SPA”). The consideration paid to the vendors will be US\$2,000,000 and 2,000,000 common shares in the capital of the Company to be paid and issued on the closing date, subject to certain conditions precedent contained in the SPA. ML121 is located in the Erongo Uranium Province of Namibia, Africa. The agreement has not been finalized as at February 29, 2024. The Company is currently waiting to obtain the ECC for ML121 from Namibia’s Ministry of Mines and Energy.

Uranium Forward Sales Agreement

On May 30, 2023, the Company signed a multi-year uranium forward sales agreement with Sanmiguel Capital Investment (Bahamas) Ltd (“Sanmiguel”). The 10-year supply agreement provides for the commitment and delivery of the first 20 million pounds of U₃O₈ from Madison's ground resources. Sanmiguel will facilitate market trades at a price to be determined at the time of transaction and within the context of the market. The sales floor for transactions will be set at US\$45 per pound of U₃O₈. 50% of the proceeds will be credited to the Company and the Company will provide quarterly updates on sales figures. In connection with the forward sales agreement, the Company issued 2,000,000 common shares to an arm's length party who facilitated the transaction. As at February 29, 2024, the Company received US\$145,000 for delivery of approximately 2,130 pounds of U₃O₈, which is included as a deferred revenue on the consolidated statements of financial position.

MATERIAL ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

All material accounting policies and critical accounting estimates are fully disclosed in Note 2 of the financial statements for the years ended November 30, 2023 and 2022.

EVALUATION OF DISCLOSURE CONTROLS AND POLICIES

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the Company in reports filed with or submitted to the various securities regulators is recorded, processed, summarized and reported within the time periods specified. This information is gathered and reported to the Company’s management, which includes the CEO and CFO, so that timely decisions can be made regarding disclosure. The Company’s management, under the

supervision of, and with the participation of, the CEO and CFO has designed the Company's disclosure controls and procedures.

As at February 29, 2024, the CEO and CFO evaluated the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as at February 29, 2024.

EVALUATION OF INTERNAL CONTROLS OVER FINANCIAL REPORTING

Designing, establishing and maintaining adequate internal control over financial reporting is the responsibility of the Company's management. Internal control over financial reporting is a process designed by, or under the supervision of management, and affected by the Board of Directors, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements in accordance with IFRS.

These controls include policies and procedures that: pertain to the maintenance of records that, in reasonable detail, accurately reflect transactions pertaining to its assets, provide reasonable assurance that all transactions are recorded to permit the preparation of its financial statements in accordance with IFRS, and that expenditures are being made only in accordance with authorizations of management of the Company, and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on its financial statements.

Management is responsible for establishing and maintaining internal control over financial reporting and has designed and implemented such controls to ensure that the required objectives of these internal controls have been met. The management of the Company applied its judgment in evaluating the cost-benefit relationship to controls and procedures. The result of which was, because of the inherent limitations in all control systems, that no evaluation of the controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

As at February 29, 2024, the officers of the Company evaluated the design and implementation of the Company's internal control over financial reporting ("ICFR"). Based on this evaluation of the design and operating effectiveness of the Company's ICFR, the CEO and CFO concluded that the Company's ICFR was effective as at February 29, 2024.

RISKS RELATED TO BUSINESS

Madison Metals is in the business of exploring and, if warranted, developing mineral properties, which is a highly speculative endeavour, and Madison Metals' future performance may be affected by events, risks or uncertainties that are outside of Madison Metals' control. Madison Metals' management consider the risks set out below to be the most significant to potential investors of Madison Metals, but not all risks associated with an investment in securities of Madison Metals. If any of these risks materialize into actual events or circumstances or other possible additional risks and uncertainties of which the directors are currently unaware or which they consider not be material in relation to Madison Metals' business, actually occur, Madison Metals' assets, liabilities, financial condition, results of operations (including future results of operations), business and business prospects, are likely to be materially and adversely affected. In such circumstances, the price of Madison Metals' securities could decline and investors may lose all or part of their investment.

Limited Operating History

Madison Metals is still in an early stage of development. Madison Metals is engaged in the business of exploring and, if warranted, developing mineral properties in the hope of locating economic deposits of minerals. Madison Metals' mineral interests are in the exploration stage and do not have mineral reserves. Madison Metals has no history of earnings. There is no guarantee that economic quantities of mineral reserves will be discovered on Madison Metals' property.

Management

The success of Madison Metals is currently dependant on the performance of its directors and officers. The loss of the services of any of these persons could have a materially adverse effect on Madison Metals' business and prospects. There is no assurance that Madison Metals can maintain the services of its directors, officers or other qualified personnel required to operate its business. At this date, there are no indications that any change in management cannot be maintained at the current structure.

Conflicts of Interest

Madison Metals' directors, officers and other members of management serve as directors, officers, promoters and members of management of other companies involved in the acquisition, exploration and development of mineral resource properties and, therefore, it is possible that a conflict may arise between their duties as a director, officer, promoter or member of Madison Metals' management team and their duties as a director, officer, promoter or member of management of such other companies. The Madison Metals' directors and officers are aware of the laws governing accountability of directors and officers for corporate opportunity and the requirement of directors to disclose conflicts of interest. Madison Metals will rely upon these laws in respect of any directors' and officers' conflicts of interest or in respect of any breaches of duty by any of its directors or officers.

Additional Funding Requirements

From time to time, Madison Metals will require additional financing in order to carry out its acquisition, exploration and development activities. Failure to obtain such financing on a timely basis could cause the Madison Metals to forfeit its interest in certain properties, miss certain acquisition opportunities and reduce or terminate its operations. If Madison Metals' cash flow from operations is not sufficient to satisfy its capital or resource expenditure requirements, there can be no assurance that additional debt or equity financing will be available to meet these requirements or be available on favourable terms.

Price Volatility and Lack of Active Market

In recent years, the securities markets in Canada and elsewhere have experienced a high level of price and volume volatility, and the market prices of securities of many public companies have experienced significant fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. Any quoted market for Madison Metals' securities may be subject to such market trends and that the value of such securities may be affected accordingly.

Russia-Ukraine Conflict

The military conflict between Russia and Ukraine may increase the likelihood of supply interruptions and political instability worldwide. Such disruptions could make it more difficult for the Company to source necessary materials and service providers at favorable pricing or at all. While it is difficult to estimate the impact of current or future European sanctions on the Company's business and financial position, these sanctions could adversely impact the Company's costs, operations and/or development activities in future periods.
